Gopher Peavey Alumni News
1961
annual publication of the FORESTRY STUDENTS
University of Minnesota
St. Paul
Foreword

It is with great pleasure that we present this issue to you.

"Student life" has been the underlying theme of this edition. We have made an attempt to portray student life as not only books and lectures, but including a host of activities. We hope it will bring back the many recollections it represents.

Many thanks to the Alumni, Faculty, Advertisers, and Students who have made this book possible . . . we trust you will enjoy it.

THE PEAWEY STAFF
To Parker O. Anderson, class of 1921, in recognition of his many and varied contributions to Minnesota Forestry, his devotion to the students, and his outstanding leadership that has helped promote forestry; the 1961 Gopher Peavey—Alumni News is dedicated with genuine admiration and affection.
THE STAFF

FRANK H. KAUFERT
Director
B.S. Minnesota, 1928
M.S. Minnesota, 1930
University of Halle, Germany, 1930-31
Ph.D. Minnesota, 1935
Conservation of Natural Resources
Forests Products
Senior Seminar
Wood Preservation

RANDOLPH M. BROWN
Professor
B.S. Cornell, 1921
M.F. Cornell, 1924
Menuration, Statistics
Director Itasca Session

J. H. ALLISON
Professor Emeritus
Ph.B. Yale University, 1905
M.F. Yale Forestry School, 1906
Retired 1952

LOUIS W. REES
Professor
B.S. New York State College of Forestry, 1929
Ph.D. New York State College of Forestry, 1929

SCOTT S. PAULEY
Professor
B.S. Minnesota, 1939
M.S. Michigan, 1942
Ph.D. Harvard, 1947
Tree Genetics

HENRY L. HANSEN
Professor
B.S. Minnesota, 1933
Ph.D. Minnesota, 1946
Forest Ecology, Silviculture, Advanced Silviculture, Itasca Session, Seeding and Planting, Principles of Silvics
RALPH H. HOSSFELD  
Professor  
B.S. Idaho, 1937  
M.S. Idaho, 1939  
Ph.D. Minnesota, 1948  

CHERNG-JIANN SHIUE  
Associate Professor  
B.S. Fukien College, 1944  
M.F. Minnesota, 1955  
Ph.D. Minnesota, 1957  
Statistical Methods in Forestry Research, Introduction to Research, Woody Tissue Microtechnique

DONALD P. DUNCAN  
Professor  
B.S.F. Michigan, 1937  
M.S. Michigan, 1939  
Ph.D. Minnesota, 1931  
Introduction to Research, Recreation, Watershed Management

MERLE MEYER  
Associate Professor  
B.S. Minnesota, 1949  
M.F. Minnesota, 1950  
Ph.D. Minnesota, 1956  
Photogrammetry, Forest Inventory, Watershed-Range Management

FRANK IRVING  
Assistant Professor  
B.S. Rutgers, 1948  
B.S. Minnesota, 1949  
M.F. Minnesota, 1950  
Ph.D. Minnesota, 1960  
Protection, Policy, Management

EDWARD J. SUCOFF  
Assistant Professor  
B.S. Michigan, 1955  
M.S. Michigan, 1956  
Ph.D. Maryland, 1960  
Forest Physiology

MERLE MEYER  
Associate Professor  
B.S. Minnesota, 1949  
M.F. Minnesota, 1950  
Ph.D. Minnesota, 1956  
Photogrammetry, Forest Inventory, Watershed-Range Management

BRUCE BROWN  
Assistant Professor  
B.S. Minnesota, 1949  
M.F. Minnesota, 1953  
Ph.D. Minnesota, 1958  
Acting Supt. Cloquet Forest Research Center, Director Cloquet Spring Session Silviculture, Forest Policy, Forest Management & Utilization

RICHARD SKOK  
Assistant Professor  
B.S. Minnesota, 1949  
M.F. Minnesota, 1954  
Ph.D. Minnesota, 1960  
Forest Economy, Production and Marketing, Policy, Economics
KENNETH WINSNESS  
Assistant Professor  
B.S. Minnesota, 1949  
M.F. Minnesota, 1953  
Freshman and Transfer Student Adviser  
Senior Seminar, Alumni Secretary

AL HALLGREN  
Instructor  
B.S. Minnesota, 1949

Associate Professor
B.S. Minnesota, 1943
M.S. Minnesota, 1949
Ph.D. Minnesota, 1952
Forest Pathology
The past year has been a particularly active one from many standpoints. Such matters as location of the School of Forestry, location of the Forest Products Building, completion of the Forest Products Building, Minnesota Forestry Program, staff participation in many outside activities, staff problems, etc., seem to take more time than actual teaching and research—which should be and are our primary responsibility. It has been a year of progress and development in spite of many little frustrations and a few major roadblocks.

During the past year, the School staff has done considerable work with the Legislative Interim Commission on Forest Resources and Forest Land Ownership. J. H. Allison served as secretary of this Commission and did a particularly outstanding job of preparing the final report. The work of this Commission resulted in a number of recommendations which will greatly benefit forestry in Minnesota. The Commission made a very strong recommendation on the need for completion of our Forest Products Building. The completion item for this building ($250,000) is in a good position for approval, if any state building is done during the coming year. The item is included in the University building budget request, it is one of the few building items on the St. Paul Campus recommended by the Legislative Interim Committee on State Buildings, it was strongly recommended by the Legislative Interim Commission on Forest Resources and Forest Land Ownership, and it has received strong endorsement and support by the Minnesota Forestry Alumni Association, the forest products industries and many other groups.

Mr. Jerald Mortensen, President of the Minnesota Forestry Alumni Association and Howard Olson, past MFAA President, appeared before the Legislative Interim Commission on Forest Resources and strongly supported the recommendation that the forest products building completion item be made available. Jerry and Howard also strongly supported keeping the School on the St. Paul Campus and strengthening it at this location rather than considering shifting it to the Duluth location.

An important coming event which has kept us particularly busy in recent months and which will involve us even further, is the International Meeting of the Society of American Foresters and Canadian Institute of Forestry, to be held at the Leamington Hotel in Minneapolis, October 8-11, 1961. This promises to be a large and interesting meeting and we encourage all Minnesota School of Forestry alumni to attend. Many School staff members and alumni are involved as committee members in planning arrangements for this meeting. It is planned to hold a Minnesota forestry
alumni association dinner or luncheon during this International Meeting and a committee is being established to work out arrangements and a program for this gathering. We hope to make this the largest gathering of Minnesota forestry alumni since the 50th Anniversary Celebration in 1953.

Staff problems appear to be ever with us. Dr. Walter Wallin resigned on July 1, 1960 to accept a two and one-half year assignment with the International Cooperative Administration in Pakistan. Walt is working at the Forest Products Laboratory at Chitagong and is enjoying his assignment. We made out during the past year with temporary replacements for Walt but plan to fill this position during the coming year, if possible. Although the Seoul National University Cooperative Project, which Dr. A. E. Schneider heads in Korea, will terminate on July 30, 1961, there is some question whether he will return to the School. The staff is presently giving attention to these openings and we hope that we can fill them with outstanding individuals. We were very fortunate last fall to have Dr. Edward Sucoff, who has his B.S. and M.S. degrees from the University of Michigan and his Ph.D. in plant physiology from the University of Maryland, join us as an Assistant Professor. Ed will work in the field of plant physiology, primarily on research and graduate training. We also were fortunate that Donald Butler was able to join our staff for a period of about six months and handle some of the work formerly taken care of by Wallin. Don left us in February to become Southern Sales Representative for the Canton Lumber Company. We have requested a number of new staff members for the School of Forestry, two to be located at the Cloquet Forest Research Center, four to help staff the Forest Products Laboratory, and two additional staff members for the Forest Resources Management program on the St. Paul Campus. Although staffing has been and will probably continue to be a perennial problem, the School is extremely fortunate in the quality of its staff and in the availability of temporary replacements for staff members planning leaves. In our long term staff development program we are giving special consideration to bringing in individuals with degrees from other institutions and with varied backgrounds of training and experience.

Both undergraduate and graduate enrollment for 1960-61 are similar to that for the previous year. At the start of the fall quarter we had 320 undergraduate and 40 graduate students. A recent analysis has shown that the School of Forestry staff carries one of the heaviest student loads of any group on the St. Paul Campus. If the student-staff ratios proposed by the Administration, 12.7 to 1 for undergraduates and 6.3 to 1 for graduates is applied, the School would need 12 additional staff members. This is approximately the number of additional staff members which has been recommended for addition to our staff to handle our growing research, undergraduate and graduate training programs.

We had 65 Bachelor of Science graduates last year, all of whom have found employment in some field of forestry or in forest products. This does not mean that the job situation is particularly outstanding in all areas and agencies. Industry openings in forest management have been rather scarce but the U.S. Forest Service and Bureau of Land Management have had more openings than usual. Sales opportunities and forest products production and research positions have been somewhat more abundant than in former years.

An increasing number of School graduates are going on for graduate study annually. This situation is stimulated by the improved salaries being paid those holding graduate degrees and by the abundance of scholarships, fellowships and research assistantships available. A recent check indicated that the U.S. forestry schools alone are this year offering more than 400 of such financial aids. We devote most of one large bulletin board to notices of the availability of these aids.

The Forestry Club has had a particularly outstanding and successful year. Its Christmas Tree Project was again a very profitable, as well as educational, effort. Foresters' Day was without question one of the best ever staged. Even President O. Meredith Wilson attended and participated (see pictures in other parts of this publication). The Gopher-Peavey Alumni News seems to get better annually and is one of the outstanding U.S. forestry school publications. The Forestry Club has had many fine programs during the year and is recognized on the Campus as one of the most active student groups. The Lignum Club has been active even though enrollment in the forest products curricula has decreased.

I know that all alumni will be happy to learn that former School Director Dr. Henry Schmitz, spent several days with us last February, representing the University of Washington at the inaugural of President O. M. Wilson. Henry and Melba have not changed much from the days when they were at Minnesota and it was as much fun as ever to have them with us. They send greetings to all alumni.

We are looking forward to a busy and active year. It is impossible in these reports to more than sketchily cover the activities, accomplishments and problems of the School. However, we hope that this summary and the elaboration on some of the items covered, given in other parts of the Gopher Peavey-Alumni News, will help keep you informed of what is going on. We were happy to be able to send all alumni copies of our 50th Anniversary brochure on the Cloquet Forest Research Center.

With greetings to all of you and with our invitation to visit the School whenever you are in this area. Also, don't forget the October 8-11, 1961 SAF-CIF Meeting at the Leamington Hotel in Minneapolis. Plan to attend and participate in the MFCAA luncheon or dinner.
Awards and Scholarships

Professor R. M. Brown, Chairman
School of Forestry Scholarship Committee

UNDERGRADUATE STUDENT AWARDS AND SCHOLARSHIPS

Oscar L. Mather Award ....................... Richard L. Hilliker—Book.

Samuel B. Green Scholarship Medal .......... George C. Becker.

Chapman Foundation Scholarship for:
    Entering Freshman .......................... Alan R. Ek—$300, Paul P. Ochocki—$300, Walter J. Tomascak—$300, Robert W. Wentz—$300.

Hoo-Hoo Immortals Memorial Scholarship ........ Wendell G. Beardsley—$200.

E. G. Cheyney ................................. Alvin A. Alm—$75, Cameron E. Freweda—$75, Richard R. Flannely—$75.

Villanume Box and Lumber Company Scholarship (in wood working) ..................... Tomas A. Weber—$100.

Chicago & N.W.R.R. 4H Scholarship ......... Ronald D. Lindmark—$300.

Alpha Zeta Traveling Scholarship (Fifth World Forestry Congress) ................. Ronald D. Lindmark—$75.

Johnson Foundation Scholarship ............ Robert A. Megraw—$150.

Xi Sigma Pi Freshman Honor Roll ............. Douglas W. Larson

Sears Roebuck Scholarship ................... Jerome T. Thayer—$500.

Henry L. Williams Memorial Scholarship .. William Kauth—$480.

GRADUATE STUDENT FELLOWSHIPS AND ASSISTANT FELLOWSHIPS

Minnesota and Ontario Paper Company .......... Richard C. Trochil

Charles K. Blandin Foundation and Resources for the Future Inc ................. Robert L. Sajdak, Lawson Winton

Northwest Paper Company Fellowship ........ Myron Graafstrom

Wood Conversion ............................. George M. Blake

Resources for the Future .................... Knud Clausen, John Kraus
Classes
ALVIN ARTHUR ALM, Albert Lea, Minnesota
Forest Management • Forestry Club, 60-61; I.M. Basketball, '58;
LYNN E. ANDREWS, Garrett, Indiana
Forest Management • Forestry Club, 60; Summer Jobs: 1960—Forestry Aid, U.S.F.S. Oregon, Transferred from University of Purdue.

PAUL JOHN AREND, St. Paul, Minnesota

WAYNE ROBERT ASH, Crookston, Minnesota
Forest Management • Forestry Club, 57-58; I-M Sports, 57-61.

JAMES A. BROWN, Austin, Minnesota
Forest Management • Forestry Club, 53-54; 57-61; Treasurer of Forestry Club, 58-59; Birdwatchers Society, 58-60; Christmas Tree Chairman, 57; Foresters Day Program Chairman, 60; Toastmasters, 60-61; Program Chairman of Toastmasters. 61; Honor Case Commission, 60; Homing Pigeon Club, 59-60, Summer Jobs: 1954—TSI, Sitgreaves National Forest, Arizona, 1959—Intermountain Timber Survey, Colo., Wyo., Mont., S. Dak., 1959—Same as 1958.

THOMAS BUITREY, Toronto, Canada
Forest Management • Forestry Club, 59-61; I.M. Baseball, 59-60; I.M. Football, 60-61; Transferred from Austin J.C.

STUART LACHLAN CAMERON III, Mahtomedi, Minnesota
Forest Management • Forestry Club, 57-61; Gopher Peavey, 58-61; Business Mgr. of Gopher Peavey, 60; Student Center Board of Governors, 60-61; Vice-President Student Center Board, 60-61; I-M Sports, 58-61; Summer Jobs: 1959—Forester, N.P. Railroad, Washington.

GILBERT BRUCE CHURCHILL, Austin, Minnesota
Forest Management • Forestry Club, 57-61; Gopher Peavey Staff, 57-58; Christmas Tree Cutting, 57-58; Theta Delta Chi, 57-61; House Manager, 58-59; Stewart 59; Xi Sigma Pi, 60-61; Pershing Rifles, 59-61; Supply Officer (2nd Lt.) 59-60; Gray Firs 60-61; U.S. Army ROTC Rifle Team, 58-61; St. Paul Student Council, 59-61; Treasurer, 60-61; Wesley Foundation, 60-61; Senate Committee on ROTC Affairs, 60-61; Society of American Foresters, 59-61; Summer Jobs: 1958—Laborer, USFS. Nez Perce Nat'l Forest, Idaho, 1959—Lookout-Fireman USFS, Gifford Pinchot Nat'l Forest, Washington, 1960—Teaching Assistant, University of Minnesota, Itasca, Minnesota.

EDWIN WILLIAM CRAMER, Chatfield, Minnesota

JAMES WILLIAM DIECKHAUS, Janesville, Minnesota
Forest Management • Forestry Club, 60-61; Society of American Foresters, 60-61; Delta Upsilon Fraternity, 59-61; Corresponding Secretary 60-61; House Manager 59-60; Steward 60-61.
PAUL VERNON ELLEFSON, St. Paul, Minnesota

WILLIAM CHARLES ERICKSON, Excelsior, Minnesota

CAMERON EMIL FERWEDA, Henning, Minnesota

RICHARD ROBERT FLANNELLY, Minneapolis, Minnesota

JOHN DAVID FREELAND, Osseo, Wisconsin

ROLAND O. GERTJEJANSEN, Fulda, Minnesota
Forest Products Engineering • Xi Sigma Pi; Lignum Club.

DAVID H. GLUBKE, Minneapolis, Minnesota

GERALD R. HAASL, Park Falls, Wisconsin
Forest Management • Forestry Club, 57-61; Gopher Peeve Staff, 58-61; Secretary, 59-61; Forester’s Day Dance Chairman, 61; Minnesota Royal Commitee, 60; Student and Faculty Intermediary Board, 60-61; Winter and Spring Talent Show Committee, 60-61. Summer Jobs: 1959—Trail and Brush Crew, U.S.F.S. Idaho; 1960—Same.

DAVID L. GOSSMAN, Minneapolis, Minnesota
JOHN T. HALL, Minneapolis, Minnesota
Summer Jobs: 1960—Teaching and Research Assistant, School of Forestry.

RICHARD DOEDE HARM, Hollendale, Minnesota
Forest Management • Forestry Club, Summer Jobs: Blister Rust Survey, USFS, Minnesota. Transferred from Utah State 1958 to U.M.D. and from U.M.D. 1959 to U. M. M.

LARRY DONALD HENSON, Hopkins, Minnesota

EDWIN W. HILL, Embarrass, Minnesota

RICHARD L. HILLIKER, Madison, Wisconsin

WARREN ALEXANDER ILLI, St. Paul, Minnesota

GRAHAM R. JOHNSON, St. Paul, Minnesota

IRVIN LEE JOHNSON, Grand Rapids, Minnesota
Forest Management • Forestry Club, 58-60; Gamma Delta, 58-60: Vice President, 58-59; President, 59-60 (St. Paul Campus); Student Center Board of Governors (Forestry Representative), 59: Campus Carnival, 59-60; Forester's Day, Thorne Committee, 59. Summer Jobs: 1959—Student Forester, Blandin Paper Co., Grand Rapids. Minnesota; 1960—Fire Control Aide, Forestry Aid, Kootenai National Forest, Montana, USFS. Transferred from Itasca Junior College, Cloreine, Minn.

KENNETH J. JOHNSON, Minneapolis, Minnesota
Forest Management • Forestry Club, 57-61: Sergeant at Arms, Forestry Club, 58; Forestry Basketball, 58-60; Softball, 59-60; Xi Sigma Pi, 60-61; Secretary Fiscal Agent, Xi Sigma Pi, 60-61. Summer Jobs: 1959—Entomology Research, Dept. of Ent, U of M; 1960—Intermountain Forest Survey, USFS, Colo., Wyo., So. Dako.

ROBERT C. JOHNSON, Minneapolis, Minnesota
ROBERT LEE JOHNSON, Osakis, Minnesota

TERRY CARL JOHNSON, La Crosse, Wisconsin

FRANK MELVIN KIES, Winter, Wisconsin

DONALD R. KOENIGS, Fairmont, Minnesota

DAVID KENT LEWIS, Madison, Wisconsin
Forest Management • Forestry Club, 58-60; Gopher Peavey Staff, 58-60; Editor 59-60; Ag Intermediary Board, 59-60; College Curriculum Committee, 60; Alpha Zeta, 59-60; Pi Sigma Pi, 60. Summer Jobs: Weyerhaeuser Co. Forestry Research Center; 1957—Professional Trainee, Oregon; 1958—Professional Trainee, Washington; Weyerhaeuser Co., Klamath Falls Branch; 1960—Timber Cruiser, transferred from University of Wisconsin, 1958.

RONALD D. LINDMARK, Leonard, Minnesota
Forest Management • Forestry Club, 57-61; Gopher Peavey Staff, 59-61; Business Manager, 59-60; Editor, 61; Alpha Zeta, 59-60; Vice President, 60-61; Xi Sigma Pi, 60-61; Cloquet Corp., Secretary-Treasurer, 61; Society of American Foresters; Rooter Club, 58; Skeewakurs; Chicago & N.W.R.R. 4H Scholarship, 60-61; Alpha Zeta Traveling Scholarship (Fifth World Forestry Congress), 60; Henry Schmitz Scholarship, 61. Summer Jobs: 1959-60—Forestry Aide, Northern Pacific Railway, Washington.

HARVEY A. LINDQUIST, Hinckley, Minnesota
Forest Management • Forestry Club, 60-61; Forester's Softball Team, 59. Transferred from U.M.D., 1958.

GARY WILSON LYTEL, Richfield, Minnesota
Forest Management • Forestry Club, 59-61; Xi Sigma Pi, 60-61; Campus Carnival, 60; Ag Olympics, 59; I.M. Hockey, 58-61; I.M. Baseball, 59. Summer Jobs: 1960—Research Assistant, Fraser Experimental Forest, U.S.F.S., Colorado. Transferred from Dartmouth College, 1958.

KEITH ROY McCAFFERY, Stanley, Wisconsin
Forest Management • Forestry Club, 59-61; Archery Club, 59-61; Vice President of Archery Club, 60-61; L.S.A., 59-61; Campus Crusade For Christ, 59.

ROBERT A. MEGRAW, Rochester, Minnesota
Forest Products Engineering • Forestry Club, 57-60; Forestry Club, Historian, 58-59; Student Council, 59-60; Wesley Foundation, 57-61; Christmas Tree Project, 57-58. Summer Jobs: 1959—Forestry Asst., Great Mountain Forest, Connecticut; 1960—Watershed Research Asst., Rocky Mt. Forestry and Range Experiment Station, Flagstaff, Arizona.
ERNEST JEROME MORREIM, Minneapolis, Minnesota
Forest Management • Summer Jobs: 1960—Forester Aid, USFS
H. C. Hunter Forest, California, Pluma Lake District.

HARRISON L. MORTON, St. Paul, Minnesota
Forest Management • Forestry Club, 57-60; President of Forestry
Club, 58-61; Treasurer of Forestry Club, 59-60; Forestry Club Election
Nominating Committee, 59-60; Forester’s Day Queen Chairman, 60-61;
Xi Sigma Pi, 58-61; Ranger, 59-60; Society of American Foresters, 59-61.
Summer Jobs: 1959—Research Aid, Forest Survey, USFS, Southwest
Colorado; 1960—Disease Research Aid, USFS, Priest River Experiment

JAMES G. NEWSTROM, Robbinsdale, Minnesota
Building Materials Merchandising and Light Construction • Lignum
Club, 54-57, 60-61.

HARRY RICHARD NICKLESS, Lynd, Minnesota
Forest Management • Forestry Club, 56-60; Sergeant-At-Arms,
Forestry Club, 60; M.S.A. Representative, 60; Forester’s Day, 60; I.M.
Football; Summer Jobs: 1957—Crew Chief, Blister Rust Control; Sup-
visor—National Forest, Minnesota; 1958—Project Technician, U.S.F.S.
Santa Fe National Forest, New Mexico; 1959—Cruiser and Compass-

MICHAEL NORMAN, Minneapolis, Minnesota
Forest Management • Forestry Club, 57-60; I.M. Volleyball, 59.
Summer Jobs: 1957—Labor I, Blister Rust, USFS, Idaho; 1958—Labor
II, Blister Rust, USFS, Idaho; 1959—Strawboss, Blister Rust, USFS,
Idaho.

VERNON EDWIN OBERG, Walnut Grove, Minnesota
Forest Management • Forestry Club, 58-60; Summer Jobs: 1958—
General Forestry Aid, U.S.F.S., Oregon; 1959—Same; 1960—Timber

RUSSELL A. OETTEL, Duluth, Minnesota
Forest Management • Forestry Club, 59-61; Summer Jobs: 1960—
Assistant Forester, Marathon Corporation, Michigan, Transferred from
UMD, 1959.

RONALD HOWARD OLSEN, Racine, Wisconsin
Forest Management • Forestry Club, 57-58; I.M. Basketball, 58.

RICHARD MATHEWS PEDERSON, St. Paul, Minnesota
Forest Management • Forestry Club, 58-61; Forester’s Swimming
Team, 59; Student Center Board of Governors (Forestry Represe-
ntative), 58-60; President, 59-60; U. of M. Canoe Club, 57-61; Treasurer,
58-59; Straubwurz, 57-61; Vice President, 58; M.S.A. Assembly Mem-
er and M.S.A. Senator, 59-60; University Y.M.C.A., 58-60. Summer
Jobs: 1959—Forestry Aid [Res.] Forest Survey, Colorado; 1960—For-
estry Aid [Tm], Umpqua National Forest, Oregon, Transferred from

DANIEL R. PETERSON, Viroqua, Wisconsin
Forest Management • Forestry Club, 59-61; Society of American
Foresters, 60-62; I.M. Sports [bowling], 60-61; Chairman of Foresters
Day Dance Committee, 61, Transferred from University of Wisconsin.
KENELM WINDEW RUSSELL, Appleton, Wisconsin

DARRELL CARL SALL, Hickson, North Dakota
Forest Management • Forestry Club, 60-61; Xi Sigma Pi, 60-61; Alpha Zeta, 60-61; Society of American Foresters, 60-61. Summer Jobs: 1960—Forester's Aide, Minnesota Forest Survey, Lake States Forest Experiment Station. Transferred from North Dakota State, Fargo, North Dakota, 1959.

HAROLD EDWARD SCHOPPER, Rib Lake, Wisconsin

ROBERT KENNETH SEEVEL, Daggett, Michigan

JAN RAY SEILLS, Stoughton, Wisconsin
Forest Management • Forestry Club, 59-61. Transferred from U.S. Naval Academy, Annapolis, M.D.; Whitewater State College, Whitewater, Wis.

ROBERT LEIR STIERO, Boulder Junction, Wisconsin

DONALD B. STONE, Lengby, Minnesota

PIETER JOHN VAN ZANDEN, St. Paul, Minnesota

THOMAS A. WEBER, Minneapolis, Minnesota
Forest Products Engineering • Xi Sigma Pi, 60; Lignum Club, 59-60; President, 60; Secretary, 59. Summer Jobs: 1959—Lake States Forest Experiment Station, Wausau, Wisconsin. Transferred from St. Thomas, 1958.

ROBERT M. WIGGINS, Green Bay, Wisconsin
Forest Management • Forestry Club, 58-60; Newman Club, 58-60; Society of American Foresters, 58-60; Alpha Kappa Lambda, 56-58; Dormitory Council, 58-60; Activities Chairman, 58-60; Farmhouse, 59; M.S.A. Representative, 59-60; Delegate to National Student Association, 60; Intramural Sports Council, 59-60; President, 59; Varsity Baseball, 58; Intramural Sports, 58-60; Welcome Week Committee, 59; Minnesota Royal Committee, 59; Summer Jobs: Port Howard Paper Co., Green Bay, Wisconsin, 56-59; 1960—Osmose Wood Preserving Co., Student Trainee. Transferred from Central State, 1958.
Some Seniors Did Not Get Their Pictures Taken.

JOHN T. HAGGENMILLER, St. Paul, Minnesota
Forest Management • Transferred from General College, 1958.

RICHARD A. MADDEN, Tower, Minnesota
Forest Management • Forestry Club, 59-60; Athletic Representative
Forest Club, 60-61; Vice-President Brewer Hall, 60-61; Forestry
Basketball, 59-61; Captain, 60-61; Football, 60; Hockey, 60-61; Soft-
bball, 60. Summer Jobs: 1959—Superior National Forest, M. D. John-
son Tower, Minnesota; 1960—S. T. McKnight Co., Victoria, Minne-
sota; 1960-61—Custer Logging and Lumber Co., Victoria, Minnesota.
Transferred from Virginia J.C. in 1959.

WALTER C. SCHLOER, Minneapolis, Minnesota
Forest Management • Summer Jobs: 1959-60, Fire Guard, USFS,
California.

24
Organizations
Forestry Club

by Harry Morton

Once again the Forestry Club showed that it is one of the best organizations in the University. Perhaps a brief rundown of our many activities will help to demonstrate why this has been so, not only this year, but through the years.

Spring quarter of '60 found many of the "old timers" taking regeneration plots at Cloquet. The Forestry Club however, under the direction of Paul Heckmann, spent its time more advantageously.

Uppermost in the mind of the Forestry Club was the Conclave. An eager crew of 22 represented us and managed to equal last year's fourth place.

Of equal importance was the annual canoe trip on the St. Croix. Good weather and plenty of "refreshments" kept everyone light-hearted, or should I say light-headed.

Finally with the girls of Nu Sigma Pi, we found ourselves on the bandwagon of Campus Carnival. Even though we didn't take first place, it was sure a lot of fun. Thanks again to the N.S.P. girls.

Upon the return of the savages from summer jobs throughout the U.S., fall quarter was touched off by the annual Freshman Bonfire.

On successive meetings, the Club showed summer job slides, had a splash party with Nu Sigma Pi, and was entertained by Mr. Ned Therrian and his slides on his Arctic Circle trip. We finally topped off the quarter with two ultra-modern movies which suggested that in the near future, crosscut saws would be obsolete and replaced by chainsaws.

It was during this quarter that Christmas trees were cut. Special thanks goes to Larry Christian for making this year's project a success.

Winter quarter was the final stand of the administration in power and it was undoubtedly the most fun of the year. Foresters' Day plans were well under way, but more about that in another article. All that is to be mentioned here is a genuine thanks to Paul Heckmann and his henchmen for a terrific job on Foresters' Day.

Ron Lindmark showed slides of the Pacific Northwest and Don Koenigs followed at the next meeting with some slides of Alaska. Clovia gave us a mixer and a giant sized Paul Bunyan after our third meeting.

Our fourth session of the quarter was the best of the year. Dr. Ed Stone, forest tree physiologist from...
California, gave us a slide presentation on Pinus radiata as found in California, New Zealand, Australia and Africa. Not only was his presentation interesting, but highly educational.

During our final meeting of the quarter, the new officers were elected. We adjourned and reconvened for the annual initiation of the new president. I think Jerry Zamber set some kind of a new record—40 minutes. WOW!

In closing I would like to say that the past year has been one of the fullest and most rewarding of my life. I will never forget the wonderful guys that make up the Forestry Club. Thank you all for making this possible.

FORESTRY WIVES CLUB

Seated (left to right): Mrs. Kaufert (advisor), Claudia Harms, Jeanne Oettel, Mary Lytle, Martha Alm, Mary Seemel, Peggy Stone, Charlotte Smith, Betty Winness (advisor). Back row: Carol Bendsten, Jo Andrews, Stevie Gjovik, Ruthie Flannelly, Kay Room, Mugs Johnson, Jo Ziegler, Darlene Shumway.
LIGNUM CLUB
by Tom Weber

The Lignum Club is composed of students from the Building Products Merchandising and Light Construction, and the Forest Products Engineering curricula. The purposes of the club are to promote the Forest Products field, to enable the students to familiarize themselves, through a guest speaker program, with the forest products industries and various types of employment offered, and in general, to increase the student’s participation in the programs offered by the School.

Even though the club is fairly small in number, speakers from various companies in the Twin Cities area are happy to give lectures and show movies about some aspects of the forest products industry. The Club members also meet people in the industry through participation in events such as the Northwestern Lumberman’s Association Convention, where many prospective employers meet and discuss new ideas and products.

Some of the club’s social activities include the annual spring steak fry, participation in the Forestry Day activities, and numerous social outings such as dances and parties.

ALPHA ZETA
National Agriculture Fraternity
by Ronald Lindmark

Minnesota’s LaGrange Chapter of Alpha Zeta was organized on February 22, 1905.

During the early 30’s the Chapter changed from a professional fraternity with high standards of scholarship, leadership, character, and service to an honorar y fraternity with the same high standards.

Alpha Zeta has met its objective through its scholarship program and through special activities dedicated to the purposes of the fraternity. The money from the sale of the Chapter house (1949) was used to reinstate the Freshman scholarship, first established in 1932. In addition, traveling scholarships of $75 were established for the purpose of helping students attend meetings of their professional groups. Also, the Chapter contributed $2,000 toward the construction of the new Student Center.

During the year, Alpha Zeta helps introduce FFA members to the services of the University. Alpha Zeta also sponsors a breakfast for graduating seniors and a dinner dance during the winter quarter.

Alpha Zeta meets twice a month in the Student Union. Each meeting is highlighted by a guest speaker of special interest to the members.
Each year the Fraternity honors the freshman with the highest honor point ratio. The outstanding freshman, sophomore, and junior with the highest cumulative honor point ratio receive subscriptions to a leading forestry magazine. An annual spring and fall banquet with a guest speaker is being initiated this year.

New members are elected each winter quarter.

1961 INITIATES

1961 FACULTY—STUDENT MEMBERS

First row (left to right): Larry Henson, Kenelm Russell, Robert Megraw, Kenneth Johnson. Second row: Dr. Rees, Dr. Swanson, Dr. Kaufert, Gary Lytle, Dr. Hansen, John Allison, Dr. Duncan. Third row: Roland Schoenike, Dr. Skok, Dr. Irving, Hugo John, Dr. Meyer, Ronald Lindmark, Darrell Sall, Al Bendsten. Fourth row: John Neetzel, David King, Gilbert Churchill, William Kelso, Alvin Hallgren, Roland Gertjejansen, Harrison Morton.
The session this year differed most notably from those of recent years in that the curriculum was changed. Entomology was dropped, and Ecology was expanded to four credits, allowing for a more intensive study of that subject. The Botany field trips and quizzes were all given in the first three weeks. The shorter time did not, however, prevent Dr. Rees leading the customary trek into a spruce swamp, which all agreed was one of the highlights of the course.

The soils course was slightly changed also. On the first field trip section “B” combined the right amounts of cussing and muscle, and proved to be good pit diggers. Henceforth they were allowed to dig all the pits, while section “A” had to content itself with filling them in.

The annual dash through the brush (running a diagonal for Brownie) took place early in the session. It was run through hazel brush of medium to good density, and gave all the students a chance to become thoroughly familiar with this common cover type, as well as with the art of running a compass line. Upon completion of the exercise the consensus was that the section corner was off about two chains to the west.

The field trips all proved interesting and educational, as well as a relief from class routine. One of the more informative parts of the Badoura Fire trip was the first hand viewing of fire line construction—from cars.

Most drivers were content to follow the State Forester as he drove back through the brush along the line, but one fellow, with a great amount of skill, managed to drive into a ditch, and had to be heaved out.

Shortly after camp began, Suzie, the self-tamed raccoon, showed up. She scrounged for food in any and all cabins, and in the chow hall. There never was a more successful freeloader than this “coon.” She had it so well made all she had to do was eat, sleep, and answer the call of nature. She did all three a great deal.

Due to the intensity of the first several weeks, Qualie’s business was rather slow. But with the appearance of Echo III, it began to pick up. The Fellows discovered that the best spot in the entire North Country to view this scientific wonder was from Qualie’s front steps. Nightly vigils were held at this establishment in the hopes of getting a glimpse of the shiny little ball.

The highlight of the session was Loggers’ Day, which was the renewing of a traditional camp event. Held along similar lines to Foresters’ Day, the event saw seventy-two Foresters and a number of the Faculty members compete against each other. Things went well, although two Faculty members captured most of the honors. In addition to the familiar field events, water events were held. Canoe racing and sparring were several of the attractions.

The public was invited, and turned out in substantial numbers despite the rainy weather. Suzie put in her appearance and drew as much attention as the contestants. The dance that followed came off better than expected—the girls outnumbered the Foresters.

A certain amount of football and volleyball was played during the session. The Officers’ cabin took on all comers and emerged unbeaten.

Other highlights of the session included the use of adequate fire fighting materials, without any fires, and the mystery of the missing canoe cushions, which is still unsolved.

Then there was the second to last night in camp. That day it was announced that the exercise in practical silviculture (pulp cutting) would be dropped. This brought on a rush to Qualies that night, to celebrate the good news. Around 1:30 A.M. the still air was split by the roar of a chain saw, and it was feared by some that the long talked-of clearcutting of Preachers’ Grove was about to commence. This proved to be a false alarm, but in the excitement Brownie’s car managed to crawl up on a log. In the morning the unamused Professor had this situation corrected, and the students were kept quite busy for the rest of the time.

That ended the 1960 session, which was one of the better sessions at Itasca, especially from the scholastic standpoint.
The General Specific Procedure

Look Sharp—Feel Sharp—

Where is the Power Saw??
With the arrival of 60 neophyte foresters to Cloquet on Sunday, March 26th the Cloquet Session was started for another spring quarter. After a short introduction to the rules that we would play the game by from B.AB, s we were off.

Merle Meyer arrived the next day for two weeks of work with aerial photos. After we got our photos marked up so that we could use them we discovered that balsam fir looks a lot like black spruce on a photo. After we finished the photos course everybody figured that it was easy money for the rest of the session, it wasn’t.

Next Bruce had a growth study on red pine that thoroughly confused everybody. Before the fog from the growth study had lifted Sig Dolgaard arrived from Upper Darby Pennsylvania for a silviculture course. This year the study work was kept to a minimum on the TSI plots. Each crew only had to work two half days on the cutting. We also had the problem of examining three compartments and writing management recommendations for each one. This work went pretty smoothly except that the recommendation for most of the mixed conifer swamp type was to clear cut and pave.

Bill Marshall was back again this year and this time he brought along some radios to tie on his grouse so that he could keep track of them. When a radio was put on a grouse both the bird and the radio promptly disappeared never to be heard from again.

Next we were treated by the presence of Bill Miles, Don Duncan, and John Neetzel. After John Neetzel convinced all of us that wooden fence posts were the only thing to use, we built a bridge for Bill Miles. The week after the bridge was built Otter Creek rose a foot and the bridge was under water. Don Duncan gave us a short course on how to cut down on the number of beer cans that are left on the forest each year.

Dixion Sandburg was back and he seems to be melting a little with age. Pretty soon he won’t be any fun any more. The management trips were again very interesting and educational.

The session was kept exciting by the theft of a door which was found as soon as the people who lived in the door-less cabin admitted defeat and swallowed their pride. Several members of the corporation made an appearance in court at which they did a good job and got away clean. The final party was a party to end all parties and everybody had a good time including the faculty. (Ken had his first beer)

All in all we had a good session which was an educational experience never to be forgotten. The friendships that were made here will last a lifetime.

Activities

FORESTERS DAY

ACTIVITIES CONCLAVE
Foresters' Day—1961
by Paul Heckmann

Foresters' Day began with the traditional “Queens' Coffee Hour on the Tuesday previous to Foresters' Day. During the coffee hour Carol Bergman, Judy Bertch, Kathy Palmen, Kay Palmer, and Sandy Smith, the finalists for the Daughter of Paul were presented to the campus by Gary Gnauck, Foresters' Day Master of Ceremonies. Coffee, donuts, and entertainment were provided for the occasion.

Friday evening February 3rd, Dick Fihn attended the annual meeting of the Upper Mississippi Valley Chapter of the Society of American Foresters. At this time he presented the Forestry Club's 2nd annual award for outstanding achievement in the field of Forestry in the State of Minnesota to Arnold R. Johnson '48.

The festivities started Saturday morning as Foresters and friends filed into Luther Hall for a dinner of beans and ham. As usual the good food was complemented by the smiling faces of our hard working faculty who served the dinner.

After eating their fill, the crowd moved to Green Hall to be entertained, and entertained they were. The Faculty and the students each presented a skit—each trying to out-do the other. Audience reaction indicated this received a top rating.

The next order of the day was the field events. The crowd gathered close as they watched each contestant put forth his best effort to win, and they cheered louder and louder as he neared his goal. A lot of sweat and muscle went into the afternoon, but it paid off well for those who were able to out-do their competitors.

The finale of the day was the Stump Jumpers' Ball, which drew a record crowd to the ballroom of the Student Center. The crowd fell into the pace set by the music of Rod Aaberg's Band, and kicked up their heels as never before. During the intermission, the relatives of Paul Bunyan were announced as follows: Daughter of Paul, Sandy Smith; Uncle of Paul, Mr. William Miles; Son of Paul, Harry Morton.

The Daughter of Paul, Sandy Smith, presided over the beard judging contest, and presented the prizes to the winners, as well as the field event winners.

Foresters' Day could best be summed up by—"a good time was had by all."
THE QUEEN CANDIDATES

Judy Bertch, Kay Palmer, Kathy Palmen,
Carol Bergman, Sandy Smith

Foresters’ Day Committee

General Chairman .................. Paul Heckmann
Field Events ..................... John Hall and Ed Martineo
Dance .......................... Gordy Gray and Dan Peterson
Secretary and Treasurer .......... LaVerne Walberg
Queens .......................... Harry Morton
Publicity ........................ Paul Manion
Awards .......................... Dick Foster

General Programming .............. Ken Bilgrien
Bean Feed .......................... Jan Nosker
Displays .......................... Craig Smith and Jerry Oltman
Outstanding Achievement Award .... Dick Fihn
Barber Shop ........................ The Peavey Staff
Refreshment Stand ............... The Lignum Club
Coffee and Donuts .............. The Forestry Wives’ Club
With advanced publicity, the days passed quickly and soon another Foresters' Day was upon us.

The Coffee Hour brought with it entertainment, where music ranged from flamenco . . . to . . . old time and popular.
At the bean feed, good food plus dinner music equaled a good time for all especially when served by men of authority.

It seems that for some people (the students), the skits were held too early in the morning . . .

But still they bubbled over with joy from Friday night's activities . . .

While for others (the faculty) it was still too early.
Everyone turned out for the field events, including President Wilson . . .

and at the other end of the saw was Dr. Kaufert.

The field events started off with two-man bucking and ended up with log rolling.

"Speed Madden—400 sec. flat!"

"Will someone please pick up my partner?"

"There must be an easier way."
Queen Sandy gave awards to winners ...  

While others gave shaves.

"It's only a flesh wound."

Some chose to keep their beards, for obvious reasons.

Coke ? ? ?  

Next Dance? ... Please.

St. Paul 1, Minnesota
Midwest Foresters Conclave
Ann Arbor, Michigan—1960

by Larry Christian

On the late afternoon of Thursday, April 28, the advance forces of the University of Minnesota Forestry Club left Green Hall for the seventh annual Foresters’ Conclave at the Proud Lake Recreation area near Ann Arbor, Michigan. Reinforcements left on Friday from Cloquet and Green Hall.

After numerous stops thru Wisconsin for refueling we completed our 700 mile journey to Ann Arbor without any further incidents. The first of our forces reached the camping site around noon on Friday still laughing from Ed’s jokes. After a quick trip into town we settled down for a good and much needed night’s rest.

Early Saturday morning the rest of the Minnesota men arrived. The long trip enabled the Dendro men

to study their cards prior to the contest.

The afternoon events were held between the frequent rain squalls which somewhat cramped the style of the hardy Foresters. The University of Michigan took first place with Minnesota pulling in a snappy fifth place out of six entries.

The evening started with an excellent meal prepared by the University of Michigan. An unexpected bit of entertainment occurred when one of the waitresses backed into the occupied men’s head which she mistook for the kitchen door. After supper the prizes were presented to the individual winners and chain saws went to the two schools with the highest overall points. An interesting talk highlighted by many demonstrations was presented by Dr. Preston of the University of Michigan.

After the talk there was a rousing song fest supplemented by gallons and gallons of amber “Happy Juice” which very effectively loosened the vocal cords. Warnie even had a mouse helping him.

Sunday morning after a breakfast of tomato juice and flap jacks twenty-five tired foresters started the long trek back to Minnesota. Everyone agreed that Michigan was an excellent host at a fine conclave.
I.M. SPORTS
by Richard Madden

Football

Although adverse playing conditions hampered the Forester's football team, they came through with a 3-1 record for the season, being defeated in the semi-finals for the St. Paul Campus championship.

Roster

Tom Buttrey
Stu Cameron
Dick Harms
Dick "Shep" Johnson
Jim "Ollie" Klein
Norm Larson
Harold "Baldy" Schopper
Harold Sersland
Jim Syvertsen
Laverne Walberg
Dick Madden, Manager

Basketball

The Forestry Club had only one basketball team this year and ended the season with five wins and three losses, not doing quite as well as the championship team of the previous year.

The Foresters then entered the St. Paul Campus Class B play-offs and were defeated in their first game.

Roster

Stu Cameron
Darryl Durband
Gary Frits
Dick Harms
Dick Hilliker
Dick Horn
Dick Johnson
Terry Johnson
Frank Kies
Jim Klein
Harold Schopper
Pieter VanZanden
Dick Madden, Manager

Hockey

Highlight of the winter quarter I.M. sports was the winning, by the Foresters, of the All University Class B hockey championship.

In conference play the Foresters suffered one defeat, a 1-0 set back which put them in Class B. But in the playoffs the Foresters were undefeated, winning the final game 7-3. The teams overall season record was six wins and one loss.

In recognition for winning the All University Class B title, each member of the team received individual trophies.

Dick Goff
Harold Johnson
Rich Johnson
Darrell Kenops
Andre Lacabanne
Mike Lanquist
Bill Lund
Gary Lytle
Dick Madden
Jan Miller
Don Oseid
Jim Syvertsen
Harold Sersland, Manager

In addition to these major sports, the Forestry Club also had teams entered in bowling, volleyball, free throw competition, and softball.

The club was also represented by individuals who competed in cross country, handball, table tennis, swimming, archery, track, tennis, and "bird watching".
The traditional Bonfire was held during the first week of fall quarter. After meeting behind Green Hall the group of over 100 proceeded to Sucker Creek via car caravan. Along the way a stop was made to let the Freshmen get a good look at the Allison Forest; then somehow the entire frosh group ended up "legging" it the rest of the route.

Upon arrival at the bonfire the freshmen found the expert upper classmen chefs preparing the various delicacies: beans, steak, beverage, and potato chips—"ala crudé."

After feeding for an hour or so the introductions of the Forestry Club Executive Board and the School of Forestry Faculty were made. As usual the Faculty, headed by Dr. Kaufert, came up with some rather delightful stories and jokes of various classifications.

Just as the song fest was about to begin a storm blew up and put a sudden end to a delightful evening.
On the morning of May 14, fourteen carefree foresters rounded up a like number of coeds and drove like mad for the calm serenity of the St. Croix Valley. The event for that particular day was the Foresters’ Canoe Trip—the object of which is purely social.

The net result of the days drift . . . er paddle . . . down the diamond clear, sky blue waters of the St. Croix was thus: 28 sunburns—10 severe, three capsized canoes, six drenched canoeists, two pair of glasses in the river, a 198 combined tally for the birdwatchers, and one lost canoe trip chairman—including date and canoe.

*Next time beach 'em*

*Time out for refreshments*

*It’s a great life . . .*
Campus Carnival

Other
Christmas Tree Project

by Darrel Kenops

Green Hall was the scene of much activity, but also of much more inactivity on the Thursday evening of November 25, 1960, for this was the starting point for the annual journey northward in quest of the elusive Christmas tree. The Christmas tree committee consisting of Larry Christian, John Hall, Jim Young and myself, plus 15 others were preparing to shove off for Cloquet, while we left behind: Jim "Scrooge" Klein, the treasurer, to prepare for the great profits to be reaped from the project; Conrad Wetzel, publicity, to spread the word via propaganda printed on posters; and Ken Bilgrien, who was to change the tennis courts into a first-class Christmas tree lot.

After making numerous stops to regroup our forces, we pulled into the station late Thursday night and within a few minutes, the cabins were being prepared for the week-end a “roaring” fire plus other necessities. As the usual amount of story-telling and joking faded into the night, everyone sacked out with great expectations for the next day.

Morning came very soon and with a bang. Everyone prepared themselves for the day and we drove over to Embarrass where we were to meet Ed Hill from whom we were to obtain the balsam fir. When we arrived, Ed greeted us, all smiles, and laid out the ground rules for the cutting to follow. After he made a plea to be careful and not to cut each other up, we split up into 3 crews each consisting of 6 men, and headed for the woods. The work of the day passed fairly fast and after Ed's mother fixed up a hearty lunch for the whole gang, we finished up the remaining work and arrived back at Cloquet and the station late in the afternoon.

That evening after supper, Dana Worrall came over to the station and everyone crowded into one cabin and exchanged stories. Mr. Worrall was very well liked and he recalled many of the past Christmas tree projects and some of the problems they encountered. He also added that we were lucky to have such warm weather for cutting. After Mr. Worrall's visit, most of the fellows headed out to do some timber cruising of their own in the surrounding territory.

When we woke up on Saturday, we were greeted by a bright sun and a temperature that was in the 60's most of the day. The second day of cutting was carried out on a tract of land that the Forestry Club planted in 1950, from this area we cut the spruce and red pine we needed. Due to the warm weather we were able to pack the trees tight on the trailer without loss to a single tree.

After eating lunch, we started on our journey home, none the worse for wear—except for being tired and experienced Christmas tree men.

We arrived at the tree lot late Saturday afternoon and were greeted by Ken Bilgrien and Paul Heckmann who had done a great job on setting up the lot. We unloaded the trailer, which was chucked full of trees. Ed Hill was to arrive Sunday afternoon with the last truck load of trees.
Summer Jobs
The researchers and families stationed at P.R.E.F.  

Disease Research  

by Harrison L. Morton

At the end of winter quarter 1960, I wrote to the Leader, Inland Empire Research Center, concerning the prospects of a summer job. That's how it all started.

I was hired as a GS-5 out of Spokane, Washington, but my official duty station was the Priest River Experimental Forest, P.R.E.F., near Priest River, Idaho. With few exceptions, the entire summer was spent at the station. The P.R.E.F. was well furnished with living and batching facilities for a nominal charge of $2.50 per pay period.

The disease research project leader was Charles Teaphont—Ph.D., Yale. The field supervisor was Ed Weeker—B.S. Washington State University, who is now working on a Ph.D. in plant pathology.

Our work was concentrated on five studies. One of the first was on a needle cast, *Hyperanomella arcuata*. Every two weeks we drove to the plot, climbed, bagged, and tagged five western white pines. The objective of the study was to determine the period of infection.

A second experiment was conducted on a needle blight (*Secanostyctus* spp.) also found on western white pine. Every two weeks we drove to the plot, climbed, bagged, and tagged five western white pines. The objective of the study was to determine the period of infection.

A second study was conducted on a needle blight also found on western white pine. Every four weeks we drove to the plot, climbed, bagged, and tagged five western white pines. The objective of the study was to determine the period of infection.

A second experiment was conducted on a needle blight also found on western white pine. Every four weeks we drove to the plot, climbed, bagged, and tagged five western white pines. The objective of the study was to determine the period of infection.

A second experiment was conducted on a needle blight also found on western white pine. Every four weeks we drove to the plot, climbed, bagged, and tagged five western white pines. The objective of the study was to determine the period of infection.

A second experiment was conducted on a needle blight also found on western white pine. Every four weeks we drove to the plot, climbed, bagged, and tagged five western white pines. The objective of the study was to determine the period of infection.

A second experiment was conducted on a needle blight also found on western white pine. Every four weeks we drove to the plot, climbed, bagged, and tagged five western white pines. The objective of the study was to determine the period of infection.

Finally an experiment was undertaken to determine the effect of actidione and other white pine blister rust antibodies on lesser vegetation.

This summer job was rewarding in various ways. Not only did I become acquainted with many people, both professionally and socially, but with as many as ten people working under me, I felt supervisory responsibility as never before.
Summer at Kimberly-Clark
by Ken Russell

Measuring last 5 years’ growth

As soon as school was out last June, my wife Sharilyn and I loaded our house on wheels and pulled it east to Iron Mountain, Michigan, where we would spend the summer. I was to work on a white spruce plantation study under the direction of Don Prielipp, the forest pathologist of Kimberly-Clark of Michigan, Inc. The task ahead started with contacting the district rangers in the National Forests scattered over northern Wisconsin and Upper Michigan. The rangers were all very cooperative and accommodating. We were going to do our work on Forest Service land, with a few scattered plots on company land in their older plantations.

Kimberly-Clark is involved in planting white spruce, black spruce, and other species on its non-productive areas. To conduct the study, we needed plantation white spruce that were at least twenty to twenty-five years old. The C.C.C.’s plantations were ideal which were planted during the thirties. The research done on these trees will provide a future basis of what areas to plant to white spruce and what areas not to plant. There is a surprising difference in growth on two twenty-year-old plantations. They could range from DBH to an average height of thirty feet or more! This is reason enough for more research; some answers are known but by all means, not all of them.

We assembled the equipment needed and placed it in a large Duluth Pack. We even had a twenty-eight-foot aluminum ladder to carry—it was a good thing there were no long walks! Our first plot was near Wabeno, Wisconsin, in the Nicolet National Forest. The mosquitoes were so thick that day that we had trouble seeing the bottom of the soil pit. We picked the soil horizons (thanks here goes to Dr. Arneman and soils 3A at Itasca) and sampled each one. Bulk densities of the rooting zone depths were noted. Ground cover was recorded as were tree species other than white spruce. Topography, exposure and aspect were noted, along with soil origin (glacial till, lacustrine, and others).

Then came the tree measurements! We had to climb the trees as the ladder was not yet thought of. The nodes for the last five years growth were easy to see, but try measuring them to the nearest inch with a flexible steel rule while hanging in the air with one arm. That day my arms stretched—we needed a ladder!

We had a long unruly pole to measure the total heights. Practice made perfect though, as this was only our first plot. We measured two one-fifth acre plots each day and sometimes drove eighty miles one way to boot!

This job provided an excellent opportunity for me to see almost every white spruce plantation in the two states: I wondered in awe at the tremendous number of trees planted in the Lake States. The C.C.C. boys did a fine job. We started the summer in the Laona district of the Nicolet, moving back to Iron Mountain for awhile, then on to the Ottawa National Forest at Iron River, Bergland, Ontonagon, and Kenton. The western U.P. sampled, we moved east to the Hiawatha at Munising and Manistique, then further east to the Marquette National Forest at St. Ignace and Sault St. Marie. The sixty-four finished plots covered 500 miles east-west and 200 miles north-south, quite a territory and quite an experience, but the job is not nearly finished. The tremendous analysis lies ahead for Don Prielipp, and the answers he comes up with may provide better growth and survival for all white spruce plantations.

One interesting sidelight developed on one of our plots. A suspicious farmer reported us to the sheriff and later in the summer, we found that the sheriff had dug up one of our soil pits expecting to find a grave. It was also the pit I had lost my knife in . . .

I thoroughly enjoyed my summer with K.C. and the friends we found there. To my wife and I and our new son, September came round almost before we knew it and soon our trailer wheels were turning again towards St. Paul and another year at the U.
My Job in Region One

by G. W. Zamber

After spring finals finished me, I loaded my wife and children in our excuse for an auto and headed South to Kansas where my family stayed for the summer. Then this young man went West. I had acquired a job in Region One, on the Superior District, Lolo National Forest.

I was given lodging at the ranger station which had beds, a kitchen and all the conveniences—almost—of home.

There was no J.P. on the district so I had the privilege of doing the work of a GS-5. This meant that I was not hired for any certain job but would help do whatever needed to be done on the district.

My first job was to read the official Region One Forestry Plan. The second day I was put out with the brush crew. We lopped and scattered slash all day, on ground so steep that a horizontal swing of the ax would start at ground level and wind up six feet in the air.

One of the major jobs to be done was to cruise the old growth Ponderosa Pine. Although I enjoyed the work, I found out that a horizontal mile in the mountains is about 2 miles on the flat and therefore a mile and a half cruise strip takes about 4 hours one way; unless, of course, you run into one of the countless bears in that area—they usually reduced the cruising time considerably.

Other jobs consisted of hunting for section corners, finding section lines, building bridges, dynamiting road ditches, running “P” lines for roads, panning gold, drawing maps, and of course, fighting fires, also scaling and timber marking.

We had the good fortune of having twenty some fires in 15 days. During those 15 days we all averaged about 16 total hours of leisure time back at the station. The fire fighting was rough work but the food we had made up for it.

Cold corned beef hash three times a day, washed down with (gasp) Forestry issue coffee. Actually we did have a few air-lifts of food and these meals were much better.

Our hottest fires were our controlled burns. I, on one occasion, had a close look at my hereafter when I got caught in a sudden breeze on the top side of a “controlled burn”. I lost some hair and challenged the hundred yard dash record to safety.

The game seemed abundant in the vicinity and is comprised mostly of deer, bear, elk, “porkys” and grouse. The limit of big game, in the fall, is 2 deer and one elk. A person can catch a limit of ten trout in an hour in any of the creeks, rivers or mountain cirques.

All in all I had a good summer. Region One has a good climate, and fairly good working conditions. If I get a job in the Forest Service, that is the place I would like to work.
At the close of the spring quarter, my headquarters moved from Green Hall to 2267 Como Ave., St. Paul, where the Forest Survey office under the Lake States Forest Economics Research Division was located.

Following a week of training on the job, two crews headed for southeast Minnesota to start the Third Minnesota Forest Survey. The crew members consisted of Dick Fihn, Curt Bernd, Dave Gansner, Paul DeBald and myself. The station uses two man crews, therefore, one man remained in the office each week to "set up" the counties for the field crews.

The work consisted of: (1) establishing new permanent plots where using the variable plot method (10 factor), species, exact DBH, merchantable heights, and defects were determined. On these same plots, we would run an "area condition" for the area to determine growing stock, map type, ground class, treatment, and basal area for the plot. (2) Relocating "old perms" that were measured in the 1952 survey by the ½ acre method. Work here consisted of remeasuring all trees and running an area condition. (3) The field crews also conducted special studies on ownership to determine types of owners and amount of land owned by these people. Form class and bark thickness studies were also made by the field crews.

By the end of the summer, we had finished the "big woods" area of southeastern Minnesota and were starting on the area north of the Twin Cities.

To describe in detail all the valuable experience I gained would require much more time and space. The summer of 1960 will bring back memories of the trips to the Rustic Inn (while in the area), "rainy days" in the fields, rattlesnakes along the river bluffs, and DeBald's "sagger" (prickly ash) infested plots.

The end of the summer came all too soon. All in all the summer was a very enjoyable and valuable one.
Summer Work in New England

by Harry Nickless

Each summer four or five student foresters from various universities around the country are given a chance to work and learn at the Great Mountain Forest near Norfolk, Conn. It is owned by Edward C. Childs and the forester-in-charge is a Minnesota graduate, Darrell Russ. Its acreage amounts to approximately 8000 acres and is an exceedingly interesting forest in many respects. There are a variety of species to put your dendrology to the “acid test” as the hickory-oak-ash of the more southerly forest meet and mingle with hemlock and white pine of the northern forest. The student forester is further befuddled by finding stands of Douglas fir and Japanese larch which are part of experimental projects to test the adaptability of certain species not indigenous to the region.

The forest area was cut over very heavily up until the late 1800’s for charcoal production for iron smelting. The area has steadily recovered and now has very fine stands of hemlock, red and white pine, and northern hardwoods.

Markets play a large part in what management operations may be used and this region seems quite fortunate in this respect. hardwoods of small diameters or inferior species such as beech and gray birch are difficult to market, but may improve as hardwood pulping expands.

The student foresters on the Great Mountain Forest are given every opportunity to learn first-hand the forest practices and industries of New England. In line with this policy we took two trips of about a week duration each. One to New Hampshire’s White Mountains, southern Maine, and Vermont and one into the Adirondack mountains of New York. These trips were planned to view experimental forests, pulp and paper mills, veneer plants, saw mills, and wildlife management forests. These were memorable trips. We packed our sleeping bags and mosquito bars and roughed it whenever possible. I’ll never forget one swift running Vermont stream where we showered under a waterfall—that water was so cold, in the middle of the summer, your teeth chattered like an air hammer!

Another feature of the job was the location of the Yale Forestry Summer Camp on the forest. A winding, tortuous ride of three miles would net you a movie or lecture on some phase of forestry two nights a week. The road to the camp was a good woods road but was not to be traveled at excessive speeds as we learned to our embarrassment one night. (the tie rod looked like a bow tie)

Other features unique to this part of the country are the methods of land survey and their production of delightful maple syrup.

Minnesota Survey

by Richard Fihn

About the time of year when my fellow students were returning to school for the spring quarter, I began working for the Lake States Experimental Station on the Third Minnesota Survey. The work consisted of remeasuring old permanent plots, putting in new factor plots, and obtaining ownership of the new plots via county records. All of the survey was done by the use of aerial photos either in the office or in the field.

Part of the time I worked with Curt Bernd ’58 and at the end of spring quarter Darrel Sall joined us. Other members of the field crew came from Pennsylvania and Missouri.

After eight months of work I finally had to return to school, but I did so with a fond remembrance of my fellow workers, my native state of Minnesota and the Survey work.
Alumni
A REPORT FROM THE PRESIDENT OF THE
MINNESOTA FORESTRY ALUMNI ASSOCIATION

Jerald A. Mortensen, '50
President — MFAA

Dear Alumnus:

Another year has passed by, and my duties as president of the Minnesota Forestry Alumni Association have been varied and interesting. The support and cooperation given to me by members of the Executive Board and other alumni has made my job an easy one.

During the summer months of 1960, considerable pressure was brought to bear upon the School of Forestry to move the School to the University of Minnesota at Duluth Campus. Although all evidence available clearly establishes the fact that the only logical location for the School of Forestry is on the St. Paul Campus, the pressure to move the School still exists. The MFAA strongly supported the position of the administration of the School of Forestry in testimonies before such committees as the Minnesota Legislative Committee on Forest Resources & Forest Land Ownership, etc., and to O. Meredith Wilson, president of the University of Minnesota. At this time, it would appear that the School can go on with its responsibilities to the people of the State of Minnesota and continue to be one of the outstanding forestry educational and research institutions in the country with a minimum of outside pressures to move the School.

Prior to the start of the 1961 Legislature, the MFAA was active through legislative contacts and through contacts with the administration of the University of Minnesota in support of the School of Forestry's request for $250,000 to complete the Forest Products Building. The completion item of the School of Forestry was recommended by the administration of the University of Minnesota, the Legislative Committee on Forest Resources & Forest Land Ownership, and the Legislative Building Committee. Although the Forest Products Building completion item has a top-priority position in any University building program, the $250,000 debt limitation as stated in the Minnesota Constitution negates any further university building until an amendment to raise this debt limitation is submitted to the voters and passed. This constitutional amendment will probably be submitted to the voters in the fall of 1962.

As usual, we had our annual Fall & Spring MFAA banquets and as usual, the alumni, students, and faculty had a very good "Smorgasbord" and an interesting program. At the Spring Banquet, the MFAA had the pleasure of presenting three E. G. Cheyney Memorial Scholarship Awards to three fine young men who excelled in the areas of writing and speaking while at the School of Forestry. I believe that the alumni of the School can be proud of the part they have played in making these scholarships available to these outstanding students.

The MFAA will sponsor an alumni dinner in conjunction with the CIF-SAF International Meeting at Minneapolis, Minnesota, from October 8-11. The dinner will be on Monday, October 9th, and we are expecting a large turn-out for this event. You will be contacted in the near future with more complete information on this dinner.

In closing, may I say that I have thoroughly enjoyed the many contacts and new acquaintances which have come about because of my association with the MFAA, and may the new president, Walter Jacobson '35 have the same complete cooperation which I have experienced over this past year. Good luck!

REMEMBER TO SUPPORT YOUR E. G. CHEYNEY SCHOLARSHIP FUND!
CIF-SAF International Meeting

As you all know, the Canadian Institute of Forestry and the Society of American Foresters will hold an International Meeting at Minneapolis, Minnesota, from Oct. 8-11. The Minnesota Forestry Alumni Association will sponsor a dinner and program on the evening of October 9. The Executive Board of the MFAA has arranged a tentative schedule for that evening as follows:

Date—October 9th.
Time—7:00 p.m. (Cocktail Hour 6:00-7:00 p.m.).
Place—To be arranged.

Program—O. Meredith Wilson, president of the University of Minnesota.

Harlan Nygaard—’49—is the General Chairman for the banquet.

We are hopeful that we will have a very large turn-out for this banquet (300), and we are also hopeful that all of you will be a part of this gathering.

Plans have been made to have "Open House" of all the School of Forestry facilities for all of our alumni and their friends. We'll be looking forward to showing you around and chatting with you.

4th Annual E. G. Cheyney Memorial Scholarships Awarded

The 4th E. G. Cheyney Memorial Scholarships of the Minnesota Forestry Alumni Association were awarded at the February 23rd MFAA banquet.

This year the School of Forestry Scholarship Committee (R. M. Brown, Chairman) had a difficult time in picking the recipients for this award. In the past, the Scholarship Committee has awarded two forestry students the E. G. Cheyney Memorial Scholarships, but because of the quality of the competing student, three awards were given this year. Recipients of the three $75 Scholarships were Alvin A. Alm of Albert Lea, Minnesota, Cameron E. Ferweda of Henning, Minnesota, and Richard R. Flannelly of Minneapolis, Minnesota.

The selection of the E. G. Cheyney Memorial Scholarship is based on excellence in the field of writing and speaking. Qualifying students must be juniors or seniors registered in the School of Forestry curriculum. The Rhetoric Department on the St. Paul Campus makes a broad selection of those forestry students who might qualify and from this list, the School of Forestry Scholarship Committee make the final selection of the award winners.

We only wish that all members of the MFAA throughout the country could sit down and chat with these fine young men as we did.

May we thank the alumni of the School of Forestry for making the E. G. Cheyney Memorial Scholarships possible.

FIFTY-FIRST WESTERN FORESTRY CONFERENCE—VICTORIA, B. C.

Cal Smith ’52 has been kind enough to send us this report on the fifty-first Western Forestry Conference held at Victoria, British Columbia on December 8. He reports—"As you know, Minnesota foresters have been active in promoting forestry in the West, and at the last two meeting of the Western Forestry Conference a few of the Minnesota alumni have managed to get together for a breakfast meeting. This year seven graduates were in attendance, and they asked me if I would contact you and extend Season’s Greetings to you, the staff, and the members of the School of Forestry. The following alumni were in attendance at the breakfast meeting:"

WAGNER ’32 ELECTED PRESIDENT

Roy Wagner ’32, Chief Forester for Masonite Corp., was elected President of the Redwood Region Conservation Council.

BENSEND ’37 GOES TO JAVA

Dwight Bensend ’37 has taken a one and one-half year appointment as Professor of Products at Bogor, Java (Indonesia).
TWIN CITY CHAPTER OF MFAA HOLDS FALL AND SPRING BANQUETS

The Twin City Chapters of the MFAA during the fall and spring held two very successful and stimulating banquets.

The fall banquet of the MFAA had some 90 alumni, student, and staff turn out for the evening festivities. After a “cocktail” hour and a completely satisfactory “Smorgasbord,” the evening’s entertainment was presented by Ned Therrien ’60. Ned showed slides and narrated on his canoe trip with the YMCA “Voyagers” up the Mackenzie River to the Arctic Circle. It was a stimulating presentation and our very sincere thanks to you, Ned.

The spring banquet (February 23rd) brought the usual snowstorm and about 85 alumni, students, and staff to our banquet. After dinner and drinks, we were again fortunate to have a wonderful evening of entertainment. Cliff Ahlgren ’48 showed slides and narrated on his recent trip to Finland. The subject area covered pertained to the use of fire in the regeneration of sites and other related problems in northern and central Finland. As in the fall banquet, it was a stimulating presentation and our very sincere thanks to you, Cliff.

The group also had a very pleasant surprise not scheduled on the program. Henry Schmitz, President Emeritus of the University of Washington, former Dean of the Institute of Agriculture, Forestry, and Home Economics, and former Director of the School of Forestry, paid us a surprise visit. It was indeed a pleasure to renew acquaintances with the “Dean.”

Don’t forget—we’ll be looking forward to meeting you at the CIF-SAF International Meeting at Minneapolis, Minnesota, on October 8-11.

Smorgasbord

The Class of ’58 Enjoys the Food

World Forestry Congress—Seattle, Washington—Aug. 29–Sept. 9

A large number of School of Forestry alumni were in attendance at the World Forestry Congress held at Seattle, Washington from August 29 to September 9. From reports, it was a very rewarding experience for all of those who attended. Dr. Keefert indicated that because of field trips, etc., he may not have met all Minnesota School of Forestry alumni in attendance, so if any of you that did attend are not listed below, our sincere apologies.

SEE YOU AT THE CIF-SAF INTERNATIONAL MEETING OCT. 8-11!
O. MEREDITH WILSON—President of the U of M

A day of pageantry—rich with traditions from the University's past and rich with promise for the University's future—marked the inauguration on February 23 of O. Meredith Wilson as the ninth president of the University of Minnesota.

Close to 550 official delegates of academic institutions and learned societies, Governor of Minnesota Elmer L. Anderson, Minnesota legislators, representatives of the press and radio and television industry, superintendents of Minnesota school districts, University alumni and benefactors, and members of the Land Grant Centennial Committee and of other distinguished groups gathered on the Minneapolis Campus with University staff members and students to participate in and attend inaugural events.

Highlight of the day was the ceremony of inauguration which began with an academic procession up the Mall from Walter Library and into Northrop Memorial Auditorium. Leading the procession as bearer of the new University Mace was Alfred O. C. Nier, vice chairman of the University Senate and highest elected member of the faculty. Next came the official delegates, led by Herbert J. Davis, lecturer in English and delegate from Oxford University, England, founded in the 12th century, and John J. Bittner, director of cancer research in the University of Minnesota, who handed in the 12th century, and John J. Bittner, director of cancer research.

Dr. F. H. KAUFERT '28, RECEIVES AWARD

Dr. F. H. Kaufert '28 was honored April 13, 1961 at the 50th Anniversary of the State University College of Forestry at Syracuse when he was awarded the fifteenth Anniversary Distinguished Service Medal for imaginative contributions to forestry education and research.

AMIDON '36, NAMED GREELEY LECTURER

The appointment of George B. Amidon '36 of International Falls, Minnesota, as the 1961 Colonel William B. Greeley Lecturer in Industrial Forestry has been announced by Dean Gordon D. Markworth of the University of Washington College of Forestry, Seattle. Mr. Amidon will present a series of three lectures on the "Development of Industrial Forestry in the Lake States" on May 2, 3 and 4, 1961. Amidon is the director of woodlands for the Minnesota and Ontario Paper Company, a position he has held since 1944.

RAY WOOD, '38, NAMED TO INSTITUTE OF AG COUNCIL

Ray Wood '38 of Cloquet has been named as a new member-at-large of the University of Minnesota Institute of Agriculture Advisory Council. Wood, director of forest management and timber procurement for Diamond Match Division of Diamond National Corporation, replaces George Amidon, Minnesota and Ontario Paper Company, International Falls.

The council meets quarterly to discuss and advise on the needs of the Institute of Agriculture and its program of teaching, research and extension. The council is made up of delegates from 11 statewide farm organizations plus seven members at large.

WM. COX '06, FIRST STATE FORESTER DIES

William T. Cox '06, 2186 Doswell Avenue, Minnesota's first state forester and commissioner of conservation, passed away on his 83rd birthday.

Born on a farm near Glenwood, Minnesota, he was graduated from high school and entered the University of Minnesota's newly established college of forestry. He was among the first graduates in 1906.

Employed by the U.S. Biological Survey, he examined and selected lands for national forests in Minnesota, South Dakota, Montana, Wyoming, Washington, Arkansas, Missouri and Florida. From 1907 to 1911, he served in Washington as assistant federal forest in charge of forest management.

Mr. Cox organized the Minnesota state forest service and was appointed Minnesota's first state forester in 1911. In 1931 he was made state commissioner of conservation and organized that department. He remained on that job until 1937.

At the request of the Brazilian government, he spent 1929 to 1931 exploring forests of the Amazon valley and organizing a forest service. During World War II, he again went to South and Central America as head of a joint U.S. British timber mission.

He served as wildlife management and forestry consultant for railroads, mining companies, timber and fur companies, surveying Rocky Mountain regions, the Lake Winnipeg, Nelson river and Hudson Bay areas and parts of British Columbia.

Mr. Cox was instrumental in stopping the drainage of northern Minnesota waterfowl and wildlife regions during his terms as the state's first conservation commissioner. His early work brought him into close contact with prominent conservationists, including Governor Gifford Pinchot of Pennsylvania and President Theodore Roosevelt.
60th Annual SAF Alumni Luncheon
Washington, D.C.

by F. H. Kaufert

About 50 alumni of the School of Forestry were present at the annual alumni luncheon held in conjunction with the S.A.F. meetings. All age groups, periods, and geographical derivations of our alumni were represented (see listings below).

Arrangements for the meeting were very ably handled by Howard Post ’39 (a special thanks to you, Howard) with the luncheon being held at the Nina Cafe, one block from the Sheraton Park Hotel.

With Howard Post acting as Master of Ceremonies, the alumni group listened to short talks by H. H. Chapman ’99, Samuel Detwiler ’06, and J. V. Hoffman ’11, F. H. Kaufert, Director of the School of Forestry, briefed the group on the problems of the University, the School, the staff, etc.

It seems that these alumni meetings are the high spot of the year—a time to renew old acquaintances and a chance to make new acquaintances. With this thought in mind, we are indeed looking forward to next fall when the CIF-SAF International meeting is held in Minneapolis, Minnesota, from October 8-11. We'll see you all there!

President Wilson Enjoys Foresters' Day

The School of Forestry and the Foresters' Day Committee were honored when University of Minnesota President Wilson joined us for a good part of the day's activities. He enjoyed the Bean Feed, got on the other end of a cross-cut saw with Dr. Kaufert, and stayed on for the "Timber Beast" players and the faculty presentation in Green Hall Auditorium. We only hope that President Wilson enjoyed the activities as much as we enjoyed having him with us.
ALUMNI NEWS NOTES

1899
HERMAN H. CHAPMAN sends us word from New Haven, Connecticut, where he is Professor Emeritus at the Yale School of Forestry.

1906
WILLIAM T. COX passed away January 1961. We extend our deepest sympathies.

SAMUEL B. DETWILER has retired and is living in Arlington, Virginia.

DILLON TIERNEN is retired and living in Chicago City, Minnesota. He notes—"This has been a very quiet year, but it marks the 50th anniversary of two events, both of them important to me. 1st operation of the Cloquet Forest Experiment Station, and 2nd, our golden wedding anniversary." Congratulations, Dillon—and we sure do enjoy visiting with you at Green Hall.

1909
WALTER M. MOORE has retired and is living in Fairborn, Ohio. He notes—"I recently finished writing the greater part of an 100-year history of our church. [First United Presbyterian Church of Fairborn]. It was printed as a little book; 1,000 copies were printed, and most of them were distributed among the 900 members on Oct. 20, 1960—the 100th anniversary of the Church. I have completed 35 years as an officer of our American Legion Post; decided to take a rest for one or two years." Thanks very much for that extra contribution, Walter, and congratulations on your many worthwhile activities.

1910
ROBERT L. DEERING is retired and living at San Francisco, California.

CHARLES L. LEWIS, JR., is General Manager and Treasurer for the Midwest Cranberry Co. in Shell Lake, Wisconsin. He writes—"I resigned as Vice President and Director of the National Sales Organization Ocean Spray Cranberries, Inc., last fall and was presented with a Hamilton Electric gold wrist watch in appreciation of 50 years of service to the cranberry industry. However, I am still active with son, Charles, in the business, and further activated by ten fine grandchildren." Congratulations on the award, Charles, and stop and visit us at Green Hall again.

1912
GRANT HARRIS is with the Page & Hill, Inc., at Minneapolis. He writes—"Semi-retired. Addicted to long ocean voyages on cargo ships."

HERMAN N. PETTIBONE is a Sales Representative for the Chicago Mill and Lumber Co. He sends this note—"After forty-four years, still actively representing Chicago Mill and Lumber Company in sales. My health and that of Mrs. Pettibone are excellent. Regards to any old timers still around."

JOHN A. STEVENSON is retired from the U.S. Department of Agriculture and is residing in Washington, D.C. He writes—"Retired as Head Curator, Mycology Investigations, U.S. Department of Agriculture, July 31, 1960 after 41 years service in Federal and Puerto Rican agriculture and is residing in Washington, D.C. He writes—"Retired as State Extension Forester at the University of Minnesota. Thanks for all of your help with the MFAA. Parker.

FRANCIS V. OSTROWSKI reports from St. Paul where he is the Owner of the Crossways, Inc. restaurant. He states that he is "the same."

ALBERT E. WACKERMAN sends us word from Durham, North Carolina, where he is a Professor of Forest Utilization and Forestry Consultant at Duke University.

ARTHUR L. WHITON writes to us from Chicago, Illinois, where he is Vice President of Sales for the Chicago Mill and Lumber Company.

1917
LAUREN S. TUTTLE is Proprietor of the L. S. Tuttie Lumber Co., at Minneapolis, Minn, He reports—"Little change—five grandchildren."

WALTER H. SWANSON reports from Neenah, Wisconsin, where he is Vice President of the Kimberly-Clark Corporation.

SHIRLEY C. BRAYTON is retired from the U.S. Forest Service and is living at Dunedin, Florida. He writes this note—"Living quietly in retirement—year round—down here in Florida. Would appreciate having any Minnesota foresters look us up when they happen to be in Florida."

1920
PALMER R. PALMER sends us word from Duncan, Oklahoma, where he is Rector of the All Saints' Episcopal Church.

1921
PARKER O. ANDERSON sends us word from St. Paul where he is State Extension Forester at the University of Minnesota. Thanks for all of your help with the MFAA. Parker.

1923
ORCURT W. FROST sends us word from Chicago, Illinois, where he is Director of Research and Development for the Masconite Corporation.

W. HAMILTON passed away on December 20, 1960. We extend our deepest sympathies.

CLARENCE W. SUNDAY is Proprietor of the Marshall Lumber Co. in Marshalltown, Iowa. He writes this note—"No change, just getting older. When old horses like Shantz and Allison quit, it is about time to start thinking of quitting too."

1924
NELSON W. UPTON is Forester for the Wisconsin Realty Co. at Park Falls, Wisconsin. He says—"I enjoy your Gopher Peavey publication, Myself and family are fine." Thank you for those kind words, Nelson.

1925
WILLIAM MAUGHAN writes to us from Durham, North Carolina, where he is a Consulting Forester.

1926
WARREN W. CHASE is at the School of Natural Resources, University of Michigan at Ann Arbor, Michigan. He says—"Our program in Wildlife Management at the University of Michigan is very closely coordinated with Forestry and one of the few schools in the country where this is continuing. We have improved staff and curriculum and our research program is broadened to strengthen, waterfowl and wildlife diseases. My personal research continues in deer study and I handle land management phases of wildlife teaching as well as big game and range management. As a side issue I have been getting acquainted with more of the National Forests in the West. My travel has included Alaska and Mexico, but I don't get to Minnesota as I would like."

EUGENE T. ERICKSON is Manager of Grounds for IBM at Rochester, Minnesota. He writes—"Status same as last year. Same number of grandchildren—6. Son, Leif, is student minister at the Presbyterian Church in Nabi, Indiana, while attending seminary in Louisville, Kentucky."

JOHN G. KUENZEL is Head of the Wood Products Group, Bureau of Ships, Navy Department in Washington, D.C. He reports—"The children are grown up and married, so we have a granddaughter and grandson. Debby Jo, our daughter's child, and a grandson, Johnny Landen, of our son's family, born three years ago. Mother and I carry on at Riverdale, where Miriam is active in the Prince Georges County Minute Women serving the needs of the county in an organized effort to supply help for worthy folks who require help that is sometimes delayed through official channels of government. I continue to serve the Bureau of Ships, despite a siege of rheumatic arthritis and other..."
illness during 1960." A quick recovery, John, and keep up the good work.

RALPH M. LINDGREN is Chief of the Division of Wood Preservation, Forest Products Laboratory, in Madison, Wisconsin. He reports—"Everything normal except for the pleasure of following that fine comeback of the Gophers. Here is hoping that they will not follow the baseball footsteps at the Rose Bowl." We're proud of our "Golden Gophers" too, Ralph. We enjoyed your visit this past winter.

RONALD M. MANUEL is with the Wilson & Company at Sao Paulo, Brazil, South America. He writes—"After 35 years, I've run out of pseudo clever news items." We've enjoyed them all, Ronald.

1927

WILLIAM K. HIMEBAUGH is Civilian In Charge—Repairable Processing Sect. at Briggs Air Force Base in El Paso, Texas. He notes—"In charge of Repairable Processing Section which mission is to evacuate all aeronautics to local units or depots for immediate repair and/or disposal for final action of unrepairable items."

CARL G. KRUJER is Forest Supervisor for the U.S. Forest Service at the Coeur d'Alene National Forest, Coeur d'Alene, Idaho. He reports—"No change. Still at Coeur d'Alene, and like it."

THOMAS LOTTI writes to us from Charleston, South Carolina, where he is Research Center Leader for the Southeastern Forest Experiment Station of the U.S. Forest Service. He writes—"Took 12½ years in Korea, I left that country in June 1951. Returned to the U.S. for six months. Arrived in Tripoli, Libya, last January for a two-year assignment in this very country."

RAY W. KNUDSON is District Forest Ranger for the U.S. Forest Service at Athens, Ohio. He sends this note—"Took an 8,000-mile trip to the West Coast last spring. Saw six National Parks, many National Forests and State Parks. Visited with Dan Buford—30 in Portland and Paul Blatter—28 in Port Angeles, Washington."

RALPH LORENZ is a Professor of Forestry at the University of Illinois, Urbana, Illinois. He says—"I am Chief Agriculturist for the Point Four Mission in Ethiopia where I arrived in January 1960. I witnessed the country's first Ethiopia's Independence Day celebration on November 24th."

Ralph Lorenz is also on the staff here at Illinois. So Minnesota finally able represented by Scott Pauley and Egilfs Bakuzis. Daughter Jokela '47 also is on the staff here at Illinois. So Minnesota finally beat Illinois in football! Yea Gophers!"

1928

OLIVER COOK sends us word from Minneapolis, Minnesota, where he is with Flour City Paper Box Co, Oliver dropped by Green Hall and told us that he had had a very nice trip throughout the West this past summer during which time he was able to contact many of his old friends and classmates. We sure enjoyed visiting with you, Oliver.

WILLIAM H. FISCHER reports from Atlanta, Georgia, where he is Assistant Regional Forestier (Timber Management) for the U. S. Forest Service—Region 8.

ERNST J. GEORGE writes to us from Mandan, North Dakota, where he is Silviculturist and Superintendent of the Agricultural Research Service Experiment Station.

FRANK KAUFERT sends us word from St. Paul, Minnesota, where he is Director of the School of Forestry at the University of Minnesota.

DAYTON P. KIRKHAM is Forestry Advisor at Tripoli, Libya. He sends this note—"After 12½ years in Korea, I left that country in June 1951. Returned to the U.S. for six months. Arrived in Tripoli, Libya, last January for a two-year assignment in this very country."

RAY W. KNUDSON is District Forest Ranger for the U.S. Forest Service at Athens, Ohio. He sends this note—"Took an 8,000-mile trip to the West Coast last spring. Saw six National Parks, many National Forests and State Parks. Visited with Dan Buford—30 in Portland and Paul Blatter—28 in Port Angeles, Washington."

RALPH LORENZ is a Professor of Forestry at the University of Illinois, Urbana, Illinois. He says—"I am starting my 23rd year in the Dept. of Forestry, University of Illinois, Urbana, Illinois. I says—"I am starting my 23rd year in the Dept. of Forestry, University of Illinois, Illin."

1929

A. DALE CHAPMAN is President of the Chapman Chemical Company at Palo Alto, California. He sends us this note—Since 1929 the practice of forestry have become a solid business, Minnesota has finally made the Rose Bowl, and the United States has never had such a shortage of skilled manpower as now exists. We enjoyed visiting with you last August, A. Dale.

CLYDE M. CHRISTENSEN sends us word from the University of Minnesota where he is Professor in the Department of Plant Pathology on the St. Paul Campus.

WILLIAM E. HALLIN sends us word from Roseburg, Oregon, where he is Research Center Leader of the Roseburg Research Center for the U.S. Forest Service. We enjoyed visiting with you last summer.

JOHN R. NEETZEL is Research Associate with the School of Forestry, University of Minnesota, St. Paul. He says—"Busy cooperating with Agricultural Engineering on ways and means of building better farm structures that will last longer. This involves both the preservative treatment of the lumber and the design of the structures. Both building and fences."

LAWRENCE RITTER reports to us from St. Paul, Minnesota, where he is in charge of the White Pine Blister Rust Control in Minnesota for the Minnesota Department of Agriculture and U.S. Forest Service.

DANFORD THOMAS is Owner of an Insurance Agency in Minneapolis, Minnesota. He says—"Those who missed the dinner missed a most entertaining evening. The slides on Finland forestry practices were superb. Seeing Dr. Henry Schmize was a special treat and most gratifying. Family the same and well." We enjoyed having you with us at the MFAA Banquet, Danford.

RAY TILDEN sends us word from Minneapolis, Minnesota, where he is Owner of the Liquid Scale Gauge Company.

DAVID WILLIAMS sends us word from Redding, California, where he is Logging Supervisor for the U.S. Plywood Corporation.

1930

CARL BENSON writes to us from Russellville, Arkansas, where he is with the U.S. Forest Service. He says—Since last report the Benson clan has another dividend, Keith Lyle, born 11-20-60 to the Charles Benson at Los Angeles making three boys. Charley also goes to night school in advanced electronics at U.C.L.A. Harvey is now 1st Lt. in Artillery at Munich, Germany—will return in March to resume his forestry career on Ouachita National Forest. Daughter Marian married Gary Munsinger last June. He is a teaching fellow working on Ph.D. in Business Administration, Evelyn, our baby age 17, is freshman in home economics at University of Arkansas staying at Fulbright Hall. My wife and I are working as hard as ever with no relief in sight for 3½ years."

WILLIAM BRENER writes to us from Wisconsin Rapids, Wisconsin, where he is Area Supervisor for the Wisconsin Conservation Department.

ROBERT A. CLOUGH is State Relations Representative for the American Red Cross in St. Paul, Minnesota. He writes—Rounding out twenty years with Red Cross; continue in Minnesota as state relations representative. My daughter, Sandra, is Girl Scout Executive in Minneapolis, Minn., and my son, Peter, is with Armour & Co. in St. Paul. Thanks for all of your help on the MFAA, Robert.

ROLLAND LORENZ is Chief Agriculturist for the ICA at Addis Ababa, Ethiopia. He writes—"I am Chief Agriculturist for the Point Four Mission in Ethiopia where I arrived in January 1960. I witnessed the country's first Ethiopia's Independence Day celebration on November 24th."

Ralph Lorenz is also on the staff here at Illinois. So Minnesota finally beat Illinois in football! Yea! Gophers!"
HUGO PAWEK reports in from Etainville, South Carolina.

ARTHUR TESAKER is with the U.S. Soil Conservation Service at Beulah, Michigan. He writes—"I am with C. R. in Benzie Soil Conservation District. Saw a picture some time ago of Minnesota's 'Rose Bowlers' relaxing. When did they unlazy?"

RICHARD WITTENKAMP is Director and Owner of the Red Pine Camp at Minocqua, Wisconsin. He states—"No change from previous.

1931

STAN BUCKMAN is President of the Buckman Laboratories, Inc. at Memphis, Tennessee. He states.—"The year rolls by with a gradual expansion of our activities into different phases of industrial micro-organism control, particularly in the paper, paint and petroleum industries. Our oldest son, Bob, is completing his Master's in Business Administration at Chicago next spring after taking a B.S. in Chemical Engineering at Purdue. Our youngest son, John, is a junior at Illinois, majoring in Chemistry and Microbiology."

MAURICE DAY reports from Sault Ste. Marie, Michigan, where he is with the Forest Experiment Station of Michigan State University.

HENRY KEEHN sends us word from Lewisville, Minnesota where he is the Owner of a grocery store.

PAUL ST. AMANT is Forest Supervisor for the Shawnee National Forest of the U.S. Forest Service at Harrisburg, Illinois. He sends this note—"Still in same location in the banana belt, Southern Illinois and Southeast Missouri. Family has increased by the addition of a fine grandson, Tommy St. Amant, located in Utica, New York. First time in a long time I could brag about the Gophers—hope it continued.

ARTHUR SCHNEIDER sends us word from the Seoul National University, Korea, where he is Chief Adviser, University Cooperative Project.

1932

ROAN ANDERSON reports from Norwood, Colorado, where he is District Forest Ranger at Uncompahgre National Forest of the U.S. Forest Service.

H. RAY CLINE is Work Unit Conservator for the Soil Conservation Service at Virginia, Minnesota.

ALAN LAIDLOW is Assistant State Conservator with the Soil Conservation Service at St. Paul. He writes this note—"...four members of the Laidlaw family had a big camping trip out all the way to California and back last summer that included the Black Hills and a couple of nights among the Yellowstone bears. Sorry to learn today of the death of William T. Cox—06 the grand old man of Minnesota Forestry."

NEIL MCKENNA sends us word from Norway, Michigan, where he is Plant and Equipment Superintendent for Kimberly-Clark of Michigan, Inc.

ARTHUR ROE reports from Missoula, Montana, where he is Research Center Leader at the Intermountain Forest Range Experiment Station for the U.S. Forest Service.

GEORGE SEABERG is with the Self Service Furniture & Carpet Co. in New Brighton, Minnesota. He reports—"Daughter, Donna, is a math teacher in the San Bernardino, California, high school system. Son, Dave is a junior at the University of Minnesota, Son, Dan is a student at Alexander Ramsey high school. Now that we have a new four year Harvard Man in the White House, things should be looking up. Business should become brisk again."

WALTER ZILLGITT writes to us from Asheville, North Carolina, where he is Chief, Division of Forest Management Research at the Southeastern Forest Experiment Station of the U.S. Forest Service.

1933

WILLIAM ACKERNECKT is Assistant Chief, Branch of Wildlife Refuges, Bureau of Sports Fisheries and Wildlife at Washington, D.C. He writes—"No new news except our son, Bill, is now a freshman at Duke University."

RALPH CHRISTOPHERSON reports to us from Manistique, Michigan, where he is District Forest Ranger for the U.S. Forest Service.

JOHN FRY, JR. is a Florist at Black River Falls, Wisconsin. He says—"Son John, III graduated from University of Wisconsin Medical School in 1958. Currently am Medical Officer with the Far East Tropic at Ft. Bagg, North Carolina. Married and have one daughter, Daughter Virginia, is a Junior at the University of Minnesota in Speech Therapy."

DAVID GIBNEY sends us word from Eugene, Oregon, where he is Supervisor at the Willamette National Forest of the U.S. Forest Service.

DONALD PRICE is District Ranger for the U.S. Forest Service at Eagle, Colorado. He says—"My oldest daughter has an all expense four year college scholarship. Congratulations to your daughter, Donald.

JOHN RUNDGREN sends us word from Denver, Colorado, where he is Forest Manager for the J. Neils Lumber Co., Division of St. Regis Lumber Company.

BARCLAY INFANTINO sends us word from Pasquaw, New York, for the U.S. Forest Service. He reports—"No change from last year. Thanks for all of your cooperation in the employment area, Victor."

1934

GEORGE HERION writes to us from Klickitat, Washington, where he is Forest Manager for the J. Neils Lumber Co., Division of St. Regis Lumber Company.

1935

DONALD BALDWIN writes to us from Missoula, Montana, where he is Nursery Superintendent at the Montana State University.

THOR BERGH writes to us from St. Cloud, Minnesota, where he is Woodland Conservator for the Soil Conservation Service. Thank you for your continued interest in the MFAA, Thor.

ROY CARTER writes to us from Raleigh, North Carolina, where he is Professor of Wood Technology at North Carolina State College.

ROBERT CLARK writes to us from Fordyce, Arkansas, where he is Chief Forester for the Fordyce Lumber Company.

ROBERT DELLBERG is Woodland Specialist with the Soil Conservation Service at Ukiah, California. He says—"Same work as last year. Daughter married and graduating from college. Best wishes for a successful Peavey. Thank you for those kind words, Robert."

JACK DUNDAS reports to us from Menomonie, Wisconsin, where he is Soil Conservator with the Soil Conservation Service.

BIRGER ELLERTSEN writes to us from Novis, Tennessee, where he is Chief, Forest Management Investigations Section of the TVA Division of Forestry Relations.

JOHN RUNDGREN sends us word from Eveleth, Minnesota, where he is Manager of the Eveleth Lumber & Fuel Company.

HENRY HANSEN sends word from St. Paul, where he is Professor at the School of Forestry of the University of Minnesota.

ARTHUR HAWKINSON sends us word from Minneapolis, Minnesota, where he is a building contractor. Thanks for all of your interest and work in the M.F.A.A. activities, Arthur.

RUSSELL JOHNSON is an Associate Professor of Biology and Acting Chairman at Bethel College in St. Paul, Minnesota. He writes—"Married and have three children—two boys and one girl. Enjoy teaching college young people in science. Spent 31 days in family camping and canoeing in the forest. 24 days spent in country where I worked with the U.S. Forest Service in 1947—the Sawbill Canoe Country. My wife married me as a forester and then I shifted into teaching so we must return to the forest by camping and canoeing to satisfy my family's longing for the woods. Active in scout work with my two boys."

OSWALD KROGFESS reports to us from Fort Madison, Iowa, where he is Sales Manager for the Grandon Paper Mills, Inc.

PETER LUND reports from Kauka, Wisconsin, where he is Area Conservator for the U.S. Soil Conservation Service.

FRANCIS MOORE is Vice President of the M. J. Salisbury Co., Inc. at Grand Rapids, Minnesota. He sends this note—"Now very interested in the sale of Minnesota white and Norway pine lumber both wholesale and retail. Interested in two small local northern Minnesota retail yards and in wholesale sales through the parent company, the M. J. Salisbury Co. of Grand Rapids. We have also organized the Bowstring Wild Rice Co. which is enjoying some degree of success. Sales are nation-wide on a small scale, but it keeps us very active."

MARIUS MORSE is Game Biologist for the Minnesota Division Game & Fish at Dakota, Minnesota. He writes this note—"Stil living at Dakota, Minnesota, at our 10 acre apple orchard—beginning to produce now after 12 years. Must be getting older, as the oldest girl has entered the Convent, a happy event for our large family."

THOMAS MORTENSEN is Logging Engineer for the Oregon Lumber Company at Hood River, Oregon. He says—"We still have three sons in school. Dale is a senior at Williamette University in Salem, Oregon; Anne is a sophomore at the University of Oregon; Eugene and living are in 8th grade locally. We are finishing the building of a new home in Hood River Valley."

LINCOLN MUELLER writes to us from Ft. Collins, Colorado, where he is Chief, Forest Utilization Research, Rocky Mt. Forest & Range Experiment Station of the U.S. Forest Service.
NORMAN NELSON writes to us from Milwaukee, Wisconsin, where he is on the Regional Staff of the U.S. Forest Service. He reports— "Right in the 'in-between' age. No new family additions and children not old enough to be parents. However, oldest son married last June and is moving into the grandparent class in three days. Other big excitement—Bill, 2nd oldest, rowed in the championship school boy eight for second year in a row and went to the Henley Regatta in England last June. For a long time I could boost I had been in all of the states. Then Hawaii came into the fold to upset that claim. However, I rectified that by a trip out there last summer. Sure good to see so many alumini at the luncheon during the SAF meeting here last November."

SULO SIHVONEN writes to us from Crossett, Arkansas, where he is Manager of the Crossett Forestry Division of the Crossett Company.

1936

EARL ADAMS is Deputy Director, Division of Forestry, Minnesota Conservation Department in St. Paul, Minn. He states— "My prospective forester is now 14 and looks me square in the eye. I'll soon have to start looking up to him. Plan a family trip west to Washington state next summer. Hope to have an opportunity for some visits along the way."

DONALD AMBROSEN reports from Round Oak, Georgia, where he is Forester, U.S. Forest Service, at the Piedmont Wildlife Refuge.

GEORGE AMIDON writes from International Falls, Minnesota, where he is Director of Woodlands for the Minnesota & Ontario Paper Co.

SIGURD DOLGAARD sends us word from Upper Darby, Pennsylvania, where he is in charge of the Section of Timber Management for the U.S. Forest Service. He states— "No change from last year. I will miss the two weeks at Cloquet, I really enjoyed working with the boys there." The students feel the same way, Sig.

KARL G. KOBES writes to us from Albuquerque, New Mexico, where he is Fish and Wildlife Biologist with Bureau of Sport Fisheries and Wildlife.

KERMIT SJOQUIST sends us word from South Bend, Indiana, where he is working for the U.S. Rubber Co.

DEL THORSEN is a Forester for the U.S. Forest Service at Atlanta, Georgia. He writes— "Everything the same—Go you National champs at the Rose Bowl."

RICHARD TOWNSEND sends us word from Jasper, Texas, where he is Manager of Forest Operations for the East Texas Pulp and Paper Company.

1937

AXEL ANDERSON is Plant Pathologist for the Agricultural Research Service at Michigan State University, East Lansing, Michigan. He states— "Although I am not a practicing forester, the results of my work certainly affect every forester. I've been cooperating with Michigan State University scientists in the development of disease resistant Navy pea and other types of day beans. The Navy pea is used in pork and beans. In 1956 we released the variety "Sanilee" which this year will plant 375,000 acres in Michigan. This probably represents about ¾ of the beans used for canned pork and beans in the world. Last year we introduced the variety "Seaway" and in March, 1961, these three varieties were released for commercial production: namely "Saginaw," "Michilin-62" (both Navy pea beans) and a dark red kidney variety named "sauvignon." If in East Lansing drop in for a visit."

DWIGHT BENSEN writes to us from Ames, Iowa, where he is Professor of Forestry, Department of Forestry, at Iowa State University.

ROY EGGEN is Forester for the Kimberly-Clark Corporation at Neenah, Wisconsin. He says— "Hello—Good work on the Peavey and Alumni News. Thanks for those kind words, Roy."

FRED GRAFTON is Regional Manager for the Wood Treating Chemicals Co, at Memphis, Tennessee. He writes— "Everything is fine with the Grafton's. I have a new assignment as Regional Manager for Wood Treating Chemicals Co. of St. Louis, Missouri. I find the work and the new employers delightful. Congratulations to the Rose Bowl football team!"

E. ARNOLD HANSON is Assistant Chief for the Division of Information and Education, Northern Region, U.S. Forest Service at Missoula, Montana. He states— "Boy Scouting, Community-chestng, Churching, etc. plus a full time job, two teen-agers and a fifth grader keep me busy. No wonder I get so few chances to go fishing! Proud of the Gophers." So are we, E. Arnold.

RAYMOND JENSEN sends us word from Cloquet, Minnesota, where he is Assistant Scientist at the Cloquet Forest Research Center. We're sure to enjoy the periodic visits with you, Ray.

ROBERT KOLBE sends us word from Laona, Wisconsin, where he is Forester for the Connor Lumber & Land Company.

HARRY MOSEBROOK reports from New York, New York, where he is Manager of Public Affairs for the Weyerhaeuser Company. We miss your visits at Green Hall, Harry.

THOMAS MYREN is Work Unit Conservationist with the St. Croix Company Soil Conservation District at Baldwin, Wisconsin. He states— "Now that my oldest son, Don, is enrolled in the School of Forestry I have enjoyed very much renewing old acquaintances and relationships there. Visited Itasca last summer for the first time since 1935. We completely lost amongstall the new buildings. The only structures I could recall were some of the faculty residences. Guess that's progress!" We enjoy having Don with us, Ted.

SAMUEL POIRIER is Area Engineer on the Rogue River National Forest at Medford, Oregon. He sends this note— "Have been in Medford three years (in March). As Area Engineer am assistant to the Forest Engineer on all phases of forest engineering—roads, trails, buildings and other improvements. Son, Bob, starts high school next fall, and daughter, Sandra, Jr. high. Completed 23 years of government service counting six years in army, WW II and Korean Service."

RICHARD SMITH sends us word from Columbia, Missouri, where he is Professor of Forestry, School of Forestry, University of Missouri.

CHARLES SHEARER is Owner of the Mauk Oregon Lumber Company at Eugene, Oregon. He sends this report— "Not much new at Eugene—our oldest girl is at OSC (the ag campus) at Corvalis—one girl in the 11th grade, one boy in the 9th and one in the 8th. Had a marvelous vacation in the Wallowa mountains in Eastern Oregon, good swimming, good fishing and marvelous mountain trails for horseback and hiking trips. Haven't seen any Minnesota forestry boys for John's age but we sent our Oregon U. president back there and he wins the Big Ten and a trip to the Rose Bowl for you in one year—how about that!! If any of you are going to the Rose Bowl game you'd better come back via Eugene, Oregon in the Emerald Empire the catch string will be out."

F. MacRAE THOMSON is Timber Manager for the Peninsula Plywood Corp. at Port Angeles, Washington. He sends this note— "Attended Minnesota Alumni breakfast at Western Forestry Conference in Victoria, B.C. this month. Eight present, Busy taking Washington back to the Husky stronghold on the Rose Bowl game. I'm sure happy to see that No. 1 team status."

YALE WEINSTEIN is Production Manager for the Duke City Lumber Co. at Albuquerque, New Mexico. He states— "Visited Minnesota in December 1960. Recently visited with Roan Anderson—32 at Norwood, Colorado, and Gordy Ward—36 at Dodge, Colorado. I am Production Manager for the Duke City Lumber Company with plants in New Mexico and Arizona." We sure did enjoy the visits with you last December, Yale.

1938

JAMES BUSSEY is Soil Conservationist for the U.S. Soil Conservation Service at Ashland, Wisconsin. He states— "On January 9, 1961, I was transferred from the work unit office at Phillips, Wisconsin, to the work unit office at Ashland, Wisconsin. Our oldest daughter, Susan, is a freshman at the University of Wisconsin this year where she is majoring in music."

CALVIN DE LATTRE reports from Minneapolis where he is Owner of the DeLattre Dixon Oil Company.

FRED DICKINSON is Director of the University of California Forest Products Laboratory and Professor of Forestry at Richmond, California. He states— "Oldest son, Bob, is a sophomore at the University of California, Berkeley. Tom is a senior in high school and interested in forest entomology. Youngest son, Roger, is in the 9th grade and the only one in the family happy with the outcome of the Rose Bowl game as he was rooting for the University of Washington."

WILLIAM EMERSON is with the Fire Control Division, U.S. Forest Service, at Milwaukee, Wisconsin.

JOSEPH FALBO writes to us from Hibbing, Minnesota, where he is Forester for the Iron Range Resources & Rehabilitation Commission.

RAYMONS FINN writes to us from East Lansing, Michigan, where he is Plant Physiologist for the U.S. Forest Service at the Research Center of Michigan State University.

ROBERT HILLER sends word from Hartland, Wisconsin, where he is with the American Cynamid Company in the Sales Division.

DAVID KING sends us word from Washington, D.C., where he is Assistant Director of the Division of Forest Economics Research for the U.S. Forest Service.
### CHAPMAN CHEMICALS

*preserve the value of forest products*

<table>
<thead>
<tr>
<th>Product</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>PERMATOX 10-S</td>
<td>Controls stain, mold and decay in hardwood or softwood lumber during air seasoning. Costs only a few cents per thousand board feet. Dip or spray.</td>
</tr>
<tr>
<td>AMBRITE</td>
<td>Low-cost log spray reduces losses from degrade lumber due to damage by insects, stain or mold. Equally effective on hardwood and softwood logs. Permits safe stockpiling of logs.</td>
</tr>
<tr>
<td>AMBROCIDE</td>
<td>Effective insect control chemical for use on logs and lumber. Used where stain is no problem or mixed with Permatox 10-S for complete protection against insects, sap stain and mold.</td>
</tr>
<tr>
<td>SEALTITE</td>
<td>Sharply reduces losses caused by end-checking in logs and lumber by controlling the drying rate and thereby reducing internal stresses. Available in brilliant colors for identification of quality lumber.</td>
</tr>
<tr>
<td>PENTA-WR</td>
<td>Water-repellent preservative for control of checking, swelling, warping, mold, mildew, insect attack and rot in lumber and millwork. Clean and paintable. Widely used by millwork plants.</td>
</tr>
<tr>
<td>POL-NU</td>
<td>Patented formulation of pentachlorophenol for ground-line treatment of standing poles. Replaces natural loss of preservative from original treatment and adds years of service life.</td>
</tr>
<tr>
<td>PENTA PRESERVATIVE</td>
<td>Protects wood from decay and insects. Will not evaporate or leach out. The clean, modern wood preservative widely used wherever wood is exposed to damage by weather or insect attack.</td>
</tr>

CHAPMAN CHEMICAL COMPANY
Memphis 1, Tennessee
JACK E. LARSON reports to us from Sacramento, California, where he is in the Consulting Forestry business (Forestry Appraisal-Survey, Procurement). He states—"I am Patent Classifier for the U.S. Patent Office at Washington, D.C.

ROBERT MARCH sends us word from Oshkosh, Wisconsin, where he is Manager of the Fuller Goodman Lumber Company.

JOHN MEAD sends us word to us from Denver, Colorado, where he is Civil Engineer for the U.S. Forest Service.

ALVIN NELSON is Assistant Superintendent, Forests & Parks Division of the Wisconsin Conservation Department, Madison, Wisconsin. He says—"Transferring to Madison on December 1."

PHILIP SCHROEDER writes to us from State College, Pa., where he is in the Plant Pest Control Division, Agricultural Research Service, USDA. He states—"My work is interesting and the Division's work is interesting to foresters from a career point, problems, or cooperative angles." Thanks for your very nice letter, Philip—we enjoyed it.

ED SEDLACEK writes to us from Tacoma, Washington, where he is Chief Forester for the St. Regis Paper Company.

PERRY SKARRA sends us word from Portland, Oregon, where he is with the Bureau of Indian Affairs.

RAYMOND WOOD is Director, Forest Management and Timber Procurement, for the Diamond National Corp. at Cloquet, Minnesota. He writes—"Have had a very interesting six months since taking on the new duties as Division Director of Forest Management and Timber Procurement in July. Spent considerable time in Maine getting acquainted with our woodenware operations in addition to visiting our Division office in Greenwich, Connecticut. The problems of managing the northern hardwood stands in Maine and the timber procurement problems of the area really can keep a person on the go. The problems are not much different from those we face in Minnesota—mostly the difference is in their intensity."

1939

WAYNE ACKERMAN reports to us from Ft. Meade, Maryland, where he is in the Engineer Section for the U.S. Army.

DANIEL BENJAMIN reports to us from Madison, Wisconsin, where he is Associate Professor at the Department of Entomology, University of Wisconsin.

GEORGE BOYSEN is District Ranger, Ochoco National Forest at Pineville, Oregon. He sends this note—"No changes since last year—kids getting bigger and so are parents. Except for seeing Garry Heints here in Pineville with the B.L.M. Minnesota grads are few and far between. However, fire seasons like last year bring many recreational problems of the area really can keep a person on the go. The problems are not much different from those we face in Minnesota—mostly the difference is in their intensity."

1940

RICHARD AHERN sends word from Washington, D.C., where he is Field Inspector for the U.S. Immigration and Naturalization Service.

ELDON BEHR is Associate Professor of Forest Products at Michigan State University, East Lansing, Michigan. He says—"Rumors to the effect that Michigan is broke are not true. We haven't missed a paycheck yet. I've now been teaching for two years after spending 12 years in industry. Aside from having to attend graduation exercises, I enjoy the new position a lot. We're building a new house—""A change in job and location, we will continue to operate the Mohawk Boys Camp each summer. Any Peavey reader who may be interested in sending his son to one of the best summer camps in the west may write to us in Blairsden, California, for information."

CARL SCHOLBERG sends us word from Sierraville, California, where he is District Ranger for the U.S. Forest Service.

OGDEN SHUTES sends us word from Arcadia, California, where he is Owner of Donny'sArcadia Camera.

FRANK TUCKER is District Ranger, Klamath National Forest for the U.S. Forest Service in Klamath River, California. He says—"I'm getting along in years. My son is now at college in Iowa."

ALDEN WUOLTEE reports to us from Groveland, California, where he is District Ranger on the Stanislaus National Forest for the U.S. Forest Service.

MORRIS OLSON is a Lt.-Colonel in the U.S. Army at Schenectady, New York. He notes—"We have moved again and are now living in Government Quarters. My only interest is in forestry and during our annual trip home received a very impressive orientation of the School of Forestry from Mr. K. E. Winsness. John may enroll in Minnesota next year, however, a lot will depend on what the Army has planned for him. I am interested in forestry news this year—like old times." Thanks, Morris and we enjoyed the team, too.

DON OVERHOLT writes to us from Spring Park, Minnesota, where he is with the Minnetonka Lumber Company.

JOHN M. PAULEY sends word from St. Paul, Minnesota, where he is Professor at the School of Forestry, University of Minnesota.

KEN SACKETT is in the Retail Lumber Business at the Handi Lumber Mart in St. Paul, Minnesota. He writes—"No business news, family all well. Enjoy the Peavey and alumni news. A big pot on the line to the Peavey staff." Thanks for those very kind words, Ken.

ROBERT SCHROEN is Principal of Portola High School at Portola, California. He writes—"We will be moving to Quincy, California this summer. I have just been promoted to the position of Assistant Superintendent of the Plumas Unified School District and will assume my duties there on July 1, 1961. Our oldest daughter will enter the University of California this fall. The other two girls will be in the 10th grade and 5th grade respectively. Despite the change in job and location, we shall continue to operate the Mchawk Boys Camp each summer. Any Peavey reader who may be interested in sending his son to one of the best summer camps in the west may write to us in Blairsden, California, for information."

C. ROBERT BINGER sends us word from Minneapolis, Minnesota where he is Director, Industrial Relations for the Minnesota and Oneonta Paper Company.

C. B. BUCKMAN is Assistant Chief, Timber Sales and Forest Management, for the Minnesota Division of Forestry in St. Paul. He says—"We were shocked to learn of Bob Teltgen's death (class of 1939) about a year ago. Bob was "Son of Paul" and ranked high as a student and good friend.

ROSS DONEHOWE writes from Wausau, Wisconsin, where he is Salesman for the Connor Lumber and Land Co.

CLARENCE EGGLE is Assistant Area Forester for the U.S. Bureau of Indian Affairs at Minneapolis, Minn. He states—"Wife, Gene: daughter, Gay, is 18 and a high school senior; and son, Bradley, is 13 and in junior high.

ROSS HANSON is a Fishway Biologist for the Bureau of Sport Fisheries & Wildlife at Minneapolis, Minnesota. He sends this note—"I'm still on the waterfowl surveys on the Mississippi Fishway, From the Bust in Canada to Mexico City in the south. No great changes in the family situation. Same except they are growing up each year and I'm getting older. I'm now having trouble keeping up with them on their home work so I know it's been awhile since I looked at the books. We have that trouble too, Ross.

ROBERT HELGESON is Forester for the St. Regis Paper Company at Tacoma, Washington. He says—"The outstanding event of the year was being able to attend the World Forestry Conference in Seattle last September. Meeting foresters from all over the world was a wonderful experience. We all should take more pride in our profession, On to the Rose Bowl?"

LOREN MCDONALD is Treasurer of the Salt Creek Builders at Elmhurst, Illinois. He states—"Nothing new to report. During the past year I have had the opportunity to talk to a Minnesota girl."

66
quality
Andersen uses only quality materials. Wood, various metals, plastics and glass are worked by master craftsmen so that their properties will contribute to the best possible final product.

superior design and engineering
Superior performance of Andersen Window Units starts with careful design and engineering. Materials are used with full knowledge of their advantages and limitations to get maximum results in beauty and smooth operation.

precision manufacture
Through skill and manufacturing know-how gained in over 50 years experience Andersen has developed a modern plant specifically designed to produce complete, precision-built wood window units of the highest quality.

adaptability
With a wide variety of sizes and combinations, and seven different and distinct basic designs Andersen Windows can solve any fenestration need.

economy
Windows are a lifetime investment. Economy cannot be measured by original cost. Consider final installed costs and elimination of costly callbacks.

wood: superior window material
As a material for windows, wood has many outstanding advantages. Good design, engineering experience, and precision manufacture can utilize the advantages of wood. Constant attention to these three factors makes Andersen Wood Window Units beautiful, weathertight, easy to operate and easy to install. It makes the difference between an ordinary and a quality window.

For detail catalog 611 (Sweet's Reprint) and further information see your local lumber and millwork dealer or write...
JOSEPH MELTZ is with the Los Angeles County Flood Control District at Los Angeles, California. He says—"No news now."

JAMES MICHELS writes from Susseville, California, where he is Forester for the U.S. Forest Service.

JOHN MILES writes to us from Arcata, California, where he is Chief Forest Engineer for Redwood Company.

GEORGE OLSON is with Section Head of the Technical Service & Development for the Dow Chemical Company at Midland, Michigan. He writes this note—"We have two interesting projects in our section, one on wood stabilization and another on strength resins for paper products. Our family is still the same with two boys and two girls. The latest activity has been training a Shetland Sheep Dog pup at a local training session. Our oldest girl, Sarah, did the work with her in the ring. "We enjoyed visiting with you this past winter, George.

BOB RHEINBERGER is Timber Evaluation Forester for the U.S. Plywood Corporation at Seattle, Washington. He notes—"After waiting all these years for the Gophers to make the 'Rose Bowl' and then to have it turn out as it did, We alums transplanted here in Washington will never live it down. Other than that, our five kids are growing too fast!"

MAURICE STEENSLAND writes to us from Dothan, Alabama, where he is the Owner of the M. J. Steensland Company.

WILLARD WEST is State Land Management Coordinator for the Minnesota Forest Service at Grand Rapids, Minn. He notes—"No change in my family status. On our recreation into Wisconsin and Michigan this summer we visited with my old roommate Forrest Olsen '40 and his family. He asked about many of the fellows so I'm sure he would be happy to hear from you. Dick Manly '57 worked for us at Moose Lake for a while and is now in the service."

1941

AUGUST BLOCK is District Ranger for the U.S. Forest Service at Ely, Minnesota. He states—"No change in family or job since last report."

WILBERT GRAUPMAN writes to us from Albany, Oregon, where he is Credit Sales Manager for the Sears, Roebuck & Company.

CHALMER W. GUSTAFSON is Project Engineer, Bureau of Land Management at Coos Bay, Oregon. He writes—"Still a bachelor. I guess I should have bought that ray single and carry the tax burden for the married free loaders. The past three years my work has been development planning. We on the district sold about 200MM ft. of timber a year which in turn calls for the location and building of some 30-40 miles of logging roads, no small job in the coast range of S.W. Oregon."

VERNON HAHN is at St. Charles, Illinois. He states—"Our baby just had her first birthday. We are all wrapped up in the two boys. In fact they have already outclassed the heretofore first in my collection of photographic subjects—Big Bend National Park. Good luck with Peavy business," Thanks, Vernon.

ROBERT JOHNSON is Rehabilitation Forester for the Weyerhaeuser Co., Longview Branch, at Castle Rock, Washington. He sends this note—"All is well with family and forestry work. No further comments until after the Rose Bowl!"

MIKE LATIMER is Chief Forester for the Blandin Paper Company at Grand Rapids, Minnesota. He sends this note—"Nothing new. Met Leif Lee at Morris, Minnesota on a pheasant trip that way. Also ran into Marv Smith, '41, and Parker Anderson, '21, who were visiting from Minneapolis. He states—"No change in family or job since last report."

DOMINIC LENDIK reports to us from Palo Alto, California, where he is Flight Navigator for United Airlines.

HOWARD OSMUNDSON is a Rancher at Absarokee, Montana. He writes—"Still ranching up here at the end of the road—contact with forestry alumni non-existent. Maybe one day I’ll take my Peavey and come down, but don’t keep piling on their doing. We’ll try to keep you posted, Howard.

DOUG PARSONS writes to us from Bellevue, Washington, where he is a Manufacturers' Representative.

TOM PARTRIDGE is Owner of the Cooper Concrete and Coal Co. in Newton, Iowa. He notes—"I just about make a living in the ready-mixed concrete business, but in addition I am President of State Center Concrete (ready-mix), Treasurer, Dealer's Warehouse (wholesale building material), Board member, Hart Lumber (line of four yards), Secretary, Newton Enterprises, Inc. (Land developers) and I build a few houses in my spare time. The pay off of my jobs are for the title rather than compensation, otherwise I wouldn’t be working so damn hard to make ends meet. This was a good year for hunting. I shot several limits of pheasants and got more than my share of deer in Wyoming and Iowa. Flyboy Bud Hanson '40, following the ducks for Uncle Sam failed to herd many of his charges through Iowa. Saw Bud last summer when he was all dressed up as a colonel, or whatever the Navy calls that rank, in the Naval Air Reserve.

ROBERT PETERSON is General Manager for the Palmer G. Lewis Co., Inc. at Seattle, Washington. He sends us this note—"Greetings to the hard working Peavey staff. Since I was doing the same thing you were (slaving over the Peavey 1941 edition) just 20 years ago, I know how much detail is involved in the publication. In those days we used to try to get a buck out of the alums, and it wasn’t always easy. The $3.50 probably comes easier today—a sign of the times. Just hope the same ratios won’t apply in 1981. Keep up the good work and never forget that the hard working Peavey staff can do as much good as pounding those books every minute of the day and night. Thanks for those sound words of advice, Robert. we agree 100%.

EDWARD REXER is Assistant Director of Research for Minneapolis Honeywell Research Center at Hopkins, Minnesota.

SEDGWICK ROGERS sends us word from Neenah, Wisconsin, where he is a Research Chemist for the Kimberly-Clark Corporation.

ROBERT ZAMOR writes from Kearny, New Jersey, where he is Senior Engineer for the Western Electric Company.

1942

JOSEPH APP sends us word from Two Harbors, Minnesota, where he is District Ranger for the U.S. Forest Service.

BRUNO BERKLUND writes from Port Edwards, Wisconsin, where he is Forester for the Neenah-Edwards Paper Co.

ORVILLE HALE reports from Iron Mountain, Michigan, where he is District Forester for the Kimberly-Clark Michigan, Inc.

ARTHUR JANURA reports from River Forest, Illinois, where he is Superintendent of Maintenance and Operations for the Forest Preserve District of Cook County, Illinois. Thanks for those information pamphlets on the Reserve, Arthur—we enjoyed them.

HOWARD SCHMIDT reports from Two Harbors, Wisconsin, where he is Owner of a resort and is a Forestry Consultant.

1943

HARVEY DIERF is a Manufacturers' Representative for Ivanhoe Sales in Minneapolis. He writes—"Have two boys and two girls and still living in Plymouth Village, a suburb of Minneapolis. I enjoy attending the parties held by the Twin City Alumni each spring and fall. Had nice visit from Ray Jacobus '47 and family this summer. Also spent night at home of the Co施berg family at Port Edwards, Wisconsin." Thanks for your many contributions to the MFAA, Harvey.

DAVID FRENCH sends us word from St. Paul where he is Associate Professor in the Department of Plant Pathology, University of Minnesota on the St. Paul Campus.

PAUL GOODMAN is Consulting Forester and Tree Farmer at Corvallis, Oregon. He notes—"Growing trees—Christmas tree size through 6' old growth. Operating an Alder-Maple sawmill."

LOWELL NELSON sends us word from St. Paul, Minnesota, where he is with Forestry Enterprises, Inc.

ROBERT NELSON is with Forestry Enterprises, Inc. in St. Paul, Minnesota. He writes—"Our family is well stationary in number but not in size or agitation. Mitch the youngest will be in school next year. That will make four lunches. Business, Forest Enterprises, Inc., has, as usual, good times and prospects just around the next bend.

We enjoy your visits at Green Hall, Bob."

1944

ROBERT BUCHHOLZ sends word from Asheville, North Carolina, where he is Benefit Plan Consultant and Associate with Adon Smith Associates.

1946

VICTOR CLAUSEN is Chief of Technical Services for the Simpson Timber Company at Bellevue, Washington. He writes this note—"After ten years in the Redwood Country we’re moving to the Seattle area. After the last Rose Bowl game this may not be easy. Moved into the new Simpson Timber Co. Laboratory on February 1, 1946."

Ralph Anderson reports from St. Paul, Minnesota, where he is Chief, Division of Forest Disease Research, Lake States Forest Experiment Station, University of Minnesota.

GLENN DEITSCHMAN writes to us from Ames, Iowa, where he is Research Center Leader for the U.S. Forest Service at Iowa State University.

ORVILLE HANNA writes from Murray Hill, New Jersey, where he is a member of the Technical Staff for the Bell Telephone Laboratories. We enjoyed visiting with you at Green Hall, Orv.

LESLIE HENDRY is Staff Officer, for the U.S. Forest Service at Pike National Forest, Colorado Springs, Colorado. He writes this note—"Now residing in Colorado Springs, Colorado, where I am now living, I have a number of active friends and enjoy knowing each of them. They are most helpful in my efforts to keep you informed of the forest services in the area."

1947

Ralph Anderson reports from St. Paul, Minnesota, where he is Chief, Division of Forest Disease Research, Lake States Forest Experiment Station, University of Minnesota.
Greetings from

HOWARD E. OLSON—'47

SONFORD PRODUCTS CORPORATION

Wood Preservatives
working as Timber Management Recreation and Lands, and Fire Control Staff Officer on the Pike National Forest. Family now consists of five, Shirley, and three boys ages 11, 9, and 1 year. Moved to Colorado last year, South Dakota in the late 1960s, after spending four years on the Black Hills National Forest in positions from J.F. through staff officer in Recreation and Lands.

KEITH KUEHN is the Sawyer County Resource Development Agent at Hayward, Wisconsin.

RAY HANSON is a Science Teacher at the Los Lomas High School, Walnut Creek, California. He states—"Since last news report, I have seriously taken up the game of golf, and have broken 95 once. Had one good fishing trip this fall and caught one 16" rainbow weighing 2 lbs. My partner caught one 22½" (long weighing 4½ lbs). I'm still busy teaching and enjoying it more each year. My best regards to the fine staff of the Peavey." Thanks and best regards to you, Ray.

ARNOLD R. JOHNSON sends us word from International Falls, Minnesota where he is Land Commissioner for Koochiching County. Congratulations on your receiving the 2nd Annual Forestry Club Achievement Award. Minnesota Mining and Manufacturing Co. in St. Paul, Minnesota where he is Wood Procurement Manager for the Ohlin Mathisen Chemical Corp.

RICHARD MARDEN is Research Forester for Lake States Forest Experiment Station at Wausau, Wisconsin. He writes—"I'll complete the first phase of field work for the Sugar Maple Tree Quality Study in October and the entire family is very happy to have me home working on the analysis of over 6,000 Kodachrome slides. We managed to get to one Minnesota football game, Went to Madison in November and watched the Gophers come out victorious. The family loyalty was somewhat divided—Karen and Mike rooting for South Dakota, and Andy and I for Minnesota. We've spent the winter making our basement more livable. The door is always open. Come see us!"

EDWIN MOGREN is Associate Professor of Forest Management, College of Forestry, Colorado State University, Fort Collins, Colorado. He reports—"The big news of 1960 was the arrival of our second son, Eric. Paul our older son, 10 months. I'm sure his baby brother is a mighty fine young man as do his parents. The activities on the campus are increasing in tempo and scope. Perhaps the most interesting is the start of our Forestry Summer Camp into a Biological Station with the aid of a National Science Foundation Grant. Am looking forward to meeting old friends at the SAF meeting next fall in Minneapolis." Congratulations to you and the Ms. on the new arrival.

HOWARD OLSON is with the Sunbird Products Corporation in Minneapolis. He notes—"I'm no quitter, we are expecting our fourth child in March. We are hopeful that 1961 will see the completion of the Research Laboratory on the Campus. Again I would urge all foresters to join alumni groups and support the U. of M., thereby." Congratulations to you and the Ms. on the new arrival, Howard, and thanks for your continued work and interest in the MFAA.

OSCAR STABO is District Ranger for the U.S. Forest Service at Lesterville, Missouri. He notes—"Four children, two of which are in school. Best regards to all of the faculty and friends. Enjoyed the 1960 Peavey, especially Alumni session. Congrats on a good job well done. May your 1961 issue be bigger and better." Thanks for those very kind words, Oscar.

ROBERT WOOD is in Quality Control for the Paper Manufacturing Department, Minnesota Mining and Manufacturing Co. in St. Paul, Minnesota. He states—"Our oldest girl, Judy, was West St. Paul Homecoming Queen this fall." Congratulations to your daughter, Robert.

JOHN ZIVINSKA sends us word from Berkeley, California, where he is Professor of Forestry at the University of California.

1948

CLIFFORD AHLGREN is the Director of the Quetico-Superior Wilderness Research Center at Ely, Minnesota. He writes this note—"Spent three months in Finland and Sweden studying their research on pine forest fires. Returned in late July to begin work on a two year National Science Foundation grant for research on ecological effects of forest fire in Superior National Forest. Attended World Forestry Congress in Seattle. It was good to see old classmates." Thanks for your very fine talk (and slides) on Finland坚果 at the MFAA Spring Banquet. Cliff.

ALVIN HALLGREN writes to us from the St. Paul Campus where he is working on the analysis of over 6,000 Kodachrome slides. We managed to get to one Minnesota football game, Went to Madison in November and watched the Gophers come out victorious. The family loyalty was somewhat divided—Karen and Mike rooting for South Dakota, and Andy and I for Minnesota. We've spent the winter making our basement more livable. The door is always open. Come see us!"

ALVIN HALLGREN writes to us from the St. Paul Campus where he is with the School of Forestry Staff. He notes—"We're well settled in our new home. Steve and Kathy are well and happy in their new school here in Roseville. If our address here was Cedar Street, you couldn't tell if it was Crossett or Roseville. Kids all over the place.

MEREDITH INGHAM reports from Boulder City, Nevada, where he is Nursery Superintendent at the Willow River Nursery. We sure did enjoy that trip on Dec. 27 and 28, John—thanks very much to you and your crew.

ALVIN HALLGREN writes to us from the St. Paul Campus where he is an Instructor on the School of Forestry Staff. He notes—"We're well settled in our new home. Steve and Kathy are well and happy in their new school here in Roseville. If our address here was Cedar Street, you couldn't tell if it was Crossett or Roseville. Kids all over the place.

HOWARD JOHNSTON is with the Data Processing Systems for the I.B.M. Corp. at Tacoma, Washington. He writes—"Started in a new line of work this past year. Data processing is a field which has applications in many professions among which are forestry and forest products. I'm sure many more foresters will be made aware of this in the near future. We moved from Ely to Tacoma in October 1960 and enjoy greater freedom of movement in this smaller city. Our family the same in number, one boy and three girls, but is growing rapidly in noise and mischief-making ability. Our best wishes to all of you in your endeavors." Thanks, Howard.

PALMER KVALE writes to us from Catawba, South Carolina, where he is Plant Superintendent for the Bowater Board Company.

DAYTON LARSEN reports to us from Virginia, Minnesota, where he is a Forest Supervisor for St. Louis County under the University of Minnesota Extension Service.

J. DONALD MEYER is a Biology Teacher at Edina-Morningside High School at Edina, Minnesota.

MERLE MEYER reports to us from St. Paul, where he is Associate Professor of the School of Forestry, University of Minnesota on the St. Paul Campus.

BILL MILES reports to us from St. Paul, Minnesota, where he is an Instructor at the School of Forestry, University of Minnesota.

RICHARD NEWMAN writes to us from St. Paul, Minnesota, where he is Sales Manager for the U.S. Plywood Corporation. Thanks for all of your interest in the MFAA, Dick.

RALPH NORDSTROM sends word from Lakefield, Minnesota, where he is Soil Conservationist for the Soil Conservation Service. We enjoyed visiting with you and the Mrs., Ralph.

BERNARD PARADIS is Manager of the Lompett Lumber Co. at Sturges, South Dakota. He states—"Live in Sturges and Manager Lumber Yard for Lompett lumber Co. Have three children—Steve 12, Kevin 8, and Ann 7. We like the Black Hills of South Dakota and I also like lumber business."

JAMES PETERSON is District Forestier for the Crossett Forestry Division of the Crossett Company, at Crossett, Arkansas. He writes—"No changes—well—progressing only slightly backward." We enjoyed your visit last summer, Jim.

RICHARD REINARZ sends us word from Moorhead, Minnesota, where he is County Supervisor for the Federal Housing Authority.

RICHARD SCHAEFER is Resident Forester and Log Buyer for the Columbia River Co. in Salem, Oregon. He notes—"The only important change was the arrival of a sister to keep our two boys company. No changes in work—just more of it."

RICHARD SCHROEDER is Forester in the Oregon State Office of the U.S. Bureau of Land Management, Portland, Oregon. He sends this news note to us—Columbia desk bound about 60% of the time. I get very little exercise, and am developing quite a butt swell. Got rid of some of this the last day, hunting elk last fall. Shot a real trophy bull; weight about 800 lbs. on the hoof. Family is well. The twins are getting to be big boys; the older girl, Susan, will start school this year."

EUGENE STEINBRENNER sends us word from Centralia, Washington, where he is Forest Soils Specialist of the Forestry Research Center for the Weyerhaeuser Co.

DAVID SWEDSON sends us a note from Midland, Texas. We miss you David—drop us a line when you have time.

1950

WILLIAM AULTFATHER reports in from St. Paul, Minn., where he is Staff Forestier for the Minnesota Division of Forestry (Forest Management and Sales).

ANDREW BARTLETT is Produce Manager for Schillers I.G.A. Grocery Store at St. Paul.

ROBERT BERGOQUIST is with the Consumers Lumber Co. at Spirit Lake, Iowa. He sends this note—"Mary joined brothers Peter 3, and Mark 1½ in August. Everyone is fine." We enjoyed visiting with you last summer, Bob.

EDWARD CHRISTIANSON is Forester for the Northern Pacific Railroad at Clux Elm, Washington. He notes—"Moved out here in June, 1960. Have found that this is a lot different than the flat land (Lake States) forestry I'm used to. Got my 1st deer. A 5 point (trophy) mule deer."

GENE COOK is Logging Superintendent for the diamond National Corporation at Orr, Minnesota.

FREDERICK ERIKKSON writes to us from Duluth, Minnesota, where he is Chief Accounts Payable Clerk for the Duluth, Missabe and Iron Range Railway Company.

TONY GRUBA is Resident Forestier for the Publishers' Paper Co. at Estacada, Oregon. He writes—Same place—same kids. Hope to go to the Rose Bowl, Having Dick Schafer, 49 for Thanksgiving. Bet 4 to 1 on Minnesota over Washington." (Ed. note: "Ouch!!")

JOHN HAMILTON is Research Forestier for the Halvorson Trees, Inc., at Duluth, Minnesota. He reports—"Have had two additions to family since last year—David and Danny, twin boys. Have same job as last year but have Columbia desk bound so am busy running back and forth between plant and cutting crews. Our plantations are beginning to show possibilities but more work on our coffee offers of previous year so—come on." Double congratulations to you and the Mrs. on the new arrivals, John,

MEL HAUGEN sends us word from St. Paul, Minnesota, where he is Sales Representative for the U.S. Plywood Corporation.

GORDON LANDPHIER reports to us from Spooner, Wisconsin, where he is Forestier with the Recreation and Lands Division of the U.S. Forest Service.

VERNON LINDHOLM writes to us from Milwaukee, Wisconsin, where he is Forester with the Recreation and Lands Division of the U.S. Forest Service.

JACK MORTENSEN is Tending Engineer for the G. M. Stewart Lumber Co., in Minneapolis, Minnesota. He states—"Now have three girls and one boy." Congratulations to you on the fine job as president of the MFAA this past year, Jerry—it was a real pleasure working with you.

JOEL NITZ is District Ranger of the Connex Ranger District at Andalusia, Alabama. He notes—"Besides an interesting and full time job as district ranger, the Forest Service detailed me for a couple weeks to North Carolina and Tennessee in the summer and then to California (Valcano Fire) for couple more weeks in the fall. Met Gordon Close—50 same detail. Still can't beat the South."

DALE PFANKUCH writes to us from Farmington, Utah, where he is Research Forestier at the Watach Research Center, for the U.S. Forest Service.

PAUL ROEBER reports to us from Broken Bow, Oklahoma, where he is Chief Forestier for Dieks Forests, Inc.

HOWARD RUSSSELL is with the Simplot De Voe Lumber Company at Chiloquin, Oregon. He reports—"Family remains the same. Job about the same. This pine country is a fine place to live and work. Sure would like to see any of you guys that are passing through."

KEN SAULIN is Forestry Service Office for the U.S. Forest Service at Springfield, Arizona. He writes this note—"Family and job status quo. Three Minnesota grads on the Apache National Forest at present, so Minnesota is batting a pretty good average along that fine.

DIXON SANDBERG writes to us from Neenah, Wisconsin, where he is in Research and Development for the Kimberly-Clark Corporation.

ROBERT WALLIN is Branch Manager for the U.S. Plywood Corporation at St. Paul, Minnesota. He notes—"Burt Thayer retired in April and I was appointed manager of the St. Paul warehouse—Dick Newman, 49 is now Sales Manager—also have able assistance from John Bergeron, 49, Mel Haugen, 50, John Perry, 53, Bob Sheppard, 56—all forestiers."

WALTER B. WALLIN '50, has accepted a two and one-half year assignment with ICA in Pakistan. His address is as follows: c/o U.S.O.M., White House, Nandankanan, Chittagong, East Pakistan. Wait reports that he loves his work, attempting to teach the natives the modern forestry methods. He finds it a very challenging opportunity and very interesting. His family have taken up residence in Chittagong, also.

1951

RONALD ALMEN is with Airway Products, Inc. at Princeton, Minnesota.

CHARLES ANDERSON is Assistant Ranger for the U.S. Forest Service at Glide, Oregon. He writes—"I am still with the Forest Service on the Umpque National Forest. Keep running into many Minnesota grads throughout Region 6."

ROBERT GARNER is with the Western Electric Company, Inc. at Santa Monica, California.

STANLEY GRUETZMAN reports in from St. Paul, Minnesota, where he is Owner of Bio-Control, Inc. (preservative and treating specialists). We sure do enjoy your stimulating visits to Green Hall."

EDWIN HASLERUD sends word from Virginia, Minnesota, where he is Forestier for Kimberly-Clark of Minnesota, Inc.

ROBERT LINDE sends us word from Camas, Washington, where he is Supervisor of the Paper Products Services for the Crown Zellerbach Corp.

ALLEN LUNDGREN is Research Forestier for the Lake States Forest Experiment Station at Grand Rapids, Minnesota. He reports—"We bought a house in August, 1960. No other news."

WILLIAM MIKE sends us word from Chicago, Illinois, where he is Inspector for the Western Electric Co., Inc.

DONALD PETERSON is with the U.S. Forest Service at Murphy, North Carolina. He sends us this note—"At still working for the U.S. Forest Service at Murphy, North Carolina. Just returned from nine weeks of traveling with two groups of foreign visitors. Accompanied a team of six Spanish and one Peruvian forestier on a forest utilization tour of the South and following that a six weeks tour with the Japanese Forestiers to the forests of the North, East and South. Met many people in forestry and saw the variety
In the woods, Hyster Towing Winches, Yarders, Donkeys, Logging Arches provide high-production log handling.

In the mill, Hyster Industrial Trucks are the industry's standard for fast, economical lumber handling.

Hyster "Grid" rollers develop durable, low-cost haul roads.

Hyster, "Grid", Donkey and Straddle Truck are registered trademarks of Hyster Company.
of work they are doing. The trip was both educational and very
enjoyable."

DONALD PRIELIPP reports to us from Norway, Michigan, where
he is Forest Pathologist for Kimberly-Clark of Michigan, Inc. We sure
do enjoy your visits to Green Hall, Don.

EUGENE SCHOF is Assistant Secretary to the Wisconsin State
Forest Commission, and he is a Forest Management Specialist, State
Forest Service, Wisconsin. We look forward to his visit next year, Ken.

ROLAND SCHOFENIK sends us word from St. Paul, Minnesota, where
he is a Graduate Student at the School of Forestry, University
of Minnesota. Keep up the good work, Roland.

WARREN SONTAG is the Manager of the Sontag Lumber Com-
pany at Heron Lake, Minnesota. He states—"Married and have one
son and two daughters."

PAUL SUNDIN sends us word from Alto, Texas, where he is Dis-
trict Supervisor for the International Paper Company.

WALLACE TRUMAN is at McCall, Idaho. He writes this note—
"Same job basically. Lumber business is slow; as you know; I am
at the summer employment area, Gerald.

Organization for Western Electric Co., Inc. at New York. He sends us
information about our football teams but each year they fail to make the
playoffs."

DONALD SCHMIEG is Forest Entomologist with the Lake States Forest
Experiment Station at St. Paul, Minnesota. He sends this note—
"No change in vital statistics. Still trying to con-
tinue with the work of my life but with a new baby coming this year."

KEN WICKSTROM is Methods Specialist with Supplies Inspection
Organization for Western Electric Co., Inc. at New York. He sends us
information about his family and his work.

EVERT WICKSTROM is District Forester for the Diers Forests, Inc.
at Broken Bow, Oklahoma. He says—"No new additions to the fam-
ily. Wife and kids are doing fine. I sure was glad to see Minnesota's
football team come through this year. For seven years now I've been
telling everyone about our football teams but each year they
let down. This year finally changed all that. I'm still at the same
job at the same location here in Oklahoma. Our production load,
post poles, sawlogs and pulpwod, has dropped down quite a bit
this year. We have been doing some cruising to take up the slack. I plan to attend the S.A.F. meeting in Min-
neapolis this fall so I hope to see you then."

KEN WICKSTROM is Methods Specialist with Supplies Inspection
Organization for Western Electric Co., Inc. at New York. He sends us
information about his family and his work.

EDWARD BALLMAN is Forestfor the Iron Range Resources &
Rehabilitation Commission at Park Rapids, Minnesota.

WILLIAM BAUMAN is a Salesman for the Prudential Insurance
Company, at Madison, Wisconsin. He reports—"...."

BRUCE BROWN sends us word from Cloquet, Minnesota, where
he is Acting Superintendent of the Cloquet Forest Research Center.

RICHARD BURKE is District Ranger, Gifford Pinchot National
Forest, near Longview, Washington. He writes this note—"One major change
this year. We adopted an infant daughter in June of this year. Her name is Carol and we are very happy to have her with us."

ROBERT CAMPBELL is Assistant Professor of Plant Pathology
at the University of California, Davis, California.

JOHN DAVIS is Assistant Area Supervisor for the Game Manage-
ment Commission, Dept. of Conservation, Department, Spooner, Wis-
consin. He writes—"No change in vital statistics. Still having to con-
vince Wisconsin hunters that the deer herd hasn't been wiped out
for the umpteenth time and that a 'Game Manager' isn't the same
as a 'Game Warden.' Mostly desk work now but am not getting
young, perhaps the salary has something to do with this phenomena.
When are you coming down for "that visit," John?"

WILLIAM HAMLIN reports to us from Ely, Minnesota, where he
is Forest Engineer with the Tomahawk Timber Company.

JAMES HAUAN sends this note—"We moved to St. Peter, Min-
nesota, in September of 1960 where I am Vicar of the Church of the
Holy Communion. We are expecting another addition to the family
by the time the Peavey has gone to press."

ROBERT HEY lands word from Wright City, Oklahoma, where he
is District Forester with Diers Forests, Inc.

PHILIP HEYN sends us word from Anchorage, Alaska, where he is
a Forest Engineer at Chugach National Forest for the U.S. Forest
Service.

JOHN HILLMAN is a Captain in the U.S. Army at Fort Camp-
bell, Kentucky. He sends us this note—"Happy to announce the
arrival of our first child, Linda Diane, born Sept. 10, 1960. Have
been in the States for two years now, which means I'll probably
have an overseas assignment by this time next year. At present I am
still a Company Commander on jump status with the 101st Air
borne Division at Ft. Campbell, Kentucky."

DENNIS JOHNSON is a Lumber Buyer with the Metropolitan
Lumber Co., at Chicago, Illinois. He notes—"We are very happy to
have been blessed in April of 1960 with a daughter to go with our
two boys. Still enjoying the wholesale lumber business but miss good old Minnesota."

KENNETH JOHNSON is the Owner of the K. J. Johnson Con-
struction Co. at St. Paul, Minnesota. He writes—"Situation still the
same as last year; one wife, one daughter and self make up family,
same contracting business and same good health for all. Best wishes
to everybody. Thanks, Ken and the same to you and yours."

RICHARD LEINFELDER is with the Chapman Chemical Co., Wood
Preserve Sales, Minneapolis, Minnesota. He sends this note—
"Two children to report this year. Jim 4 years old and a new Mary
born last June. Working for Chapman Chemical Co. and can usually
be found anywhere from Edmonton on the North to Columbia, Mis-
soori on the South."

RICHARD MUNDINGER is Appraiser with the U.S. Fish & Wildlife
Service at Minneapolis, Minnesota. He states—"I am still working
for the U.S. Fish & Wildlife Service purchasing land for waterfowl
production. We have a number of Minnesota foresters on our staff.
Vincent Schurr '39, Marvin Reine '56, Robert Jorgenson '48, Bernard
Schafer '52, Marvin Turner '60, William Swanson '60, William Res-
man '56, Harold Benson '51, Donald Nelson '59, Barry Peterson '56,
George Weyker '57, and George Weyker '57."

JOHN PERRY is Outside Salesman for the United States Plywood
Corp. at St. Paul, Minnesota. He writes this note—"I began traveling
southern Minnesota, northern Iowa, and eastern South Dakota last August.
I have found several alumni in the lumber dealers I call on and other
building material salesmen I've met on the road. We've been miss-
ing you at the MFAA meeting, John."

ALLEN PRIGGE is Forester for the U.S. Forest Service at Eugene,
Oregon.

DONALD SCHMIEG is Forest Entomologist with the Lake States
Forest Experiment Station at St. Paul, Minnesota. He sends this note—
"No change in vital statistics, but will be visiting some of our friends
over in the Wisconsin Con-
servation Department." How's the trout fishing on those "field trips,"
Don?

DOUGLAS SHENKYR is Forester for the U.S. Forest Service at
Bozeman, Montana. He states—"I've moved and also have an heir
since I last reported. See R. E. 'Dick' Pennington—55, periodically as
he is Wildlife Specialist on the Forest. Hope to see many at the
SAP meeting in Minneapolis."

GIL THOMPSON is Superintendent of the Great Plains Supply Co.,
Minneapolis, Minnesota. He states—"Our family includes Laurine B,
Beth S, Pam I, and the dog. We're happy to be in Minnesota for
over a year now. Have bought a house in Madison, my home town."

LEIGHTON WALSTROM is Wood Technology with the Plywood
Research Foundation in Tacoma, Washington. He writes—"Big news in our family was our fourth child. We now have two boys and
two girls."

1953

ROBERT ARKINS is State Forester, Dept. of Game, Fish and Parks,
Division of Forestry, Pierre, South Dakota. He states—"Appointed
State Forester of South Dakota in November, 1960." Congratulations,
Robert.

DON BUTLER writes from St. Paul, Minnesota, where he is an
Instructor at the School of Forestry, University of Minnesota. (Ed.
ote: Don is now with the Canton Lumber Co. of Mpls., Minn.)
Thanks for all of your interest and help on the MFAA. Don.

ALAIN CHARDON is Manager of Eastern Distributors, Inc., at
Concord, New Hampshire. He reports—"Family—two boys and a girl.
I invented the Sno-Mo-a machine used at Squaw Valley during
the Olympics last February. It was used for conditioning the cross-
country ski runs and trails and courses. Proved most successful."

DAVID CROSS is Assistant Secretary and Manager of the North-
western Federal Bank at Bloomington, Minnesota. He states—"An-
other busy year. Our first girl born in January, 1960, making it two
boys and one girl. Promoted to manager of our new Bloomington
branch in October. Side business of manufacturing and sale of Tot-
loks is time consuming, but interesting. I may even break even this
year."

KENNETH DYKEMAN is a Forester with the U.S. Forest Service
(Deschutes N.F.) at Bend, Oregon. He notes—"Transferred from

HARDWOOD LUMBER

DRAWER NO. 336
PARIS, ILLINOIS
Klamath Falls to Bend, Oregon, last June 12, 1960. Working in Forest Supervisors Office as Assistant to the Timber Management Staff Officer.

WILLIAM MAGNUSON is with the U.S. Forest Service at Grangeville, Idaho. He states—"Became Ranger on the Moose Creek District in June."

DEE NELSON is a Sales Representative for DeVac, Inc. at Minneapolis. He writes—"Travel from Rapid City to Boston and from Wisconsin to St. Louis. Family: wife, Ann, Kathy b, Steven 4, and Barbara Z.

LEWIS NICHOLSON sends us word from Portland, Oregon, where he is Forester for the U.S. Forest Service.

ROBERT NIXON writes to us from Oakridge, Oregon, where he is Highway Engineer for the U.S. Forest Service.

ROBERT PERSEE reports to us from Quinault, Washington, where he is Assistant Ranger for the U.S. Forest Service.

DEAN REED is with the U.S. Forest Service at Harlonton, Montana. He states—"Still working in the cow country of Lewis & Clark Forest. We have an annual cut of 10 million feet on the district so you can see there is other work besides cowpunching. Family still has two young ones although that can change in an hour or a day. No preference this time unless there is a new model out. Our new arrival is due before the 1st of December, 1960. Harlonton is right on Highway No. 12 on the way west; if anyone passes through we'd sure welcome a little visit. Might even make some new coffee from fresh grounds." We sure do enjoy your visits to Green Hall, Dean.

DAVID ROSDAHL is District Ranger for the U.S. Forest Service at Oden, Arkansas. He writes—"Had increase in family during past year, now three girls and one boy. Still in Arkansas and enjoying it very much.

HOWARD VENNERS sends us word from Indianapolis, Indiana, where he is Inspector for the Western Electric Co. How are we doing with that advanced degree, Howard?

1954

NORMAN ANDERSON sends us word from Truckee, California, where he is Assistant District Ranger for the U.S. Forest Service.

KENNETH ENGELBRETSON is Forester for the Bureau of Indian Affairs at Porterville, California. He states—"Married July, 1959."

RONALD FROELICH is Plant Pathologist for the Southern Forest Experiment Station at Gulfport, Mississippi. He states—"Wife Louise and Eric, transferred from Asheville, North Carolina to Gulfport, Mississippi in November, 1960. Jerry Koching '54—old Minnesota sidekick, working for Forest Disease Lab, too."

RALPH JOHNSON is District Ranger for the U.S. Forest Service at Sundance, Wyoming. He writes—"Still learning the trade of being a district ranger. I have an excellent opportunity, here in the Black Hills, to apply intensive Forest Management, since we recently got into the pulpwod business which was a healthy addition to our Timber Sales program. The management situation here in the northern Black Hills is about the same as that of Red Pine in Minnesota. The family status is still the same and we still enjoy the Rocky Mountains." Hello to the Mrs., Ralph.

DAVID KING reports from the University of Minnesota School of Forestry where he is a Graduate Student. We miss your company down there, Dave.

GUY SCHAEPER is Research Chemist for the M & O Paper Company at International Falls, Minnesota.

EUGENE TAYONATTI is Claims Adjuster for the Farmers Insurance Group at Merced, California. He reports—"Just had a baby girl for a Christmas present, Brings the family to four children—two boys, two girls. Took another elk hunting trip to Idaho this year but got skunked. There is a lot of excitement generated out here over the U. of M. making the Rose Bowl trip."

DENNIS WOOD is Salesman for the Gregory-Poole Equipment Co. at Raleigh, North Carolina. He states—"Nothing much new with the woods—couldn't stay away from Caterpillar for long so now I'm a paddler. Forestry background very important in tracking down pulpwood producer prospects. Come see us."

1955

THOMAS RUDOLPH is Research Forester for the Northern Institute of Forest Genetics, Lake States Forest Experiment Station, Rhinelander, Wisconsin. He writes—"Forest Genetics Research, family of four youngsters, and organizations keep life from getting dull. The Ph.D. thesis in progress, Enjoyed visits with many Minnesota grads who stopped in during the year."

JOSEPH SCERNICK is Area Forester for the Marathon, Division of American Can Co. at Lakewood, Wisconsin. He states—"Family now includes two boys and two girls. Ken Steiro '59 hired as my assistant."

EUGENE STROMMEN is in Sales and Cost Estimating for the Republic Creosoting Co. in Minneapolis. He sends this note—"Hello to all. Lumber Merchandising crowd of '52-'55 vintage. What has become of Rolf Wundt's 'Old Club' connection? Perhaps a reunion is in order this summer now that the Army and Air Force has returned most of its foresters to domestic affairs. The past year's forestry banquets were a welcome opportunity for keeping the class contacts alive. The programs and refreshments certainly are to be complimented." Thanks very much, Gene.

1956

RICHARD FANDEK reports to us from Minneapolis, where he is in Lumber & Millwork Sales for the Westland-Westberg Lumber Co.

GORDON GLAIN is with the U.S. Forest Service at Happy Camp, California. He sends this note—"Am still at Happy Camp as T.M.A. and enjoying it very much. Each day presents something new and challenging. Skied on Shasta Thanksgiving weekend which not only was enjoyable, but meant 'water'! It was great for Minnesota to make the Rose Bowl and I hope to be there too. Greetings to everyone."

PHILIP OPSAL writes to us from Fort Collins, Colorado, where he is Owner of Jason Associates.

BARRY PETERSON is District Ranger for the U.S. Forest Service at the Santa Rita Ranger District, Tucson, Arizona. He says—"No change in family. Still a desert rat."

HERB ROSENBerg writes to us from Seattle, Washington, where he is Forester for the U.S. Plywood Corporation.

HAROLD STEVENS is at the Ashley National Forest in Vernal, Utah, working on insect control for the U.S. Forest Service. He states—"Working for the Ashley National Forest out of Vernal, Utah, Supervisor's office. In the summer, I am Assistant Project Supervisor for the insect control projects and in the winter I am sort of a catch-all for any job that needs doing cheap. We (my wife) had a daughter, Linda Kay last April.

MICHAEL ZELLE is Assistant District Ranger for the U.S. Forest Service at Red Bluff, California. He notes—"In December was transferred from Chico, California to Red Bluff. Wife expecting and I am enjoying the skiing here in northern California."

1957

RICK BECKER writes to us from Birmingham, Alabama, where he is Salesman for the Anderson Corporation.

DOUGLAS BOLSTORFF is a Basketball Coach at Macalester College in St. Paul, Minnesota. He notes—"Wife, Helen, and baby girl, Lynn."

ROBERT DAVIDSON is Extension Forester at Iowa State University at Ames, Iowa. He states—"New daughter arrived in September, 1960."

EVERETTE ELLISON reports to us from Hoopa, California, where he is Forester for the Bureau of Indian Affairs.

WILLIAM GANNAWAY reports to us from Cass Lake, Minnesota, where he is State Game Warden for the Minnesota Conservation Department. I still think that your solutions to 'that problem' up there are a little too extreme, Bill.

ROBERT HERBST is District Forester for the U.S. Forest Service at Cambridge, Minnesota. He states—"Family still same size—two boys. Welcome mat always out. I see a few of the boys from School once in a while." We enjoy your visits to Green Hall, Bob.

THEODORE KUBITZA is Forester with the U.S. Forest Service at Yreka, California. He states—"On Management Plans and Inventory for the Klamath National Forest."

KARL MECKLENBURG writes to us from Oakridge, Oregon, where he is Timber Management Assistant for the U.S. Forest Service.

WILLIAM PETERS reports from Gainesville, Florida, where he is an Instructor at the School of Forestry, University of Florida.

DONALD PINSKA is in Research and Development at the Technical Center, Weyerhaeuser Company, Longview, Washington. He writes—"Still in Silvatek Development and Service, working on particle board and flake board. Family is fine and enjoying the west. See Hulan Freeman—'54 at work; he came to the Technical Center here in Longview in the fall of 1960."

ROBERT PURCELL is Planner Neighborhood Advisor for the Minneapolis Housing and Redevelopment Authority. He states—"Responsible for establishing new programs of neighborhood improvement in Minneapolis as set forth in the latest concepts of urban renewal."

ROBERT RICE writes to us from Sonora, California, where he is Assistant District Ranger at the Summit Ranger Station for the U.S. Forest Service. We sure did enjoy visiting with you during the Christmas holidays, Bob.

FLOYD RUDY is Forester for the U.S. Forest Service at Brookings, Oregon. He notes—"Transfered to the 'Banana Belt,' Brookings, in September, will visit F. S. District, Bill Skinner '58 is at Powers. Ran into Bob Rice, '57; Morion Borrell, '57; Ted Kubita, '57; Gordy Gian '56 and Vince Olson '39, during the year and reminisced a while with each other over a friendly schooner. My best regards to all at the Forest School."

Thanks and the same to you, Floyd.

ROBERT SHEPPARD sends us word from St. Paul, Minnesota, where he is with the U.S. Plywood Corporation.

RICHARD WARING writes from Berkeley, California, where he is a Ph.D. candidate at the School of Forestry, University of California.

JACK WIELAND sends us word from Winona, Missouri, where he is Forester with the U.S. Forest Service.

BOB WILLIAMS is District Ranger for the U.S. Forest Service at Circleville, Utah. He writes—"Still Ranger at Circleville, Utah, on the Dixie National Forest. The wife and two boys are fine. Hope some of you stop in when you're out this way."

1958

HENRY ANDERSON is Assistant District Forester for the Wisconsin Conservation Department at Grand Canyon. Lives on a farm 14 miles from Lancaster. Hebrew Henry is now 18 months old.

Say hello to Gisa, Henry.

ROBERT BENSON is with the Timber Survey for the U.S. Forest Service at Ogden, Utah. He says—"Finished M.F. at U. of M. in June, 1960, and have been busy with Timber Survey since. Our Intermountain region has many U. of M. grads; played poker with one last week; camping out last night; went deer hunting on Karl Haas's '59 forest, and have been skiing with Ray Clark '59 and Harry Bolt '59. Also had a short visit with Cliff Solberg '57, who is Dist. Ranger on Wasatch National Forest; when he isn't hunting or fishing. Looking forward to another visit to Green Hall next vacation."

"Nick is back in school and we're keeping an eye on him [for you], Bob."

JAMES BENSON writes to us from Rhinelander, Wisconsin, where he is Forester for the Consolidated Water Power & Paper Company. Say hello to Roy Sunnim and the rest of the Loretta "gang" when you stop in.

ROBERT BORRELL is Timber Management Assistant for the U.S. Forest Service at Sonora, California. He says—"We three, Sherry, Timmy, and I were home for 1960 Christmas. We enjoyed the visits in good health, and Peter, our little boy, is growing like a weed. Where he is with the U.S. Plywood Corporation."

During the year and reminisced a while with each other over a friendly schooner. My best regards to all at the Forest School."

Thanks and the same to you, Floyd.

ROBERT SHEPPARD sends us word from St. Paul, Minnesota, where he is with the U.S. Plywood Corporation.

RICHARD WARING writes from Berkeley, California, where he is a Ph.D. candidate at the School of Forestry, University of California.

JACK WIELAND sends us word from Winona, Missouri, where he is Forester with the U.S. Forest Service.

BOB WILLIAMS is District Ranger for the U.S. Forest Service at Circleville, Utah. He writes—"Still Ranger at Circleville, Utah, on the Dixie National Forest. The wife and two boys are fine. Hope some of you stop in when you're out this way."

1958

HENRY ANDERSON is Assistant District Forester for the Wisconsin Conservation Department at Grand Canyon. Lives on a farm 14 miles from Lancaster. Hebrew Henry is now 18 months old.

Say hello to Gisa, Henry.

ROBERT BENSON is with the Timber Survey for the U.S. Forest Service at Ogden, Utah. He says—"Finished M.F. at U. of M. in June, 1960, and have been busy with Timber Survey since. Our Intermountain region has many U. of M. grads; played poker with one last week; camping out last night; went deer hunting on Karl Haas's '59 forest, and have been skiing with Ray Clark '59 and Harry Bolt '59. "Nick is back in school and we're keeping an eye on him [for you], Bob."

JAMES BENSON writes to us from Rhinelander, Wisconsin, where he is Forester for the Consolidated Water Power & Paper Company. Say hello to Roy Sunnim and the rest of the Loretta "gang" when you see them, Jim.

CURTIS BERND is Research Forester for the Lake States Forest Experiment Station, St. Paul, Minnesota. He sends this note—"I am still working for Lake States Forest Experiment Station on the 3rd Minnesota Forest Inventory. By the time the Peavey goes to press I will have finally become married to JoAnn Lowry. We have purchased a home in Richfield in which we will set up housekeeping."

MARION BORRELL is Timber Management Assistant for the U.S. Forest Service at Sonora, California. He says—"We three, Sherry, Timmy, and I were home for 1960 Christmas. We enjoyed the visits over the holidays and thanks for the help in the summer job area, Marion.

DAN CHISHOLM is at Slate Creek Ranger Station of the U.S. Forest Service, Idaho. He notes—"Returned to work here on the Nezperce National Forest on March 6, 1961, after completing my required two years active military service."

JAMES EASTMAN is Sales Manager for the Valentine Clark Corp. at St. Paul. He says—"Made the big move last summer and purchased a home near Snail Lake. Between getting settled and my work at Valentine Clark I have had a very satisfying year. Family all in good health and Peter, our little boy, is growing like a weed. Hello to all." Thanks for your help on the MFAA activities (and the pole for Foresten Day), Jim.

DOUGLAS ENGELKEN is Assistant Ranger for the U.S. Forest Service, Michigan. He writes this note—"Enjoying my work in the Iron River District located in the southeast corner of the Ottawa National Forest. Our family has increased by two girls since we moved here. Family now stands at three girls and one boy."

PETER FOLLIOTT is in the U.S. Army. He writes—"Still in U.S. Army in 'Frozen Chosen.'" Hey, Pete—you are improving—we were able to read your note.

ELDRED JOHNSON is Assistant Ranger, Mineral Ranger Station at Mineral, Washington. He says—"Still holding same position as accepted upon graduation. Added another son to the Johnson fam. April last year. We now have two boys, Rex and Brent."

AL NELSON writes to us from St. Paul, Minnesota where he is Industrial Development Agent for the Great Northern Railway.

TED NISKANEN is District Forester for the Minnesota Forestry Service at Waconia, Minnesota. He reports—"Have son, George, now two years old. Still practicing small woodlot management and trying to educate the general public. Stop at Waconia when you are at the National S.A.F. in Minneapolis." We enjoy your visits at Green Hall, Ted.

FRED PARENT sends us word from Reedsport, Oregon, where he is Forester with the U.S. Forest Service.

BRUCE ROETTINGER is in the U.S. Army. He reports—"Accepted position with Alaska Forest Research Center, Juneau on July 18, Three weeks later, August 8, was inducted into the Army. Pre· served in Germany." Keep away from those "frauleins," Bruce.

NORMAN STONE is Wood Procurement Supervisor with Owens-Illinois Glass Company, Valdosta, Georgia. He notes—"Future forester born November 7, 1940—Timothy. If you can stand summer heat and winter cold, the South is the place for foresters!"

RICHARD TOUSLEY sends us word from Corbinado, Washington, where he is Supervisor Park Ranger for the National Park Service.

ROBERT TOWLER is Assistant Ranger for the U.S. Forest Service, Black Hills National Forest, Sundance, Wyoming. He writes this note—"Dorothy and I have a girl, Kathy, two years. We moved up to Sundance in May, 1960, from Custer, South Dakota, I spend about 3% time on timber sales and rest on range and miscellaneous items. This winter we are camped in trailers, four days a week. Looks like another fine winter this year."

JAMES WERTHERGREEN is Forester for the U.S. Forest Service at Mill City, Oregon. He writes—"Family is fine. Enjoy my work. Country is the best. Will visit Minnesota this spring. Hope to pay a visit to the U. Was great to see Minn. football team come through. May go down to see the game. Have Mecklenburg, '57; Hesse, '59; Lynne, '52; Coates, '51; Prigge, '52; Nixon, '53; and G l bane, '33 on the forest from Minn.

1959

PAUL BERGLUND is with the Carlberg Construction and Service Co., Fargo, North Dakota. He writes—"Very busy starting off the 1961 business year seeking new business. Just completed my last project for 1960 and I learned a great deal about winter construction, expenses and hazards. I'm happy to be back with my wife, Marcia, and daughter, Cindy. Marcia has grown to be a little lady now. Cindy has grown to be a little lady now. Marcia is lovely as ever and still able to please my dietary needs. Greetings to all from Fargo. Any one traveling through please call and I'll show you a real 'All American City.' Looking forward to visiting the 'Ag' campus this spring."

BOB BODINE is with the U.S. Forest Service at Orleans, California. He notes—"I'm still an eligible young bachelor—soon to be in the clutches of the U.S. Army however! January 3 is the wonderful day for that happy event. Merry Christmas, Happy New Year to each and all and really have a 'blast' on Forester's Day! We had that 'blast.' Bob—good luck in the Service.

GARY BOHN is Assistant District Forester for the Wisconsin Conservation Department at Mercer, Wisconsin. He sends this note—"We just increased our family by one more yesterday [11-27-60]. Now have two bouncing little girls. I'll be packing the wife and kids in the car and coming back to Mercer in the Christmas holidays. Have Mecklenburg, '57; Hasse, '59; Lysne, '52; Coates, '51; Prigge, '52; Nixon, '53; and GBane, '33 on the forest from Minn.

THOMAS CHRISTENSEN is in the U.S. Navy. He notes—"Hello from the sunny San Diego. Congratulations to the 1960 Peavey staff, I certainly did enjoy the year book. The past year has been an eventful one for me. The ship on which I am serving made a 'WEST PAC' cruise of 5 months with stops at places such as: Pearl Harbor, Hawaii, Yokosuka, Japan, the Philippine Islands, ports on the Formosan Patrol. Kowloon and Hong Kong, B.C. The Christensen family is presently residing at 4868 Narragansett Avenue, San Diego 7, California. Anyone traveling through please call and I'll show you a real 'All American City.' Looking forward to visiting the 'Ag' campus this spring."

YOUNGBLOOD LUMBER COMPANY

1335 Central Avenue
Minneapolis 13, Minnesota
Utah. He states—"Spent last winter in Army (Jan.-July). Took basic at Ft. Ord and spent rest of time at Camp Roberts. Upon discharge returned to work. I'm planning on going on to a regional school of U.S.F.S. on Manti-LaSal National Forest. Since my return I have been primarily involved in range analysis timber sale pruning, and administration of seismograph activities. During summer was sent to Reno, DeRidder Fire, Reno is Carl Estel '58, who is Assistant Ranger there, Harold Bolt '59, and Ray Clark '59, both who come from Wasatch. The P.V. has always been a real winner and I'm sure you will keep up the good work. I am proud to subscribe to such a magazine. This is for those very kind words, Karl—you helped in getting it started."

EDWARD HANSEN is in the U.S. Army. He sends this note—"Attending Officer Candidate School in Artillery. Getting a branch transfer to Corps of Engineer. Had previously attended on 18 weeks course in Photo Interpretation at the Army Intelligence Center." Thanks for the letter—"I enjoy them very much."

RICHARD HUFF is Forester for the U.S. Bureau of Land Management at Coos Bay, Oregon. He writes—"Have been here for ten months now, working with Marvin Maki '59 and Harry Carlson '59. Working on just about everything. No family as yet, but hoping.

ROGER JOHNSON is Forester on the Chippewa National Forest at Cass Lake, Minnesota. He notes—"Am still working on the survey on the Chippewa. We expect to move to southern Illinois in January and then will be assigned to district work. No additions yet, just the wife and myself. Lots of luck and our best wishes to everyone. Keep sending us those "notes," "Slim.""

DON MEEKLEBURN is Assistant Ranger at Bayfield, Colorado. He states—"I got married last June. No kids, lots of horses, am raising, buying and selling registered Appaloosas. Live in a $500 trailer and ride a $5000 horse. This is good elk, deer, and turkey country and a good place to raise every man or woman of it. Good job, good country, good people, and good whiskey."

WALLACE OEN is at the University of Minnesota School of Forestry, St. Paul, Minnesota as a Graduate Student.

BENNETT OLSON writes from Cody, Wyoming, where he is Assistant Ranger for the U.S. Forest Service at the Chandall Guard Station. What a place to mix with people and enjoy the wonderful holidays, "Slim."

ORLYN OLSON is with Iron Range Resources & Rehabilitation Commission at Hibbing, Minnesota.

GLENN PARK is Nursery Salesman and Foreman for the Chalet Nursery and Garden Center at Wilmette, Illinois. He says—"Just a short note...a good time here. Sell getting new here and shrubs to the upper class in the North Shore area. Haven't found any rich widows yet, still looking though. I may be up that way when I take my vacation in February. Tell all the Pros, hello for me, "Slim."

PAUL PRIGGE is Forester for the U.S. Forest Service, Willamette National Forest, Sweet Home, Oregon. He states—"Sure like working for the Forest Service here in Oregon and my wife and son enjoy it too. Have been on two ranger districts—Ridgdon and Cascadia, and seem to meet 'Gophers' everywhere. There are quite a few of them around Willamette."

DALE RETTMAN is a Forester for the U.S. Forest Service at Oakland, Oregon. He notes—"Out here where the trees grow tall and rain comes down by the bucket-full. There were eleven grades at J.F. ostentation last fall in Portland. We had quite a reunion."

A. G. WING is Forester on the Coeur d'Alene National Forest at Coeur d'Alene, Idaho. He writes this note—"Spent quite some time on some of the big fires in Idaho this year. Dale Rettman '60 stopped to see me on his way through. Not married yet. Spent quite some time this fall hunting, very good success also. Was very proud to see that the Cadets made it to the Rose Bowl.'"

DOUGLAS SEASTROM is with the U.S. Army at Ludwigsburg, Germany. He writes this note—"Will be separated from the Army May 25, 1961, may the Good Lord bless that day. I regret leaving Germany, but will take with me a souvenir—my little white Volkswagon [no Fridlein, Ken]. From what I hear, I guess I will have to tighten my belt a couple of notches and get a few more miles to the gallon hunting for the now scarce jobs."

R. WILLIAM SKINNER is Forester for the U.S. Forest Service, Powers Ranger Station, Powers, Oregon. He sends this note—"Our daughter Phyllis Ann is now one year old. Around July 4 another cherub is due. With the snare like road and an hour and 15 minute drive, I hope the wife can hold out. Sure was nice to see the School and all the slave drivers during my stop over in January. Found out that Donner Ridge School graduates in the county. Married June 1960 to Karen E. Hanson [U. of Minn.—Education 1959] in Minneapolis. Should complete requirements for M.S. in June, 1961, and plan to continue here at Oregon State for Ph.D in Forest Soils."

DONALD ZIWSKY is Forester, Koskie Ranger Station, Koskie, Idaho. He states—"Not much news except that wife is a little white girl born December of last year. I'm working on the Clearwater National Forest which is located in the heart of the best white pine and elk hunting in the world. It also located adjacent to the famous Lewis & Clark highway which is being finished this year. Part of the Lochsa District also includes the controversial Selway-Bitterroot wilderness area whose status will be determined by the Secy. of Ag. sometime this year."

1960

KENNETH ANDERSON is Forester for the U.S. Forest Service at Grand Marais, Minnesota. He says—"Am working on the Gunflint Ranger District for the Superior National Forest. Still single and expect to be drafted this summer some time."

GEORGE BECKER is at the Department of Entomology, University of Wisconsin, Madison 6, Wisconsin. He writes this note—"Still in grad school—still struggling. Keep sending us those "notes," "George—we enjoy them."

MILES BENSON reports to us from Appleton, Wisconsin, where he is with the Institute of Paper Chemistry, Forest Genetics Division. Thanks for all of your "assists," "Miles—and we sure do enjoy your visits to Green Hall."

CLINTON ECKSTEIN is Area Forester for the U.S. Forest Service at Ashland, Oregon. He writes this note—"Our third boy arrived last July, shortly after getting out here. Sell getting new here while snow is visible at just a little higher elevation. I frequently see T. Sober '60, and D. Peralta '60, also Milt Hayden '60, down in California—attended three schools with them this winter. Up in Portland this past December there were 12 of us 1960's. Was sorry to learn that Chuck Lowery '60, moved back to Minnesota."

DUANE EDVSON is Forester for the U.S. Forest Service at Burns, Oregon. He reports—"TFI Forester for the Burns Ranger District, Malheur National Forest, Region 6, Burns, Oregon."

GENE ERICKSON is Forester for the U.S. Forest Service, at Three Sisters, Oregon. He writes this note—"Am enjoying the west and the climate in Oregon and the U.S. Forest Service. Met about 10 new people and families as yet. Our arrival here we have come into possession of: 1. a large and very hungry German shepherd dog named Hansel (yes, he has a sister named Gretel), 2. a huge green frog which resides under the house. (gout style) said from year to year. Understand being included in our rental payments, 3. a yet unborn little Erickson who tentatively plans to arrive about the 15th of May. Say hello to Molly, Gene.

HARRY FISHER is Junior Scientist at the Clouet Forest Research Center, Cloquet, Minnesota. He writes—"I have been married (Dec. 3, 1961) since graduation. My wife's name is Nancy. On July 11 I will leave the Clouet Forest Research Center and start employment with the Minnesota and Ontario Paper Company."
Get big power at new low cost with the new Homelite 600-D direct drive chain saw. Only 18 pounds (less bar and chain). Plenty of power to fell trees up to 4 feet in diameter. Chain speed of 3,000 feet per minute makes cutting fast, reduces operator fatigue. Cuts level with ground. Cuts in any position. Have a free demonstration of this newest member of the full line of famous Homelite chain saws.

NEW HOMELITE CHAIN SAW

- direct drive
- only 18 pounds, less bar and chain
- straight blades, 16" plunge cut bow and brush-cutter attachments
- flush-cut handle

as little as $3.90 weekly after small down payment

New trees follow the old on Weyerhaeuser lands...

As timber is harvested on Weyerhaeuser tree farms to meet today's demand for forest products, new crops are established to supply future needs. Our long-range program of forest management is designed to insure a continuous, relatively uniform flow of wood year after year, indefinitely. A dependable supply of raw material permits the development of permanent mill sites, modern, up-to-date manufacturing plants, research laboratories and extensive systems of distribution. These facilities result in consistently finer products and services for our customers and industry.

ALUMNI NEWS NOTES
(Continued from p. 80)

duties during winter months and supervision of 20-30 man antibiotic
treatment camp during summer months. We expect a large aerial
spray program this season. Am enjoying the country and the job
very much. Would like to hear from classmates." Say hello to the
Mrs., Sam.

MILTON HAYDEN is Forestier for the U.S. Forest Service, at Mt.
Hebron, California. He sends this note—"I am working as Small
Sales Officer on the Goosenest District Klamath National Forest.
U.S.F.S. All here send greetings to Dick Weyrick '53, who spent
some time here as TMA a few years ago. We really like this area
now that we have gotten used to the high and dry climate. We are
also pleased to report that we are expecting an addition to our
family about May 28. Greetings to everyone back there!"

LEE HINDS is Nursery Manager for the Oakes Nursery at Oakes,
North Dakota. He writes—"Having a grand time working for the
North Dakota Association of Soil Conservation Districts as Oakes
Nursery Manager. Wife Bernice and daughter, Janice, are doing well
in the Dakota climate. The coffee pot will be on for nearly all com­
some—may even get a meal. Keep up the good work on the
"Peavey."

GERALD JENSEN is Timber Management Forestier at Custer State
Park, Hermosa, South Dakota. He notes—"Will be getting married
October, 1961 to Judy Mielke, daughter of Mr. and Mrs. Henry
Mielke. The Mielke's operate Legion Lake resort in Custer State
Park. Like the Black Hills very much. Hope to get some pheasants
this year in the eastern part of South Dakota, the pheasant capi­
tal." We enjoyed visiting with Judy and you last fall, Jerry.

WILLARD KIEFFER is Forestier at the Siskiyou National Forest,
Brookings, Oregon. He reports—"Located on the coast at Brook­
ings, Oregon, on the Siskiyou National Forest. Rain, brush and small
towns make life a little complicated." I hope that you had a good
weekend here at Mike's place, Willard.

FRITZ KOEPP is Forestier for the U.S. Forest Service at Big Bar,
California. He notes—"After working for 'Uncle' for nine months as a
forestier on the Trinity National Forest in California, the time has
come for me to serve 'Uncle' in another capacity, as an Air Force
navigator for a few years. I saw Dixon Sandberg '50, whom the class
of 60 will remember from spring camp, during March, in Redding,
where he had been carrying on negotiations for a merger which would
bring a pulp mill to northern California." Good luck in the Service,
Fritz.

NELS LEE is with the U.S. Forest Service at Isabella, Minnesota.
He states—"Have been with U.S. Forest Service at Isabella, Minne­

DUAINE PACKER is a Forestier for the U.S. Forest Service at Med­
ford, Wisconsin. He states—"No news yet."

DONALD PERALA is Forestier for the U.S. Forest Service, at Butte
Falls, Oregon. He notes—"Working as Project Forestier on the Butte
Falls Ranger District, Rogue National Forest, Oregon. Single and en­
joying this Big Country."

LOUIS SUDHEIMER is Food Service Officer, Kingsley Field, Kla­
math Falls, Oregon. He sends this note— "Although food service is
about as far as you can get from forestry, it's almost difficult to
stay away from it in Klamath Falls. Been out on the job with sev­
eral foresters, to S.A.F. meetings, and heard the chronic complaint
about those big guys get everything, referring to our counterparts
on the west slope. Everything is fine with me; saw Chuck Lowery and
wife Lois, they're doing fine too." We enjoyed that "short" visit,
Louis.

NED THERRIEN is in the U.S. Army at Fort Benning, Georgia. He
notes—"Attending Ranger-Airborne course at Fort Benning and look­
ing at Southern forestry. Can't beat good old Minnesota." Thanks
for that wonderful presentation of your slides on the canoe trip up
the Mackenzie river; Ned, we really enjoyed them.

LATE BULLETINS

President Wilson to Be Guest Speaker

President O. Meredith Wilson of the University of Minnesota has
formally accepted the MFAA's invitation to be the guest speaker at
the MFAA dinner banquet to be held on Monday evening, Oct. 9th
in conjunction with the International meeting of the SAF-CIF from
Oct. 8-11.

"We hope that you will be there!"

E. G. CHEYNEY
SCHOLARSHIP FUND !!!!
YOUR PARTNERS IN PROGRESS

The Northwest Paper Company with an annual payroll of approximately Fourteen Million Dollars employs more than 2,500 men and women in its mills at Cloquet and Brainerd, Minnesota. The economic benefits of this direct employment extend to hundreds of our neighbors and to the thousands of others active in the pulpwood industry who rely upon the Company as their best customer.

As in the past, the combined hard work of each of these men and women assures continued achievement and security in the years to come. Progress Depends Upon Paper ... Paper Is Our Product

THE NORTHWEST PAPER COMPANY, CLOQUET, MINNESOTA
Manufacturers of fine printing, writing and converting papers
