DEDICATION
in memory of

HERMAN HAUPT CHAPMAN
1874-1963

It is not only fitting that this 1964 Gopher Peavey should be dedicated in memorium to H. H. Chapman because he was the first graduate of the Minnesota School of Forestry, but more fitting for his immeasurable contributions to the profession of forestry and forestry education in this country and abroad.

Herman Haupt Chapman was 88 when he died at his home in New Haven, Connecticut, on June 13, 1963. A native of Massachusetts, Chapman received his Bachelor of Agriculture degree from the University of Minnesota in 1899. After serving as superintendent of the Grand Rapids Agricultural Experiment Station, he enrolled in the Yale School of Forestry and received his Master of Forestry degree in 1904. He then joined the Yale School of Forestry and received his Master of Forestry degree in 1904. He then joined the Yale School of Forestry staff where he served for sixty years.

Herman Haupt Chapman will long be remembered for his many books on management of forest lands, for his leadership in establishing a program of accreditation of forestry schools, for leading the development of prescribed burning, as director of the American Forestry Association, and as president of the Society of American Foresters. His fervent spirit, leadership, and undaunted crusade in defense of the ideals of professional forestry glitter brightly in the annals of United States forestry.

"To H. H. Chapman, who persistently dedicated his life to forestry, we dedicate this 1964 Gopher Peavey."
Dear Friend:

I invite you to page through the '64 Peavey with me. We attempt to bring to you, in picture and word, a comprehensive report on the School of Forestry, its students, staff, and alumni.

A bit of the past is brought back into focus in recognition of the alumni who, through the years, have done and meant so much to the School.

Willie

annual publication of the FORESTRY STUDENTS

University of Minnesota  St. Paul
REPORT ON THE SCHOOL OF FORESTRY

by F. H. Kaufert, Director

Since I have been at the School only about one-half of the time since the last Gopher Peavey Alumni News, this report should be only half the normal length.

The several months spent in Washington, D. C. with the Cooperative State Research Service, U. S. Department of Agriculture, were interesting and enjoyable. The opportunity to participate in the establishment of an entirely new research program, the McIntire-Stennis Cooperative Forestry Research Act, was challenging. Although involving as many frustrations as most administrative jobs, it did provide an opportunity to see at first hand how our federal government operates and how involved are the steps that need to be taken to bring into being a program of this type. Also, this opportunity enabled me to visit most of the U. S. forestry schools which I had not previously visited and to become better acquainted with the resources available in the entire forestry and related research fields.

During my leave, the School's program moved forward without interruption under the excellent leadership of Acting Director Don Duncan and with the able assistance and fine cooperation of all members of staff.

Facilities

Progress, though somewhat slow, is being made on the construction of the second unit of the Forest Products Laboratory. The completion date for this 84 x 108 foot single story structure being built directly west of the first Forest Products Laboratory unit is scheduled for July 1. Judging by progress to date such a completion objective does not appear possible, but we are hopeful. When this unit is completed, we will have available about three-fifths of the Forest Products Laboratory construction planned. A third addition will consist of adding a fourth floor to the present Forest Products Building and then adding a comparable four-story unit to the north.

The remodeling of Green Hall at a cost of $300,000 has proceeded even more slowly than has the construction of the Forest Products Laboratory. The Lake States Forest Experiment Station moved out of the fourth floor of Green Hall in November 1963. A number of our staff members and most of our graduate students have now moved to the fourth floor, which needed relatively little remodeling. The Library space is being expanded considerably by moving the stacks to the large lecture room (Room 203). New classrooms are being made out of the old wood structure laboratory by combining the Graduate Seminar room and Larry Krefting's office. Extension Foresters, Bill Miles and Marvin Smith, have moved to Green Hall and will occupy new offices in Room 102, the old Graduate Student room. Dr. Sucoff has devoted a large amount of time towards the development of a proposal to the National Science Foundation which would provide additional funds for the construction of a new greenhouse with full basement and for remodeling and equipping several forest biology laboratories. Completion of all of the remodeling and rehabilitation planned for Green Hall probably will not be possible until 1965. When this program is functioning, we plan to have an appropriate dedication ceremony.

The dedication of the beautiful Lake States Forest Experiment Station building located directly northeast of Green Hall will occur on September 11, 1964. The School will cooperate with the Lake States Forest Experiment Station in making this a particularly significant occasion. Alumni who have been away from the Campus for a number of years will have difficulty recognizing the St. Paul Campus Forestry Center when they return. The aerial photograph included in this issue of the Gopher Peavey Alumni News gives some indication of the building development that has occurred, but a picture in 1965 will show the new Forest Products Laboratory as an important addition.
Staff

Dr. John Haygreen joined us on July 1, 1963 as Associate Professor of Forestry. He had previously been on the staff at Colorado A & M. John is teaching Strength of Wood Materials, Timber Engineering and Wood Structure and Identification, and has already contributed in a major way to our research programs.

The forest products staff has been particularly active during the past year in connection with short courses and other activities offered in cooperation with the Twin Cities Hoo Hoo Club, our two lumber dealers’ associations and other groups. The building of these relationships should have a particularly beneficial impact on our total forest products teaching and research program.

We have been given a new assistant professorship and plan to fill this position in the area of watershed management. We are presently considering prospects for this position and hope to fill it by July 1, 1964.

By the time alumni read this issue of the Gopher Peavey Alumni News we hope that our recommendation that Dr. Duncan be promoted to Assistant Director will have been acted upon favorably. Don will concentrate his research primarily in the recreational area and will give special attention to our graduate and research programs.

We are happy to announce that our two Extension Foresters, Marvin Smith and William Miles, will now be attached to the School of Forestry staff and will be headquartered in Green Hall. It is hoped that Marvin and Bill will be joined by a secretary and possibly by a forest products marketing specialist within the next year. The School will work closely with the Cooperative State Extension Service in the administration and further development of the Extension Forestry program.

Roland Gertjejansen, Minnesota-'61, rejoined the staff as an Instructor after two years at the Forest Products Laboratory, Madison, Wis. Also joining us as an Instructor in the mensuration area is Mr. Lee Wensel, Purdue B.S.-'62, and M.S. -’64.

During the past year Merle Meyer has been promoted to the rank of full Professor and Egolis Bakuzis to the rank of Associate Professor.

Reorganization

There is little further to report on reorganization on the St. Paul Campus beyond the material given in my 1963 “Report on the School”. There are many rumors to the effect that the St. Paul Campus is soon to have a complete liberal arts unit and that our student population could reach a total of 10,000 or more by 1970. There is also much discussion relative to the possible organization of a College of Biological Sciences in the University of Minnesota which could have major repercussions as far as many St. Paul Campus departments are concerned.

It is hoped that in 1965, I can report something more definite relative to reorganization and change in status of the School of Forestry.

Enrolment

As indicated in another part of this report, our undergraduate enrolment has not changed appreciably in recent years. It seems to stay in the 300-330 range. We are making a particularly strong effort this year to increase the enrolment in the areas of Forest Products Merchandising and Forest Products Engineering. In view of the excellent opportunities existing for graduates, enrolment in these important curricula is too low. In contrast, the enrolment in our Forest Resources Management Curriculum—which includes 85-90% of our students—is about right for the available staff and facilities. We would like to have a continual improvement in quality of students in the Forest Resources Management curriculum as well as other School of Forestry areas but we have about as many students as we can effectively handle in the Forest Resources Management area. Our graduate enrolment continues to grow and during the past year was at an all-time high of 50 graduate students, 21 working towards the Master's and 29 for the Ph.D.

The percentage of juniors and seniors in our undergraduate group is gradually increasing and probably will continue to do so as our state junior college program develops. This means that we will have a higher percentage of upper classmen and that our teaching load will be considerably increased even though our total enrolment does not increase appreciably.

Forest Resources Management • Forestry Club, 62-64,  
Treasurer, 63-64; Gamma Delta, President, 63-64; Xi  
Sigma Pi, President, 63-64; Ranger, 63-64; Summer Jobs:  
1963—Forest Worker, Great Mountain Forest, Norfolk, Connectic­  
t; Transferred from the U. of Wisconsin in 1962.

MICHAEL W. MILLAR, Stillwater, Minnesota  
Forest Resources Management • Forestry Club, 58-69;  
Summer Jobs: 1962—Lookout-Fireman, Flathead Na­ 
tional Forest, Montana.

GARY R. NORDSTROM, Lanesboro, Minnesota  
Forest Resources Management • Forestry Club, 60-64,  
Sergeant-At-Arms, 62-63; I-M Sports, 60-64; Society of  
American Foresters; Summer Jobs: 1963—Laborer III—  
Insect Control Project, USFS, Pinedale, Wyoming; 1963—  
Forestry Aid—Forest Inventory Project, BLM, Durango,  
Colorado.

ROBERT F. NYVALL, Thief River Falls, Minnesota  
Forest Resources Management • Forestry Club, 61-65,  
Vice President, 63-64; Foresters’ Day Awards Chairman,  
63; Fall Bonfire Co-chairman, 62; Summer Jobs: 1962—  
Assistant, Plant Pathology, U of M; 1963—Forestry Aid,  
BLM.

GARY A. OLANDER, St. Paul, Minnesota  
Forest Resources Merchandising • Lignum Club, 62-64,  
Secretary, 62, President, 63; Summer Jobs: 1959—Drafting  
and Estimating, Lampert Lumber Company; 1960—Architect­  
ural, Mechanical, and Electrical Drafting, Grover  
Dimond & Associates; 1961—Electrical Drafting, Healy­  
Ruff Company; 1962—Electrical Drafting, Ellerbe & Com­  
pany; 1963—Architectural Drafting and Preliminary  
Design, Cavin & Page, Transferred from IT, U of M, in  
in 1961.

JERRY L. OLMAN, Fosment, Minnesota  
Forest Resources Management • Forestry Club, 60-64;  
Gopher Peavey, 61-64, Business Manager, 61-63, Asso­  
ciate Editor, 64; Alpha Gamma Rho, 61-64; Student-  
Faculty Intermediary Board, 62-64; Summer Jobs: 1962—  
Forestry Aid—Bark Beetle Control Project, USFS, Utah  
and Wyoming, 1963—Forestry Technician-C.F.I. Crew,  
Clearwater National Forest, Idaho.
ROBERT J. PETERSEN, Green Bay, Wisconsin

FREDERICK A. PICK, Warroad, Minnesota

THOMAS A. POWELL, Neenah, Wisconsin

CARL E. PROSEK, Hurley, Wisconsin

RUSSELL H. ROBERTS, Cass Lake, Minnesota
Forest Resources Management • Forestry Club, 63-64; I-M Sports; Alpha Zeta, 63-64; Xi Sigma Pi, 64; Transferred from Wisconsin State College, Stevens Point, in 1962.

GARY R. SCHAFFRAN, Minneapolis, Minnesota
Forest Resources Management • Forestry Club, 60-64; Xi Sigma Pi, 63-64; Summer Jobs: 1963—Forestry Aid, Superior National Forest, Minnesota.

DAVID SCHREINER, Minneapolis, Minnesota
Forest Resources Management • Forestry Club, 63-64; Paco Foresters' Day Chairman, 63; Summer Jobs: 1961—Forest Guard, Minnesota Conservation Department, Goudette, Minnesota; Transferred from SLA, U of M, in 1962.

ERVIN G. SCHUSTER, St. Paul, Minnesota
Forest Resources Management • Forestry Club, 60-64; Vice President, 62-63; Paco Foresters' Day Chairman, 61; Midwest Foresters Conclave, 61-62, Chairman, 62; Foresters' Day Special Events Committee Cochairman, 62, Special Event Committee Chairman, 63; I-M Softball, 63; Society of American Foresters, 62-64; Student-Faculty Intermediary Board, 63-64; Order of Ski-U-Mah, 63; Bull of the Woods, Editor, 63; Honor Case Commission, 63-64; Son of Paul, 64; Summer Jobs: 1961—Feller, Carver Logging and Lumber Company, Victoria, Minnesota; 1962—Forestry Aid—Timber Management, BLM, Durango District, Colorado.

MICHAEL J. SHANNON, La Crescent, Minnesota
Forest Resources Management • Forestry Club, 63-64; Summer Jobs: 1963—Student Trainee in Forestry, Bemidji, Minnesota; Transferred from Winona State College in 1962.

JAMES L. SPARKE, Mankato, Minnesota
Forest Resources Management • Forestry Club, 60-62; Honor Case Commission, 62-63; Student-Faculty Intermediary Board, 63-64; Gopher Peavey Staff, 62-64; Graduate Student Section, 62-63, Summer Job Stories, 63-64; Foresters' Day Special Event Chairman, 63-64; Bull of the Woods, Associate Editor, 63-64; Society of American Foresters, 62-64; Cloquet Session President, 64; Summer Jobs: 1961—Assistant Laboratory Technician, Department of Soil Science, St. Paul, Minnesota; 1962—same as above; 1963—Forestry Aid, Chequamegan National Forest, Washburn, Wisconsin; 1963-64—Laboratory Instructor, Dendrology, U. of Minnesota.
GEORGE J. STEVER, Winona, Minnesota

JEROME T. THAYER, Bagley, Minnesota
Forest Resources Management • Forestry Club, 60-64; Society of American Foresters, 63-64; Summer Jobs: 1962—Forestry Aide, Great Mountain Forest, Norwalk, Connecticut; 1963—Forestry Aide, Bitterroot National Forest, Sula, Montana.

DAVID P. TUCCI, St. Paul, Minnesota
Forest Resources Management • Newman Club, 64; Transferred from IT, U of M, in 1961.

RICHARD A. WALKER, Minneapolis, Minnesota
Forest Resources Management • Forestry Club, 56-57; I-M Sports, 56-57; Society of American Foresters.

CARL D. WEGNER, Minneapolis
Forest Resources Management • Forestry Club, 60-64; Sergeant Armys, 62-63; St. Paul Campus Student Council, 62-63; General Chairman of St. Paul Campus Homecoming, 62; Foresters' Day Field Events Chairman, 63; Itasca Corporation Field Events Chairman, 63; Chairman of Career Days Bonfire, 62; I-M Sports, 62-64; Summer Jobs: 1962—Forestry Aide—Member of Sale Area Preparation Crew, White River National Forest, Colorado; 1963—Fire Guard, Holy Cross District, White River National Forest, Colorado.

DAVID M. WENDORF, Wausau, Wisconsin
Forest Products Merchandising • Lignum Club, 61-63; Forest Products Research Society, 63; Society of American Foresters, 63; I-M Sports, 61-63; Delta Chi Fraternity; Summer Jobs: 1961—Forestry Aide, Lassen State Forest, California; 1962—Modern Builders Lumber Company, Wausau, Wisconsin; 1963—same as above; Transferred from Iowa State University in 1961.

RICHARD F. WERLING, Neenah, Wisconsin
Forest Resources Management • Forestry Club, 62-64; Peavey Staff, 63-64; Society of American Foresters, 62-64; Xi Sigma Pi, 64; I-M Sports, 63-64; Summer Jobs: 1961—Forestry Aide, Los Padres National Forest, California; 1962—Forestry Aide, Rocky Mountain Forest & Range Experiment Station, Fort Collins, Colorado; Transferred from Lawrence College, Wisconsin, in 1962.

DAVID R. WHITMER, St. Paul, Minnesota
Forest Resources Management • Forestry Club, 63-64; Xi Sigma Pi, 63-64; Alpha Zeta, 63, 64; Subcommittee on Forestry Manuals, 63-64; Itasca Corporation Treasurer, 63; Summer Jobs: 1962—Research Aide, Kowishwi Laboratory, Lake States Forest Experiment Station.

CHARLES H. WICK, Golden Valley, Minnesota
Forest Resources Management • I-M Bowling, 63; Summer Jobs: 1963—Forestry Aide—P.S. Crew, Corvallis, Oregon.

THEODORE A. WOLTER, Hinckley, Minnesota
Forest Resources Management • Forestry Club, 63-64; Archery Club, 60-64; President, 61; Treasurer, 62; I-M Sports; Midwest Foresters Conclave, 63; University Village Co-op Association, Alderman, 60-61; Board of Publications, 61, Board of Directors, 62-64; Cloquet Session Steward, 64; Summer Jobs: 1962—Fire Guard, Willamette National Forest, Oregon; 1963—Timber Management Aide, Chippewa National Forest, Minnesota.

by James Potton - President

It has been a gratifying experience to be a part of this enthusiastic and active club. It would be rare indeed if any student could leave the St. Paul Campus and not feel our influence. I recall being asked by a president of another student organization how we managed to continue the enthusiasm and activity and could answer proudly, "Just because we are forestry students." Tradition dictates to a certain extent but it takes more than tradition when so many other things are competing for a student's interest. In spite of the fact that we do lose a number of forestry students to other organizations we continue to remain large and strong.

Perhaps the image we reflect is not always what is desired in the eyes of the professional forester but this image is being improved. The special event during the F-day activities has untold possibilities. This is a young idea and with more thought directed toward it, it can do much for the Forestry Club, the forestry students, and the School of Forestry.

I feel that club members receive many benefits. The companionship of other students would hardly have to be mentioned. Acquaintances and friendships are struck up that will last a lifetime. The many projects undertaken could not survive without the great amount of co-operation that exists. This is a great asset because as foresters our jobs could never be accomplished without co-operation. Although we may not realize it, this is an important part of our education and training. With a group this size it would be impossible for all to agree on policies, procedures, and activities, yet these problems are worked out and we function as a unit—not as a few individuals.

The '63-'64 Club has definitely left its influence. The birth of an idea, The Bull of the Woods, should fill the communication gap that has existed within the Forestry School for so many years. We again won the Homecoming wood-piling trophy, due only to co-operation. We not only continued to remain extremely active in IM Sports, but we always are among the top contenders. Again, we are the only St. Paul Campus organization to enter a hockey team in IM competition in spite of the fact that we receive no participation points. F-Day, I feel, was a great success. This is our most important activity of the year. Although we are constantly striving to encourage freshman participation, Forester's Day is the spark which ignites their enthusiasm to keep them active for the duration of their college career.

Thanks fellow club members. You have made me very proud. Good luck to you all. If you continue your activity and co-operation you cannot help but be successful and be a benefit to the profession of Forestry.

Bull of the Woods

by Erv Schuster - editor

Well, it has been little more than one year since a proposal for "the creation of a weekly or bi-weekly newsletter, which would be compiled, edited, and published by the Forestry Club of the University of Minnesota" was passed and it became a functional part of both the Club and the School of Forestry as a whole.

Efforts toward its success began with Juris Eglite giving this proposal a name, Bull of the Woods. Since that day, all phases of the School of Forestry have worked together to make the Bull the huge success that it has been. Throughout the years, with changes in editorship, the composition of the Bull of the Woods will change, but the main idea to disseminate information to the students and the faculty of the School of Forestry will always be the desired goal.

Brownie, Doc Kaufert, the Exec. Board—all had a real great time.

Erv and Jim—they made it go.
The Lignum Club represents two of the three curriculums in the School of Forestry—Forest Products Engineering and Forest Products Merchandising.

During the past year the club has been promoting these two curricula through the use of a colorful brochure which discusses the School of Forestry and advantages and opportunities available in the forest products industry. Thanks to the work of Larrie Reese, who designed and wrote it, this brochure has been a tremendous success.

This last fall the club instigated a steak fry to encourage and get acquainted with freshmen in Forest Products Engineering and Forest Products Merchandising. This program may become an annual affair as is our spring steak fry.

This past year was the second in which the Lignum Club worked with the Forestry Club on the Christmas Tree Project. Sales were good but the actual degree of success has not yet been totally evaluated.

It is my hope, plus the hope of many others, that in the years to come the Lignum Club will become one of the really active campus organizations.

FOREST PRODUCTS OFFERS CAREERS THAT ARE

insulation  charcoal  particle board  veneer  rayon  pencils  plastic  paper  matches & boxes

FOREST PRODUCTS ENGINEERING  FOREST PRODUCTS MERCHANDISING
The objectives of this fraternity are scholarship, the promotion of forestry, and the cultivation of fraternal relations among earnest workers concerned with forestry.

Attention this past year was focused on our own State Conservation Department. Mr. Earl Adams, Deputy Director of the Division of Forestry, was the guest speaker at our meeting last spring. At that time he expressed the need for an evaluation of the Minnesota Civil Service Exam for Forestry Trainees. In answer to this, Xi Sigma Pi sponsored this exam at Cloquet with the result that the passing score was raised considerably and a new high score was established.

A further effort to promote forestry in our area was the banquet held in Cloquet under joint sponsorship of Xi Sigma Pi and the Cloquet Corporation. Representatives of local forest industries were invited and we enjoyed a fine talk by Dr. Julius F. Wolff, Jr. on Famous Shipwrecks of Lake Superior.

Early in the winter quarter we selected candidates for initiation. This was done on the basis of scholastic ability, interest and activity in work relating to forestry, and promise of high professional achievement. This year we were pleased to welcome 24 new members. Following the initiation we enjoyed a fine meal and an interesting talk by Dr. Kaufert on trends in Forestry Research.

Our Freshman Honor Roll award for 1962-63 goes to Steven Thorne. Congratulations for achieving this high distinction.

We hope Xi Sigma Pi will continue to be an incentive for all forestry students as it has been for us in the past.
The 1963-64 Forestry Wives Club leaves behind a trace of their talent that can be seen in the Green Hall Auditorium – Paul Bunyan. He now looks as though he just stepped out of Vogue, well almost. He is adorned with new authentic loggers clothes.

We can also stand a little taller this year for we drew up our first constitution.

The annual get-acquainted party was again given by Dr. and Mrs. Kaufert in October. The cider and doughnuts they serve are becoming a tradition we look forward to.

The tupperware party, given at Como Village Union in November was a great success, although it seems Dixie bought a couple of useless items just to enable us to reach our goal of $100 worth of sales – thank Dixie.

In December we had a couples’ progressive dinner party. We held traffic up two to three blocks while we played follow-the-leader from house to house. We exchanged Christmas presents at our last stop. Have you gotten any fish for the fish bowl, Susan?

I think our club looks forward to Foresters Day as much as the Forestry Club does. But is all that scrutinizing of each girl on campus necessary in selecting a queen? We trust their judgment though, as they always pick a beautiful Daughter of Paul. We also enjoy our yearly coloring and cutting class and our artwork was again on display at the Stumpjumpers Ball.

Our Faculty Wives Tea, which was held on Feb. 11, gave the faculty and forestry wives a chance to become better acquainted. As one would expect, a Valentine theme was carried out.

Spring quarter events included election of officers, service projects for the University Hospital, a trip through an interior decorator’s studio, and a spring picnic.

As the year draws to a close, the memories of our club activities remain vivid. We certainly hope that future Forestry Wives Clubs have as successful a year as we have had.
August fourth was a day like all days filled with the events of our time, but to the forestry student it was the beginning of six memorable weeks at Itasca. The students came from everywhere by car, bicycle, bus, and motorcycle to the Northern Campus and with them came their gear which they unloaded into any empty cabin they could find. That evening there was much commotion in the camp with the students getting properly registered for the fall quarter and becoming familiar with their cabin mates.

The session officially started the next morning with a talk by Professor Brown and then it was to the woods for a wind blow-down survey. Being the first time in the woods alone with a compass for some of the guys, it ended up a longer run than was anticipated, and the results were questionable. Only the section diagonal episode in later weeks would compare to it in its ability to reveal the job of a devoted forester.

The soil pits and botany field trips were eliminated after the second week and more emphasis was placed on mensuration and ecology for the remainder of the session. The mensuration reports were not difficult this year if one would only remember to make them Short, Concise, and Complete according to Glenn Lillmars, the assistant to the director of the Itasca session, better known as Brownie's assistant.

It was not all work at Itasca. At noon we had an hour and a half during which we were free to do as we pleased. This time was always put to the best of use with a good nap or football or frisbee with each of us always remembering the words of our "coach"—keep off the grass. After supper was also designated as free time in which most of the students caught up on the next mensuration report that was due or else took a much needed trip to Qualley's.

Foresters' Day was a great success due to the efforts of everyone and to the bright sunny day. There was a record crowd at the field events which
were held on the athletic field. These consisted of log throwing, two man bucking, match splitting, and many others. The water events held in the area of the boat landing were equally successful. There was a dance in the evening and luckily more local girls than boys showed up.

During the session there were many field trips related to the subjects we were studying. One of these trips was on a hot day to see Elmer's forest and learn his method of cruising. Several car loads of students got lost on the way there and came to class late. When we got back from the Chippewa National Forest trip, cabin 34 found their place had been redecorated with toilet paper. *Tilia americana* leaves had replaced the toilet paper in the "Head".

All in all the camp was quiet and serious until the last night of the session. Instead of studying, some of the guys (69 out of 70) decided to get the president of the student body for all the wrongs he had inflicted on them during the session. They carried him bodily to the landing dock and carefully and gently threw him in the cold September water. Besides the student body watching this ceremony there was one lonely faculty member who went by the name of Glenn Lillmars. The students thought it appropriate to donate him to the Greek god Neptune also. It did not stop at this. Soon everyone was either swimming or throwing someone in the water. When it became dark the students made tracks for their cabins to study for their ecology final, only to find that the power in the park failed. This was soon remedied by an emergency generator that was started and the students had light for studying.

The finals went fast and soon everyone was on their way home to spend the last week before Fall quarter in comfort. All in all the Itasca session went well this year and many memories will be in the minds of the students who attended it.
The Cloquet Session – 1963 was as uneventful as any have been in the history of the station. The "boys" were a group of fine, young men—good students, good citizens, good foresters. The weather was marvelous. During the first week, one of the crews even reported sighting (and duly noting on their tally sheet) a robin—what a thrill.

There were a few students who thought that the weather might make the ink run on the tally sheets, so they decided to stay indoors, rather than allow this to happen. Dr. Meyer, upon discovering that the boys felt this way, assured them that the ink would not run, whereupon the fellows proceeded into the woods forthwith.

The fellows spent the evenings after supper playing baseball. They did this in order to maintain their fine physical peak so that they could work for Dr. Brown during the day on the pulp-cutting operation. A small problem arose concerning a baseball for the boys to play with, but the Dining Club generously donated sufficient funds to buy not one, but two baseballs.

The field trips were fun. During the Crex Meadows trip, some of the fellows really had fun, (or was it most of the fellows). Much knowledge was gained on all of the trips.

Some of the fellows, in order to stimulate the local economy, spent a good deal of time at a small community south of Cloquet (Scanlon). It might be added that they did stimulate the local economy.

The final plant identification test was rather unexpected because Dr. Brown assured the fellows he would give the test. He did not turn his back on the group while he gave the test.

Cloquet – 1963 was a wonderfully stimulating, educational, heart-warming experience.
ACTIVITIES
The tenth annual pilgrimage to the Midwest Foresters' Conclave from Minnesota started at noon on Friday, May 2, 1963. One group of five came from the spring session at Cloquet and the other group of four interested foresters was from the main campus in St. Paul. We had a long trip ahead of us. The weather that day was quite miserable, although ducks would have loved it.

In spite of this wet start the spirits of the two car-fulls were high with expectations of a good showing at the conclave.

The trip across Wisconsin was uneventful and the freeway driving afforded very little excitement all the way to Ross Camp, West Lafayette.

The Cloquet group had gotten there first and was in the "spirit" of the conclave around a blazing bonfire. We did manage though to get enough sleep and were ready the next morning for a full day of strenuous competition. Ours was a most uneventful morning.

At lunch we were treated to a very interesting exhibition. A member of the Purdue team was shaved with an axe by the King of the Lumberjacks. You could say he got a real close shave because his face had numerous patches of scarlet.

In the afternoon, things followed much the same pattern as that of the morning. We did manage to get enough points to relinquish the possession of that "coveted" bearskin to Iowa State University. The only consolation we had was that the weather was really terrific throughout the day, up to the end of the last event, axe throwing. At that time there was a half-hearted effort at rain.

The hosts, Purdue, were very hospitable in letting the University of Michigan win, even though we tried to do our best with the guys there, our efforts amounted only to sixth place out of seven participating schools. After a good supper and the prize presentations everyone with a taste for "ice-cream" went to the social. At first there was singing and then later on in the evening some "girls" showed up and dancing ensued.

If everyone had as much fun as we from Minnesota did then it can be concluded that the Conclave was a big success. Thanks again to a gracious and good host, Purdue, for the fine job they did. Maybe next year we'll...
by Ross Nelson

The annual canoe trip began on a warm day in May with twenty foresters and their dates. The course was from Taylor Falls down stream to Marine Ferry. Soon after our arrival at Taylor Falls the canoes were packed with the necessities of a day's journey and we were on our way.

Paddling the canoes would have been quite easy since we were traveling downstream, but there was a strong wind blowing in the opposite direction. Another disadvantage was that there were several speed boats going up and down the St. Croix River which meant that the boys were required to paddle most of the time. The girls were not much help, of course, except to hold the front of the canoe down.

All went well until Herb Giefer had a little trouble controlling his canoe on a landing for a nature walk. The canoe turned over placing both he and his date in the water. The story he tells is that the water became unusually choppy just as he tried to land. They were not the only couple that had this experience, however.

We all stopped on an island about half the way to our destination for lunch. Some of the girls served lunches while others prepared steaks and hamburgers over fires for their foresters. Professor Brown, who was the chaperon on the excursion, set the example by drinking V-8 juice while others had slightly more potent beverages. By potent I mean pop, of course. Within an hour or so most of the couples were back in their canoes floating down the river.

We reached O'Brien State Park at about five o'clock, just in time for supper. Carl Wegner went out looking for wood and found some after much effort. It seems that some elderly ladies were just leaving and he graciously borrowed their abandoned wood.

As the day drew to a close, everyone headed for Marine Ferry. The canoes were landed and the gear was unloaded and put into cars. Before long everyone was on his way home after a tiring but memorable day.
George Miller

This year the fall bonfire, organized by Ross Nelson and George Miller, got off to a roaring start with a soft ball game between the undergrads and graduate students. After a hard fought battle, the undergrads walked away with all honors.

About 125 Forestry students and a good representation of the faculty showed up to make this annual affair a big success. After everyone was stuffed with beans, wieners, and pop (there was even enough for Sparke), Glenn Lillmars introduced Forestry Club President Jim Potton and the members of the faculty. We missed the presence of Dr. Kaufert, who was in Washington D.C., but the rest of the faculty carried on in grand style. After the risque jokes were over Erv Schuster, Brian Morgan and Bob Hennessey led the group in a first rate song fest with their guitars.

After everyone had sung themselves hoarse, we decided to call it a night. Everyone headed home with a warm feeling which only good food and close companionship can bring.
The annual Christmas Tree Project was revised a bit this year to incorporate new methods and ideas. The project began early Spring quarter due to the need for new sheared stock sources. Sheared stock was not available from the Cloquet Station, so private sources had to be found. It was decided to purchase all of the Norway pine, Spruce, and Scotch pine from Dr. Henry Hansen's plantation in Anoka. Balsam fir was later bought from a private Minneapolis source.

Early Fall quarter, all the trees were tagged by Marv Meier and myself and on a late October Saturday, a crew was sent up to spray the Norway pine with a coloring agent to keep them from yellowing.

Thanksgiving weekend was the day for cutting and transporting the trees. Our crew left Friday morning eager for a day in the "wilds". Juris Eglite and George Miller fell true to form when they were found hidden in the "boonies" eating lunch and partaking of their rather limited supply of refreshment. Finally, the truck was loaded and sent back to the campus with what amounted to about one-half of the trees. These were unloaded by 5:30 and Larry Christian and I sat around Green Hall waiting for the private wholesaler to deliver the Balsam. By the time he arrived and was unloaded it was nearly 7:00 and a long day ended.

Next morning, a small crew went back to Anoka for the last load. It was an impressive sight to behold; over 750 trees piled helter-skelter over half the gymnasium parking lot. Denny Purcell, Gary Olander, Roger Sandquist and I then erected the display racks, snow fence enclosure, and warming house. Trees were delivered to several fraternities and sororities and the job was done for the day. At this point, the Lignum Club took over the retailing, and judging from the excess of exactly three trees on Dec. 26, they did a good job.

As in the past, the Club finds itself indebted to various individuals and agencies. I wish to thank Ken Winsness for his support and encouragement and Morris Mitness, Supt. of Grounds, for the use of the parking lot and his assistance in locating transportation and various needs. The many men who gave their time from early in the Fall to late December deserve praise and thanks. It was to be a Club project and judging from the help and support I got, it proved to be just that.
FOOTBALL:
Fall sports started out with a bang. The football team, captained by Tom Powell, won their playoffs then lost the first game and won the second, finishing third.

HOCKEY:
The hockey team, lead by Juris Eglite and Herb Geifer, cruised into the all university Class "A" playoffs. However, as in football, they lost their first game and came back to win consolation title for Class "A".

BOWLING
Both Fall and Winter quarters, the bowling team made Class "A" in St. Paul league play. Fall quarter they finished 4th, and Winter quarter finished 2nd.

BASKETBALL:
Two teams were entered in competition. Captained by Chad Converse the teams played hard but ended up in Class "C".

INDIVIDUAL SPORTS:
Archery—Al Wolter was Class "A" co-champion Fall quarter and runner up Winter quarter. Ramon Killmer was Class "B" champion Winter quarter.
They played to win . . .

... and usually won

TABLE TENNIS:

Steve Morton went all the way in the Table Tennis Tournament and won all five matches for the championship.

At the end of two quarters of sports, the Forestry Club is second on campus with a total of 765 participation points. There were twenty-seven teams in all.

Al Wolter — what a shot

SUMMER JOBS
The “Great Mountain Forest” is a privately owned 7000 acre forest in the Northwest corner of Conn. The terrain is hilly or mountainous depending on your point of view with elevations differing from about 1750 to 930 feet above sea level. Most of the present forest land was once cleared farm land and one of the things which was difficult to become accustomed to were the stone walls scattered through the woods away from any present road. Connecticut was once about two-thirds cleared land; it is now about two-thirds forested. When Bryan said “Go west young man”; they went West!

The timber on the forest varied from eastern hemlock upwards of 30 inches D.B.H. (one blow-down was 43") with two to three logs, through somewhat smaller but taller white pine, to red oak 80 to 90 years old with one to two veneer logs, to mixed hardwood and hemlock stands in the pole timber stage, to the same type in the last sampling stage. There were also some plantations over 40 years old. One of our jobs was cleaning up the remains of a 40 year old red pine plantation which blew down New Years day 1963.

There were seven students from different forestry schools working on the forest in crews of 2 or more at times. The two big jobs of the summer were cleaning up blow-down and making a TSI cut on a mixed hardwood-hemlock stand. The nearest pulpwood market was 90 miles away which made it difficult to market the many cords of hardwood and hemlock pulpwood. Beside the two large projects mentioned we spent some time pruning, spraying, mapping, cruising, working in the sawmill, weeding the nursery and sightseeing New England.

It was a very worthwhile summer. I’m glad I went East.
SUMMER ON THE SUPERIOR

by Glenn Jacobson

When finals ended Spring quarter, most of the foresters headed West, but for me the North held the lure. I packed my bags and my friend Marv Rude and I headed for the Gunflint District of the Superior National Forest to spend the summer working for the Forest Service as roaming public relations agents on the Boundary Water Canoe Area.

Upon reaching the headquarters, we procured enough equipment and supplies to sustain us for five days and then headed out to Gunflint Lake to launch our canoe and embark on our journey. For thirteen weeks we wandered from lake to lake, campsite to campsite, to visit with campers; suggesting routes, warning of fire hazards, and aiding in the maintenance of portages and campsites. We returned each weekend to resupply.

It rained the first night in the woods. We weren't prepared for it, so for the next two nights we slept in wet sleeping bags. After that, we took precautions and only the bugs gave us trouble once in a while - the first pot of coffee I brewed had a few bugs floating in it, but as the summer progressed we became quite fond of the added flavor.

Everyone seemed to think we were going to meet a lot of women out in the woods, but every time we did see a few they were either going in the opposite direction or it was a Friday night and we were due back at headquarters in Grand Marais. We looked forward to weekends in town and had some real great times at the resorts along the Gunflint Trail. One thing we craved out in the woods was something cold - we seemed to make up for this craving on weekends.

Looking back over the summer, we had a real interesting time and saw some real beautiful country.
On June 14th a two-car caravan headed for the “great Southwest” - Durango, Colorado. I rode out with Gary Bergstrom in his trusty “50” Nash, for Gary was going to work in Prescott, Arizona for the U.S. Forest Service. The other car contained Erv Schuster and Bob Nyvall who, along with me, were reporting to work for the Bureau of Land Management in Durango.

We attended a forest inventory school for all BLM foresters in Colorado our first week on the job. We stayed in a tent camp near a one-horse town called Powderhorn. It was like old home week at this camp because we met two Minnesota graduates and two other students from the forestry school. The camp boss was Maurice Ziegler ’62, who is working out of Montrose, Colorado. The other Minnesota graduate was Dick who was working out of Canyon City, Colorado. Bob Hennessy and Gary Elftmann, summer temps, working on the Denver district, were also at the inventory school.

The following week was spent preparing maps and lining up the aerial photos of the different areas we were to work in during the summer. The Durango district is quite large, covering 1,115,000 acres. The type of land varied from dry, level, grazing land to steep, heavily forested, mountain sides.

Our first field project on the district was locating section corners and picking their locations on aerial photos. Many of these corners were rock corners established back in 1880 and they proved very difficult to find. We ran many lines thru heavy oak brush which was thicker than the hazel brush in Itaska State Park.

We began putting in forest inventory plots around the first of August, a very welcome change of pace after running lines up and down the mountains. The dry Southwest wasn’t dry this summer, for it rained just about every day during the month of August.

We didn’t get in on any fires this summer because it was so wet. The Fire Control Officer on our district was another Minnesota grad., Gerald Zamber ’62, who was responsible for helping us obtain our jobs with BLM.

I enjoyed working with the permanent personnel in Durango very much, though it seemed I had only been there a couple of weeks when the calendar read September 15th and time to head back to school.
ALUMNI
AN OPEN LETTER

As always, it was our genuine pleasure to sit down and chat with our alumni who visited us at Green Hall over this past year. It is always interesting (and educational) to have our alumni tell us about their progress and about their work.

I believe that it goes without saying that whether or not you visited Green Hall, the staff and the School of Forestry would like to express their thanks and appreciation for the interest and support that you—our alumni—have given to the School over these many years. It is with this type of support that the School has reached the stature that it has within the profession and within the University of Minnesota.

Again—many thanks!

Sincerely,

Ken Winsness

Dear Alumni:
As years have a habit of doing, another one has slipped away from us, and it is again time for the annual “Message from the President.” I have served on the Minnesota Forestry Alumni Association Executive Board for quite a number of pleasurable years and regret to see my term coming to an end. One of the more pleasurable aspects of this association during my year as president has been the great amount of support and cooperation given to me by the members of the Executive Board.

Our Fall and Spring MFAA Banquets were very well attended. The Fall Banquet was held on Thursday, October 22 at the St. Paul Downtown American Legion Club. George Amidon - '36, vice-president of the Minnesota & Ontario Paper Company, was our guest speaker for the evening and brought us up-to-date on the problems of the pulp and paper industries in Minnesota as they compared with other geographical parts of the U. S. Our very sincere thanks to you, George, for a very interesting presentation.

The Executive Board had intended to rotate the locale of the MFAA meetings between Minneapolis and St. Paul as mentioned in Don Butler’s message last year, but the press of finances made this impossible. However, this type of arrangement is still under consideration by the Board.

At the Spring Banquet, held on Thursday, March 5th, we had one of the all-time highs with 110 alumni, students, grad. students, and faculty in attendance. Urban “Pete” Nelson - '36 was our guest speaker for the evening and really had some excellent slides and a presentation to go with them on that biggest state – Alaska. It hadn’t occurred to me until now, but both our Fall and Spring guest speakers were from the Class of 1936 – that must have been a pretty fair-to-middling class. The MFAA once again had the pleasure of awarding the E. G. Cheyney Memorial Scholarships to three deserving young forestry students, who have excelled in rhetoric-writing and public speaking. See page 58.

Because of the importance to the School of Forestry of any reorganization of the St. Paul Campus, I wrote the following letter to President Wilson relative to the report of the St. Paul Campus Organization Study Committee:

“Dear President Wilson:
On January 3, 1963, we wrote you relative to the report of the St. Paul Campus Organization Study Committee, of which Vice-president M. M. Willey served as chairman. We indicated to you in this letter that we strongly support the major recommendations of this report and that we hoped Plan IV could be adopted at an early date.

We have had recent discussions with School of Forestry staff and University representatives on the proposed reorganization, and have been led to believe from these discussions that no action has as yet been taken to put into effect the more important recommendations affecting the Institute of Agriculture and the School of Forestry. We sincerely hope that the major recommendations, which would establish Home Economics as a separate college, change the name of the Institute of Agriculture to the Institute of Agriculture and Forestry, and make Forestry and Agriculture separate colleges in the Institute of Agriculture and Forestry, can be put into effect at an early date. We feel that the growing importance of forestry in northern

REMEMBER TO SUPPORT YOUR MFAA
E. G. CHEYNEY MEMORIAL SCHOLARSHIP FUND!

56
Minnesota and the continued decline of agriculture in this area, indicates the need and desirability of re­
naming and restructuring the Institute of Agriculture.

As you recognize, the image of agriculture has suf­
f ered seriously in recent years because of crop sur­
pluses and other contributing factors. In contrast,
the image of forestry was never better and with growth
of emphasis on water, recreation and wildlife re­
sources, all of which are heavily forestry based, this
image of forestry is certain to improve still further.
Why not then recognize this situation and capitalize
on the favorable image of forestry for the benefit of
agriculture as well as forestry?

We are moved to write you at this time on this matter
because we are concerned with Dr. Kaufert’s accept­
an ce of a position with the Cooperative State Experi­
ment Station Service in Washington, D. C. Although
we are not certain that this is the case, we suspect
that he is taking this position on a temporary basis
but is considering it as a longer term proposition.
In past discussions, he has expressed to us his
disappointment with the status of Forestry within the
University and Institute of Agriculture. He has felt
for many years that Forestry at Minnesota, while
stronger than in all but a few Universities, is still
considered one of many departments of the Institute
of Agriculture. We are certain that you and Dean Berg
recognize what a loss it would be to the School and
State should our suspicion relative to Dr. Kaufert’s
plans develop to reality. We feel it would be additional
incentive and encouragement to Dr. Kaufert to return
to Minnesota at the end of his leave period and to
remain here in the future, if the recommendations of
the St. Paul Campus Organization Study Committee,
which he so enthusiastically supported and endorsed,
could be put into effect immediately.

We would be happy to discuss the questions involved
in connection with the reorganization of the Institute
of Agriculture with you, Dean Berg and any others
whom you may select, at a convenient future date.”

The Executive Board has very strong feelings in this
matter of reorganization of the St. Paul Campus, and
a particular interest in seeing a separate College of
Forestry established within the proposed Institute of
Agriculture and Forestry. I received an immediate
reply from President Wilson (last November) stating,
“you will be hearing from us soon”. No word has yet
been received, so your Board is drafting another
letter to President Wilson with the hope of some action
in the very near future.

In closing, I would like to express my gratitude to
the members of the Board, Dr. Frank H. Kaufert, and
Ken Winsness (Sec.-Treas.), who have made my year
in office as president of the MFAA so very enjoyable,
and to wish the same for our new president for 1964-65.

FUN-FOOD-FELLOWSHIP AT THE FALL AND SPRING BANQUETS
GEORGE B. AMIDON-'36 RECEIVES OUTSTANDING ACHIEVEMENT AWARD FROM THE UNIVERSITY OF MINNESOTA

George B. Amidon, Vice President, Minnesota and Ontario Paper Company was presented the University of Minnesota's Outstanding Achievement Award at the annual banquet of the College of Agriculture, Forestry and Home Economics on April 18, 1964.

A University of Minnesota School of Forestry graduate of 1936, Amidon served with the U. S. Forest Service and State of Minnesota Division of Forestry before joining the Minnesota and Ontario Paper Company in 1944 as Forest Management Officer.

Amidon became Director of Woodlands in 1956 and Vice President in charge of Woodlands in 1963. In this position Amidon manages over 300,000 acres of Company owned land in Minnesota and supervised the acquisition of timber from a northern Minnesota area of about 2,000,000 acres. His management responsibilities also extend to the supervision of forestry practices and harvesting of timber on about 6,000,000 acres of Canadian forest land on which the Company has timber concessions.

Amidon has served the Society of American Foresters as Chairman of the Upper Mississippi Valley Section and was for many years Chairman of the Section's Legislative and Program Committees. In 1958-59 he served as Director and President of the American Pulpwood Association. In recognition of his leadership in the industrial forestry field, he was invited in 1961 to present the Col. William B. Greeley forestry lectures at the University of Washington. He is the author of numerous publications dealing with the pulp and paper industry and in 1945 prepared the widely recognized bulletin "Minnesota's Forest Wealth."

In presenting this award to Mr. Amidon, University of Minnesota Vice President William G. Shepherd made the following statement: "This University Outstanding Achievement Award is presented to Mr. George B. Amidon, Vice President, Minnesota and Ontario Paper Company, in recognition of his pioneering efforts in the development of improved forest management practices in the United States and Canada, for his effective management of one of the world's largest forestry enterprises, for his recognized leadership in professional forestry and his able and respected spokesmanship for industrial forestry."

I suspect that what is written in this space becomes repetitious to those who take the trouble to read about our E. G. Chelsey Memorial Scholarship winners each year - but for those who have received this honor and for those who have contributed to this fund, let me assure them that I am indeed proud each year to place this article in the Alumni Section of the Gopher Peavey-Alumni News.

This year's winners of the E. G. Chelsey Memorial Scholarships are David R. Whitmer, St. Paul, Minnesota, Dennis H. Berry, Minneapolis, Minnesota, and Garry W. Frits, New Brighton, Minnesota. These three young men are all seniors in the Forest Resources Management Curriculum.

The selection of winners for the E. G. Chelsey Scholarship is based on excellence in the field of writing and public speaking. Although many of our more recent graduates (the youngsters) would not know it, Professor "Bill" Chelsey constantly stressed this aspect of a professional forester's training. Qualifying students must be juniors or seniors registered in any of the School of Forestry curricula. The Rhetoric Department on the St. Paul Campus makes a broad selection of those forestry students who might qualify and from this list, the School of Forestry Scholarship Committee (Robert Thompson, Ken Winsness, and R.M. Brown, Chm.) make the final selection of the award winners.

Our sincerest thanks to all of the alumni who have contributed to the E. G. Chelsey Memorial Scholarship Fund over the past few years — we wish that you could have met these fine, young men personally so that you could be as proud of them as we are.
SAMUEL B. DETWILER—'06 writes, "The past year has been one of good health for me, I'm thankful to say! And one reason for good health has been walking outdoors, pursuing two hobbies—photography and dendrology collections. A walk of five miles on clear days is "good medicine" as the Indians say. Frank Kaufert tells me over the phone about Forestry School progress whenever he is in Washington on his recent Cooperative work with the USDA. Frank is doing a fine job of leadership in building up the School and the University. I am grateful to him and wish him health, strength, and accomplishment in 1964."

CHARLES L. LEWIS—'10 is President of Badger Cranberry Company and also Shell Lake Boats, Inc. in Shell Lake, Wisconsin. He writes, "Robert Deering, retired from U. S. Forest Service and living in San Francisco, and myself are the only surviving members of the Class of Forestry 1910, the first class to attend summer sessions at Itasca Park and the originating class of the Corporation '09' in our Junior year; living in tents, cutting fire breaks in the Park.

The memory book of Corp. '09' is at the School and you will find many interesting photos. Have kept fairly close contact with the School through the years and congratulate all on the wonderful progress since the days of 15c per hour for work at the Park and board ourselves. Our great love for Professors Cheyney and Wentling and many fond memories."

OTIS C. MCCREERY—'22 is Assistant to the President of the Aluminum Company of America in Pittsburgh, Pennsylvania. In August 1963, he was appointed Executive Director of the Alcoa Foundation, and in October, 1963, appointed Chairman of the State Board of Education by Governor Scranton. This Board was newly created at the last session of Pennsylvania State Legislature.

HYMAN M. GOLDBERG—'26 is Assistant Forest Supervisor on the Tonto National Forest stationed at Phoenix, Arizona. He writes, "I am winding up 31 years with the government on March 1st. Looking back, I have certainly had an education—after leaving Minnesota. Three years service with the State of Minnesota; on the Chippewa, Marquette, Lincoln and now the Tonto National Forest; better than 13 years in the Milwaukee Regional Office; nearly 2 years in Korea as Forestry Advisor; 9 months hitting the high spots from Korea, Shanghai, Hong Kong, Philippines, Singapore, Penang, many places in W. Europe, Israel, England, Eire, N. Ireland, etc."

F.H. KAUFERT—'28 was elected Director, American Forestry Association, the first national conservation organization organized in 1876. AFA has sponsored five American Forestry Congresses, the last in October, 1963.

DAYTON P. KIRKHAM—'28, American Consul working with the Agency for International Development, last May transferred from Tripoli, Libya to Dacca East Pakistan as Forestry Extension Advisor.

ROY M. CARTER—'35 is Professor of Wood Science and Technology, School of Forestry, North Carolina State College in Raleigh, North Carolina. He was given the Outstanding Teacher Award for 1963 in the School of Forestry.

DEL THORSEN—'37 says he's "very glad to be back on American soil". Thorsen, a U. S. Forest Service deputy supervisor in Mississippi, was one of a five-man crew of American firefighting experts who went to Brazil last month, the first time any American firefighters have ever been sent abroad to combat raging fires in another country.

According to Thorsen, a gigantic series of fires were raging out of control in Parana, a key agricultural state in Southern Brazil, and more than 10,000 military police and various and assorted volunteers were required to bring things back under control.

Parana, which borders on Argentina and Paraguay, grows about 40-50 per cent of Brazil's annual coffee crop, in addition to cotton, rice, beans, and corn.

The 48-year old Thorsen, a native of Minneapolis, Minn., and a graduate of the University of Minnesota's Forestry School, was dispatched along with the other four men to help organize the fire crews and to locate, map, and assess damage caused by the fires which burned off about five million of Parana's 56 million acres.

Damages ran in the millions and 153 people were burned to death by the flames. The huge conflagration was caused, Thorsen said, by the Brazilian farmers setting a series of small "burning-off fires" to prepare the land for spring planting, which is just getting under way in the land below the Equator. "They have always done this in the past, but they didn't realize or recognize the drought conditions this year," Thorsen related. Parana has gone eight months without rain.

Thorsen says the climate there is "pretty similar"
to Mississippi's and the annual rainfall there is about 60 inches per year normally.

With the land parched to a crisp by the drought, the small "burning-off" fires quickly spread out of control. Panic-stricken as the flames swept near their homes, others would set backfires, and Thorsen said, "that would just make it that much worse".

The five-man American crew left on Sept. 10 and and Thorsen arrived back in Jackson Tuesday afternoon, October 8th. He estimates the five traveled "at least 8,000 miles in four different jeeps and another 8,000 miles by air" while in Brazil. None of the five suffered any injuries. Thorsen, a veteran of 3½ years in the Marine Corp during World War II, is relaxing at his Jackson home after his unique experience.

Thorsen has been with the U. S. Forest Service for 27 years, ever since he graduated from college, and has lived in Mississippi for the past eight years. He is deputy supervisor of the National Forest in the state. Like he said, "There's nothing like American soil."

FRED E. DICKINSON - '38 is Director of the University of California Forest Products Laboratory, and Professor of Forestry in Richmond, California. He is President of the Forest Products Research Society this year; and was U. S. Delegate to 5th World Wood Technology Conference held by FAO in Madison, Wisconsin, September, 1963.

ARTHUR L. JANURA - '42 is Superintendent of Maintenance and Operations for the Forest Preserve District of Cook County in River Forest, Illinois. He reports, "The District continues its outstanding land acquisition program. Now has approximately 50,000 acres or 78 square miles. This in the County of Cook which has a total acreage of 610,560 or 954 square miles. This represents 8.2% of total area of county. What makes the foregoing more remarkable is the fact that this is accomplished in a county with 5,129,725 people. In the event Cook County were a state, it would be the tenth largest (population-wise). Interesting statistics and the problems presented are just as interesting.'

ROBERT N. CAMPBELL - '52, Assistant Professor at the University of California Department of Plant Pathology in Davis, California, along with R. G. Grogan, in 1962 was awarded the A.A.A.S. - Campbell Soup Company Award for their research on transmission of the lettuce big-vein virus by a fungus (Olpidium). The Award included a bronze medal, some cash, and a trip to Philadelphia. In April, 1963 the National Institute of Health awarded them a sizeable research grant to continue the project. With the aid of Rockefeller Foundation grant, he went to Europe in September and October, 1963 for a series of visits to laboratories working on similar subjects and for a talk to the British plant virologists.

ROBERT L. HERBST - '57 was promoted to Public Relations Specialist with The Division of Forestry in September, 1963. Robert left the Division of Forestry in October, 1963 after 6½ years, to become Executive Secretary of Keep Minnesota Green. He was awarded WCCO Good Neighbor Award in November, 1963. He moved to Richfield in December, 1963.

E. V. BAKUZIS, Assistant Professor, presented a paper on "Coordinate Methods in Construction of Sub-models of Minnesota Forest Ecosystems" at the Seventh Cleveland Meeting of the American Association for the Advancement of Science and Participating Affiliated Societies, held December 26-30.

GEORGE C. BECKER, JR. - '60 was granted the S.R. Gevorkiantz Award for 1963 for his Master of Science Thesis, "The Biology and Ecology of the Swamp Jack Pine Sawfly in Wisconsin". This is the study George has worked on for the past two years in the Department of Entomology at the University of Wisconsin.

LOUIS C. SUDHEIMER - '60, presently in the Service, sends this message - "As I write this at Christmas, I am one month from release from the Air Force. I will be discharged here in France, work in Germany as a forester's helper until June, when I will spend about 2½ months traveling before returning to the U. S. A. I see John Austin - '63 who is presently working in Germany about once a month'.

WARREN A. ILL! - '61 is currently serving in the Marine Corps as an operations officer with the 3rd Marine Division in the Far East. So far, he has visited Japan, Okinawa, Taiwan, Hong-Kong, Korea and the Philippines. It will only be a matter of months until he is out of the Corp and back into the woods.

PAT DUFFY - '62, Research Forester in Calgary, Alberta, Canada, spent a month in Europe in the summer of 1963, touring forestry establishments and visiting family. Pat continues in his site classification research in Alberta and in his spare time works at the Canadian Olympic bid for the Winter Games, 1968.

TIMOTHY P. HEISLER - '62 is presently in the Service at Orleans, France, as a Terrain Analyst. He comments that dealing with Engineer Intelligence provides for interesting travel and work throughout France. Despite the travel and the lure of romantic Paris, just 60 miles north of Orleans, he is sure that New York's "lady" will be a welcome sight in February, 1965.

PHILIP K. HUNKINS - '62, a Peace Corps Volunteer, is presently stationed at Vicos, Minas Gerais, Brasil. He has one more year to go before returning to the States, and hopes to visit the Amazon Region during the winter (our summer).
1906

SAMUEL DETWILER sends along this note—"The past year has been one of good health for me, I'm thankful to say! And one reason for good health has been walking outdoors, pursuing two hobbies—photography and dendrology collections. A walk of five miles a day is clear day, good 'medicine' as the Indians say. Frank Kaufert tells me over the phone about Forestry School progress whenever he is in Washington on his recent Cooperative work with the USDA. Frank is doing a fine job of leadership in building up the School and University. I am grateful to him and wish him health, strength, and accomplishment in 1964."

DILLON TIERNEY sends us word that he is living in retirement in Chicago City, Minnesota. We sure enjoy your visits to the MFMA Banquets and to Green Hall, Dillon.

1909

WALTER MOORE is retired and living in Fairborn, Ohio. He states—"Mrs. Moore and I have recently returned from a automobile trip to Mobile, Gulfport, Biloxi, Natchez, New Orleans, and other places. When I first arrived at Fairborn in 1921 there were two villages, Fairfield and Osborn, each with a population of 1000. Now we have a city of 30,000. Among other improvements, a branch university is now being built within the city limits. It has been named the Ohio State-Miami University; it will be operated jointly by those two well-established institutions."

1910

CHARLES LEWIS is President of Badger Cranberry Company and also Shell Lake Boats, Inc. in Shell Lake, Wisconsin. He sends this note—"Robert Deering, retired from U.S. Forest Service living in San Francisco, and myself are the only surviving members of the Class of Forestry 1910, the first class to attend summer sessions at Itasca Park and the originating class of the 'Corporation' 09' in our Junior year; living in tents, cutting fire breaks in the park. The memory book of 'Corporation' 09' is the School (ask Frank Kaufert) and you will find many interesting photos. Have kept fairly close contact with the School through the years and congratulate all on the wonderful progress since the days of 5¢ per hour for work at the Park and board ourselves. Our great love for Professors Chney and Wentling and many fond memories."

1911

J. V. HOFMANN is Manager of the North Carolina Forestry Foundation of North Carolina State College in Raleigh. He reports—"My wife (Ella C. Kenety 1914) and I go on as usual, I manage the timber land acquired during the time I was head of the Forestry School—$5,000 acres. We have one son (Julian G.) and six grandchildren."

ARTHUR F. OPPET is retired and residing in St. Paul, Minnesota. He reports to us from Seattle, Washington, where he is now living in retirement.

1912

S. GRANT HARRIS sends along this note—"On November 1, 1963, retired after 50 years in the Page & Hill organization, holding every job from the bottom to the top. Have enjoyed all of the varied experiences and appreciate the friends made from all parts of the world. Living happily with my bride of 48 years, who I met at summer camp at Itasca in 1911. During last ten years have spent 60 to 90 days each year in foreign travel. This year it was 10 weeks in Europe but have an idea of countries on 6 continents." Sounds like J. S. Grant.

SIGVALD NORMAN passed away on April 9, 1962. We extend our deepest sympathies.

HERMAN N. PETTIBONE sends this little note—"New semi-reirement for nearly seven years with Chicago Mill and Lumber Company as Sales Representative. Still in best of health."

1914

SAMUEL GRAHAM reports to us from Ann Arbor, Michigan, where he is Professor Emeritus at the School of Natural Resources, University of Michigan.

STANLEY RINGOLD is retired and living in Pequot Lakes, Minnesota. He says—"Am again enjoying winter in Southern California. Will be home in May to watch my trees grow. Enjoyed a visit with Kenny last fall and you are near Nisswa this summer drop in." As always, we enjoyed visiting with you, Stan. We are still working on a new drive for more funds for the E. G. Chney Memoral Scholarship Fund.

1915

HENRY DENNIS passed away in November, 1962. We extend our deepest sympathies to the family.

1917

JOHN BURNS sends us word from Minneapolis, Minnesota where he is living in retirement.

LAUREN TUTTLE greets us from Minneapolis, Minnesota where he is Owner of the L. S. Tuttle Lumber Company. He says—"One year older. Six grandchildren. Not quite retired."

1920

SHIRLEY BRAYTON has retired from the U.S. Forest Service and is living in Dunedin, Florida.

CLYDE FRUDDEN writes to us from Greene, Iowa where he owns a retail lumber company. (Frudden Lumber Co.)

1922

OTIS McCREEERY is Assistant to the President of the Aluminum Company of America in Pittsburgh, Pennsylvania. He says—"August 1963-Appointed Executive Director of The Alcor Foundation. October 1963-Appointed Chairman of the State Board of Education by Governor Scranton. This Board newly created at last session of Pennsylvania State Legislature."

RALPH NELSON writes to us from Asheville, North Carolina where he is Research Forester (Fire) at the Southeastern Forest Experiment Station (USFS).

A. E. WACKERMAN sends us a note from Durham, North Carolina where he is Professor of Forest Utilization at Duke University.

1923

CHARLES DOCKSTADER reports to us from St. Paul, Minnesota where he is Personnel Director of the Minnesota Mutual Life Insurance Company.

ORCUTT W. FROST sends us word from Chicago, Illinois, where he is Director of Research and Development of the Masonite Corporation.

ARTHUR NELSON is now retired from the U.S. Forest Service and living in Phoenix, Arizona. He writes—"Although I've been retired (disability) since January 1, 1959 it is hard for me to realize that it was 40 years ago when as a member of the Class of 1923 I received my B.S. of Forestry Degree. Much has happened since. When I left the U.S. Forest Service, Region Two, Denver, Colorado, I was Chief of Timber Management (A.R.F.) and had enjoyed my 35½ years with the Forest Service. Time flies! Many of the Class of '23 have passed on—or the address is unknown. My wife and I are enjoying retirement in Phoenix, Arizona. We picked this place for its climate effect on our health (good) and I could raise grapefruit, etc. Our daughter Jean is living in Ville Franche with the younger son, as her Marine Colonel husband is assigned as Sr. Marine Officer 6th Fleet. The older grandson has an athletic (football) and honor scholarship to Duke. My son John is Technical Superintendent For. West Dist., I.P.C. Camden, Ark."

CLARENCE SUNDAY reports to us from Marshalltown, Iowa, where he is in the retail lumber business (Marshall Lumber Company).

1924

HAROLD OSTERTAARD greets us from St. Paul, Minnesota, where he is as Assistant Chief of Forest Development, Minnesota Forest Service, Department of Conservation.
MAXON PILLOW is Forest Products Technologist for the U.S. Forest Products Laboratory in Madison, Wisconsin. He reports—"Best regards to current gang and all alumni. Although overdue (7) I'm still having fun and plan to keep going until retirement is mandatory because of age or health. Had a good visit with Ralph (Nellie) Nelson and family last November."

NELSON UPTON is Forester with the Wisconsin Realty Company in Park Falls, Wisconsin. He reports—"I made a trip to northern Minnesota in October and stopped in Itasca Park which I found even more wonderful as it was 30 years ago. I did note the many changes in the Forestry School. I also drove out the Gunflint Trail back of Grand Marais. I could not find the old Brule Cabin that was headquarters for our Timber Survey Crew in 1925, or the original Gunflint Trail which our crew traveled by dog team. Best regards." Thanks and the same to you, Nelson.

1925

CLEMENT FLANAGAN reports to us from Tupelo, Mississippi, that he is retired from the U.S. Forest Service.

1926

EUGENE ERICKSON sends us word from Rochester, Minnesota, where he is Manager of the IBM Grounds.

HYMAN GOLDBERG is Assistant Forest Supervisor for the Tonto National Forest, Phoenix, Arizona. He says—"See quite a number of Minnesota grads. Barry Peterson and Andy (L.) Lindquist are rangers here. Art Schneider lives nearby and we chat about the little winemaker—him. I am winding up 31 years with the government. March 1st looking back 1 have certainly had an education—after leaving Minnesota. 3 years service State of Minnesota; on the Chippewa, Marquette, Lincoln and now the Tonto National Forests; better than 13 years in the Milwaukee Ranger District; nearly 18 years in Korea Forest Administration—5 months stinging the high spots from Korea, Shanghai, Hong Kong, Philippines, Singapore, Penang many places in W. Europe, Israel, England, Erie, N. Ireland, etc.—family—my wife Edith, daughter Joan (3 children) and daughter Sarajane—and yes, a dog—Whew! I just figured—it's 38 years since my graduation. Must be getting old, wouldn't you say?" Sounds as though it's a wonderful life, Hyman!

RALPH LINDEGREN is employed currently as a Wood Pathologist. He sends this note—"Please pardon the lateness. I have just returned from about a Smooth trip in the Orient and found this in the stack of things awaiting me on my return. Had a wonderful trip and probably will satisfy these itching feet of mine with another jaunt shortly to some unvisited part of the world. Best of wishes for a successful Gopher Peavey Year." Thanks very much Ralph—and stop by and visit us at Green Hall on one of your trips.

1927

GERALD HORTON is a Broker in Wellton, Arizona. He sends this note—"Sold my ranch last March and moved into Wellton. Built a new home and moved into it recently. Will probably stay here awhile. Take a trip to the East next summer. Had a wonderful trip and probably will satisfy these itching feet of mine with another jaunt shortly to some unvisited part of the world. Best of wishes for a successful Gopher Peavey Year." Thanks very much Ralph—and stop by and visit us at Green Hall on one of your trips.

CARL KRUEGER is Forest Supervisor in Coeur d'Alene National Forest in Coeur d'Alene, Idaho. He says—"No change as far as my own position is concerned. My son, Kenneth, got his Ph.D. in Forest Physiology at Oregon State University last June and he is attached to the Corvallis Research Center, Pacific Northwest Forest Experiment Station."

ERNEST KOLBE reports to us from Portland, Oregon, where he is Chief Forester with the Western Tree Association.

EDWARD LAWSON is now living in retirement—and enjoying it very much. Ed was Chief of the Minnesota Forest Service prior to his retirement—he is on the MFSA Executive Board and just as vigorous as ever.

THOMAS LOTTI reports to us from Washington, D.C. where he is with the Research Branch of the U.S. Forest Service.

HARRY PATTERSON is Safety Coordinator for the Wood Conversion Company in Clackamas, Minnesota. He writes—"Best wishes for another fine 'Gopher Peavey.' Also for a successful year for all U of M foresters. (I still remember the St. Patrick's Day fight we had with the Engineers about 1926)." We had a "Tug-of-War" with the Engineers this February and beat them "three out of three," Harry.

1928

W. H. FISCHER writes to us from Atlanta, Georgia where he is Assistant Regional Forester with the Division of Timber Management for the U.S. Forest Service.

ERNEST GEORGE is Research Forester at Northern Great Plains Field Station in Mandan, North Dakota. Sure enjoyed your "Shelter-bolt Presentation" at the UMV-SAF meeting on Jan. 31, 1964, Ernest.

GEORGE HALVORSON sends us word from Chicago, Illinois where he is Supervisor at Western Electric Company, Inc.

FRANK KAUFERT is Director of the School of Forestry, University of Minnesota, St. Paul Campus. He writes—"Family—no change. One son—a magician and guitar player of note. From September to January in Washington, D.C. as Administrator of the McIntire-Stennis Act."

DAYTON KIRKHAM is Forestry Extension Advisor and American Consulate General, APO New York, New York. He states—"Am still with AID (Agency for International Development), Last May I was transferred from Tripoli, Libya to Dacca, East Pakistan as Forestry Extension Advisor."

RAY KNUDSON writes to us from Athens, Ohio, where he is Forester with the U.S. Forest Service.

GUSTAF LIMSTROM is Research Forester with the Central States Forest Experiment Station (USFS) in Columbus, Ohio. He sends this note—"Still engaged in research in the Central States, primarily in forestation and tree improvement work, and still trying to get to Minnesota each year on a north woods vacation and attend at least one Minnesota football game each year."

ERNEST GEORGE is Director of the School of Forestry, University of Minnesota, St. Paul Campus. He writes—"Family—no change. One son—a magician and guitar player of note. From September to January in Washington, D.C. as Administrator of the McIntire-Stennis Act."

RAY KNUDSON writes to us from Athens, Ohio, where he is Forester with the U.S. Forest Service.

GUSTAF LIMSTROM is Research Forester with the Central States Forest Experiment Station (USFS) in Columbus, Ohio. He sends this note—"Still engaged in research in the Central States, primarily in forestation and tree improvement work, and still trying to get to Minnesota each year on a north woods vacation and attend at least one Minnesota football game each year."

CLYDE CHRISTENSEN is Professor of Plant Pathology for the University of Minnesota on the St. Paul Campus.

WILLIAM HALLIN reports to us from Roseburg, Oregon where he is Project Leader for the Northwest Forest and Range Experiment Station (USFS).

JOHN NEETZEL is a Research Associate with the School of Forestry and the Leake State Forest Experiment Station on the University of Minnesota St. Paul Campus.

LAWRENCE RITTER is Consulting Forester and Life Insurance and Securities Salesman. He reports—"As a Consulting Forester my only activity has been appraising land for state parks and the Minnesota Hardwood Forest. The Minnesota Forest Resources Law placed the responsibility for land appraisal and acquisition on the Commissioner of Administration. The appraisal team is headed by Ray Marsen '35, Right of Way Agent 111, who is on loan from the Highway Department to the Department of Administration. Dick Dorer, former manager, National Pole Co. and formerly of the Bureau of Game, Department of Conservation, and Consulting Forester Maynard Underheke (Iowa State) and myself are under contract as per diem consultants. Curtis Burns and Jim Sponger, monthly employees, complete the appraisal team. Myself and Underheke will probably do all the appraisal work for the Memorial Hardwood Forest, plus any other work. Thanks for your interest and work on the MFSA, Larry.

DANFORD THOMAS greets us from Minneapolis, Minnesota, where he is with the General Insurance and Life Company.

1930

CARL BENSON writes to us from Russellville, Arkansas where he is with the United States Forest Service (USDA).

WILLIAM H. BRENER reports to us from Wisconsin Rapids, Wisconsin, where he is Supervisor of Nurseries for the Wisconsin Conservation Department.

CLARENCE CHASE is Forest Survey Project Leader for the Lake States Forest Experiment Station on the University of Minnesota St. Paul Campus.

Ralph Loprenz is Professor of Forestry, University of Illinois in Urbana, Illinois. He reports—"Have completed 23 years at University of Illinois in teaching and research in Department of Forestry. University of Illinois is now on accredited Forestry School list. We have a 6 week summer school at Blackburn, Minnesota. Attended National SAF meetings in Boston last October. Janmer J. Jackeln (42) received his Doctor's degree here at Illinois in forest genetics and is now Assistant Professor of Forestry in the Department. He shares an office with me. Bye now."

ROLLAND LORENZ tells us—"I am still the Agriculture Advisor with the A.I.D. mission to Ethiopia with headquarters in Addis Ababa. My son, Bob, University of California, Santa Barbara, majoring in biology."

T. EWALD MAKI is Schenk Professor and Head, Department of Forest Management, School of Forestry, North Carolina State University, Raleigh, North Carolina. He reports—"You've been doing a great job with the Gopher Peavey. To an old-timer it looks better every year. Keep up the good work." Thanks for those very kind words and we shall do our best.
Serving the Paper Industry
Throughout the World
1931

E. B. DAHL sends us greetings from Burlington, North Carolina. 

Maurice de Beech with the Dunkirk Forest Experiment Station in Sault, Ste. Marie, Michigan. He writes—"Enjoyed a visit to northern Minnesota in September. We included a visit to the Summer Camp at Itasca Park. While 35 years have made a lot of changes, a few things looked familiar. It will be hard to improve on the '63 Gopher Peavey." Thanks Maurice, but we think this one (1964) is even better.

Frank Frederickson is Forestry and Timber Purchase Supervisor for the Minnesota and Ontario Paper Company in International Falls, Minnesota. He writes—"Three sons and two married daughters. Three grandchildren." We sure enjoy visiting with those "OLD Timers" at the MFAA meetings.

Sam Frisby is Area Forest Superintendent of the International Paper Company, Pinneville, La. He reports—"Same wife, same house, same job—but more grey hair. Only change is that daughter-Florence is now Mrs. James Bullock of Littleton, Colorado."

Bernard Huckenpahler sends us word from Wash., D.C. where he is Chief, Branch of Foreign Training for the U.S. Forest Service. We enjoyed visiting with you last fall, Bernard.

Alexander Karkula reports to us from St. Louis Park, Minnesota, where he is Yard Superintendent for lumber stores, Inc.

Henry Keehn has retired and is living in Lewistown, Minnesota. He says—"Would consider any job with good pay and short hours—just to help out a brother alumus."

Raymond Osborne is now residing in Arlington, Virginia.

Paul St. Amant is Assistant Regional Forester (USFS) in Milwaukee, Wisconsin. He says—"No change since last year except the two grandsons are one year older (3 and 2) and the grandparents are the same."

1932

John Cann is a Mining Engineer with the M. A. Hanna Company in Hibbing, Minnesota. He writes—"Married in 1935. Have 4 girls: 1 working, 1 college, and 2 high school. Have been with Hanna for 22 years as a Mining Engineer and enjoy it." We enjoyed talking with you at the Jan. 31, SAF meeting in Minneapolis.

John Childs is Assistant Chief of Forest Management and Sales Minn. For. Service, in St. Paul. Thanks for arranging for that S. E. Minn. trip for the School of Forestry Faculty, John.

Alan Laidlaw is Assistant State Conservationist with the Soil Conservation Service in St. Paul, Minnesota. He says—"As the newest of the new members on our Alumni Association Board, I liked helping play host to the gang at our recent downtown St. Paul meeting. Please have a non-members' luncheon, your Alumni Association dues are deductible!" And we sure do appreciate all of your help on the MFAA, Alan—thanks.

Neil McKenna is Regional Forester with the Kimberly-Clark Corporation in Two Harbors, Minnesota. He says—"Not much to report this year except a move back to Minnesota from Upper Michigan." I've enjoyed chatting with you at the SAF meetings, Neil.

Robert St. Amant is Area Forest Manager for Owens-Illinois Glass Company in Jacksonsville, Florida. He sends this note—"Moved to Florida from Ely, Minnesota, in July 1959. Daughter, Anne, started teaching Home Ec to junior high students in Fernandina Beach, Florida. I am 15 years-old, attending junior high in Jacksonville. Wife, Mary (Pickles), dietitian at St. Luke's Hospital in Jacksonville. I am working in Southern Pine Forests in North Florida and Georgia. Manage seedlings through harvest."

Walter Zillgitt writes to us from New Orleans, Louisiana where he is Director of the Southern Forest Experiment Station.

1933

William Ackernnehmen is Assistant Chief, Division of Wildlife Refuge, Bureau of Sport Fisheries and Wildlife in Washington, D.C.

Harry Callinan sends us a note from Minneapolis, Minn. where he is with the Elk River Concrete Products Company. Sure enjoyed talking with you at the recent MFAA Banquet, Harry.

David Gibney is Forest Supervisor of the Willamette National Forest (USFS) at Eugene, Oregon. He writes—"I am returning your lunch and check. I have lost some records which do not show that I am entitled to it. Even if I might be, please use it in any manner you see fit." Thank you, David.

Arthur Horn is Research Forest for the Lake States Forest Experiment Station on the St. Paul Campus of the University of Minnesota. He writes—"Recently completed my 30th year with the U.S. Forest Service. Twenty-two of the past 30 years have been with the Lake States Forest Experiment Station in St. Paul. Currently working on Forest Industry and Forest reports in Minnesota, Illinois, and Kentucky. Family in good health."

George Plant reports to us from the Stinson Boulevard-Aero Division in Minneapolis, Minnesota where he is an Industrial Engineer.

Donald Price sends us word from Eagle, Colorado where he is District Ranger for the U.S. Forest Service.

John Rundgren sends us word from Custer, South Dakota, where he is Deputy Supervisor in the Black Hills National Forest, U.S. Forest Service.

Victor Sandberg is with the U.S. Forest Service in Missoula, Montana. He writes—"No change except that daughter, Norma, is now a sophomore at the University and is aiming toward journalism. We are all in good health."

Howard Smith sends us word from Washington, D.C., where he is Staff Officer with the U.S. Forest Service.

1934

Floyd Colburn writes to us from Grand Rapids, Minnesota where he is County Extension Forester.

George Herion sends us word from Klickitat, Washington where he is Forest Manager of J. Neils Lumber Company, Division of St. Regis Paper Company.

Barclay Infantino writes to us from Reynoldsville, Penn. where he is a Caseworker for the Pennsylvania Department of Public Welfare.

1935

Thor Bergh drops us a note from St. Paul, Minnesota where he works for the Robertson Company for the Soil Conservation Service.

Roy Carter is Professor of Forestry at the University, School of Forestry, North Carolina State College in Raleigh, North Carolina. He reports—"Was surprised by the Outstanding Teacher Award for 1963 in the School of Forestry. Oldest son is tracking satellites in Japan and the youngest is a scientist in the Naval Academy, Annapolis, Md. May be budding spacemen." Congratulations on that award, Roy.

Robert Clark is Forestry Manager for the Georgia Pacific Corporation—Fordyce Arkansas. He explains—"The Fordyce Lumber Company has been sold to the Georgia Pacific Corporation, so now we are a full-fledged member of the Georgia Pacific family. We are pleased to state that there have been few changes in forestry practices as the result of the changeover. We have been proud of our firsts here and now quite proud of producing the first southern pine plywood in the world."

Robert Dellberg is woodland conservationist with the Soil Conservation Service in Ukiah, California. He reports—"Am still employed as woodland conservationist by the SCS in the Redwood Region in California. Spare time activity is largely taken up by my 19 month-old grandsons, your Alumni Association dues are deductible!" And we sure do appreciate all of your help on the MFAA, Robert—thanks.

Birger Ellertsen reports to us from Norris, Tennessee where he is Supervisor, Forest Management Section of TVA Division of Forestry Development.

Arthur Fober is Regional Forester with the U.S. Soil Conservation Service in Denver, Colorado. He states—"Still have the same old job in the Plains territory and four states in the Rockies. Have passed the 30 year employment mark. Enjoy my work immensely. Now have two grandchildren who live in Boulder, Colorado. Plan to see many Minnesota grads in Denver at the SAF meeting."

Henry Hansen is Professor of Forestry at the University of Minnesota School of Forestry, St. Paul Campus.

Art Hawkinson sends us greetings from Minneapolis, Minnesota. We’ve missed you at the last couple of MFAA Banquets, Art.

Wilfred Lauder reports to us from Winona, Minnesota where he is a Forest Products Broker (W. H. Lauder, Inc.)

Robert Meck writes to us from Carbondale, Ill. where he is Project Leader for the U.S. Forest Service.

Lincoln Mueller is Chief of the Division of Forest Products Utilization Research at the Rocky Mountain Forest and Range Experiment Station (USFS) in Ft. Collins, Colorado. He reports—"Sorry I couldn’t help out on the whereabouts of the Alumni list. As for my family and family, no important changes, but last fall we were looking forward to a good Minnesota get-together at the SAF meeting in Denver this fall." We’ll see you there, Lincoln.

Norman Nelson sends us word from Milwaukee, Wisconsin, where he is Branch Chief of Timber Sales for the U.S. Forest Service.

Lansing Parker reports to us from Washington, D.C. where he is Associate Director of the Bureau of Sport Fisheries and Wildlife, Department of Interior.
preserve the value of forest products

**PERMATOX 10-S**
Controls stain, mold and decay in hardwood or softwood lumber during air seasoning. Costs only a few cents per thousand board feet. Dip or spray.

**MILLBRITE**
Specialized emulsion containing a penta-derived fungicide which gives dry finished lumber water resistance and weather protection from mill to job site. Either clear or pigmented for merchandising value.

**AMBRITE**
Low-cost log spray reduces losses from degrade lumber due to damage by insects, stain or mold. Equally effective on hardwood and softwood. Permits safe stockpiling of logs.

**AMBROCIDE**
Effective insect control chemical for use on logs and lumber. Used where stain is no problem or mixed with Permatox 10-S for complete protection against insects, sap stain and mold.

**SEALTITE**
Sharply reduces losses caused by end-checking in logs and lumber by controlling and drying rate and thereby reducing internal stresses. Available in brilliant colors for identification of quality lumber.

**PENTA-WR**
Water-repellent preservative for control of checking, swelling, warping, mold, mildew, insect attack and rot in lumber. Clean and paintable. Widely used by millwork plants.

**POL-NU**
Patented formulation of pentachlorophenol for ground-line treatment of standing poles. Replaces natural loss of preservative from original treatment and adds years of life.

**PENTA PRESERVATIVE**
Protects wood from decay and insects. Will not evaporate or leach out. The clean, modern wood preservative widely used wherever wood is exposed to damage by weather or insect attack.

Write for literature

CHAPMAN CHEMICAL COMPANY
Memphis 9, Tennessee
SULO SIMONEN reports to us from Crosett, Arkansas, where he is Forestry Manager for the Crosett Division of the Georgia Pacific Corporation. Urban "Pete" Nelson sends his best, Sulo.

1936
EARL J. ADAMS sends us word from St. Paul where he is Deputy Director of the Division of Forestry, Minnesota Conservation Department. Thanks for your continuing cooperation and assistance in the summer and permanent employment area, Earl.

GEORGE B. ASHWIN writes to us from International Falls where he is Vice President of the International Falls Division for the Minnesota & Ontario Paper Company. See page 55 for a feature article-our sincerest and warmest congratulations to you, George!

EDWIN BENEDER writes to us that he is a Conservation Technician with the Soil Conservation Service at Waconia, Minnesota, and reports that he has been promoted in August, 1963.

IRWIN JOHNSON reports to us from Ogden, Utah, where he is Range Conservationist with the U.S. Forest Service.

FRANCIS MOORE is Vice President of M. J. Salisbury Company at Grand Rapids, Minnesota states-"Two daughters, Beverly and Linda, now married. Linda will graduate in March, 1964, University of Minnesota. Son, Richard, Sophomore at University of Minnesota, Engineering, Beaver, case worker, Anoka County, Milwaukee, Wisconsin. No grandchildren as yet. Enjoying life and my work. We spend most of our time selling Minnesota lumber and wild rice from the Bowstring chain of lakes. Salesman of experience now. Len Polkabrek, 1936, and I have worked together now for 20 years. You are one of the finest appraisers in the timber business today."

RAYMOND NEROME is with the Soil Conservation Service in Wahpeton, North Dakota. He writes-"Still with the Soil Conservation Service. Have one boy in college and one in high school. Spent most of the weekends at our cottage on Otter Tail Lake."

KERRIT SJOUKST reports us to word from Mishawaka, Indiana where he is with the U.S. Rubber Company.

DEL M. MORRIS is Forestry Consultant for the U.S. Forest Service in Jackson, Mississippi. He reports-"Spent last fall in Brazil on coffee plantation fires. Assisted in organization and evaluated damage." See "special article" on p. 58.

1937
AXEL ANDERSEN is Research Pathologist, Crops Research Division, Agricultural Research Service, U.S. Department of Agriculture and Associate Professor, Department of Botany and Plant Pathology, Michigan State University, He reports-"On Wednesday, February 5 and Saturday, February 8 we attended the Michigan State University, I was a recipient of an award (plaque) for my outstanding contributions and services in the field of bean research. Presented to me by the members of the Michigan Bean Producers' Association. My wife Maude and two daughters, Nancy, 17 and Linda, 13, are now in their 16th year in East Lansing. To my former Minnesota friends, I extend our best regards and do come and see us when you are in the vicinity. Congratulations on the award, Axel—we know that it was well deserved!"

DWIGHT BENSEN writes us from Ames, Iowa where he is a Professor of Forestry at Iowa State University.

GEORGE BISKEY is with the U.S. Forest Service in Dalton, Georgia. He sends this note-"Having a great year. Making considerable progress on research development with a PWA Fund. Think more foresters should come South for summer jobs. Family are all making their mark—Mrs. Biskey (Edna) a devoted wife and mother. Dean, (Lt.) Army, Germany, graduated 1952. No. Go. College; distinguished military student and Who's Who—Physics. Ann, Senior, No. Ga. College. Who's Who—English. Alon, Senior High School, outstanding in scholastics and extracurricular activities. Bruce, 5th year Grammar, all around good student. All in negotiable activities—school, church, and community. I'm currently President, Lumpkin County Chamber of Commerce. This is a great little mountain town. Site of the first U.S. mint prior to Civil War. Wonderful year around climate. Visited the U. of M. last July. Tremendous change in the intervening years."

VINCENT BOUQUET is Woods Manager with the Weyerhaeuser Company in Klamath Falls, Oregon. He writes-"Transferred this note to you last contact with Weyerhaeuser at Klamath Falls, Oregon. Have laid aside my forest curricular activities. Bruce, 5th year Grammar, all around good student. All in negotiable activities—school, church, and community. I'm currently President, Lumpkin County Chamber of Commerce. This is a great little mountain town. Site of the first U.S. mint prior to Civil War. Wonderful year around climate. Visited the U. of M. last July. Tremendous change in the intervening years."

C. FRED GRAFTON is General Sales Manager of Wood Treating Chemicals Company in St. Louis, Missouri. He reports-"Full circle—Our Company is now a wholly owned subsidiary of Mon­

1938
ALLEN BATESON reports to us from Norris, Tennessee where he is Staff Forester for the Tennessee Valley Authority, Division of Forest Development.

JAMES BUSSEY sends us word from Ashland, Wisconsin, where he is Soil Conservationist with the U.S. Soil Conservation Service.

JOHN CONNOR is retired and residing in Grand Rapids, Minnesota. He states-"Retired from Army. Married."

CALVIN LAITTE reports us to word from Minneapolis, Minnesota, where he is with the Delano Brewery Corporation.
Design, materials and production

Good design, selected materials, skilled craftsmanship and a modern factory devoted solely to the manufacturing of fine windows combine to make Andersen windows far more weather-tight than required by industry standards.

Wood a natural insulator

Wood is a natural insulator, nearly 1800 times as efficient as aluminum in reducing heat transfer by conduction, further reducing heating and cooling costs.

Wood is one of the best known and most durable of construction materials. Modern technological advances in treating allow even greater freedom for the use of wood in today’s designing for better and more enjoyable living.

The natural warmth, beauty and character of wood adds to design freedom and complements any desired decor.

FOR DETAIL CATALOG 641 (SWEET’S REPRINT) AND FURTHER INFORMATION, SEE YOUR LOCAL LUMBER AND MILLWORK DEALER OR WRITE . . .
WILLIAM EMERY, Chief of Fire Control for Region 9 with the U.S. Forest Service in Milwaukee, Wisconsin, writes: "Region 9 Fire Control is a busy place these days, with new and bigger activity in fire training, air operations, and the first stages of an ash-out program promotion. Family: two girls, two boys-correction, two ladies, two gentlemen; and me heading for membership in the Grandfather Club." We enjoy having your son, Tom, with us in Iron Range Resources and Rehabilitation Commission.

ROBERT MILLER writes to us from Chicago, Illinois where he is District Manager of American Cyanamid. "Time marches on. Both daughters have completed college and married. Third generation is off to a good start with a beautiful granddaughter."

JACK LARSON is Surveyor-Appraiser-Forester in Sacramento, California. He sends this note: "One son in college in pre-law, one in pre-medicine. Hope another to follow in two years."

ROBERT MARCH is Owner of the Markesan Lumber Yard in Markesan, Wisconsin. He says: "Who are the older grads that had all of the wild times you (Willie) speak about? Except for a few nights in Chicago, I am doing business with the girls from the clothespin factory I don't seem to recall any wild times. Maybe I'm not old enough. Made a hunting trip to Carter County, Montana in October and single file deer chased our antelope. No other excitement."

"Willie" isn't talking, Robert.

ALVIN NELSON sends us word from Madison, Wisconsin, where he is Assistant Superintendent, Forests and Parks Division, Wisconsin Conservation Department.

DUANE RAUHENHORST is a Motion Picture Exhibitor in Stately, Minnesota. He says: "M. J. and me married 25 years, November 1963. Two children, Mary Hope (13); John (22). Beta Kappa at John Hopkins; now in Medical School at Hopkins. Operate two theaters, keep a van, drive in summer and conventional in winter. Planted 20,000 conifers in 1964-5 and plan on 7,000 in 1964 and 5,000 in 1965. Hire help only for planting and do cultivating myself so only fish trout one day a week in summer and play golf one day a week. From September 28 to December 21 I hunt a little every day. Got an 8-point buck with an arrow and my share of ducks, geese and pheasants within 20 miles of home."

ED SEDLACEK sends us word from Tacoma, Washington, where he is with the St. Paul and Tacoma Lumber Company.

PERRY SKARRA reports to us from Portland, Oregon, where he is Assistant Area Engineer for the Mutual Aid Division.

RAYMOND WOOD is Corporate Chief Forester, Eastern Properties of the Diamond National Corporation, Diamond Match Division. He sends this note: "Had an opportunity to visit in the 'Deep South.'" Had a chance to visit for the first time in the southern coniferous forests of our Molded Pulp operations. Spent several weeks in Mississippi obtaining information on their forest resources. Did not have the chance for as much visiting that I would like to do. The area is most interesting. The forest development is something to see. Only wish we had the climatic conditions and the long growing season in some of our northern operations. In getting together the information we needed as well as obtaining test material we received a lot of help from Minnesota foresters Ralph Lottig at Olin, West Monroe, Louisiana, and Art Vassall at Wiliam Zillig at New Orleans Southern Forest Experiment Station."

GEORGE BOYESEN is District Ranger in the Prineville Ranger District, Prineville, Oregon. He says:"No change in family or location. Look forward to a Peavey each year. Keep up the good work, George." He adds: "Any plans for a trip an U.S. Forest Service post this year? I would sure hate to miss getting it." We'll be sure that you get your Peavey, George.

LOUIS HOELSCHER sends us word from Tacoma, Wash. where he is Corporate Safety Director for the Weyerhaeuser Company.

PHILIP HUNTLEY is Insurance and Employee Services Supervisor, the Kimberly-Clark Woodlands Division in Norway, Michigan. He reports: "No news this year. I have been too busy building a house."

CHARLES HUTCHINSON is Assistant Cashier in the Bank of Sacramento, California. He sends this note: "Nothing new. Moved to Sacramento in July. Not like San Francisco but my kids can run around barefoot in the summer and get tanned."

RICHARD JULLENGREN greets us from St. Paul, Minnesota, where he is State Land Administrator with the Department of Conservation. Your continuing interest and work in the MFAA is very much appreciated, Dick.

FRED JACOBSON is Regional Administrative Officer with the U.S. Bureau of Sport Fisheries & Wildlife in Boston, Mass.

PHIL JAHN is Co-owner of Benedict & John Inc., Seattle, Washington. He writes: "My tribulations of the past year included a one-year and month stay in Fairbanks, Alaska, as a Mechanical Contractor. This was more than enough for yours truly. Currently I am back in Washington and am a manufacturer's representative with an office in Seattle listed under Benedict & Jahn. Would welcome visits from any former classmates. Regards."

GOODMAN LARSON greets us from Minneapolis, Minnesota, where he is Regional Personnel Officer for the Bureau of Sport Fisheries and Wildlife. And our thanks for all of your good work on both the College of Agriculture Alumni Association and the MFAA--it has been much appreciated.

H. M. LILIGREN sends us word from Tiller, Oregon, where he is with the U. S. Forest Service on the South Umpqua Ranger District.

MORRIS OLSON is Army Officer with headquarters at the Seventh Medical Army Section, APO New York, New York. He reports: "No news to speak of from Stuttgart, Germany ... Still at the same job. Our tour will be completed this summer. Looking forward to the Land of the Big PX, round door knobs, and TV commercials--imagine no commercials for three years. My wife and I had a pleasant leave in Paris. Son John is a 2nd class man at West Point; son George is a Junior at Ludwigsburg High School."

DONALD OVERHOLT reports to us from Spring Valley, Minnesota, where he is in Contracting and the Retail Lumber business. The Spring Banquet was on March 5th--we did send you a notice, Don.

SCOTT PAULEY is Professor at the School of Forestry, University of Minnesota on the St. Paul Campus.

KEN SACKETT greets us from St. Paul, Minnesota, where he is with the New England Mutual Life Insurance Company. Thanks for all of your interest and work on the MFAA. Ken.

ROBERT SCHENSEE is Assistant Superintendent of the Plumas Unified School District in Quincy, California. He sends this note: "This is my third year as Assistant Superintendent of the Plumas Unified School District. We operate all the elementary schools and high schools in Plumas County, Quincy, California, where our offices are located, is also the location of the Plumas National Forest Headquarters. My wife, Jean, and I live in Quincy with our two younger children and one for high school, and one a 7th grader. Our oldest daughter is a junior at the University of California."

OGDEN SHUTES sends us word from Altadena, California where he is Owner of Demmy's Arcadia Camera.守住

ALDEN WOOLTEK sends us word from San Francisco, Calif. where he is Forester with the U. S. Forest Service.
Gentlemen:

Again this year the activities of the Forestry Club have been a story of continued success. This success does not just happen; it takes cooperation and planning.

So with this in mind, we wish to sincerely thank all who participated and cooperated in the following activities:

- Intramural Sports
- Bird Watchers Society
- Upper Midwest Conclave
- Christmas Tree Project
- Foresters Day
- Canoe Trip
- Mixers
- Fall Bonfire

ELDON BEHR is an Associate Professor with the Department of Forest Products, Michigan State University, East Lansing. He reports—"When I first began to send this note I thought our team (Michigan State) was going to be singing California Here I Come, but now it's more like I Wanna Go Back to Michigan. My two sons are in the hospital, one is in good health. We traveled to Mississippi and New Orleans to the Forest Products Research Society Meeting in June. Other accomplishments were visiting Mrs. Herrick's home, the Herrick, and Greenfield Village. Our railroad is now 32 feet long and covers half the basement."

C. ROBERT BINGER writes to us from International Falls, Minn. where he is a Vice-President for the Minn. and Ontario Paper Company.

CLARENCE BUCKMAN greets us from St. Paul, Minnesota, where he is Section Chief of State Land Management, Minnesota Forest Service, Department of Conservation.

CLARENCE EGGEN is Assistant Area Forester with the U.S.D. I., Bureau of Indian Affairs in Minneapolis, Minnesota. Thanks for coming over to Green Hall for those employment interviews; Claire EGGEN appreciates it.

WALTER ERSON writes to us from Savannah, Georgia, where he is Industrial Sales Manager for Hardwood Plywood of the Georgia-Pacific Corporation.

DONALD GREGG writes to us from Minneapolis, Minnesota where he is with the U.S. Sport, Fisheries & Wildlife Service.

ROBERT HELGESON is Forester with the St. Regis Paper Company in Tacoma, Washington. He writes—"No changes except a small beld spot on the top of my head! I enjoyed a visit with George Herion ('34) recently who is logging manager for J. Neils Lumber Company, Division of St. Regis Paper Company at Kittitas, Washington."

JOSEPH KILLILLY writes to us from Los Angeles, California where he is with the Los Angeles County Flood Control District.

JAMES MICHELS sends us a note from Susaville, Calif, where he is Forester on the Lassen National Forest USFS.

JOHN MILES is a Consulting Forester in Eureka, California. He reports—"Mr. Stowe resigned his position in company June 1st into private consulting work. Enjoy the freedom very much. We now have three kids in college and 5 more to go...! I'll take a lot of consulting to pay tuition for the next few years." I sure did enjoy your visit to Green Hall last year, John.

GEORGE OLSON sends us word from Midland, Michigan, where he is Senior Analyst for Construction Materials and Marketing Research at the Dow Chemical Company.

EDWARD PATTON is Quality Control Manager for the Rolscreen Company in Pella, Iowa. He says—"One boy ready for college next fall. Another ready for high school. Noticed James Brooks, 1940, on the list of unknowns. He was my roommate that year and I've often wondered what became of him. His home was in Mansfield at the time. Perhaps a note to the city officials there might turn up some information." We'll give it a try, Ed—thanks!

WILLARD WEST drops us a note from St. Paul, Minnesota, where he is with the Minnesota Division of Forestry.

ROBERT BILSTEIN writes to us from Sheffield, Alabama where he is Maintenance Superintendent for the Union Carbide Metals Co.

AUGUST BLOCH is District Ranger with the U. S. Forest Service in Ely, Minnesota. He sends this note—"After nine years at the Superior National Forest, with Ely being home for that period, I'm being transferred to the White Cloud district of the Marquette-Huron National Forest in Michigan. Good luck, A gust, we'll miss you."

WILBERT A. GRAUPEMANN sends us a note from Albany, Oregon where he is Credit Manager for the Mcbuck & Company.

CHALMER GUSTAFSON is District Engineer of the Bureau of Land Management in Coos Bay, Oregon. He states—"We got offsprings, no wife; life with a ring in my nose would be intolerable."

VICTOR HAHN is self-employed in St. Charles, Illinois. He reports—"We had a short but pleasant trip to Lake Superior. And now we are going on a short trip to Florida—and this time I want to see Corey taxifolio on the Apalachicola River. In my old Gar­gent's Manual, the previous owner of the book had crossed out Torreya and written Tumion over to the side. I can faintly remem­ber Dr. Schmitz talking about the limited ranges of the two Tumions and it was perhaps he that suggested we use Tumion."

ROBERT JOHNSON writes to us from Longview, Washington where he is Forestry Staff—Reforestation for the Weyerhaeuser Company, St. Helens Tree Farm.

MIKE LATIMER is Chief Forester for the Blandin Paper Company in Grand Rapids, Minnesota. And thanks for your "Always Available" assistance to the School and to the SAF—it is much apprec­iated, Mike.

CHARLES MOORE is involved in Minuteman Missile Production at the Boeing Company in Seattle, Washington. He says—"I am sending along the address of the Houtola Brothers, Elmer and Art. They are both with the Boeing Company here in Seattle. Now and then I visit with Robert W. Johnson who is employed with Weyer­haeuser as a tree farm forester. My work at the Boeing Company as a Research Engineer is that I have been in the Patent Department and stayed with the Bureau of Land Management as a Forester." Thanks for the addresses, Charles.

HOWARD OSMUNDSON is Rancher/Real Estate Appraiser in Albequerque, Montana. He has been in the lumber business—all of his life. I am still at Absarokee—more or less. Also in Billings and paints in Montana and Wyoming as an appraiser for the Bureau of Indian Affairs. Cattle prices made the determination—not choice.

THOMAS PARTRIDGE is Owner of Cooper Concrete and Coal Company in Newton, Iowa. He reports—"We had an excellent year in the ready-mix business and '64 looks good from here. You may have heard from him, but if you haven't my brother Leonard ('53) left the lumber business and joined with Collins Radio in Cedar Rapids. He is doing well under the classification of 'engineer.'"

ROBERT PETERSON reports to us from Seattle, Washington where he is General Manager for the Palmer G. Lewis Company. He says—"Keep it up! That annual of yours is one of the best in the business—a wonderful 'tie' with those old familiar names, faces, and places." I suppose that it could be debated but "We" believe that the PV is the best! Thanks for those very, kind words, Robert.

SEDWICK ROGERS is a Chemist for the Kimberly-Clark Corporation in Neenah, Wisconsin. He sends this note—"While on the West Coast last fall I had a nice visit with Lloyd Gillmor ('40). Lloyd is Superintendent of the Olympic National Forest with head­quarters in Olympia, Washington. We spent about half the after­noon talking about the genetics program that Lloyd has going on Douglas fir and the other half of the afternoon reminiscing about Minnesota. I have just now returned from a short vacation in Florida and expected to do a little skiing when I got back, but we have had no more snow than Florida would have!"

MARTIN SMITH is Extension Forester for the Agricultural Ex­tension Service, University of Minnesota, on the St. Paul Campus.

JOHN WISHART sends us word from Mantineo, Arkansas where he is Drew Area Forester for the Georgia-Pacific Corp.

ROBERT ZAMOR sends us a note from Kearny, N. J. where he is Senior Engineer of Western Electric Company.

ROBERT BAUCK sends us greetings from Calgary, Alberta, Canada.

JALMER JOKELA is Assistant Professor at the University of Illinois, Urbana, Illinois. He sends this message—"Finally ground out my Ph.D. thesis, 'Heritable Variation in Natural Populations of Populus deltoides Bt., in Illinois,' and received my conferral of degree from the University of Illinois, Urbana, Ill. I share the same office and the two Gophers on the staff of a great 'accredited' institution! Congratulations, Jalmer!"

RUSSELL L. ROTH, Soil Conservationist with the Soil Conservation Service in Little Falls, Minnesota. He reports—"Family-Daughter-Martha- Sophomore at Concordia College, Moorhead; major in German, Minor in music; Japanese son Shigeru, Exchange student from Senmon Gakuen High School; Son Steven-Junior in high school; Son Peter-7th grade; Son Joel-Kindergarten. Mother and I are looking forward to a trip to Holland and Switzerland next September."

RALPH LAW sends us word from West Monroe, Louisiana where he is employed as a Wood Procurement Manager, Forest Products Division, of the Olin Mathieson Chemical Corporation.

WILLARD LEAF writes to us from Bemidji, Minnesota where he is Real Property Officer with the Bureau of Indian Affairs.

RICHARD MARDEN is Forest Products Technologist for the Lake States Forest Experiment Station (USFS), Wausau Field Unit, Wausau, Wisconsin. He reports—"Family, location, and job still the same as last year. Karen (16) is a Junior in High School and managing to keep busy with cheerleading, pep club, Spanish club, and band—and, oh yes—school work. Mike (12) first year in Junior High, took time out this fall to break his arm playing football—but in spite of handicap is keeping up his school work and is striving very hard to earn his Star in Boy Scouting before Christmas. We sure do enjoy your visits to Green Hall, Dick."

HOWARD OLSON is with Sanford Products Corporation in Minneapolis, Minnesota. He reports—"Have found volunteer work for Keep Minnesota Green to be most interesting and satisfying during the past couple of years." And we sure do appreciate all of your interest and cooperation in University Forestry Projects.

BOB WOOD greets us from St. Paul, Minnesota where he is with the Minnesota Mining & Mfg. Co. He says—"Have a boy and girl going to the U this year."

JOHN ZIEMER, reports to us from Berkeley, California where he is Professor of Forestry at the University of California.

CLIFF AHLGREN is with the Wilderness Research Center at Ely, Minnesota. He sends this note—"During the past year I spoke on forest fire research at a forest fire research symposium in Tallahassee, Florida, at Northland College Convocation and for an SAF section meeting in Spooner, Wisconsin."

JOHN BERGERON is a Sales Representative for United States Plywood Corporation in St. Paul, Minnesota. He writes—"This summer we moved from Grand Rapids, Minnesota, to Detroit Lakes as the Company put a warehouse in Moorhead, Minn."

PAUL COLLINS is Associate Professor, Department of Horticulture-Forestry, South Dakota State College, South Dakota. He says—"One year older. With four boys and one girl am Cub Scouting, Boy Scouting, Pony Leaguing, Little Leaguing, Farm Leaguing, and Pop Warner Football. Boys age 13, 10, 7, and 2 and girl age 4. Going on 15 years at same location. Bigger job and more responsibilities. Still interesting and challenging."

ROBERT BURKE writes to us from Neenah, Wis., where he is Chief Forester for the Marathon Division of American Can Company.

OLAF GRETT is Logging Manager, Cascade Branch, of the Weyerhaeuser Company in Snoqualmie Falls, Washington. He says—"Changed jobs in May, 1963. After several years of rain and clay, I am trying to get used to snow and rock."

RAY HANSON is Head of the Science Department of Las Lomas High School in Walnut Creek, California. He sends this note—"I have a lot of fun hiking with my son Eric in the Mt. Lassen area. Added a deck on our cabin, and have found volunteer work for Keep Minnesota Green to be most interesting and satisfying during the past couple of years."

JOHN B. IRVING is Professor at the University of Minnesota on the St. Paul Campus. He reports—"No special news this year."

DAYTON LARSEN reports to us from Virginia, Minnesota, where he is St. Louis County Extension Agent.

J. DONALD MEYER sends us word from Edina, Minnesota, where he is Biology Teacher at Edina-Morningside High School. He enjoyed your seminar that you gave at the School of Forestry, Don.

MERLE MEYER is Professor at the School of Forestry, University of Minnesota on the St. Paul Campus.

WILLIAM MILES is Extension Forester for the University of Minnesota on the St. Paul Campus.

J. MARVIN KITTELSON reports to us from Longview, Washington where he is Chief Forester for the Western Woodlands Division of the International Paper Company.

JAMES LINNE is District Manager from the Bureau of Land Management in Malta, Montana. He writes—"Winter set in early on the 'M-line' this year. Beautiful weather and no snow. Have been extremely busy this fall with the following projects: trail building, camp building, and forest health. It's quite unbelievable. Family is doing fine. All kids busy in school. Joann is teaching in one of the local country schools. Enjoy the 'short' day in Montana."

RODERICK SCHUMACHER sends us word from Minneapolis where he is Sales Representative with the Masonite Corporation.

WILLIAM ZIEMER greets us from Minneapolis, Minnesota, where he is Estimator for the American Lumber Company. We sure do enjoy your visits to the "Old Green Hall!", Bill."

ROBERT BAUCK sends us greetings from Calgary, Alberta, Canada.

JALMER JOKELA is Assistant Professor at the University of Illinois, Urbana, Illinois. He sends this message—"Finally ground out my Ph.D. thesis, 'Heritable Variation in Natural Populations of Populus deltoides Bt., in Illinois,' and received my conferral of degree from the University of Illinois, Urbana, Ill. RICHARD SCHROEDER is Forester with the Bureau of Land Management in Coeur d'Alene, Idaho. He states—"In July we spent several days on the Howard Osmundson ranch near Arco, Idaho. Montana retaining accounting compatibility. The changes in the boundaries of comparable public lands in each family, this was a hectic reunion, but fun. My kids have been polketing for a pony ever since. Enjoyed reading article on old classmate Cliff Ahlgren in recent issue of Journal of Forestry. Some of us achieve fame; others accumulate debts."

EUGENE STEINBRENNER writes to us from Centralia, Washington where he is Forest Solists Specialist for the Weyerhaeuser Forestry Research Institute. The E. L. Allens, Chicago.

GERALD SULLIVAN sends us word from Mora, Minnesota, where he is with the U. S. Soil Conservation Service.

KEN WINNISSE is Assistant Professor at the University of Minnesota School of Forestry on the St. Paul Campus.

1950

WILLIAM AULTFATHER tells us that he is Regional Forester with the U. S. Fish and Wildlife Service in Minneapolis.

GEORGE BADOVINAC reports to us from Coavina, California, where he is Project Administrator with Aetron, Division of Aerojet-General Corporation.

ROBERT BERGQUIST is President of Building Industries, Inc. in Spirit Lake, Iowa. He states—"Spent this year getting our new Company off the ground. Family is the same number, but bigger."

RALPH CARLSON sends us word from Duluth, Minnesota, where he is employed as Forester with the Cornell Paperboard Products Co.

EDWARD CHROMAN is Regional Forester for the Northern Pacific Railway Company in Roslyn, Washington. He says—"Hope to have a Minnesota address by the time the next issue is published."

LEROY FISH writes to us from St. Louis Park, Minnesota where he is Buyer for Target Stores, Inc. Stop by and see us at Green Lake one of these days, LeRoy (KEW).

CHARLES FLINK writes to us from Norway, Michigan where he is Forester with the U. S. Steel Corporation.

ANTHONY GRUBA is Sales Engineer for the Chapin Chemical Company in Portland, Oregon. He sends this note—"Nothing new. See Ernie Kolbe ('27) occasionally. Also Dick Schoeler ('49) at Thanksgiving. Still have the four kids but they all seem to be getting older?"?

JOHN HAMILTON is a Forester for Halvorson Trees, Inc. in Duluth, Minnesota. He writes—"No changes at all. Still enjoying work and more content going from Scotch pine plantations. Still haven't seen any familiar faces stopping for a coffee break. One of these years maybe we will. Hi from Flo, Mark, Scott, David and Danny."

Joh a Guest Lecturer in Silviculture I at the Croquet Session this spring—the students enjoyed it. Thanks a lot, John.

WAYNE HANSON writes to us from Warroad, Minnesota, where he is Area Forester with the Minnesota Forest Service.

JACK HELM sends us word from Denver, Colorado, where he is Civil Engineer with S. G. Geohegan & Co.

MEL HOUGEN greets us from St. Paul, Minnesota, where he is with the U. S. Plywood Company. As always, thanks for your continuing interest in the School, Mel.

THEODORE KEPRIOS greets us from St. Louis Park, Minnesota, where he is employed with the Republic Creosoting Company. Thanks for taking care of KEW at the MFPA Banquets, Ted.

LOYD KNOTTON is Director of Camping, Portland Area Council, Boy Scouts of America, in Portland, Oregon. He reports—"After six years in Rochester, Minnesota I accepted the assignment of Director of Camping in Portland on a large Met. area council with many camps and properties. After 14 years away from Forestry, I find myself involved in such items as sustained yield, water rights, special use permits and many other subjects. Family is still in Minnesota. I have four children: Laruelle 13, Janet 10, Andy 7, and Eric 16 months. Good luck on the Peavey! Thanks and the best to you, Lloyd.

JAMES LAVAN reports to us from North Bend, Oregon, where he is employed as Manager Forester by the Weyerhaeuser Company.

VERNON LINDBLAD sends us word from Milwaukee, Wis. where he is Forester with the Land Adjustments Division of the U. S. Forest Service.

RUSSELL LUKKARILA is Highway Engineer with the St. Louis County Highway Department in Virginia, Minnesota. He reports—"I am now working with a highway engineer with the St. Louis County Highway Department out of the Virginia Office. My family has now increased to where I have one daughter and two sons. My wife is Jimra Bernice (nee Quarman and as a result my weekends during the summer are spent on the border lakes fishing for the wallabies."

JERALD MORTENSEN greets us from Minneapolis, Minnesota, where he is with the Flintkote Company. Thank you very much for your continuing interest in the Journal of Forestry of the AFHE Alumni Association. We appreciate it very much.

GARRY RINGOLD reports to us from Potlatch, Idaho, where he is Area Administrator with Potlatch Forests, Inc.

PAUL ROEBER writes to us from Broken Bow, Oklahoma where he is Chief Forester, Diers Forests, Inc.

GAPON ROEBLEIN is Section Supervisor of Production Control for Honeywell, Aeronautical Division, in Minneapolis, Minnesota. He says—"After graduation and a two year stint in the Army I accepted a job with the USFS in the Black Hills of South Dakota. Was not fully satisfied with the work, and after looking at several other types of work in forestry (State and private) I still didn't see the kind of challenge I was looking for. So in 1956 I switched fields and entered industry in Production Coordinating work at Foster. I find the work very challenging and extremely satisfying (though at times also frustrating). Married in 1956—have one boy—and I get to do more fishing and hunting (South Dakota for pheasants every year) more than I did when I worked in the USFS."

Stop and see us at Green Hall, Gene (KEW).

HOWARD RUSSELL is Forester with the Simplet-DeVoe Lumber Company in Chiloquin, Oregon. He writes—"My boy is entering college this year, so I must be getting older. Tell any Minnesotans to be sure to stop and say hello if they are in the country."

DIXON SANDBERG sends us word from Anderson, California, where he is Resources Manager for the Kimberly-Clark Corporation, Shasta Division.

WINTON SWANSON sends us word from San Mateo, California where he is General Insurance Agent for the Winston Swanson Insurance Agency.

WILLIAM TELLESON is Sanitary Engineer with the Department of Health, Education, and Welfare, Great Lakes-illinois River Basin Project, in Chicago, Illinois. He writes—"Got to get back on the Peavey list. I've missed the last few issues. Still have just one child (probably the same one)."?

WILLIAM WALLIN is Technical Advisor, AID, Forest Research Laboratory in Fostoria, Shoshone, Chittagong, Pakistan.

1951

CHARLES ANDERSON sends us word from Portland, Oregon where he is Forester with the Division of State and Private Forestry, U. S. Forest Service.

ANTHONY GRUBA drops us a note from Minneapolis, Minnesota where he is Chief of the Wetlands Section Branch of Realty with the Bureau of Sports Fisheries and Wildlife. We enjoyed visiting with you at Green Hall, Harold.

PHILIP CORSON is Forester with the U. S. Forest Service in Portland, California. He says—"Our family enjoyed a summer vacation this year by driving to Minnesota. We camped out and spent many pleasant hours in the National Forests and Parks. I had a chance again this year to see old friends and places and show my two older boys through Green Hall. Greetings from the land of Big Trees."

We enjoyed the visit very much, Phil.

ROBERT GARNER writes to us from Denver, Colorado, where he is employed by the Western Electric Company, Inc.

STAN GRUETZMAN is owner of the Biocontrol Laboratory in Columbia Heights, Minnesota. You just don't come by for the cup of coffee often as you should, Stan—but we do enjoy your visits.

EDWIN HASLERUD reports to us from Norway, Michigan, where he is Management Forester for the Woodlands Division of Kimberly-Clark.

WILBUR HOWARD sends us word from Yreka, California, where he is Fire Control Officer on the Klamath National Forest (USFS).

KEITH KINNEY writes to us from West Allis, Wisconsin, where he is employed by the Georgia-Pacific Corporation.

FRANK KOPECZYCK sends us word from Harrisburg, Illinois, where he is Forest Supervisor of Shawnee National Forest (USFS). We enjoyed your visit last summer even though it had to be a "rush job."

ROBERT KRUCOSKI is on the Methods Staff of Western Electric Company, Inc. in New York City, New York. He writes—"Recent transfers from Duluth, Minnesota, to Chicago, Illinois, to New York, N. Y. find life just great. I try to get to Minnesota at least once a year."

We enjoy seeing the many historical sites located nearby but still look forward to Minnesota vacations."
— We’re Proud to Announce —

The completion of our recent mill expansion. Creating over 100 new jobs, an increase in wood requirements, and the approximate doubling of our mill output.

An example of private enterprise operating in a free economy.

Give whatever you can—whenever you can.

Thank you
ALLEN LUNDGREN sends word from Grand Rapids, Minnesota, where he is Research Forester (Forest Economics) Lake States Forest Experiment Station, North Central School Campus.

WAYNE OLIVER reports to us from Carthage, Texas, where he is with the International Paper Company.

DONALD PETERSON is District Ranger for the U.S. Forest Service in the Nantahala National Forest, Highlands, North Carolina.

DONALD PRIELIPP reports to us from Anderson, California, where he is Shift Superintendent for the Shasta Division of the Kimberly-Clark Corporation. Congratulation, Don-KEW.

ROLAND SCHENKE is with the Department of Forestry, Clemson College, Clemson, South Carolina. He writes-"As of August 15, 1963, accepted a position as Associate Professor and Assistant Director of the Department of Forestry, Clemson College. It is a joint teaching-research position."

WALLACE TRUMAN is with Brown Tie and Lumber Company in McCall, Idaho. He writes-"Still with Brown Tie and Lumber Company. Some changes and about the same here. Same job, same pay. We are planning a trip to Minnesota the last two weeks in March. So may see a few of you around Green Hall then."

We must have missed you, Wallace.

EVERT WICKSTROM is District Forester for Dierks Forest Inc., Broken Bow, Oklahoma. He writes-"Wife, three boys, and I am doing fine. No change in the family in the last three years. I moved to new home inscence '62. Different area, different problems and people. Most of the work is production and '64 looks like another banner year."

1952

GERALD ANDERSON is Forest Pathologist with the Lake States Forest Experiment Station (USFS) in Grand Rapids, Minnesota. He says-"Expect to be transferred to our St. Paul headquarters early in 1964."

HAROLD BATZER is an Entomologist with the Lake States Forest Experiment Station (USFS) in Grand Rapids. He says-"Expect to be transferred to our St. Paul headquarters early in 1964."

WILLIAM BAUMAN is a Salesman for Security Life Insurance in Minneapolis. He reports-"Moved into a new house and we now have our own Home Office Building-all on the same weekend."

BRUCE BROWN writes to us from Cloquet, Minnesota where he is Superintendent of the Cloquet Forest Research Center for the University of Minnesota.

RICHARD BURKE is Recreation & Lands Staff Officer in Mt. Hood National Forest, Oregon.

ROBERT CAMPBELL is Assistant Professor at the University of California Department of Plant Pathology in Davis, California. He sends this note-"The past year has been exciting. Just before Christmas 1962, R.G. Orphan and I were awarded the A.A.A.S.-Campbell Soup Company award for our research on transmission of the lettuce bacterial virus by a fungus (Ophiobolus). The award included a bronze medal, some cash, and a trip to Philadelphia. In April the National Institutes of Health awarded me a sizeable research grant to continue the project. In September and October, 1963, a Rockefeller Foundation grant helped me get to Europe for a series of visits to laboratories working on similar subjects and for a talk to the British plant virologists. The family remains at 2-F (b, 11) and we are all fine. It was good to visit Green Hall and find a few familiar faces last year, especially Ken who still argues as vociferously as ever or is it just my influence?"

Congrats on the award, Bob!

JOHN DAVIS is an Appraiser with the Bureau of Sport Fisheries & Wildlife in Huron, South Dakota. He says-"Sawyered by the old kiln! Hey bury Corporation. Congratulations, Comrade!"

WILLIAM HAMILTON is Forest-Woods Supervisor for the Tomahawk Timber Company in Ely, Minnesota. He states-"Family increased by one more last August 7. It now stands at two boys and one girl."

PHILIP HEYRN reports to us from Portland, Oregon where he is Area Engineer with the U.S. Forest Service on Mt. Hood National Forest.

DONALD PRIELIPP reports to us from Anderson, California, where he is Shift Superintendent for the Shasta Division of the Kimberly-Clark Corporation. Congratulation, Don-KEW.

DONALD PRIELIPP reports to us from Anderson, California, where he is Shift Superintendent for the Shasta Division of the Kimberly-Clark Corporation. Congratulation, Don-KEW.

RICHARD LEINFELDER is Utility Products and Services Manager for the Chapman Chemical Company in Minneapolis, Minnesota. He says-"Just a year older, no significant news this report. Wood preservative business remains good and gets better all the time."

Office and Warehouse — Minnesota Transfer
800 Vandalia St.
St. Paul 14, Minnesota
JAMES OBERG is Development Engineer for the Technical Center of the Weyerhaeuser Company in Longview, Washington. He reports—"Resident of Longview for the last seven years. Four children—2 boys and 2 girls (three born in Washington). As far as I know, only two of them have Wood Tech degrees with the Company—Harlan Freeman ('54) and Ted Wier ('53)."

CHARLES OLSON sends us word from Ann Arbor, Michigan where he is Lecturer, Research Associate, and Student in the Department of Forestry, University of Michigan. He says—"Still struggling along with Curtis Companies, Inc. Four children and one wife. A belated (10 years) thank you to the Class of '53 for their consideration when I broke my leg the last quarter in school."

HOWARD VENNERS is Inspector for Western Electric Company in Indianapolis, Indiana. He writes—"My work is keeping me very busy with the addition of new suppliers furnishing Bell System material. I can almost smell the aroma of New York at our local SAF meeting at Mccormicks Creek State Park. The family is growing and doing fine."

RICHARD WEYRICK is Graduate Student-Instructor at the University of Minnesota School of Forestry on the St. Paul Campus.

1954

NORMAN ANDERSON is a Fire Control Officer at Apache National Forest in Springerville, Arizona. He says—"Transferred from Sitgreaves N. F., Heart of the Apache National Forest. May see you next June." We'll be looking forward to your visit, Dick.

RICHARD MANLY is Area Staff Assistant with the Division of Forestry, U. S. Forest Service Regional Office.

JOSEPH KEMP is District Forester with the Forest Service at the 1,259,640-acre Sitgreaves National Forest in Arizona. He writes—"Who says the Forest Service moves you all the time? This is my fifth year at Lakeview in the heart of the goose country. All of the Haney children are now in school. Went elk hunting this fall and enjoyed the autumn colors in the White Mountains. The Country abounds in deer, elk, turkey, antelope, and bear."

ROBERT PERESKE sends us word from Detroit, Michigan where he is District Ranger for the U. S. Forest Service.

ROGER SKEIE is District Sales Manager in Clinton, Iowa. He says—"Still struggling along with Curtis Companies, Inc. Four children and one wife. A belated (10 years) thank you to the Class of '53 for their consideration when I broke my leg the last quarter in school."

1955

SIDNEY CARLSON is Lumber Sales Supervisor with the Weyerhaeuser Company in Tacoma, Washington. He writes—"Since the last edition of the Peavy we've added a set of twins to the family. Needless to say, between kids and work have been busy days."

ROGER COFFMAN is salesman for Balco Building Systems, Inc. in Minneapolis. He reports—"New addition to the family 10/21/63. Now have 5 children, three boys and two girls. Pretty good start."

RICHARD FANDEK writes to us from Seattle, Washington where he is a Senior Construction Engineer for the Boeing Company.

GORDON GLAIN is a Forester with the U. S. Forest Service in Mammoth Lakes, California. He reports—"In January of 1963 I returned to Mammoth Lakes, California. This is where I started in 1956 and never thought that this would be the pleasure of returning. Prior to my return I was on the Klamath National Forest, then the Angeles National Forest and now back on the Inyo as A.D. I like your Peavey Approach this year." Thanks, Gordie—it was nice chatting with you even though it had to be on the phone.

JOHN LANKTON sends us word from Peoria, Illinois where he is General Contractor for the Carlton Company.

FARNM NICHOLS greets us from Minneapolis, Minnesota where he is Retail Lumber Salesman for the Richfield Lumber Company.

PHILIP OPSAL is President of Jason Association, Inc. (Consulting Wood Technologists) in Fort Collins, Colorado. His note—"Fine work. Business pressing makes it hard to keep up the good work, Peavey Staff." Thanks Phil—we'll do our best.

BARRY PETERSON reports to us from Carefree, Arizona where he is District Ranger for the U. S. Forest Service in the Canyon Creek Ranger District.

JAMES OBERG is Assistant professor in the Department of Agricultural Economics, New Mexico Siale University.

ROGER LONG sends us word from University Park, New Jersey, where he is with the Weyerhaeuser Technical Center.

1956

ROGER LONG sends us word from University Park, New Mexico, where he is Forester in Timber Management with the U. S. Forest Service Regional Office.

HARLAN FREEMAN reports to us from Longview, Washington where he is with the Weyerhaeuser Technical Center.

RICHARD HANEY is Forester with the U. S. Forest Service at the Lakeview Ranger Station in Lakeview, Oregon. He reports—"Who says the Forest Service moves you all the time? This is my fifth year at Lakeview in the heart of the goose country. All of the Haney children are now in school. Went elk hunting this fall and enjoyed the autumn colors in the White Mountains. The Country abounds in deer, elk, turkey, antelope, and bear."

DALE HARTHAN is District Ranger at Pointrock Ranger District, Bighorn National Forest in Greybull, Wyoming. He says—"We are still at Greybull, Wyoming. The big event in our lives this year was the addition of Jerome David, an 8 lb. 7 oz. boy, to our family, making a total of four, three boys and one girl. He was born December 11 and was a very nice Christmas present. Otherwise, things here have been pretty routine this year. Hello to all you '57 grads."

ROBERT HERBST is Executive Secretary of Keep Minnesota Green, Inc. in St. Paul. He reports—"Lots happened lately. All good. Was promoted to public relations specialist with Division of Forestry in September, 1953. Left Division of Forestry October, 1953, after 65 years to become Executive Secretary of KMG. Was awarded NCCG Good Neighbor Award November, 1963. Moved to Richfield, December, 1963. Look forward to seeing you often. Best regards." Keep up the real, good work, KMG Bob!

ROBERT JOHNSON sends us word from Sandpoint, Idaho where he is Forester and Logging Manager for the Hedlund Lumber Company, Inc.

ROBERT DAVIDSON is a Student at Harvard Graduate School of Business Administration. He says—"Resigned my position as Head of the Department of Forestry, University of Michigan, in order to go back to school in business administration. Family now consists of three daughters."

ROGER COFFMAN is salesman for Balco Building Systems, Inc. in Minneapolis. He reports—"Since the last edition of the Peavy we've added a set of twins to the family. Needless to say, between kids and work have been busy days."

RICHARD FANDEK writes to us from Seattle, Washington where he is a Senior Construction Engineer for the Boeing Company.

GORDON GLAIN is a Forester with the U. S. Forest Service in Mammoth Lakes, California. He reports—"In January of 1963 I returned to Mammoth Lakes, California. ROBERT JOHNSON sends us word from Sandpoint, Idaho where he is Forester and Logging Manager for the Hedlund Lumber Company, Inc.

ROY JOHNSON is Area Research and Development Representative for Anchem Products, Inc. in Minneapolis, Minnesota. He reports—"Now that we're back in Minnesota we're looking forward to renewing old friendships around the Lake States—hope to see you all." It's good to have you back, Roy.

ARNE KEMP is Chief, Division of Forest Products and Engineering Research, U. S. Lake States Forest Experiment Station on the St. Paul Campus of the University of Minnesota. He writes—"Resigned my position as Head of the Department of Forestry, Stephen F. Austin State College, Nacogdoches, Texas and accepted the position at Lake States Forest Experiment Station effective June 1, 1963. Have had my time occupied in expanding the utilization and forest engineering programs and building a new home. Welcome home, Arne!"

TIM KNOPP is Biologist with the Montana Fish and Game Department in Havre, Montana. He writes—"Plan to be in Montana two weeks for the holidays and will try to get up to see all of you. We missed you, Tim."

THEODORE KUBITZA reports to us from Sonora, California where he is Forester for the U. S. Forest Service on the Stanislaus National Forest.

RICHARD MANLY is Area Staff Assistant with the Division of Forestry, U. S. Forest Service, St. Paul, Minnesota. He reports—"Resigned my position as Head of the Department of Forestry, Stephen F. Austin State College, Nacogdoches, Texas and accepted the position at Lake States Forest Experiment Station effective June 1, 1963. Have had my time occupied in expanding the utilization and forest engineering programs and building a new home. Welcome home, Arne!"

THOMAS ROESSLER writes to us from Medford, Oregon where he is Forester with the Bureau of Land Management.

FLOYD RUDY reports to us from Brookings, Oregon, where he is Forester with the U. S. Forest Service.

CLIFFORD SOLBERG is with the U. S. Forest Service, OSFS, Regional Office in Ogden, Utah.

RICHARD WARING is Assistant Professor at the Forest Research Laboratory, Oregon State University, Corvallis, Oregon. He writes—“Finished Ph.D. work at California last spring, but still taking a couple of courses here. During the dry months I bother Tom Roessler, Floyd Rudy, and Clint Eckstein in southern Oregon. Lyle Teaman drops in often, but not often enough. Am pleased with recent additions to the faculty, and with the increasingly professional quality of the Forestry and Alumni Office. Thanks, Dick-Kew.”

ROBERT WILLIAMS is District Forest Ranger at Boise National Forest, Emmett, Idaho. He says—“Still District Ranger on Emmett Ranger District, Boise National Forest. Wife and three boys happy and healthy in the best little town in the west.”

HENRY ANDERSON is Assistant District Forester with the Wisconsin Conservation Department, Trempealeau County, Whitehall, Wisconsin. He reports—“Two boys and one girl, expecting addition in February, 1954. Almost finished building a new house in Whitehall.”

DENIS BAKKE is Technical Assistant-Acoustical Sales Manager for the Wood Conversion Company in St. Paul. He writes—“Hi to all, Mrs. Bakke, and Denis, too. All is well. Stop in and see us when in St. Paul.” Again thanks, Denis—for your continuing interest in the University!

ROBERT BENSON is Research Forester with the U. S. Forest Service at the Intermountain Forest and Range Experiment Station in Ogden, Utah. He remarks—“A year of gloom—a broken leg robbed 8 weeks out of the heart of the skiing season.”

CURTIS BERND is Landscape Architect for Greguson’s Nursery in Hopkins, Minnesota. He writes—“Nothing new to report. No addition to family. Working still as landscape architect but have more management responsibilities.”

WILLIAM BERNDT sends us word from Boise, Idaho where he is Area Staff Assistant, Minnesota Forest Service, Department of Conservation.

MARION BORRELL is Assistant District Ranger with the U. S. Forest Service in Lone Pine, California. He reports—“Hello to everyone! No news—no changes from last year at this time. Had a nice visit at Green Hall last May.” We’re glad that we had a chance to visit with you, Marion.

GEORGE CURTIS reports to us from Eureka, Montana, where he is Assistant Ranger at the Eureka Ranger Station, USFS. He says—“Still taking a couple of courses here. Also Forestry Club advisor.”

JAMES EASTMAN is with the U. S. Plywood Corporation in St. Paul, Minnesota. The MFAA thanks you, Jim, for your interest and assistance.

DOUGLAS ENGELSEN is District Ranger with the U. S. Forest Service in Winona, Missouri. He reports—“District Ranger on the Winona Ranger District located in the heart of the Ozarks on the Mark Twin National Forest. Position and family still the same as last year. Four kids (3). We had to travel to Oklahoma to kill an eight point buck. This past year has been busy but enjoyable. District has benefited and made lots of accomplishments in wildlife and recreation from the Accelerated Public Work Program.”

ORVILLE ENGLEBY is Forest Ranger on the Salmon National Forest, (USFS), Salmon, Idaho. He says—“Three children—Bruce, 6, Dianne, 4, and Eric, 15.”

ROBERT ERIKSEN is Instructor at the University of Minnesota School of Forestry, St. Paul, Minnesota. And we sure enjoy having him around.

BLAINE FENSTAD sends us word from Kenton, Michigan where he is District Ranger for the U. S. Forest Service.

PETER FFOILLIO is Research Forester at the Rocky Mountain Forest and Range Experiment Station, (USFS), Arizona State College, Flagstaff, Arizona. He says—“Status unchanged since last year, and I don’t anticipate any.”

STANLEY GRUNEWALD is Assistant Ranger on the Coconino National Forest (USFS) in Flagstaff, Arizona. He reports—“Assistant Ranger on Elden District, Coconino National Forest, Mariposa Ranger District, Grand Canyon. Peter Ffoillio (‘58) and Rodger Brask (‘59) occasionally, flagstaff elevation 7000”. Skiing fine—December through April 15. Two and one-half hours from Phoenix and Valley of the Sun. Nine hours to Los Angeles.”

ROBERT HERBERSMAN is with the Wholesale and Treating Division of G. M. Stewart Lumber Company in Minneapolis, Minnesota. He says—“Three children.”

1958

JOHN KING, JR. is Assistant District Ranger with the U. S. Forest Service in Black Hills National Forest, Hot Springs, South Dakota. He states—“Not much in the way of news—no changes in job, location, etc. since last report. Seems like I’m spending less time in the woods and more time at the desk lately but guess that’s an ‘occupational disease’ that afflicts most foresters these days. Enjoyed the visit with the folks at Green Hall last fall and hope to get back again before too long.” We enjoyed the visit too.

NORMAN KOLLER writes to us from St. Ignace, Michigan, where he is Forester with the U. S. Forest Service.

FRED METZGER is Forester with the U. S. Forest Service in Monte Vista, Colorado. He sends this note—“Presently Staff Assistant in Timber on Rio Grande National Forest. Family remains the same—Wife, Linda, and daughter, Teresa.” We enjoyed visiting with you and the wife this past Christmas, Fred.

TED NISKANEN reports to us from Waconia, Minnesota where he is Assistant Forest Ranger for the Lake of the Woods Forest Service. He says—“Still residing by Lake Waconia. Our two boys George and Sam, keep life ever active. Stop by when in Minnesota.” We enjoy your visits to Green Hall, Ted.

CARL REIDEL is Forester with the U. S. Forest Service presently at Harvard University, Cambridge, Massachusetts. He reports—“Will complete Master Program at Harvard Graduate School of Public Administration in June, 1964. Daughter, Ingrid Eve, added to family last July. Bob Davidson (’57) living a few doors away who is attending Harvard Business School.”

BRUCE ROETTINGER is Entomologist with the U. S. Forest Service. Division of Insect and Disease Control, Region 10, in Juneau, Alaska. He sends this note—“Still single and continue to be awed by the beauty to be found here in the 49th state. Have adjusted to the rain and short winter days, but the days of almost continuous light in the summer will soon be here. There is getting to be quite a gathering of Gopher People here. More than happy to show any new arrivals the sights—including the Red Dog Saloon.”

RICHARD SCHNEIDER sends word from Cloquet, Minnesota where he is Forester with The Northwest Paper Company. We sure miss you at Green Hall, Dick—Kew.

NORMAN STONE is Research Forester for Consolidated Papers, Inc. in Rhinelander, Wisconsin. He reports—“Not much news from Rhinelander right now. Family and job about the same as now. Am very busy with Boy Scouts. Seems the best way to help with the country’s future. Good to see Grand Rapids return. Keep up good work on the Peavey.” Thanks, Norm—and it was good chatting with you.

WESLEY SUHR is Student and Instructor for the Department of Water and Management, U. S. Forest Service, University of Arizona, Tuscon, Arizona. He says—“Family—2 girls, 3 months and 3 years—wife, Carol. All fine and basking in 70 Tucson sun. Will complete M.S. with Forest Juvenile and Coronoa National Forest. Will have M.S. in Watershed Management-Hydrology after next summer; may continue for Ph.D. Teaching forest measurement (lab and lecture); working on thesis research and taking courses. Also Forestry Club advisor.”

BOB THOMPSON greets us from St. Paul, Minnesota, where he is Instructor at the University of Minnesota, St. Paul Campus. We enjoy having you with us, Bob!

DOUG THORUP is Instructor and Graduate Student at the University of Minnesota School of Forestry, St. Paul, Minnesota. He says—“We have a daughter now, Jessica Beth. Both Susan and I hope to complete our degrees in the next few months.”

RICHARD TOUSLEY reports to us from Enumclaw, Washington, where he is District Ranger on the Mount Rainier National Park.

ROBERT TOWLER is Forester with the U. S. Forest Service in Sundance, Wyoming. He reports—“Hello from the best deer, turkey, and antelope hunting in the country. It’s been a mild winter with all the snow coming very late. Besides being ‘buzzy’ with bark beetles our timber cut, acres thinned—commercially and precommercially—will be the highlight of the Grand Rapid River sawmill clinic in Casper, Wyoming. He had a cast on his leg—not as good a skier as he thought he was. We had a good chat. Now have two boys (1 and 3 years) and a girl (5 years).”

1959

EGOLFS BAKUZIS is Associate Professor at the University of Minnesota School of Forestry, St. Paul, Minnesota.

PAUL BERGLUND sends us word from Fargo, North Dakota where he is Owner of Berglund, Inc. with construction and real estate as his business.

HAROLD M. BOLT is Assistant Ranger in Boise National Forest (USFS), Cascade, Idaho. He sends this note—“House full of kids (3). We’re all doing fine and enjoy the Boise and Idaho.” We sure enjoy having Ralph around, Harold—he is a fine, young man.

ROGER BRASK is Park Ranger in Marble Canyon, Arizona. He writes—“Still Ignoring in Glen Canyon National Recreation Area. Running a district which encompasses 15 miles of Colorado River below Glen Canyon Dam. Headquarters at Lee’s Ferry. Family the same with one boy (4 years) and one girl (two years).”

RAMON CLARK is Land Uses Forester with the USFS in Wasatch National Forest, Salt Lake City, Utah. He reports—"Greetings from Utah. Still living in the 'Land of Zion'. We added a little boy to our family last spring so now have one of each. Looking forward to visiting Green Hall this fall." We enjoyed chatting (arguing with you this past fall, Ramon.)

ROBERT DRENEN is with Redwood Promotion, Diamond Lake Station, Minneapolis, Minnesota. He states—"We had a 7 lb. 6 oz. addition to our family last May 31st. We named her Michelle Ray. She now gives us a million-dollar family, one boy and one girl."

EDWIN GODDELL sends us a note from Alma, Wisconsin, where he is a wildlife officer with Wisconsin Conservation Department.

CORNELIUS GROOTHOUSSEN writes from Utah. He states—"I am being convinced more each year that this business of being a family man is more important than the forestry courses that I took. Thanks for the advice, Karl—I have been doing some of this, but I'll push it even harder now."

RICHARD HORN is a Forest Products Technologist with the Forest Products Laboratory in Madison, Wisconsin. He says—""As of April 6, 1963 have graduated from the ranks of bachelors. My wife and I bought a house situated on half an acre of wooded lot near where he is Forester in Timber Sales for the Bureau of Land Management. I enjoyed chatting with you on the phone, Cornelius."

RICHARD HAASE is with the U. S. Forest Service at the Lowell R. S. in Lowell, Oregon. He sends—"Karl—Happy to announce one addition to our family—Jennifer Carol. She was born May 31, 1963. We love you, AI."

EDWARD THERRIEN is with the Lake States Forest Experiment Station in St. Paul, Minnesota. He reports—"Working for Lake States and coming back to school this year." We sure did enjoy those Mackenzie River slides, Ned.

JOY PROBASCO is Forester with the U. S. Forest Service on the Stanislaus National Forest in Groveland, California. He writes—"'I'm sorry I didn't make it back to Minnesota this year. Sure wanted to get in some good hunting and fishing. Still single—Adventurist! Anyone traveling back to Minnesota on vacation, via long way California, stop in! Groveland, Gateway to Yosemite."

AL SCHACHT is with the U. S. Forest Service at Coron Ranger Station in Hungry Horse, Montana. He says—"Was married in fall of '63. Wife Judy is keeping working for that extra buck. She is a registered nurse. Returning to Region one upon completion of Master's requirements." We miss you, Al.

CLYDE SHUMWAY is Research Forester with the PSW Forest Range and Experiment Station in Berkeley, California. He reports—"Just finished up another year of research on the effects of brush control on timber production. Again, also back in school at California. I see Art Roske '59 from time to time. He's just as nuts about 'bugs' as ever. Greet your family for me, Ken, and good luck on the Peavy which means more to me each year." Thanks, Clyde—many good times come to mind when you were PV editor!

RICHARD TROCILIT reports to us from Park Falls, Wisconsin where he is with the U. S. Forest Service. Again, Dick—thanks for your continuing interest in the School of Forestry and the University. Just noticed your wife's picture in the Sunday Tribune (4-26) (Mississippi's first homemaker of the year (1955). Congratulations!

1960

KENNETH ANDERSON is with the U. S. Forest Service in Glidden, Wisconsin. He sends this note—"My tour with the Army ended last July after spending 1½ years in Germany. I spent about 8½ weeks relaxing on leave, made a trip to Oregon. In mid-September I started working on the Glidden District, Chequamegon National Forest in northern Wisconsin. The job and people here are fine but the timber leaves a few things to be desired. Still single and doing well.

GEORGE BECKER writes a note from Madison, Wisconsin where he is with the Department of Entomology, University of Wisconsin. Congratulations for winning the Gervakion Award, George—KEW.

MILDRED BROWN is Research Assistant with The Last Paper Chemistry in Appleton, Wisconsin. He states—"Something new this year. One baby boy named Andrew. Still working with that weed tree, aspin. It was good to see you last fall."

That and go to school, Miles.

JAMES BROWN is Research Forester with the Lake States Forest Experiment Station in St. Paul, Minnesota. He reports—"Presently working on the revision and combing of two writing circles on the Beaverhead National Forest. Family status: Wife, Nancy, and four children: Susan Liza, Mike, Dele, Dori."

JOHN ENGELS sends us this note—"Still with the U. S. Army at Fort Leonard Wood, Missouri—but are getting pretty close to the end of my enlistment. Got married here in St. Paul, and I will be heading for Oregon when I become a civilian in March of 1964."

HARRY FISHER is Assistant District Forester with the Minnesota & Ontario Paper Company in Effie, Minnesota.

SAM HALVERSON is Assistant Ranger of the Sioux Ranger District (USFS) in Camp Creek, South Dakota.

LEE HINDS is Nursery Manager of Oakes Nursery in Oakes, North Dakota. He says—"Don't suppose this will take the place of contact with you at a family level. "New office at the Nursery, stop for coffee. Best regards." And the same to you, Lee—say hello to Byrnc—KEW.

WILLIAM KAUCH reports to us from Solon Springs, Wisconsin, where he is Forester at Mesinee Industrial Forest. He reports—"Buying land and timber, considering some other areas."

WILLARD KIEFER is Assistant District Forester, Wisconsin Conservation Department, in Webster, Wisconsin. He states—"I have been here at Webster in the jack pine for a year now. Recently took that step and got married to a girl from Park Falls."

THOMAS KLEPPERICH is Research Assistant with the U. S. Forest Service in St. Ignace, Michigan. He reports—"Happy to announce one addition to the family—Jennifer Carol. She was born May 31, 1963.

JOHN KLEPPERICH KLUG sends us a note from Susanville, California where he is Instructor of Forestry at Lassen College Ranger School.

NELS LEE reports to us from Aurora, Minnesota where he is Assistant District Ranger with the U. S. Forest Service.

VERNON OBERG sends us word from Culp Creek, Oregon where he is Forester for the U. S. Forest Service. We enjoyed your visit to Green Hall, Vern.

DUANE PACKER is with the U. S. Forest Service in St. Ignace, Michigan. He reports—"Transferred to St. Ignace as Assistant Ranger in July."

TOIVO SOBER is Assistant Ranger at Rio Grande National Forest (USFS) in Monte Vista, Colorado. Your visit to Green Hall was short, Tavo. I am waiting for your next note.

LOUIS SUDEheimer presently in the Service, sends this message—"As I write this at Christmas I am one month from release from the Air Force. I will be discharged in Berlin, Germany as a forester's helper until June, when I will spend about 2½ months traveling before returning to the U.S.A. I see John Austin ('63) who is presently working in Germany about once a month. How's everything, Kenny? Pretty good, Louie—

EDWARD THERRIEN is with the Lake States Forest Experiment Station Recreation and Economic Research Division in St. Paul, Minnesota. He reports—"Transferred to the Lake States Forest Service and coming back to school this year." We sure did enjoy those Mackenzie River slides, Ned.

1961

ALVIN ALM reports to us from Cluquot (and St. Paul) where he is a Graduate Student at the University of Minnesota, Forest Research Center, Cluquot, Minnesota.

JAMES BROWN is State Forest Forester in Custer, South Dakota. He writes—"Two children, Timmy and David, are doing well in a ranch in July 1963 and have formed a corporation for campgrounds. All well and happy. Had an opportunity to entertain a lot of stumped-jumpers this past year. We extend an open invitation to your friends to stop and stay with us." Enjoyed your article on TSI—Keep up the good work, Jim.

DAVE EGGEN is Assistant Ranger with the U. S. Forest Service on Chequamegon National Forest in the Park Falls, Wisconsin, Region One.

RICHARD FLANELLY is Assistant Ranger for the U. S. Forest Service in Manistee, Michigan. He reports—"Nothing significant."

LEW HENSON is Assistant Staff, Timber Management, Shawnee National Forest in Harrisburg, Illinois. He sends this note—"Family and myself are enjoying a "visit" to Southern Illinois. It's hard to imagine timber, wildlife, and recreation in Illinois, but it's here in quantity and quality."

Greetings from

HOWARD E. OLSON—'47

SONFORD PRODUCTS CORPORATION

Wood Preservatives

RAND TOWER—6th and Marquette
MINNEAPOLIS, MINNESOTA
RICHARD HILLIKER is Air Defense Artillery Director of Army Operations in Tacoma, Washington. He sends this note—"Complete two years with the 3rd Marine Division in the Far East. So far I've visited Japan, Okinawa, Taiwan, Hong Kong, and Okinawa. It's been a good experience of a few months until I'm out of the Corp and back into the woods. Big news event of the year occurred when my sister, Evonne, married Chuck Casel of '63. Glad to have another forester in the family."

IRVIN JOHNSON is Forestier with the Bureau of Land Management in Coos Bay, Oregon. He reports—"I took the final step and got married on June 8, 1963. I'm busy doing inputting timber sales and cruising in the blown down timber which resulted from the 1962 Columbus Day wind storm that hit the West Coast." KENNETH JOHNSON is Forestier of the Lakewood Ranger District, Chippewa National Forest (USFS). He says—"Hi gang! The big news is that I was married in June to the former Judith Ann Dale. John Hall '61 was the best man. Two other foresters from T.M. Survey at Ely succumbed to wedded bliss. Congratulations to Smith and Wayne 'Nick' Nichols. Warning to all bachelors who want to retain that status—beware of the Ely teachers! Presently I'm settled on the Lakewood Ranger District of the Nicolet National Forest."

GARY LYTLE writes to us from Houston, Missouri where he is Assistant District Ranger for the U.S. Forest Service. He says—"Greetings from Alaska! Still enjoying the work and the scenery very much. Our only family addition is Jonas Bras, of Denver making head mounts of a Dall sheep and mountain goat."

KEITH McCAFERY is Forest Habitat Ecologist at the Ranger Station in Black River Falls, Wisconsin. He reports—"Wife and I doing real fine despite interruption by my six-months active duty with the Army. Have enjoyed my work with the Wisconsin Conservation Department very much and am looking forward to getting back on the job as soon as possible. ETS 9 March 1964—Woopee!!"

RICHARD MADDEN is presently with the Navy in San Diego, California. He writes—"Still with the Navy, now as a Courier Traveler working out of San Diego. Increased the family to three, August 29, 1963. A boy, named after his old man of course!"

DONALD MROCHINSKI is Salesman of Industrial Products for the Wood Conversion Company in St. Paul, Minnesota. WAYNE NICOLLS is Forestier with Watershed Management and Land Acquisition, U.S. Forest Service, Duluth, Minnesota. He sends this note—"I took a job as a Forestier for the Sibley National Forest, Minnesota. It's a good job and I thoroughly enjoy working with the people."

KEITH McCABER writes to us from Houston, Missouri where he is Assistant District Ranger for the U.S. Forest Service. He says—"I really enjoy working out timber sales and cruising in the blown down timber which resulted from the 1962 Columbus Day wind storm that hit the West Coast."

E. RICHARD JOHNSON is Forester with the U.S. Forest Service at the Reder Ranger Station in Hill City, South Dakota. He says—"I'll have to come back for further study and bring my color plates with me. Fishing season's been good and hunting normal—four deer the first day. Rainbows run 21" and silver salmon a real thrill to catch—10-20 lbs. Wife expecting first child at Christmas. Job is interesting and a challenge."

RICHARD MARTIN is Supervisory Pork Ranger at Staircase Ranger Station in Hoodspoor, Washington. He sends this note—"Now have two children, both boys. Living on the east side of Olympic National Park. Currently in Park Protection and Law Enforcement work. Responsible wife. Have seen that recent change in ranger park positions on graduation." That was a pretty good argument on "Forestry Education" that we had back in Green Hall, Dick.

WILLIAM MOEHN is a Forestier in Prescott, Arizona. He writes—"Married", 11-month-old son, Fifteen months with U.S. Forest Service all at Prescott National Forest. Presently working on compartment analysis and timber inventory. (Region 3)?"

RICHARD BUNDY reports to us from Bridgeville, California, where he is Forestier with the U.S. Forest Service. He says—"Went on a 10-day hunting trip in Alaska. Great time and scenery in the north."

DONALD KOENIGS is Assistant Logging Engineer in Thorne Bay, Alaska. He reports—"Another year has passed quickly by. Seems like I just got my last year's Peavey. I enjoyed it very much and appreciate your efforts on keeping the alumni informed as to activities in the School and the whereabouts of old friends. Looks like the girls are getting prettier than ever; guess I'll have to come back for further study and bring my color plates with me. Fishing season's been good and hunting normal—four deer the first day. Rainbows run 21" and silver salmon a real thrill to catch—10-20 lbs. Wife expecting first child at Christmas. Job is interesting and a challenge."
JAMES MOHLER is with the U. S. Forest Service in Medford, Wisconsin. He states—"Spent first year after graduation on Niolett National Forest, Eagle River RD, Wisconsin. Transferred to Chequamegan National Forest Medford, Wisconsin, RD, in July 1963. Added another daughter (Jennifer Lee) to the family in September 1964."

DONALD MYREN is a Graduate Student at the Department of Plant Pathology, North Carolina State College, Raleigh, North Carolina. He writes—"Hi! Was married to one of these southern gals earlier this year ('63)'—wife Terri and I are hoping to get back up to the University to complete my graduate program. Nothing definite on this yet but it would be nice to return to Minnesota and 'Yankee Land' again."

DONALD PEDERSON is an Ensign with the U. S. Navy and sends us this report—"After six months with the BLM in Oregon, I felt the call and joined the Navy. I am now aboard a refrigerated canning ship steaming around the Atlantic."

ROBERT POKELA is Forester for the U. S. Forest Service in the Salem Ranger District, Salem, Missouri. He says—"I am Forester with the U. S. Forest Service on the Salem Ranger District, Clark National Forest. I have seen some Minnesota grads on various occasions. I'm still single and living in a trailer but plan to change the situation in the near future. After cruising in the hills of Missouri, I suddenly became homesick for mosquitoes and spruce swamps. I'm primarily working with reforestation and timber stand improvement, and am enjoying the work."

TEDE SCHWENKEL greets us from St. Paul, Minnesota, where he is Expeditor for The Sussel Company.

HAROLD SERSLAND sends us word from Pueblo, Colorado where he is Agriculturist (Land Mgt.) for the Bureau of Reclamation (USDI).

BERNARD SKRIVSETH is presently 'employed by the U. S. Navy stationed aboard the U.S.S. Calvert. He reports—"I am now settling down to the erratic pattern of Navy life aboard the U.S.S. Calvert. The next one-half year will be spent in the Western Pacific."

WALLACE SWANSON is Forester with the Department of Interior, Bureau of Land Management in Battle Mountain, Nevada. He says—"Still only have three children. No new additions in the immediate forecast. I am enjoying work with a BLM Grazing District as the Forester and Fire Control Officer."

RICHARD VOLK informs us that he is Second Lieutenant with the U. S. Air Force at Ringley Field, Oregon.

JAMES WHITNEY greets us from Minneapolis, Minnesota, where he is Salesman with the Chapman Chemical Company.

ROBERT WITHEROW is Lieutenant in the U. S. Army Defense Language Institute, Presidio of Monterey, California. He writes—"Greetings from California and Uncle Sam's Army. I'm still a student at the Foreign Language Institute, Presidio of Monterey, California. He writes—"Began work on the Language Institute. He says—"I am presently serving with the U. S. Army Engineers as a platoon leader and company motor officer. My wife and I are both enjoying Germany very much. We are about 75 miles east of Frankfurt in the Rhon mountain ranges. They have some nice spruce forests here and practice very intensive management."

WARREN HOLZHEID is Forester for the Bureau of Sport Fisheries and Wildlife, U. S. Fish & Wildlife Service in Minnesota. He reports—"I am very pleased with my job with the Bureau of Sport Fisheries and Wildlife. I consider myself fortunate to be stationed in the regional office here in Minneapolis. I got married in August and Casey and I are now living in Richfield."

DARREL KENOPS is a Forester at the Slate Creek Ranger Station, Whitebird, Idaho. However, he reports—"Presently in the U. S. Army at Fort Ord, California. After release in June I will be getting married and will return to Nez Perce National Forest. Best wishes to the Forestry Club and Peewee Staff for a successful year."

LYNN LEPPANEN is Forester with the U. S. Forest Service in Kettle Falls, Washington, at the Kettle Falls Ranger Station.

CARL RASMUSSEN sends us word from Fergus Falls, Minnesota, where he is Appraiser-Negotiator for the Area Acquisition Office, U. S. Fish and Wildlife Service.

LORENZ SWENDNER is Forester in Cosmosus R. D., Eldorado National Forest in Placerville, California. He writes—"Began work on the Cosmosus R. D. June 24, 1963. Time divided first 6 months between timber, cultural, and fire. At present am working in Forest Supervisor's Office for Harold Engstrom (Minnesota '32) on forest transportation system, right-of-way, and land withdrawal records. 'Old Hungtown' is a historic logging and mining town. We live about five miles from Sutters' Mill and it's about one hour to Lake Tahoe, 45 minutes to Sacramento and 2½ hours to San Francisco. To any who may pass thru this way—be sure to stop and visit."

WILLIAM TORGersen is Forester for the Bureau of Land Management in Prineville, Oregon. He states—"Still foot loose and fancy free. I'm finding time to ski every weekend and enjoy the brushless, dry and not very steep side of the Cascades. I'm presently on forest inventory under Dick Huff '58. I also got down to Medford to hunt pheasants with Gordy Gray '61 and Mel Chase '62. Bob Panek '62 and I also manage to get together once in a while."

JACQUES WESSION, who is a U. S. Navy Officer Candidate in Newport, Rhode Island, sends this note—"Dear Willie, Well the news I can think of is that I got married last September. My wife Evonne is the sister of Warren III ('61), so no stranger to forestry. I got out of the Navy in about a year and am looking forward to getting back to the woods."

1963

ROBERT POKELA sends us word from Hoodsport, Washington where he is Forester with the U. S. Forest Service. He sends this note—"Hoodsport is as usual—wet; 90+ inches were tallied for 1963."

ROBERT POKELA sends us word from Fergus Falls, Minnesota. He says—"Am located in Fergus Falls, Minn. Working on small wetlands program. Other U of M grads here are Phil Aus and Ben Lukes. Stop in if going through the area."

LEONARD BURKART is Assistant Professor with the Forestry Department, Stephen F. Austin State College, Nacogdoches, Texas. He reports—"I'm enjoying teaching here at SFA very much and the family likes Texas fine, especially the shirt sleeve weather we are enjoying here this winter."

CONRAD WETZEL is with the U. S. Navy (Active Reserve) c/o FPO New York, New York.

LEONARD BURKART is Assistant Professor with the Forestry Department, Stephen F. Austin State College, Nacogdoches, Texas. He reports—"I'm enjoying teaching here at SFA very much and the family likes Texas fine, especially the shirt sleeve weather we are enjoying here this winter."

CHARLES ZOSEL is Yeoman with the USNR. He writes—"Best news I can think of is that I got married last September. My wife Evonne is the sister of Warren III ('61), so no stranger to forestry. I got out of the Navy in about a year and am looking forward to getting back to the woods."

ROBIN ROBERTSON is with the U. S. Army Engineer Corporation as a platoon leader and company motor officer. My wife and I are both enjoying Germany very much. We are about 75 miles east of Frankfurt in the Rhon mountain ranges. They have some nice spruce forests here and practice very intensive management."

ROBERT POKELA is Forester for the U. S. Forest Service in Kettle Falls, Washington, at the Kettle Falls Ranger Station.
ciably. This change, when combined with the growth in graduate enrollment, places a heavy teaching and advising burden on our staff. This has already resulted in additional pressures on staff members because we expect them to carry on research as well as handle their teaching responsibility, which we still consider their first obligation. The only solution to this problem is the addition of more staff.

Employment of Graduates

The job situation in the Forest Resources Management field is not as active as in recent years. This is primarily due to the fact that the U.S. Forest Service and other federal agencies have been forced to reduce their hiring. However, a number of states—including Minnesota—have considerably increased their hiring and this should help offset the reduced level of federal employment. Although there may appear to be some problem of placing graduates, we suspect that by the time July 1, 1964 comes around, the majority of our graduates who have not already been placed will have found employment in the forestry field.

As indicated earlier, the employment opportunities in the forest products field are particularly abundant. Part of this abundance is due to the fact that Robert Thompson of our staff has been making a special effort to locate such positions and to call to the attention of the forest products industries our training programs and the availability of graduates.

Miscellaneous

As indicated in my 1963 report, we plan this summer to have some type of 50th anniversary commemorative exercises at the John H. Allison Forest. It was in 1914 that the first plantings were made at Lake Vadnais by Professor J. H. Allison. Under “J.H.’s” guidance, the Lake Vadnais plantations have developed into a real forest and the area was appropriately named the J. H. Allison Forest by the St. Paul City Water Department.

A new 16-man student cabin has just been completed at the Cloquet Forest Research Center. The building of this cabin was absolutely essential because the largest number of students in the history of the School (84) is in residence at Cloquet this spring. Mr. John Hamilton, Class of 1950, Halverson Trees Inc., will assist us during the spring quarter in connection with the Cloquet instruction in the area of silviculture.

The annual Forestry and Forest Products Careers Day will be held this year in Green Hall on May 9. These Career Days have become very interesting sessions and we hope to build them into occasions of still greater significance in the future.

The establishment of the Minnesota Outdoor Recreational Resources Commission and the considerably expanded natural resources development program has involved the Director, the Assistant Director, as well as a number of School of Forestry staff members and graduate students in added activities. The School and its staff played an important role in the development of the report “Natural Resources of Minnesota,” which in turn became the basis for the Minnesota Outdoor Recreational Resources Commission and its very active and continually expanding program.

It was a privilege and pleasure during the past year, as it has been during previous years, to meet many School of Forestry graduates at professional society meetings and during my travels in connection with administration of the McIntire-Stennis Cooperative Forestry Research program. Also, we are happy that so many of you were able to visit the School during the past year. The staff looks forward to having more of you visit us in 1964.

With greetings from the staff to all alumni of the School—wherever this issue of the Gopher Peavey Alumni News finds you.

I hope you have enjoyed paging through the Peavey. We enjoyed preparing it for you.

Many thanks to the students, staff, alumni, and advertisers who helped to make this edition possible.

Willie

FOR LASTING PLEASURE
FROM NORTHWEST TIMBERLANDS

Flourishing forests, sparkling lakes and streams, and abundant fish and game are significant benefits of timberlands and tree farms of The Northwest Paper Company. Every tree harvested is replaced by more than one new tree through natural reseeding and controlled planting under the supervision of company foresters. Scientific reforestation and sustained yield management with careful fire prevention and disease and insect control assure ample wood, water and wild life—now and in the years to come.
