FORWARD...

The 1966 Gopher Peavey is dedicated to “THE FORESTER” — Minnesota School of Forestry graduates serving as professional foresters throughout the United States and the World. These men are the profession of forestry and the hope for the future. Serving as land managers, researchers, teachers, engineers, and merchandisers, they collectively determine the status and reputation that we as students hope to build upon in the years to come. In dedicating this book to you — the foresters of today — we dedicate ourselves to carry on the rich heritage and traditions that you are moulding for tomorrow — our future.

University of Minnesota

St. Paul
School of Forestry Report
by F. H. Kaufert
Director

Had this report been written last July, its tone probably would have been pessimistic. So many things were happening or had happened that the prospects for the coming year looked somewhat dark.

Professor R. M. Brown (Brownie) had just retired and we had not then and have not yet found a replacement. Dr. Don Duncan, our most productive and nationally recognized Assistant Director, had resigned to become Director of the University of Missouri School of Forestry. Dr. Ralph Hossfeld had been granted a year's leave to write and study in U.S. and foreign wood chemistry laboratories. Dr. Hugo John had been granted leave to work with FAO for a year on a forest inventory problem in Nicaragua. Dr. Merle Meyer was planning a second trip to Argentina. Drs. Dick Skok and Henry Hansen were on study trips of several months duration to northern Europe. Our Principal Secretary Iva Manley, who had so efficiently run the School for eight years, decided to leave us. In addition, we had prospects of obtaining considerable State and Federal funds for research, if we could develop the necessary strong research project proposals.

It is a real pleasure, therefore, to report that the School has not only weathered this situation but has made real progress during the year. We seriously miss Dr. Duncan but congratulate him on his new position and the challenges he has in further developing the Missouri School of Forestry. Dr. Hugo John is having a most interesting and valuable year in Nicaragua and will return to us with forest survey and inventory experience in the tropics. This experience will become more valuable as we broaden our interests and program in the international forestry field. Drs. Skok and Hansen had very beneficial study tours in northern Europe, Dr. Hansen studying the management of forested recreational areas and Dr. Skok the European forest products market as a possible outlet for Lake States forest products. The value of these experiences to the School and to Minnesota forestry has been clearly indicated in the several presentations they have made since returning. Dr. Hossfeld's year of sabbatical will provide him with experience and knowledge which should be very valuable in the further development of our forest products education and research programs. Dr. Merle Meyer has continued his work with FAO and plans a brief trip to Argentina during the spring or summer of 1966. Although every commitment of this type involves complications for the School, they are indications of the quality of our staff, and the returns in terms of experience and added recognition probably more than counterbalance the special problems posed to the Director and other School staff members. Consequently we congratulate each of the individuals concerned on this personal recognition and thank them for the recognition they brought the School of Forestry.

We were most fortunate to be able to employ some top quality instructors to help carry on the work of the School of Forestry during this somewhat tumultuous period. Carl Mohn (Minnesota, B.S. 1960, M.S. 1964) was appointed to assist in the forest genetics and dendrology areas. Paul Smith (Colorado, B.S. 1947, M.F. 1948), who came to us after 15 years in industrial forestry, was appointed to assist during the spring session for seniors at Cloquet and conduct research in silviculture. Carl Reidel (Minnesota, B.S. 1957, M.P.A. Harvard 1964) returned after 8 years with the U.S. Forest Service and has taken the responsibility for our largest enrollment course, Conservation of Natural Resources, which this winter has a registration of 130 students. Sid Frissell was appointed to handle our forest recreation teaching during the spring quarter. Garry Frits is an instructor in the forest measurements and aerial photogrammetry field. To handle our forest statistics program we were fortunate to employ Mr. Dennis Schweitzer (Penn State, B.S. 1961, Minnesota, M.S. 1963) of the North Central Forest Experiment Station, who is doing Ph.D. study with us.

We were equally fortunate that Mrs. Elsie Hagelee, as Principal Secretary, and Mrs. Kay McCoy and Mrs. Elaine Earl as Secretaries, joined us. Without them we could not have survived.

Dr. Jay Hughes, who completed his undergraduate work at the University of Colorado, his M.F. at Colorado State and his Ph.D. at Michigan State, will join us within the next month as an Associate Professor in forest economics. Jay has been in forest economics research at the Pacific Northwest Forest and Range Experiment Station for several years. Dr. L. C. Merriam, who has his un-
dergraduate degree from California and M.F. and Ph.D. from Oregon State, will lead and further develop the fine outdoor recreation program that Don Duncan initiated. He will join the School in July. We feel fortunate to have Jay and Larry join our staff and look forward to this association. Their presence on our staff will enable us to participate more fully in the rapidly growing resource development and outdoor recreation teaching and research programs.

J. H. "Pop" Allison is actively engaged in working up growth data for the Chapman Plantations at Grand Rapids and the John H. Allison Forest, formerly the Lake Vadnais Plantations. All of us were saddened by the passing of Ethel Allison, who had been so much a part of the School along with J. H. Dr. T. Schantz-Hansen "Schantz" received two outstanding honors during the past year — the University of Minnesota Outstanding Achievement Award last spring and election to the grade of Fellow in the Society of American Foresters last fall. This is well deserved recognition for a lifetime of service to the profession and the University. As a member of the Board of the Directors of The Northwest Paper Foundation, Schantz handles the arrangements on our highly valued Northwest Paper Foundation Fellowship program. Schantz and Marian reside in Cloquet. Brownie hasn't used the desk or office space we have for him, but he has travelled a great deal and is about to take off for Hawaii on another trip. Parker Anderson's desk with Extension Foresters Marvin Smith and Bill Miles, both of whom are officed with the School in Green Hall, gets about the same treatment from the standpoint of occupancy. Parker is busy serving on committees, travelling, hunting and fishing. That is the way retirement should be.

John Neetzel ('39) joined us on July 1, 1965 as a Research Associate in Forest Products. Steve Limstrom ('28) and Harold Rathbun ('28) also are on our staff on special projects.

Facilities

Green Hall remodelling and construction of our new greenhouse are gradually drawing to a close. Ed Sucoff has been deeply involved in this and we know that he will be happy to be through with this very time consuming assignment and able to occupy some of the new facilities with his graduate training and research programs. The new laboratories and greenhouse will be utilized primarily for graduate education and research in forest physiology, forest genetics, forest ecology and watershed management.

With our growth in staff and graduate students, all of Green Hall — which we used to share with the North Central Forest Experiment Station — and the two units of the Forest Products Building are filled to overflowing and we are concerned with lack of suitable staff offices and graduate student research space. The third unit of the Forest Products Building, which would round out our 10-year building program, is proposed for inclusion in future building requests to the Legislature.

The School recently received a gift of 32 very interesting and colorful paintings from the estate of Effie Bornhoft. When all the rehabilitation and remodelling of Green Hall are completed, these paintings will be hung and some type of dedication or open house held. We deeply appreciate receiving these paintings. They will add another most interesting item to those that make Green Hall, the Forest Products Building, and the North Central Forest Experiment Station building one of the finest forestry centers in the country.

Under the direction of Superintendent Bruce Brown the Cloquet Forest Research Center facilities have been considerably improved and more is planned for the future, including remodelling of the office, construction of a laboratory addition, and several student cabins suitable for winter use.
Enrollment and Employment

Undergraduate enrollment increased about 10 percent, from 343 in 1964-65 to 379 in 1965-66. Graduate enrollment increased from 60 in 1964-65 to 66 in 1965-66, with about one-half of the students working towards the Ph.D. and the remainder for the M.S. or M.F.

Our senior class deserves special congratulations for the scholarship record achieved. Eleven seniors were recently elected to the scholastic honor society Gamma Sigma Delta, the highest number to-date. This number exceeded that of Agriculture, which has about \( \frac{3}{2} \) times as many students as does the School of Forestry.

The employment situation in recent years has annually shown greater diversity and more representatives are coming to the Campus for interviews with students. Recreation, forest products, watershed management, and all of the research fields have been particularly active employment areas. Also, an ever increasing number of graduates is continuing for graduate study. We expect this activity in the employment situation to continue and even improve. Developments in the conservation fields certainly indicate that we can continue to be optimistic with respect to future employment opportunities.

Scholarship Programs

Dr. Stanley and Mertie Buckman have generously provided added support for the Henry Schmitz Student Leadership Award program. Dale Chapman is continuing his very stimulating Chapman Scholarship program for freshmen and sophomores. Mr. and Mrs. F. X. Corbett have established the Robert Goudy Memorial Scholarship program, in memory of Robert Goudy ('38), who was lost in World War II. Mrs. Corbett is Bob Goudy's sister. Another new scholarship, the E. A. Everett Memorial Scholarship, will be based on income from property willed the School by the former E. A. Everett of Waseca. The Edward L. Lawson Memorial Scholarship program was initiated by his family and friends. The Henry Schmitz Memorial Scholarship Fund, established following the passing of Dr. Schmitz, will be built further before a scholarship program is established from the interest. The E. G. Cheyney Memorial Scholarship program is being adequately maintained through the added income obtained when the Gopher Peavey-Alumni News dues were slightly increased (\$0.50) in 1965. Forestry School students have been particularly successful during the past year in winning such national awards as the Homelite, Chicago Northwestern Railroad, American Forest Products Industry — 4-H, and others.

Although our scholarship situation is improved, it is still rather insignificant when compared to the need of forestry students and the far more favorable situation prevailing in other parts of the University.

Other

The Lake States Forest Experiment Station, recently renamed North Central Forest Experiment Station, is now headed by David B. King (Minn. '38).

North Central Forest Experimental Station

All staff members join me in this expression of greetings and best wishes and invite you to visit us during the coming year at the St. Paul Campus Forestry Center.

To the families and friends of School alumni who passed away during the past year we extend our deepest sympathy. Those reported as deceased during the past year are:

- Dr. Julius V. Hofmann (B.S. '11, M.S. '12, Ph.D. '14), holder of the first Ph.D. in Forestry; long-time director of the North Carolina School of Forestry; developer of the Hofmann Forest (Raleigh, North Carolina).
- Raymond E. Stevens ('23), CCC director for Minnesota; consulting forester; land appraiser (Duluth, Minnesota).
- Edward L. Lawson ('27), director of field crews — Forest Survey, U.S.F.S.; deputy forester and forester, Minnesota Division of Forestry, Department of Conservation (Minneapolis).
- George Rogosheske ('39), district forester and forest products specialist, Division of Forestry, Department of Conservation (St. Paul).
THE STAFF

J. H. ALLISON
Professor Emeritus
Ph.B. Yale University, 1905
M.F. Yale Forestry School, 1906
Retired 1952

T. SCHANTZ-HANSEN
Professor Emeritus
B.S. Minnesota, 1915
M.F. Yale, 1917
Ph.D. Yale, 1935
Retired 1960

RANDOLPH M. BROWN
Professor Emeritus
B.S. Cornell, 1921
M.F. Cornell, 1924
Retired 1965

SCOTT S. PAULEY
Professor
B.S. Minnesota, 1939
M.S. Michigan State, 1942
Ph.D. Harvard, 1947
Forest-tree Genetics, Dendrology

HENRY L. HANSEN
Professor
B.S. Minnesota, 1935
Ph.D. Minnesota, 1946
Ecology, Silviculture

RALPH L. HOSSFELD
Professor
B.S. Idaho, 1937
M.S. Idaho, 1939
Ph.D. Minnesota, 1942
Wood Chemistry, Wood Finishing,
Pulp and Paper, Research Methods

FRANK H. KAUFERT
Director
B.S. Minnesota, 1928
M.S. Minnesota, 1930
University of Halle, Germany, 1930-31
Ph.D. Minnesota, 1935
MERLE MEYER
Professor
B.S. Minnesota, 1949
M.F. California, 1950
Ph.D. Minnesota, 1956
Photogrammetry, Range Management

RICHARD SKOK
Professor
B.S. Minnesota, 1950
M.F. Minnesota, 1954
Ph.D. Minnesota, 1960
Forest Economics, Forest Policy

E. V. BAKUZIS
Associate Professor
For. Eng. Latvia, 1935
Ph.D. Minnesota, 1958
Forest Synecology

BRUCE BROWN
Associate Professor
B.S. Minnesota, 1952
M.F. Minnesota, 1953
Ph.D. Minnesota, 1958
Superintendent of Cloquet Forest Research Center, Silviculture, Forest Management

JOHN G. HAYGREEN
Associate Professor
B.S. Iowa State, 1952
M.S. Michigan State, 1953
Ph.D. Michigan State, 1961
Structure and Identification of Wood, Strength of Wood Materials, Design of Wood Structures

FRANK IRVING
Associate Professor
B.S. Rutgers, 1948
B.S. Minnesota, 1949
M.F. Minnesota, 1950
Ph.D. Minnesota, 1960
Forest Policy, Forest Management, Forest Protection, Administration

EDWARD L. ROCOFF
Associate Professor
B.S. Michigan, 1955
M.S. Michigan, 1956
Ph.D. Maryland, 1958
Forest Tree Physiology

KENNETH WINSNESS
Associate Professor
B.S. Minnesota, 1949
M.F. Minnesota, 1953
Student Advisor, Senior Seminar, Alumni Secretary

HUGO JOHN
Assistant Professor
B.S. Minnesota, 1959
M.S. Minnesota, 1961
Ph.D. Minnesota, 1964
Statistics, Measurements, Research Methods
ROBERT D. THOMPSON  
Assistant Professor  
B.S. Minnesota, 1958  
M.S. Minnesota, 1964  
Building Materials Estimating, Merchandising, and Quality Standards

DAVID B. THORUD  
Assistant Professor  
B.S. Minnesota, 1958  
M.S. Minnesota, 1960  
Ph.D. Minnesota, 1964  
Forest Meteorology, Climatology, and Hydrology

SIDNEY FRISSELL  
Instructor  
B.S. Minnesota, 1960  
M.S. Minnesota, 1963  
Recreation

CARL MORN  
Instructor  
B.S. Minnesota, 1960  
M.S. Minnesota, 1964  
Dendrology

ROBERT W. ERICKSON  
Instructor  
B.S. Minnesota, 1958  
M.S. Minnesota, 1963  
Wood Drying

SIDNEY FRISSELL  
Instructor  
B.S. Minnesota, 1960  
M.S. Minnesota, 1963  
Recreation

ROLAND GERTJEJANSEN  
Instructor  
B.S. Minnesota, 1961  
M.S. Minnesota, 1962  
Wood Fiber Products and Particle Products  
Pulp and Paper

AL HALLGREN  
Instructor  
B.S. Minnesota, 1949  
M.F. Yale, 1950  
Introduction to Forestry, Logging, Student Employment

CARL MOHN  
Instructor  
B.S. Minnesota, 1960  
M.S. Minnesota, 1964  
Dendrology

CARL REIDEL  
Instructor  
B.S. Minnesota, 1958  
M.P.A. Harvard, 1964  
Conservation of Natural Resources

HAROLD SCHOLTEN  
Instructor  
B.S. Purdue, 1949  
M.S. Purdue, 1950  
Farm Forestry
JEAN ALBRECHT  
Librarian  
B.A. Wisconsin State University, 1958

RAY JENSEN  
Assistant Scientist  
B.S. Minnesota, 1937

JEAN ALBRECHT  
Librarian  
B.A. Wisconsin State University, 1958

RAY JENSEN  
Assistant Scientist  
B.S. Minnesota, 1937

SENIORS

JOHN D. AMUNDSON, South St. Paul, Minnesota.

DAVID E. BLACKFORD, Stillwater, Minnesota.

DONALD J. ANTONSON, Lewiston, Minnesota.

JOSEPH A. BRADY, North St. Paul, Minnesota.

DAVID J. BARBER, Deerwood, Minnesota.
Forest Resources Development. Forestry Club, 65-66; Foresters' Day Events Chairman, 65; Cloquet Diner's Club, Treasurer, 65; Summer Jobs: 1963 - Engineering Crew, U.S. Plywood Corp., Gold Beach, Oregon; Transferred from the University of Minnesota, Duluth, 1964.

STEVEN P. CHRISTIANSON, Hendricks, Minnesota.
Forest Resources Development. Forestry Club, 63-64. Summer Jobs: 1962 - Fire Control Aid, USFS, Sierra National Forest, Santa Maria, California. Transferred from the South Dakota State University, 1963.

DALE R. BERGDAHL

CHAD M. CONVERSE, Outing, Minnesota.

GLEN E. BERGLAND, Roseau, Minnesota.

MICHAEL J. DE SANTO, Duluth, Minnesota.
SHERIDAN I. DRONEN, Finley, North Dakota.

RICHARD A. HESSE

WILLIAM H. FOSSUM, Beloit, Wisconsin.
Forest Resources Development. Transferred from the University of Wisconsin, 1964.

DAVID P. JERONIMUS, Duluth, Minnesota.

PAUL T. FUCHS, Fairmont, Minnesota.
Forest Products Merchandising. Forestry Club, 62-63; Lignum Club, 64-66; Xi Sigma Pi, 65-66; Bailey Hall Cultural Chairman, 63-65; Bailey Hall Executive Board, 64-65.

DELBERT R. JOHNSON, Minneapolis, Minnesota.
Forest Resources Development. Forestry Club, 62-66; Chairman Of Foresters' Day Bean Feed, 64; Chairman of Foresters' Day Field Events, 65; Bull of the Woods Editor, 64; Gopher Peavey Staff, 63, Spring Sales; Xi Sigma Pi, 63-66; Ag. Intermediary Board, 64-66; St. Paul Campus Gun Club, 64; Society of American Foresters, 65-66. Summer Jobs: 1963-Forestry Aid, USFS, Ely, Minnesota; 1964-1965 - Research Assistant, USFS, Tofte, Minnesota; 1965-Forestry Aid, USFS, Ely, Minnesota.

WALTER W. GYLLANDER, Nashwauk, Minnesota.

THEODORE A. JOHNSON

ROBERT M. HEGG, Alexandria, Minnesota.
Forest Resources Development. Forestry Club, 65; Xi Sigma Pi, 65; Itasca Carp. Treasurer, 64. Summer Jobs: School of Forestry, University of Minnesota, St. Paul, Minnesota. Transferred from the University of Minnesota, College of Education, 1964.

MICHAEL C. KUPTA, Minneapolis, Minnesota.
GLYNDUR T. MAINWARING

CHARLES B. MORSE, St. Paul, Minnesota.
Forest Resources Development. Forestry Club, 61-62; I-M Sports, 63-65; Foresters' Day Publicity Co-chairman, 64; Foresters' Day Dance Chairman, 65. Summer Jobs: 1965 - Forest Survey Crew, Minnesota Division of Forestry, Deer River, Minnesota.

VINCENT L. MANN, West Chicago, Illinois.

DAVID G. NELSON, Madison, Wisconsin.

CARL J. MCLQUHAM, Chippewa Falls, Wisconsin.

MARTIN K. NELSON, Madison, Wisconsin.

PAUL A. NOREEN, Pine City, Minnesota.
Forest Resources Development. Forestry Club, 62-64; Xi Sigma Pi, 65-66; Business Manager, 65; Cloquet Dining Club President, 65; SCBGG, 62-66; Vice President, 64-65; I-M Sports, 62-66; Business Manager, 65; Cloquet Dining Club President, 65; SCBGG, 62-66; Vice President, 64-65; Xi Sigma Pi, 65-66; Gray Friars, 65-66; Order of Ski-U-Mah, 65; Society of American Foresters, 64-66. Summer Jobs: 1964 - Forestry Aid, USFS, Sierra National Forest, Dinkey Creek, California; 1965 - Forest Survey Aid, Minnesota Forest Services, Deer River, Minnesota.

RODNEY OSHIRO
DANIEL E. PIETSO, Minneapolis, Minnesota.
Forest Resources Development. Square Dance Committee, CMU, 61-66; Chairman, 62-63. Transferred from University of Minnesota, CLA, 1963.

DUANE F. SMITH, Siren Wisconsin.
Forest Resources Development.

RONALD J. PERISHO, Minneapolis, Minnesota.
Forest Resources Development. Forestry Club, 63-66; I-M Football, 1965; F-Doy Prize Committee Chairman, 64; F-Day Skit Co-Chairman, 65-66; SCBOG Fall Style Show Chairman, 64; Gopher Peavey Staff, 64 & 66; Dendrology Instructor, 65. Summer Jobs: Colorado River Water Conservation District, Rodman, 63; Dept. of Plant Pathology, U of M, 64; Camp Naturalist B.S.A., 1965; Forestry Aid, Lake States Forest Experimental Station, 1963.

Organizations
The Forestry Club started off the year in a big way by hosting the annual Midwestern Foresters' Conclave. Bob Gustafson was the chairman of this "gigantic" affair, and when the dust settled at the Cloquet Research Center the U of M Foresters found themselves in second place. Also, due to the fact that Jan Miller went "above and beyond the call of duty," we came in first at the Ice Cream Social. Thanks to the work of Bob, Jan and all the other U of M participants the Forestry Club now has a new chain saw. Thanks again, Bob.

After the excitement of the Conclave was over, the Club settled down to the business of earning some badly needed money. Mark Goebel, with the able assistance of Dwight Lockerby and the watchful eye of Treasurer "Corky" Westerman, took on the Christmas Tree Project. The results of the project was unbelievable: net profit about $1800. The best ever! Another job well done.

With all the Christmas trees sold and the money in the bank, the Foresters went home for a much needed quarter break.

With the coming of Winter Quarter, Foresters' Day started to roll. Dave "Daisey" Jeronimus was the head man for F-Day, 1966. Dave, with his able chairmen behind him, made F-D, 1966 the best the School of Forestry has ever seen.

Now that F-Day has passed, things are calming down. The Club hopes to establish an annual award for a deserving Club member. Also, there is the canoe trip in the Spring; the Forestry Club can never be accused of being inactive!

I would like to close this brief résumé of Forestry Club 1965-66 by again thanking the chairmen of the activities, the members who helped, the executive board, Chad, Corky, Paul, Mark, Jerry, Terry, and our advisor Dave Thorud — there are no better men to work with anywhere. Being your President has been the greatest honor of my brief career and the Club gave me much more than I can ever hope to return — thank you all!
Bull of the Woods

by Terry Lejcher

The Bull of the Woods, being just that, has been published this year with the hope that everyone has been satisfied with the sarcasm that has gone into it. Actually, the Bull is intended to give factual information about what is going on in the School of Forestry during the year. Its main purpose has been to keep the students posted on student activities. This year the Bull was fortunate enough to have several reporters on statistical information that is pertinent to the survival of all foresters. With the help of reporters, special surveys were conducted and results published. The published results brought an end to any question regarding where one should eat lunch.

Everyone has helped to get the Bull out this year. My special thanks goes to Kathy, our office secretary, who spent many lunch hours typing the Bull for me. It has been a lot of fun trying to keep the foresters up to date on activities. Thanks again to all who helped me and good luck to next year's editor.
Xi Sigma Pi, forestry honor fraternity, was founded at the University of Washington in 1908. Twelve years later Delta Chapter was established at the University of Minnesota. The fraternity's objectives are to secure and maintain a high standard of scholarship in forestry education, to work for the upbuilding of forestry, and to promote fraternal relations among earnest workers engaged in forestry activities.

In pursuance of these aims Delta Chapter sponsored several activities during the past year. Last spring quarter the fraternity organized a banquet for students attending the Cloquet forestry session. The banquet, held at Gillette's Supper Club in Cloquet, was highlighted by Mr. Clifford Ahlgren's talk on prescribed burning in the Lake States. As in the past years, we also co-sponsored the special event program of Forester's Day. This year we were honored by hearing Mr. Clifford Ahlgren, Director of the Quetico-Superior Wilderness Research Center, speak on ecological changes in the Quetico-Superior area.

Each year the fraternity presents the Freshman of the Year Honor Role Award to the freshman who maintained the highest academic standing in the School of Forestry during the preceding year. We extend our congratulations to Robert Ullrich, the recipient of the 1964-65 award.

The final activity of the year was the selection and initiation of new members. During the winter quarter, candidates were selected on the basis of academic competence, interest and activity in forestry, and promise of attaining high professional achievement. This year we initiated thirty-five new members. The initiations were followed by a banquet at which Dr. Lundgren of Lake States Forest Experiment Station was the featured speaker.

**PLEDGES**
The Forest Products Club

You can look back through almost any “Gopher Peavey” of recent years for the annual report of the Lignum Club and find that everything has been the same for sometime. Well, 1966 has been the year of decision and revision; we changed the old Lignum Club to the new Forest Products Club and in so doing expanded both our membership and the scope of our activities.

Our membership now includes most of the students in Forest Products Merchandising and Forest Products Engineering. There has been good reason for our favorable attendance since we have been most fortunate in obtaining guest speakers of outstanding caliber in the Forest Products field.

Although the club didn’t get organized until January we participated in the Northwest Lumberman’s Convention, manufactured 600 promotional arrow puzzles, extended our personal invitations to six guest speakers, organized a field-trip to Anderson Windowalls, and also renewed the annual Spring Steak Fry which turned out to be the best event of the year.

Remember — we didn’t get started until January so next year will have to be twice as good . . .

The Forest Products Club
Executive Board
Everyone told the Itasca gang that this year we were so lucky — no Brownie Reports — so we could hit the sack early every night. Certainly we found this to be the biggest "crock of bull" ever to float through the corridors of Green Hall. But there were many good memories from Itasca, and those are the ones we still remember.

As the first day of class came to an end, we felt we deserved our first swim and ball game. Mr. "grace" himself, Tom Abbett, knocked his knee out of joint catching Rollie "Tarkington" Rolstead's first pass of the season; Abbett walked around for six weeks like he had stepped on a hidden land mine. Botany trips offered excitement that first week also — if you liked doing 70 mph in a University vehicle with two lugs holding the wheel on. Another course, ecology, proved to be (at times) the most exciting, especially when taking the data for the microclimatic study. Why it had to be taken at 1 AM and 4 AM we didn't know — we just worked there.

We found out a few things about the forestry faculty members the "beautiful" day we went to Lake George, the tamarack swamp, and the maple basswood stands. Throughout the downpour the instructors locked themselves in the car. Without a complaint, the rest of us rugged foresters trudged on into the wilderness. Not a one of us minded getting soaked to the skin — anything for research you know.
Then there was that “Little Guy” Grafstrom. Every night he would take a few guys into the woods to practice sawing and chopping. He really had some of us believing we could beat him on Loggers’ Day — until Loggers’ Day, and then he just smeared everyone. We got back at him the night we burned all his plants in the fireplace. The dance (?) on Loggers’ Day was really exciting! The men sat on one end of the dance floor, the women on the other end. In the middle of the floor were Goebl, Salladay, and the “girls.” That was also the night we were all sure poor Paul Stone was going to get stepped on as he danced with Debbie.

Apparently the guys in Cabin 32 had quite a riot. Oh well, it was worth $68 extra to throw that football and baseball through the wall. How that door jam came apart, only they know.

After the Botany final a herbarium burning ceremony was held, complete with an impromptu Hootenanny. The Hootenanny was marred somewhat by Cabin 30’s rendition of Logger Lover, but was highlighted by Randy Ruble’s banjo playing.

Everyone enjoyed Itasca, with all its work and joys. Our home for six weeks gave many of us fond remembrances, such as poison ivy itch, etc. But it was fun, and fun it will be for those next year.
The big word at Cloquet was SNOW — 104 inches of it! Snowshoes were a prerequisite for the session and snowball fights were inevitable. When it came to snowball fights, one will always remember the battle cry — “Get Vince!”

The quarter moved on rapidly and the snow slowly began to melt away. Soon it was time for baseball. Four teams were organized, plus an all-star team. Throughout the entire season Al Johnson had a standing offer that his team would trade “Daisy” Jeronimus for a broken bat and a stick of birch bark. Any luck yet, Al? Also, there was the battle cry of cabin 8, “Wow, Wow, Wow, open another can of pitchers!”

I’m sure everyone feels as I do, that Cloquet went by all too fast. As we left for our summer work, we all carried away fond memories of Cloquet 1965: Hugo John’s “small” inventory project ... Curt’s and Archie’s ... “Ralf” the sidewalk ... pancakes ... “Canadian Club” Berglund ... “I want that bell to shine” ... the ice cream social ... more pancakes ... Blackford’s Sloe Gin & T-Bird ... Cabin 9, snowed in ... “Any more pennies in that pump, and you guys will go without water” ... TSI & stand examination projects ... woodcocks, grouse, and the deer drive ... and remember Cloquet Foresters of 1965: “We done a good job, the trees grewed well!”

Fall 1965 Midwestern Foresters' Conclave at Cloquet, Minnesota

The lull before the storm
by Robert J. Gustafson

This was Minnesota's year to host the Midwestern Foresters' Conclave. It wasn't the old story: "One sunny morning a bunch of fuzzy foresters decided to head for Michigan" or Purdue, or anywhere else. It was, "Six months before October 16 the hard work started." There were hundreds of hours spent planning and developing the Conclave. Many people put a lot of sweat into this Conclave — the goal was, "Nothing but the best." Booklets were prepared, prizes were obtained, speakers contacted, and much more, to make this Conclave a success. My thanks to all who helped.

At 8:00 a.m. Friday morning I was shaken from a sound sleep by the first eager Conclave team — the foresters of Southern Illinois. From then until Sunday noon the Conclave was in full swing. All day Friday more teams arrived until all but Iowa State were present and warming up for the next day of competition.

After a hearty breakfast the competition began. The Minnesota foresters worked hard, but some bad breaks made the morning's showing look bad, just as it did at Missouri. In the afternoon, however, Minnesota exploded from victory to victory. We had a proud bunch of winners, and rightly so. The competition gets tougher every year and winning really takes on a special meaning. While we couldn't overtake Michigan Tech, we did score 31 points for second place, only five points behind. I was proud of all our Minnesota foresters — win or lose. It is easy to see why competition was so stiff considering the team prizes: a Homelite Chain Saw — from the Homelite Co., a McCulloch Chain Saw — from Power Tools Inc. & McCulloch, and a Stihle Chain Saw — from the Albourne Equipment Co. We thank these companies and all the others for their interest in the Conclave and their most generous donations.
The climax to the day came with the evening program when we heard an excellent speech by the well-known naturalist, Sigurd F. Olson. Then the prizes were awarded, with the team prizes going to Michigan Tech, Minnesota, and Purdue in that order.

From there we went to the ice cream social, the event everyone was waiting for. Fellowship runs high at this event where old friends meet and new friends are made. There was more than enough ice cream to go around, even with the theft of one keg of ice cream.

We believe the future Conclaves will get better and better, the competition will get tougher, and that Minnesota will settle for nothing less than first place next year at Michigan.

It was my pleasure to manage this Conclave. The future looks bright for the Conclave. It's my sincerest hope that Minnesota will always be a leader of future Conclaves.

The champs style

The team prizes

1965 SPRING CONCLAVE
by Ron Salladay

Seventeen Foresters left St. Paul on Friday, April 30, 1965, for Camp Clover Point, home of the 1965 Spring Conclave sponsored by Missouri. The trip down was uneventful except for the sweltering heat (the ice cream was great that night).

We arose at 6:30 a.m. the next morning, much to the displeasure of those who arrived late Friday night, and prepared for the first events of the day — Dendrology and the chain throw. By lunch we were still pointless. In the afternoon Ron Salladay took third place in match splitting to break the ice. Then Juris Eglite and Gary Bergstrom took first place in 2-man bucking. Throughout the afternoon we continued to pile up points. In the chopping event Chuck Quaday placed first and Ron Salladay placed third. Team Captain Bob Gustafson and Bjorn Dahl won the canoe race to give us a total of 19 points and third place in the Conclave, behind Purdue and Michigan Tech. The ice cream social that night ended one of the greatest college events I have ever attended. I urge everyone to attend in the future.

I was very proud of the team as a whole, although disappointed in the Club's participation. The Conclave is an outstanding event, occurring only once a year. It is a good opportunity for foresters to meet foresters of other schools and learn what their clubs are doing. It is also a lot of fine competition. I would like to see many more people participate in the Conclave in the future. Not just to the point of writing your name on the sign-up sheet, but to the point of devoting your time to the hard, but enjoyable, work of preparing for the events. Specialization is the key to success at the Conclave. The competition is really tough — "tough as nails." You have to work if you want to win. So foresters, let's get on the ball and take first at the 1966 Conclave in Michigan.

Corky’s specialty
CHRISTMAS TREE PROJECT
1965

by Mark Goebl

Late last May, when my thoughts first turned toward this year's Christmas Tree Project, I envisioned big dollar signs, preferably in black figures. And now, after it is all over, the dollar signs are amazingly still big, and still black.

The story of this year's Christmas Tree Project is filled with the usual successes and disappointments, but the main theme is the excellent help received from the Club members. For those of you who are unfamiliar with the project, it is best explained by stating that we buy trees and we sell trees.

About half of the trees are bought from Dr. Hansen and prepared by the Club. In the preparation of the trees they were sprayed with "Greenzit," an organic dye. The first day of spraying was fruitful as Dwight Lockerby, this year's co-chairman, learned how to hold up his pants with wire after his belt was commissioned as a starter rope for the mist blower. We broke the original starter rope, as well as finally breaking Dwight's belt. The second day of spraying was much better, and we completed the spraying of trees and most of the freshmen. After spraying, the trees were bundled, cut, and piled. The hauling of trees was done on two consecutive Saturdays. The second hauling proved to be the most hectic because we were receiving trees as well as marking and selling them at the same time. Everyone was busy.

The sales were very brisk and we were sold out by December 17th, only 13 days after the opening of the lot. Some of the problems encountered in selling the trees were the varying degrees of yellow observed on a few of the trees, explained as growth on "different sites," although "Drier" sites might have been more appropriate. Also, women hunting for bargains were tough to deal with, but most of the salesmen eventually sold the trees at cost to them. Except me — I fell for the grandmother types and lost money.

In conclusion, we DID make a profit, had lots of fun, and learned a lot. I would like to express my sincere thanks to all of those who helped in the project, and especially to Dwight Lockerby, the School of Forestry, Mr. Winsness, and Mr. Lundberg of Plant Services.

Mark and his "Tamarack" Christmas Trees
1965 FALL BONFIRE
by Ron Salladay

Wednesday, October 6, dawned very clear — a perfect "DAY" for the bonfire. However, all hopes for a perfect night vanished about five o’clock that afternoon. That’s right, it rained. But, much to our surprise, the bonfire went on. Jan Miller and Dewey Hanson started the hot dogs and Ken Winsness kept track of the beans. The food was served in Green Hall Auditorium at seven o’clock and about fifty foresters braved the terrific monsoon to devour the large supply of hot dogs, beans, chips, and good ole Mountain Dew.

Dave Miller introduced the Forestry Staff, and after a few other announcements Paul Stegmeier and Paul Lundberg led the group in some rousing songs. Foresters always seem to have fun — regardless of the place or the weather.

Would you believe a butane lighter?

It was a good turnout, considering the weather, and I thank all those who came. I would especially like to thank Ken Winsness, Jan Miller, Duane Hanson, Gary Herron, Corky Westerman, Mike Carter, and Paul Lundberg for all their help.

The Mississippi Swimmers
Somehow I was selected by Brownie to become a hardwood forester in Connecticut. On June 11th I departed for Connecticut with a prayer that my four bald tires would hold out. The next day I found myself staring at Niagara Falls—an impressive sight, but not what I had expected. After getting lost in Buffalo, New York, for three hours I finally made it to the New York Thru-way and on to Connecticut.

Upon reaching my destination I was much surprised to discover where I was going to live for the summer. We were to occupy a 2-bedroom cabin with two bathrooms, a kitchen and a living room with an oversize fireplace. Also, a very good cook was included. All we were missing was a “maid”? I shared the cabin with three other forestry students from Penn State, Iowa State and Mississippi State.

My employer, Mr. Edward C. Childs, was the owner of 7,000 acres of New England mixed hardwoods. The cover consisted mostly of red and sugar maple, red oak, black cherry and a few scattered tulip poplar.

Known as the Great Mt. Forest, the area is not managed on a commercial basis, but rather on a more or less experimental basis. During the summer we cleared land and did salvage work on red oak killed by gypsy moth and drought.

Although we had to work once in a while we recreation close at hand. First, there was the daughter of the Director of the Yale Forestry School and her three girl friends from New Jersey. For less enjoyable recreation we had a lake a short distance from the cabin plus tennis courts, a pool room, and indoor basketball court, all of which were owned by Mr. Childs.

During the three months I enjoyed two weeks of paid vacation. The first week was spent traveling in all the New England states. The second week took us on a trip to Canada where we toured Canadian forest research centers. We visited the Parliament buildings in Ottawa and enjoyed a party in Montreal on the return trip.

The summer would not have been complete had we not attended the World’s Fair in New York. Mr. Childs made arrangements for us to stay at the Yale Club across from Grand Central Station. Like all tourists we had to go up the Empire State Building. The most interesting thing in the entire city of Greenwich Village. You have to see it to believe it.

The summer was very enjoyable and a good experience. The East has something to offer that the West lacks. Girls!

---

A SUMMER AT THISTLEDEW

by Barry Morse

Dave Miller and I reported to area 11 headquarters on June 14th as requested by the Minnesota Division of Forestry. After three days of traveling on training sessions we were sent to the Thistledew Ranger District at Togo, Minnesota, which has a population of three and is located about 45 miles north of Hibbing.

Since no one was really expecting us, we spent our first week with the Division of Forestry making an old C.C.C. cabin fit for human habitation. After several days of scrubbing, nailing, and hauling, we moved in and began our actual forest service work.

One half of the District had been previously surveyed by Gerry Bach and Al Knaebal, so it was up to Dave and me to complete the District
A SUMMER IN NORTHERN IDAHO

by Duane J. Hanson

About midnight on June 12, 1965, Rod Sando and I climbed in his horse (Mustang) and headed West. Eighteen hours later we reached Missoula, Montana, where Rod was to undergo smoke jumper training. From Missoula I hitched to the small logging town of Priest River, Idaho.

Monday morning I called the Falls Ranger Station, which is eight miles north of Priest River, for transportation to the Station. This was the beginning of a joyous, adventurous, experience filled summer on the Kaniksu National Forest.

During the next three months I gained a working knowledge of the following: laying out timber sale boundaries, fire lines, and roads; traverse plotting; wildlife administration; TSI marking—I know of two yellow chipmunks in Northern Idaho; cruising and stage two plots; timber sale inspections; slash piling and snag felling; prescribed burning—not always controlled; and my share of smoke chasing and fire fighting.

105 Foot Cedar Poles

July 15th, I went to Coeur d'Alene for the unlimited hydroplane races, where I met George Miller (65), Gary Bergstrom (65), Rod Sando (65), and their families. In years past these races had been known for their riots. This year, however, everyone was calm, cool, and collected. I am not sure why the change in the spectators' attitude, but two of the reasons may have been the activation of the Idaho National Guard, and a man standing on every corner downtown equipped with a gas mask, 3 foot night stick, and leashed to a huge German Shepherd. Our favorite for the race was “Miss Budweiser”—I don't know why! She didn’t win even though we toasted.
Our forest was chosen as the site for International Girl Scout Jamboree, which 25,000 girls from all over the world attended. Falls District was a rest stop area for their tours. We provided them with outdoor restroom, a job at which I became somewhat of a carpenter.

Would you believe a 42 hoier?

In August I was privileged to take a "show me" tour of the Priest River Forest Experiment Station, where I met Glenn Deitschman (47). They were conducting a variety of watershed experiments that were very enlightening, and the dammed ponds contained a number of trout. I spent most of August working on a timber sale on Bear Paw Ridge — that was when most of the huckleberries were ripe.

It was also an economically profitable summer, by getting some overtime on fires and burning, and supplementing my diet with many meals of trout, caught in the Lower West Branch — 100 feet from my cabin door. Not to mention the wonderful elk steak — U. S. Choice — dinner I had at the assistant ranger’s house.

When summer drew to a close, I left Northern Idaho, and all its wonderful people, with mixed emotions: sad to leave all this and return to the big city. But happy to return to school with this great experience and the thought of someday returning.

A SUMMER WITH
U.S. PLYWOOD

by Dave Barber

Spring quarter was barely over and I was on my way west. United States Plywood had been good enough to give me a job working on their engineering crew. The particular division I worked for was located in Gold Beach, Oregon, situated at the mouth of the famed Rouge River. This area is part of the coastal old growth Douglas-fir area.

I worked with a crew of two other guys, one a full-time employee and the other a college student from California. Our job consisted of locating property lines and laying out clear-cut boundaries and roads. I sometimes think they had us secretly working on brush control the way we had to cut those lines open with machetes!

I was also lucky enough to gain some experience in some other aspects of private industry. By spraining my ankle I got to work in the office for a few days summarizing log tables and figuring volumes. U. S. Plywood also operates a recreation area which was damaged by the 1964-65 floods. We did some repairs on this. I spent a few days checking inventories on some Forest Service sales that the company was interested in purchasing.

My wife and I stayed with her brother, who is employed by the U. S. Forest Service. This arrangement allowed me to gain some insight into the operations of the Forest Service, as well as seeing how private and government agencies work together.

I think one of the things I’ll remember the longest about this area was the fabulous fishing for trout and salmon. The Rogue River is famed for its fishing and rightly so! I won’t comment on who caught the most fish in my family, but it wasn’t me!
September finally rolled around again and we headed for home with a lot of good experience and fond memories. I enjoyed my visit to the West, but there was a deep feeling for Minnesota as I headed for home which made me feel that it would always be the place for me.

Nestled and shaded in a vast stand of old growth Douglas-snags is Willard, Washington. It is a typical, bustling American community consisting of a sawmill, a company store, and a few odd company-owned houses. Areas such as this are sought after by the Forest Service to establish outposts to send unsuspecting summer slaves such as myself.

I was obtained as a surveying aide. Work of this type is not difficult and can even be enjoyable. However, the environment has much to do with the amount of enjoyment gleaned from a task, and it is upon this point that I wish to shed some light.

The lay of the land around Willard is somewhat topographic, and the gentle sixty-percent slopes abound with brush, man-eating vines, swarms of venomous insects, and a profusion of other beasts that turn a young forester pale with ecstasy.

Never have I witnessed such an abundance of hornets, yellowjackets, wasps, bees, and other assorted painful vermin. Nests were everywhere, and it was impossible to walk for any great distance without stumbling into one. There was always at least a dozen yellowjackets buzzing around my face. At lunch they would carry off parts of my sandwich and sample my coffee, while the remaining swarm engaged in a battle over the shells from my hardboiled egg. There were also a few very large yellowjackets. One decided to investigate my ring one day and obliterated my finger. Needless to say, he was left floundering in my vapor trail. I also wish to point out that they show no mercy in the indiscriminate use of their built-in hypodermic needles.

My nervous anguish was brought to unknown heights by a creature of paltry size. These minute fiends took great pleasure in investigating my flame-orange hard hat while hovering a few inches away from it. You may know them as hummingbirds, and I want you to know that, in fact, they do HUMMM . . . LOUDLY!!

After a day in wilds such as this there is only one beverage which will revive a forester—beer. The nearest oasis of this sustenance, run by the kindly Mrs. Mac, was six miles down the road. I remember well the evening I dragged my dehydrated body into her abode and forced my cracked and swollen tongue to ask for a meager six-pac of the nectar of the gods. Well, the old gal refused. It seems that because I didn't have a state liquor card I was not legally twenty-four. All I could do was weep.

Should any of you desire strange and new adventures let me heartily recommend the great West.

by Arlo Gump
Alumni
PRESIDENT’S MESSAGE

Dear Alumnus:

The past year as your MFAA President has been a rewarding and interesting experience for me. The activities of the MFAA have been much like those of the past—that is, we had our annual Fall and Spring Banquets and there was good fellowship and lots of fun! The annual Fall Banquet had as its feature speaker, Dr. Richard A. Skok of the School of Forestry, who talked to the group on "U.S. Exports of Pulp and Paper to Western Europe." It was a stimulating presentation and we thank Dr. Skok for making himself available for this talk. At the annual Spring MFAA Banquet held in April the format of the program was changed somewhat. The presentation of the annual E.G. Cheyney Award was made to three outstanding seniors—Joseph Brady, Paul Fuchs and Paul Noreen (see next page). Following that presentation the CBS documentary film "Bullied America" was presented and a lively discussion followed.

In the "Report of the MFAA President" last year, he stated: "Your MFAA has a two sided face, one being the social organization and the other being one of lending support to your School of Forestry. The MFAA has been able to lend considerable weight and support in the past to the legislative programs of the School, when help was needed to get the program through. In the next decade this continuing support is going to have to be assured the School when one considers the predicted growth of the University."

In pursuing this philosophy, the Minnesota Forestry Alumni Executive Board and the Director Frank H. Kaufert, met with Dean Sherwood O. Berg, Dean of the Institute of Agriculture, and his colleagues to discuss the future of the School of Forestry. Let me quote from a letter from Dean Berg on this matter—

"We greatly appreciated the opportunity to meet with the Minnesota Forestry Alumni Association Executive Board on Monday, April 18. The discussion was beneficial in focusing on the role and the future of the School of Forestry. We are conscious that additional resources are needed to build further the teaching and research programs in the School.

"Our discussion demonstrated that if the Institute, School and Executive Board's interests, objectives and plans are to be realized, we must use our collective creative energies to reapprose the present and future needs, establish priorities, and develop appropriate methods to secure the additional assistance."

"The Institute has been, and continues to be, very active in supporting and accelerating the educational and research programs in the School of Forestry. We enthusiastically welcome your continued counsel and support to accomplish our mutual purpose of strengthening the School of Forestry."

The Executive Board feels strangely that this was a very productive meeting with the Dean and his colleagues and we look forward to having more meetings of this type with the Dean in the very near future.

It has been my pleasure to serve as your President for this past year. I want to take this opportunity to wish the new President and his Executive Board every success in the future.

Thank you.
9th ANNUAL E. G. CHEYNEY MEMORIAL SCHOLARSHIPS AWARDED

As usual, the alumni of the School of Forestry can be extremely proud of the quality of young foresters selected to receive the E. G. Cheyney Memorial Scholarships of $75. Joseph Brady, St. Paul, Minnesota; Paul Fuchs, Fairmont, Minnesota; and Paul Noreen, Pine City, Minnesota were awarded the E. G. Cheyney Scholarship for 1965-66 at the April 21 MFAA Spring Banquet. The selection of the recipients for the E. G. Cheyney Memorial Scholarship is based on excellence in the field of speaking. For those of our alumni who did not know Professor Cheyney, he constantly stressed the need for excellence in the writing and speaking ability area as part of a professional forester's training. Qualified students must be juniors or seniors registered in the School of Forestry. The Rhetoric Department on the St. Paul Campus makes a broad selection of those forestry students who might qualify and from this list the School of Forestry Scholarship Committee (Hallgren, Thompson, Winsness, chm.) makes the final selection of the award winners.

As you know, $.50 is taken from each $4.00 subscription and is placed in the E. G. Cheyney Memorial Scholarship fund for these awards. This year (1965-66), we will be collecting approximately $250 for this Scholarship fund.

Thanks to all of our alumni for making this scholarship possible!

K.E.W.

CITIZENS OF MINNESOTA HONOR DR. FRANK KAUFERT

Dr. Frank H. Kaufert, director of the University School of Forestry, was honored at the KMG Celebration Friday evening, May 7, 1965 by Governor Rolvaag on behalf of the citizens of our state.

Dr. Kaufert was presented a clock made from a walnut log inscribed, "Presented to Dr. Frank H. Kaufert, President, Keep Minnesota Green, Inc. 1950-1964 for effective leadership, dedicated to the improvement of forest resources of Minnesota."

"On behalf of the citizens of Minnesota."

Signed
KARL F. ROLVAAG
GOVERNOR

Dr. Frank H. Kaufert and Mrs. Kaufert — recipient of the Governor's award for recognition of his many years of work with the KMG organization as President. May 7, 1965.

KEEP MINNESOTA GREEN AWARDS PRESENTED TO ALUMNI

Four outstanding foresters were honored by KMG Friday evening, May 7th at the KMG Celebration. Miss St. Paul (Nancy Koethe) presented certificates of recognition to from left to right: Ted Niskanen, Waconia; Richard Manly, Brainerd; Floyd Colburn, Grand Rapids; and Dayton Lorsars, Virginia. Robert Hertel, Executive Secretary, KMG, Inc. reported that these foresters were recognized for their outstanding promotion of the tree farm program. May 7, 1965.
KEN WINSNESS—'49 RECEIVES STANDARD OIL FOUNDATION AWARD

Three University of Minnesota faculty members—one from the Duluth campus, one from the Minneapolis campus and one from the St. Paul campus—were the first recipients of a brand new award honoring outstanding classroom teaching. The three $1,000 awards were presented during annual Cap and Gown Day ceremonies at the University Wednesday, May 11.

Winners were Professor David Cooperman, chairman of the Social Sciences program, College of Liberal Arts; Associate Professor Kenneth E. Winsness, School of Forestry, Institute of Agriculture; and Professor William A. Rosenthal, head of the English department, Duluth campus.

Funds for the new award—for faculty members who have made outstanding contributions to undergraduate education—were donated by the Standard Oil Foundation. The winners were presented to the audience by Donald K. Smith, assistant vice president for educational administration and chairman of the All-University Council on Liberal Education.

Winsness, 45, is a Minneapolis native who earned a bachelor's degree in forestry and a master of forestry degree (1953) from the University. A University researcher in forestry since 1951, he became an instructor in 1956 and since then has twice been recognized for his contributions. In 1962 he was named winner of the coveted Red Oil Can, awarded to the student or teacher who makes the most outstanding contribution to student life on the St. Paul campus.

SAF NATIONAL MEETING IN DETROIT—OCTOBER, 1965

Dr. Frank H. Kaufert, Director of the School of Forestry, gives us the following information on the National SAF Meeting held in October, 1965 at Detroit, Michigan—"The luncheon had 53 guests and alumni in attendance and was a very happy occasion. Because of many conflicts some alumni were unable to attend.

Non-alumni in attendance were Mrs. Frank Kaufert, Mrs. William Kauth, Bill Cummings, Dr. Ronald Beasley, Dr. Henry Webster, Elwood Maunder (FHS) and Joe Miller (FHS).

We only had time for introductions of those present and a 10-15 minute presentation by myself on the School of Forestry. Bill Ceder—’35 made the luncheon arrangements and he did an excellent job. However, he could not be at the luncheon and this was somewhat of a disappointment to us. Everyone seemed to enjoy the occasion.

Those in attendance with class and address:

Maxon Y. Pillow — ’24, Madison, Wisconsin
Frank H. Kaufert — ’29, St. Paul, Minnesota
Harold L. Mitchell — ’30, Madison, Wisconsin
Maurice W. Day — ’31, Sauk Ste. Marie, Michigan
Walter M. Zillgitt — ’32, New Orleans, Louisiana
Thoralf K. Bergh — ’33, St. Paul, Minnesota
Berger W. Ellertsen — ’35, Norris, Tennessee
Arthur E. Ferber — ’35, Lincoln, Nebraska
James M. Cote — ’36, Ft. Worth, Texas
Philip N. Jaranson — ’37, Washington, D. C.
Richard C. Smith — ’37, Columbia, Missouri
David B. King — ’38, St. Paul, Minnesota
Raymond J. Wood — ’38, Cloquet, Minnesota
Phillip L. Hunley — ’39, Norway, Michigan
John McGuire — ’39, Berkeley, California
Douglas S. Boardman — ’40, Norris, Tennessee
Clarence T. Eggan — ’40, Hopkins, Minnesota
Robert F. Wagle — ’40, Tucson, Arizona
Edwin W. Magne — ’40, Ft. Collins, Colorado
John Zivnuska — ’47, Berkeley, California
Miron Heinselman — ’48, Grand Rapids, Minnesota
Frank D. Irving — ’49, St. Paul, Minnesota
Eugene A. Jamrock — ’49, Little Fork, Minnesota
William A. Aulhoffer — ’50, St. Paul, Minnesota
Charles F. Cooper — ’50, Ann Arbor, Michigan
Vernon Lindholm — ’50, Milwaukee, Wisconsin
Richard A. Skok — ’50, St. Paul, Minnesota
Donald P. Duncan — ’51, Columbia, Missouri
Harry W. Kohs — ’51, Aitkin, Minnesota
Allen L. Lundgren — ’51, New Brighton, Minnesota
Kenneth G. Torgerson — ’51, Kingsford, Michigan
Bruce A. Brown — ’52, Cloquet, Minnesota
Perry R. Hagensen — ’52, Bryn Mawr, Pennsylvania
Alexander Vasilevsky — ’52, St. Paul, Minnesota
Robert S. Story — ’55, St. Paul, Minnesota
Ted Nickolen — ’58, Waconia, Minnesota
Richard W. Schneider — ’58, Brookline, Minnesota
Robert J. Schutz — ’58, Lewiston, Minnesota
Miles K. Benson — ’60, Appleton, Wisconsin
William W. Kauth — ’60, Solon Springs, Wisconsin
Gary E. Graauk — ’61, Ann Arbor, Michigan
Edwin W. Hill — ’61, Harrisville, Michigan
Richard L. Hilleier — ’61, Madison, Wisconsin
Arnold J. Ostrom — ’61, St. Paul, Minnesota
David D. Benson — ’62, Mt. Pleasant, Michigan
Samuel M. Brock — ’63, Morgantown, West Virginia
Robert F. Wambach — ’65, Grand Rapids, Minnesota
Herbert Kulman — Guest, Blacksburg, Virginia
Elwood Maunder — Guest, Bethany, Connecticut
Joe Miller, Guest, Haden, Connecticut
THE ALUMNI SPOTLIGHT

SAMUEL DETWILER - '06 is retired at Arlington, Virginia. He reports - "We are enjoying an unusually mild and colorful Indian summer through October. The best medicine for good health is a stroll over the country side, with a camera to record the scenes that please the eye. And, incidentally, one learns much ecological data, as well as finding delicious ripe persimmons over such walks." He was Adjutant 25 years - Chaplain 12 years - Commander 1 year. 4) Quarter Century Club, Wright-Patterson Field (Air Force) life member. 5) Reserve Officers Association - Major, Air Force, retired. 6) Dayton Philatelic Society 7) Fairborn Chamber of Commerce - I was Secretary-Treasurer for 38 years - life member. 8) National Association of Retired Civil (Service) Employers.

DONALD DUNCAN - '51 is Director of the School of Forestry at Columbia University. He states - "During the past several years, I have been engaged in helping to develop the McIntire-Stennis Cooperative Forestry Research Program, which provides matching funds for forestry research at state institutions. Director Kautz gave this program a very big boost when he spent three months in the office with us last year, getting it under way, and he continues to make it possible to accomplish much needed research, graduate students employed as assistants in McIntire-Stennis projects are receiving excellent research training. The program aims to help train foresters and researchers as a much higher rate."

CARL H. STOLEN BERG - '52 is Head, Department of Forestry at Ames, Iowa. He reports - "My work consists mainly of research, graduate students employed as assistants in Mcintire-Stennis projects are receiving excellent research training. The program aims to help train foresters and researchers as a much higher rate."

HENRY HANSEN - '35 is Professor at the School of Forestry, U of M, St. Paul, Minnesota. He writes - "The alumni have an interesting look at forestry in Norway and Sweden - especially their combined management of forest recreational areas for timber production and recreation. There was with my family for six weeks in June and July.

PHILIP JORANSON - '37 is Principal Forester for the Coop. State Research Service at Washington, D.C. He states - "During the past several years, I have been much engaged in helping to develop the McIntire-Stennis Cooperative Forestry Research Program, which provides matching funds for forestry research at state institutions. Director Kautz gave this program a very big boost when he spent three months in the office with us last year, getting it under way, and he continues to make it possible to accomplish much needed research, graduate students employed as assistants in McIntire-Stennis projects are receiving excellent research training. The program aims to help train foresters and researchers as a much higher rate."

FRANK SHEARER - '37 is Owner of the E. A. Shearer Co. at Eugene, Oregon. He writes - "The Shearer clan Is a little more scattered, oldest daughter Lynne married and living in Sydney, Australia, daughter Kay in Europe and expected back in time for final quarter at OSU. Dick a sophomore at U of O and the youngest son Bob in his first work stint at the U.S. Nt. Bank where he has a four-year scholarship." 5) Quarter Century Club, St. Paul, Minnesota. He writes - "Had an interesting look at forestry in Norway and Sweden - especially their combined management of forest recreational areas for timber production and recreation. There was with my family for six weeks in June and July.

CLIFFORD A. AHGREN - '48 is Director, Quetico-Superior Wilderness Research Center at Duluth, Minnesota. He writes - "I am Director of the Quetico-Superior Wilderness Research Center at Duluth, Minnesota. I was the principle speaker for the final quarter at OSU. Dick a sophomore at U of O and the youngest son Bob in his first work stint at the U.S. Nt. Bank where he has a four-year scholarship." 5) Quarter Century Club, St. Paul, Minnesota. He writes - "Had an interesting look at forestry in Norway and Sweden - especially their combined management of forest recreational areas for timber production and recreation. There was with my family for six weeks in June and July.

CARL H. STOLEN BERG - '52 is Head, Department of Forestry at Ames, Iowa. He writes - "Enjoyed a trip around the world on Sabbatical leave in first half of 1965. Now busy with new duties as Dean, School of Forestry, University of California."

WILLIAM WEBB - '35 is Dean of Graduate Study at Syracuse University. He reports - "-'Completely retired - do a little traveling, usually by water or air, visit my children in Los Angeles, Florida and New York. I was married at the bride met up with at Itasca Park in 1911. Regards and respects to all the 'Senior Citizens' among the Foresters. They did a good job but the world has outgrown them."

JOHN DOBIE - '35 is Research Biologist for the Minn. Conservation Department at St. Paul, Minnesota. He reports - "My work consists mainly of research on fish pond fertilization. I have just returned from a nine week tour of Europe where I presented a paper at the International Congress of Limnology In Warsaw, Poland."
ALUMNI NEWS NOTES

1903

MARTIN L. ERIKSON is retired at San Diego, California. He sends us this word—"Still going strong at 85. Walk a mile or two each day. Have quit driving a car. Live close to Balboa Park where I play bridge and shuffleboard. I have a daughter living in San Francisco and she has two sons, one a senior at Yale, the other a freshman at Whitman, Walla Walla, Washington."

1906

SAMUEL DETWILER is retired in Arlington, Virginia. He states—"We are enjoying an unusually mild and colorful Indian Summer through October and early November. The best medicine for good health is ambulating over the countryside, with a camera to record the scenes that please the eye. And, incidentally, one learns much ecological data, as well as finding delicious ripe persimmons on such walks." Sounds like fun, Sam.

DILLON TIERNEY is retired in Chisago City, Minnesota. He sends us this information—"I regret that I missed out on several forestry meetings and excursions into the North Woods during the summer. Hope for better luck next year. I was particularly disappointed in not being able to see the much debated Boundary Waters Canoe Area. I wanted to compare the present day ‘Wilderness’ (that’s assuming it has not totally devastated), with what it was in 1905 and later years when I had occasion to become quite familiar with much of the area." We miss you at the MFAA banquets, Dillon.

1909

WALTER MOORE is retired in Fairborn, Ohio. He writes—"My activities are as follows: 1) First United Presbyterian Church ‘at fairboard—I have held every office or position except Minister and Sunday School Superintendent. I was Church Treasurer for 19 years. 2) Society of American Military Engineers—Honorary Life Member. 3) American Legion—Life Member—I was Adjutant 25 years—Chaplain 12 years—Commander 1 year. 4) Quarter Century Club, Wright-Patterson Field (Air Force)—Life Member. 5) Reserve Officers Association—Major, Air Force, Retired. 6) Dayton Philatelic Society. 7) Fairborn Chamber of Commerce—I was Secretary-Treasurer for 38 years—Life Member. 8) National Association of Retired Civil (service) Employees. Thanks for that extra contribution, Walter—it is very much appreciated!

1910

ROBERT DEERING is retired in San Francisco, California. He says—"Surely regret that Class of 1910 is now down to Chas. Lewis and myself. We seem to be the toughest of a fine group."

CHAS. L. LEWIS reports from Shell Lake, Wisconsin, where he is the President of the Badger Cranberry Co.; General Manager and Treasurer of the Midwest Cranberry Co.; President of the Shell Lake Boat Co. and Director of the Shell Lake State Bank. We miss your trips over to Green Hall, Charles.

1911

ARTHUR OPPEL is retired at St. Paul, Minnesota. He reports—"Still alive although a coronary condition has put me out of circulation for a while. My Doc tells me that a tough old lumber jack will never die but someday will just dry up and blow away. I still keep my head in forestry by helping Pop Allison with his work at Vadnais."

J. PAUL YOUNG is retired in Seattle, Washington. He states—"After an absence of seven years my wife and I revisited Montana and had a wonderful time in this beautiful place. There have been many changes there but the ocean and mountains remain as beautiful as ever."

1912

S. GRANT HARRIS is retired in Minneapolis, Minnesota. He reports—"Completely retired—do a little traveling, usually by water or air, visit a little with old friends. Celebrated a 50th wedding anniversary with the bride met up with at Itasca Park in 1911. Regards and respects to all the ‘Senior Citizens’ among the Foresters. They did a good job but the world has outgrown them."

JOHN STEVENSON sends us word from Beltsville, Maryland where he is Research Associate for the Smithsonian Institute.

1913

THOMAS GRIFFIN is retired in Minneapolis, Minnesota. He reports—"Retired from the Miller Publishing Company, Minneapolis, Minnesota. This firm was already publishing fourteen trade papers in the agricultural and related fields, and has now bought and will publish five more in the fruit raising and sales business. It brings it a little closer to forestry. My wife and I are both well, for which we are thankful. We have been living in the same house for forty-four years."

1914

SAMUEL GRAHAM is retired in Ann Arbor, Michigan. He sends us this information—"Retired with the title Professor Emeritus but in office every day. Temporarily retired and teaching advanced forest entomology during current term. Busy writing what I hope will be a book on the dynamic ecology of the forests around the Great Lakes, based largely on materials that have accumulated in my files over a half century."

1917

JOHN BURNES reports from Minneapolis, Minnesota, where he is living in retirement.

1920

SHIRLEY BRAYTON sends us word from Dunedin, Florida, where he is retired from the USFS.

C. M. FRUDDEN reports from Greene, Iowa where he is Owner of the Frudden Lumber Company.

LEO ISAAC writes from Portland, Oregon. He states—"I am Executive Secretary of the Joint Office of the Columbia River Section and Puget Sound Section of the Society of American Foresters. My most recent additional assignment is ‘Editor’ of ‘The Western Forester, our 8-page S.A.F. joint office publication.’"

1921

PARKER ANDERSON sends us word from St. Paul, Minnesota, where he is a retired State Extension Forester for the State of Minnesota.

F. V. OSTROWSKI sends us word from St. Paul, Minnesota, where he is retired. He writes—"Retired and enjoying it immensely."

A. E. WACKERMAN sends us word from Durham, North Carolina, where he is Professor of Forest Utilization at the School of Forestry, Duke University.

1922

OTIS C. MCREERY reports from Pittsburgh, Pennsylvania, where he is Executive Director of the Alcoa Foundation.

RALPH M. NELSON sends us word from Asheville, North Carolina where he is retired from the U. S. Forest Service.

1923

ORCUTT W. FOST is Director of Research and Development and a member of the board at the Masonite Corporation in Chicago, Illinois. He sends us this information—"It is hard to believe June 1966 winds up 43 years in the fiber board business as retirement time rolls around. After June our address is Grand Marais, Minnesota." A beautiful town to retire to, Orcutt.

CLARENCE W. SUNDAY reports from Marshalltown, Iowa where he is Proprietor of the Marshall Lumber Co.

1924

HAROLD OSTERGAARD reports from St. Paul, Minnesota where he is retired from the Division of Forestry—Minnesota.

MAXON Y. PILLOW sends us word from Madison, Wisconsin where he is Supervisor of Forest Products Technology at the U. S. Forest Products Laboratory.

NELSON W. UPTON reports from Park Falls, Wisconsin where he is a Forester for Wisconsin Realty Company.

1926

RALPH L. LINDGREN is retired at St. Paul, Minnesota. He reports—"I’ve just returned from a 5-month jaunt, two months of which involved
a not-too-easy but very interesting overland trip through northern India, West Pakistan, Iraq, Iran, Jordan, Lebanon, Syria, Turkey and Greece—all new country to me."

1927

GERALD S. HORTON is a retired Investment Advisor in Welton, Arizona. He writes—"I think you are doing a wonderful job on the Gopher Peavey-Alumni News. The older I become the more I appreciate news of my fellow alumni. Keep up the good work. Thanks." And thanks for those nice words, Gerald!

ERNST L. KOLBE reports from Portland, Oregon where he is Director, Forestry Services for the Western Wood Products Association.

Congratulations on being elected Fellow in the Society of American Foresters, Endie.

CARL O. KRUEGER is Forestry Instructor for the North Idaho Junior College, on the Central of Alene. He sends us this word—"I retired from the U. S. Forest Service this fall after 38 years of service. Started work at once for North Idaho Junior College, as Forestry Instructor in a Forest Technician school—two six month series. Will continue to live in Coeur d' Alene."

THOMAS LOTTI sends us word from Washington, D. C. where he is Staff Assistant to Deputy Chief at the U. S. Forest Service.

LESLIE ORR reports from Kaysville, Utah where he is retired from the U. S. Forest Service.

HARRY E. PATTERSON is Safety Coordinator at the Wood Conversion Company at Cloquet, Minnesota. He says—"Greetings and best wishes for another fine Peavey. I must be the oldest living sophomore! Have been a fugitive from the St. Paul Campus for 38 years! Some year I may graduate." Thanks for those kind words, Harry.

ARTHUR F. VERRALL is a Professor of Forestry at the Stephen F. Austin State College in Nacogdoches, Texas. He reports—"Last August I retired from the U. S. Forest Service to accept a Professorship at Stephen F. Austin State College. I am teaching Forest Pathology and Research Methods with about half time in research."

OLIVER M. COOK sends us word from Minneapolis, Minnesota where he is in the Sales Department of the Flour City Paper Box Co. It was nice seeing you Green Hall, Oliver.

MERRILL E. DETERS reports from Moscow, Idaho where he is a Professor of Forestry at the University of Idaho.

WILLIAM H. FISCHER sends word from Atlanta, Georgia where he is retired from the U. S. Forest Service.

ERNST J. GEORGE reports from Mandan, North Dakota where he is a Research Forester for the Northern Great Plains Research Center (USFS).

GEORGE M. HALVORSON sends us word from Minneapolis, Minnesota where he is retired from the Western Electric Company.

D. P. KIRKHAM is a Forestry Extension Advisor for the USAID at Dacca, East Pakistan. He states—"Am still Forestry Extension Advisor with USAID, Headquarters at Dacca, East Pakistan."

GUS LIMSTROM sends us word from Duluth, Minnesota where he is a Research Associate, Cloquet For. Research Center, at the School of Forestry, University of Minnesota.

HAROLD F. RATHBUN sends us word from St. Paul, Minnesota where he is Research Associate for the School of Forestry, University of Minnesota. It's nice to have you with us, Harold.

PAUL O. RUDOLF is Principal Silviculturist for the Lake States Forest Experiment Station (USFS) at St. Paul, Minnesota. He says—"1965 has been an eventful year. My daughter, Caroline, became Mrs. Dennis Gebhard in June. She continues to teach kindergarten in the St. Paul school system. My son, Doug, began his second year (after 5 years at Winome, Minnesota) teaching German and coaching cross country and track in the high school at Hamden, California. In May I received the USDA Superior Service Award in Washington, D. C. The previous month I had been nominated for Civil Servant of the Year in the Twin Cities area. In July I represented the United States at the second 'meeting of Experts on the Control of Forest Reproduction Material Moving in International Trade' sponsored by the Organization for Economic Cooperation and Development (22 countries included) and held in Paris, France. I was elected Chairman of the Meeting. On my return I managed to see some of the forest tree improvement research work being done by the United Kingdom Forestry Commission in Scotland. In October I presided at the Division of Silviculture Sessions held as part of the National SAF Meeting in Detroit. Through all this my wife, Frances, has kept the old homestead functioning efficiently and comfortably (with the assistance of our cocker, Tennay) at St. Paul. Elected SAF Fellow in December, 1965." J. NEIL VAN ALSTINE reports from Center Conway, New Hampshire where he is retired.

BENJAMIN M. WHITENBILL reports to us from Knox, Pennsylvania.

WALDEMAR ANDERSON reports from St. Paul, Minnesota where he is working for the Minnesota Department of Conservation. We enjoy your visits to Green Hall, Waldemar.

A. DALE CHAPMAN is Chairman of the Chapman Chemical Co., in Memphis, Tennessee. He writes—"The family and business continue to grow lustily, and somewhat like the world population, at accelerated rates. It seems to me that college boys today really have their work cut out for themselves in trying to carve a place for themselves in this rapidly growing yet 'physically shrinking' world!"

CLYDE M. CHRISTENSEN reports from St. Paul, Minnesota where he is a Professor in the Plant Pathology Department of the University of Minnesota. Congratulations on receiving the Merit Award from Gamma Sigma Delta, Clyde.

FRANK H. KAUFERT sends us word from St. Paul, Minnesota where he is the Director of the School of Forestry at the University of Minnesota.

JOHN R. NEETZEL reports from St. Paul, Minnesota where he is a Research Associate for the School of Forestry at the University of Minnesota.

LAWRENCE B. RITTER sends us word from St. Paul, Minnesota where he is Consulting Forester. We enjoy your visits to Green Hall, Larry.

OLIVER M. COOK reports from Russellville, Arkansas where he is Forester for the U. S. Forest Service.

W. H. BRENER sends us word from Wisconsin Rapids, Wisconsin where he is Supervisor of State Nurseries for the Wisconsin Conservation Dept.

RALPH W. LORENZ is Professor and Acting Head of the Department of Forestry at the University of Illinois in Urbana, Illinois. He writes—"This is my 28th year at the University of Illinois. I will again be spending 2 months with the Illini Foresters at their summer camp near Blackduck, Minnesota. The boys are truly grateful for the opportunity to stop at the Cloquet Station for one week. I usually get them over to Itasca Park for a day visit. And we like to have the Illinois Foresters at Cloquet, Ralph."

HAROLD L. MITCHELL reports from Madison, Wisconsin where he is Chief Director of Wood Quality Research at the U. S. Forest Products Lab.

ARVID TESAKER is with the Soil Conservation Service at Beulah, Michigan. He sends us this information—"No news is good news."

RICHARD WITTENKAMP reports from Minneapolis, Wisconsin where he is Owner and Director of the Red Pine Camp.

1930

MAURICE W. DAY is with the Dunbar Forest Experiment Station at Scottville, Michigan. He sends us this word—"I enjoyed attending the Minnesota luncheon at the Detroit meeting, but the Class of '31 made a poor showing."
HENRY F. KEENH sends us word that he is retired and is living at Lewistville, Minnesota.

PAUL J. ST. AMANT is Assistant Regional Forester for the USFS in Milwaukee, Wisconsin. He says — "Same job as last year. Same family."

DONALD M. STEWARD is Research Plant Pathologist for the University of Minnesota at St. Paul, Minnesota. He says — "Our older daughter, Margo, is married and living in Lawrence, Kansas, where her husband is majoring in Math at the University of Kansas under the Navy Scholarship Program. Our other daughter, Bonnie, is a senior in high school and will attend the University of Minnesota next fall. Mrs. Stewart and Bonnie spent two months with me in Kumania last summer where I studied and lectured on cereal rusts on a 7-month Fulbright Grant."

JEROME H. STOUTE sends us word from Aberdeen, South Dakota where he is a Wildlife Research Biologist for the U.S. Bureau of Sport Fisheries and Wildlife.

1932

JOHN K. CHILDS reports from St. Paul, Minnesota where he is Assistant Chief of Forest Management and Timber Sales of the Minnesota Division of Forestry. Thanks for all of your help and cooperation on the MFMA Executive Board, John.

DONALD H. FERGUSON sends us word from Duluth, Minnesota where he is Staff Officer of the Superior National Forest. Enjoyed visiting with you at Cloquet, Ely, etc., Don.

ALEXANDER B. KARKULA reports from Minneapolis, Minnesota, where he is Lumber Yard Superintendent.

LAURITIS W. KRETING is Wildlife Research Biologist, Bureau of Sport Fisheries & Wildlife, St. Paul, Minnesota. He reports — "During the past year I have been more active in the Society of American Foresters. Served as Secretary, Division of Forest-Wildlife Management at Detroit. Will be Vice-Chairman at the Portland meeting next fall and Chairman when the meetings are held in Ottawa in 1967. Also, this year I will serve as Chairman of Forest Wildlife for the Southern Minnesota Chapter. My work load remains much the same. Most of my time is spent in writing wildlife articles. My family situation remains much the same."

ALAN F. LAIDLAW is Assistant State Conservationist for the Soil Conservation Service at St. Paul, Minnesota. He states — "I'm doing business at the old stand in St. Paul as Assistant State Conservationist for the Soil Conservation Service. My oldest daughter is Assistant Editor of her high school newspaper in North St. Paul. My wife continues as a fifth grade teacher. I've enjoyed being on the MFMA Council and have enjoyed being your president over this past year." Thanks for your fine assistance and cooperation, AI — it's been fun!

NEIL J. MCKENNA is Regional Forester for Kimberly-Clark of Minnesota, Inc. at Two Harbors, Minnesota. He writes — "Nothing new. Best regards!" Thanks — and the same to you, Neil.

LEONARD H. MOORE reports from Milwaukee, Wisconsin where he is a Forester for the U. S. Forest Service.

ARTHUR L. ROE reports from Missoula, Montana, where he is Director for the Intermountain Forest and Range Experiment Station (USFS).

HAROLD T. TYSK is State Director for the Bureau of Land Management at Billings, Montana. He sends us this information — "Following a 3-year stint at Washington, D.C. where I served as Staff Assistant to Assistant Secretary, Public Land Management, Department of the Interior, I returned to the Western States in August, 1965 in my present capacity as State Director for BLM in Montana, North and South Dakota with headquarters in Billings, Montana."

WALTER M. ZILLIGT sends us word from New Orleans, Louisiana where he is Director of the Southern Forest Experiment Station (USFS).

1933

WILLIAM E. ACKERNECHE is Assistant Chief for the Division of Wildlife Refuges at Washington, D.C. He says — "Not much change but we are quite proud that our son Bill has earned his M.S. in Electrical Engineering at Purdue in January."

S. J. BUCKMAN is President of the Buckman Laboratories in Memphis, Tennessee. He sends us this word — "We have had a very busy year with increasing production at each of our four plants located in Memphis, Tennessee; Cadet, Missouri; Ghent, Belgium; and Mexico. D. F. John B. Buckman, our youngest son, is completing his doctorate in March at Vanderbilt University with a major in organic chemistry and a minor in microbiology and will be joining our staff at Memphis, Tennessee. Outlook for the future seems good with increasing opportunities in essentially all of the industries that we serve with our products."

HARRY T. CALLINAN is in Minneapolis, Minnesota. He states — "Leaving for Hue, West Cameroon, West Africa on December 26th, to visit two sons who are located there. One is teaching in a native college, the other is a missionary priest about 250 miles from the College at Buea. Will spend several weeks sightseeing in Europe on return."

DAVID R. GIBNEY sends us word from Eugene, Oregon where he is Forest Supervisor (USFS).

HARRY C. MILEY is Advisor for the American Embassy at San Francisco, Calif. He writes — "Past two years spent with American Embassy, USAID, here in Saigon, Viet Nam, as an Advisor to Government of Viet Nam in logistic matters."

GEORGE W. PLANT sends us word from Minneapolis, Minnesota where he is a Plant Engineer for Honeywell, Inc.

DONALD E. PRICE reports from Eagle, Colorado where he is a District Ranger at the White River National Forest (USFS).

JOHN A. RUNDGREN sends us word from Custer, South Dakota where he is Deputy Supervisor at the Black Hills National Forest (USFS).

ROLAND J. SCABAARD sends us word from Washington, D.C. where he is Realty Officer for the Bureau of Outdoor Recreation.

HOWARD B. SMITH reports from Washington, D.C. where he is Forester for the U. S. Forest Service.

1934

BARCLAY INFANTINO reports to us from Punxsutawney, Pennsylvania.

REUBEN G. SETTERGREN passed away on January 19, 1965 from a heart attack. We extend our deepest sympathies.

1935

THOR K. BERGH reports from St. Paul, Minnesota where he is a Forester for the Soil Conservation Service. We enjoy your visits to Green Hall, Thor.

ROY M. CARTER sends us word from Raleigh, North Carolina where he is a Professor of Wood Science and Technology at North Carolina State University.

ROBERT H. CLARK is Forestry Manager for the Georgia Pacific Corporation at Fordyce, Arkansas. He says — "The world's first southern plywood plant has added one additional 8' lathe. Our plant now produces southern pine plywood from two 8' lathes and one 4. A sizable ribbon of wood. Things have changed since our visit in the spring of 1962, Bob."

ROBERT A. DELLBERG is State Woodland Conservationist for the SCS at Berkeley, California. He reports — "Have just transferred to Berkeley to work in the State SCS office as State Woodland Conservationist. Expect to move soon. Best wishes for another excellent Peavey." Thanks for those very kind words, Bob.

JOHN DOBIE is Research Biologist for the Minn. Conservation Department in St. Paul, Minnesota. He states — "My work consists mainly of research on fish pond fertilization. I have just returned from a nine week tour of Europe where I presented a paper at the International Congress of Ichthyology in Warsaw, Poland."

HARRY T. CALLINAN is in Minneapolis, Minnesota. He states — "Leaving for Hue, West Cameroon, West Africa on December 26th, to visit two sons who are located there. One is teaching in a native college, the other is a missionary priest about 250 miles from the College at Buea. Will spend several weeks sightseeing in Europe on return."

DAVID R. GIBNEY sends us word from Eugene, Oregon where he is Forest Supervisor (USFS).

HARRY C. MILEY is Advisor for the American Embassy at San Francisco, Calif. He writes — "Past two years spent with American Embassy, USAID, here in Saigon, Viet Nam, as an Advisor to Government of Viet Nam in logistic matters."

GEORGE W. PLANT sends us word from Minneapolis, Minnesota where he is a Plant Engineer for Honeywell, Inc.

DONALD E. PRICE reports from Eagle, Colorado where he is a District Ranger at the White River National Forest (USFS).

JOHN A. RUNDGREN sends us word from Custer, South Dakota where he is Deputy Supervisor at the Black Hills National Forest (USFS).

ROLAND J. SCABAARD sends us word from Washington, D.C. where he is Realty Officer for the Bureau of Outdoor Recreation.

HOWARD B. SMITH reports from Washington, D.C. where he is Forester for the U. S. Forest Service.

1934

BARCLAY INFANTINO reports to us from Punxsutawney, Pennsylvania.

REUBEN G. SETTERGREN passed away on January 19, 1965 from a heart attack. We extend our deepest sympathies.

1935

THOR K. BERGH reports from St. Paul, Minnesota where he is a Forester for the Soil Conservation Service. We enjoy your visits to Green Hall, Thor.

ROY M. CARTER sends us word from Raleigh, North Carolina where he is a Professor of Wood Science and Technology at North Carolina State University.

ROBERT H. CLARK is Forestry Manager for the Georgia Pacific Corporation at Fordyce, Arkansas. He says — "The world's first southern plywood plant has added one additional 8' lathe. Our plant now produces southern pine plywood from two 8' lathes and one 4. A sizable ribbon of wood. Things have changed since our visit in the spring of 1962, Bob."

ROBERT A. DELLBERG is State Woodland Conservationist for the SCS at Berkeley, California. He reports — "Have just transferred to Berkeley to work in the State SCS office as State Woodland Conservationist. Expect to move soon. Best wishes for another excellent Peavey." Thanks for those very kind words, Bob.

JOHN DOBIE is Research Biologist for the Minn. Conservation Department in St. Paul, Minnesota. He states — "My work consists mainly of research on fish pond fertilization. I have just returned from a nine week tour of Europe where I presented a paper at the International Congress of Ichthyology in Warsaw, Poland."

HARRY T. CALLINAN is in Minneapolis, Minnesota. He states — "Leaving for Hue, West Cameroon, West Africa on December 26th, to visit two sons who are located there. One is teaching in a native college, the other is a missionary priest about 250 miles from the College at Buea. Will spend several weeks sightseeing in Europe on return."

DAVID R. GIBNEY sends us word from Eugene, Oregon where he is Forest Supervisor (USFS).

HARRY C. MILEY is Advisor for the American Embassy at San Francisco, Calif. He writes — "Past two years spent with American Embassy, USAID, here in Saigon, Viet Nam, as an Advisor to Government of Viet Nam in logistic matters."

GEORGE W. PLANT sends us word from Minneapolis, Minnesota where he is a Plant Engineer for Honeywell, Inc.

DONALD E. PRICE reports from Eagle, Colorado where he is a District Ranger at the White River National Forest (USFS).

JOHN A. RUNDGREN sends us word from Custer, South Dakota where he is Deputy Supervisor at the Black Hills National Forest (USFS).

ROLAND J. SCABAARD sends us word from Washington, D.C. where he is Realty Officer for the Bureau of Outdoor Recreation.

HOWARD B. SMITH reports from Washington, D.C. where he is Forester for the U. S. Forest Service.
ARTHUR L. HAWKINSON sends us word from Minneapolis, Minnesota where he is Owner of a Construction Co.

O. K. KROGFROSS reports from Fort Madison, Iowa where he is Sales Manager for Cranston Paper Mill, Division of Consolidated Packaging Corp.

WILFRED H. LAUER, JR. is Forest Products Broker at Winona, Minnesota. He states — "Daughter Cassandra (22) has completed college and is leaving home to care for the sick and needy in the U. S. Government VISTA program. Daughter Heidi (19) is a sophomore in the College of Liberal Arts at the University of Minnesota and is among the residents of Powell Hall on the Campus. Daughter Germaine (17) is acting like a senior during her last year at Winona High School. We live close to school and she carries our living room furniture back and forth frequently for use in school plays. It seems she is property custodian or something. Son, Ted (13) is managing to stay in 8th grade in between remodeling his 1941 Hudson Classic and just being 13. Wife Mary is still being wife, mother, business manager, career woman and is looking for a hobby for retirement years."

FRANCIS J. MOORE reports from Grand Rapids, Minnesota where he is with the M. J. Sailsbury Company.

LINCOLN A. MUELLER is in charge of Forest Products Utilization Research for the Rocky Mountain Forest and Range Experiment Station (USFS) at Fort Collins, Colorado. He says — "No change in the Mueller household or elsewhere. Sot in on one of Dr. Ralph King's lectures when he visited C.S.U. on a lecture tour sponsored by the N.S.F. Still the in­spiring lecturer he was in the 1930's."

NORMAN O. NELSON sends us word from Milwaukee, Wisconsin where he is Branch Chief of Timber Management, Reg. Office, for the U. S. Forest Service.

URBAN C. NELSON reports from Minneapolis, Minnesota where he is with U. S. Bureau of Sport Fisheries & Wildlife. Thanks for all of your good work on the MFAA Executive Board, "Pete."

SULO V. SINMONEN sends us word from Croasett, Arkansas where he is Forestry Manager for the Georgia Pacific Corporation.

WILLIAM L. WEBB is Director of Graduate Study at the State University, College of Forestry in Syracuse, New York. He says — "I am in the post gap I have returned to Syracuse after a 2-year assignment as Project Leader of this College's program of assistance to the University of the Philippines' College of Forestry. After two years in the tropics the winter was 'pain­ful,' but now I am re-adjusted. Also in the post year I have been ap­pointed Director of Graduate Study at this College and am finding my new duties very challenging. We expect great increases in emphasis on graduate education, and hope that we can continue to lead in develop­ment of quality graduate education.

DAUGHTER, Susan, is a junior at Rice University, Houston, Texas. San, the oldest son, is a student at University of California, Berkeley, and the youngest son, Bob, is in his first work stint at the U. S. National Forest Service. Linda, graduated from University of Pennsylvania and stayed on for graduate work. Son, Keith, high school sophomore, class president, football, basketball, etc. He's busy. Helped guide First Series participa­tion in Girl Scout Senior Days on Kauai, K. P. last summer. 10,000 teenage girls. Next year, the Ray Family will participate in quite a bit of attention. Time marches on — and always interesting."

RAYMOND A. JENSEN reports from Crozet, Minnesota where he is an Assistant Scientist at the Clapot Forest Research Center. As always, we enjoy your visits to the St. Paul Campus, Ray.

WILLIAM L. WESB is Director of Graduate Study at the State University, College of Forestry at Eugene, Oregon. He reports — "Continues as Staff Assistant in Engineering, Rogue River National Forest, San, a semi-retired forester, and the youngest son, Bob, in his first work stint at the U. S. National Forest Bank where he has a four-year scholarship at U. of O. and, leaves for National Guard camp in December. Helen and Sue are still living in Eugene, and the youngest son, Bob, in his first work stint at the U. S. National Bank where he has a four-year scholarship at U. of O. and, leaves for National Guard camp in December. Helen and Sue are still going strong, leave for Australia Jan. 4 via the Fiji, Tahiti, New Zealand, etc. — will spend about four months down under and hope to see some of the Aussies' forest lands, wood products operations and visit one or two of their forestry schools — also see what they do with the good Douglas- fir lumber that we ship down there. Good luck on the new Peavoy. Thanks — and have a wonderful trip!"

RICHARD C. SMITH reports from Columbus, Missouri where he is a Professor in the School of Forestry at the University of Missouri.

ALVYN C. STEARNS sends us word from Hawaii, Hawaii where he is Vice President and Manager of the Kohola Sugar Company.

F. MACRAE THOMSON is General Manager for the Peninsula Plywood Corporation at Port Angeles, Washington. He writes — "Vocational training is minimum at Fort Angeles, Washington. Seems that mining is taken over from the trees. Saw a huge iron ore processing plant being built at Forbes.

**CHAPMAN CHEMICALS**

*preserve the value of forest products*

**PERMATOX 100**
Control stain, mold and decay in hardwood or softwood lumber during air seasoning. Cost only a few cents per thousand board feet. Dip or spray.

**PERMATOX 10-S**

**MILLBRITE**
Emulsion of waxes, resins and a penta-derived toxicant which gives dry finished lumber water repellency and weather protection from mill to job site. Either clear or pigmented for merchandising value.

**AMBRITE**
Low-cost log spray reduces losses from degrade lumber due to damage by insects, stain or mold. Equally effective on hardwood and softwood. Permits safe stockpiling of logs.

**AMBROCIDE**
Effective insect control chemical for use on logs and lumber. Used where stain is no problem or mixed with Permatox 10-S for complete protection against insects, sap stain and mold.

**SEALTITE 60**
Sharply reduces losses caused by end-checking in logs and lumber by controlling the drying rate and thereby reducing internal stresses. Available in brilliant colors for identification of quality lumber.

**PENTA-WR**
Water repellent preservative for control of checking, swelling, warping, mold mildew, insect attack and rot in lumber. Clean and paintable. Widely used by millwork plants.

**POL-NU**
Patented formulation of pentachlorophenol for groundline treatment of standing poles. Replaces natural loss of preservative from original treatment and adds years of life.

**PENTA PRESERVATIVE**
Protects wood from decay and insects. Will not evaporate or leach out. The clean, modern wood preservative widely used wherever wood is exposed to damage by weather or insect attack.

Write for literature

**CHAPMAN CHEMICAL COMPANY**
Memphis, Tennessee 38109
near where my grandparents homesteaded and others around the Range.
Have been doing a lot of work in Alaska this past year. See Vince Olsen and Roman Schwartz often, both Minnesota Foresters with the USFS at Juneau. My best regards to the Profs, especially my advisor from college—Frank Kaufert." Best regards from your "old adviser" — F.H.K.I

YALE WEINSTEIN is Forester-Production Manager for the Duke City Lumber Company at Albuquerque, New Mexico. He sends us this information — "There comes a time when the old timers cease to convey news regarding their own activities and write about the kids. Daughter, Jane, is a sophomore at University of Wisconsin and Barbara is freshman at University of Arizona, Tucson.
I am still wandering around the forests of New Mexico and Arizona. Happily meet new Minnesota Foresters in our region. Larry Foster, 1963, is our latest newcomer. Assistant Rgs. Caran National Forest, Conjillon, New Mexico. Best of Luck."
Thanks . . . and the same to you, Yale.

1938

JAMES A. BUSSEY is Soil Conservationist (SCS) at Ashland, Wisconsin. He reports — "Our oldest son, Bill, is a senior at Harvard this year where he is majoring in mathematics."

CALVIN L. DeLAITRE sends us word from Minneapolis, Minnesota where he is Owner of the DeLaitner Dixon Company.

ROBERT E. DELEUW reports from San Mateo, California where he is Navigator for the Flying Tiger Airl ine.

FRED E. DICKINSON reports from Richmond, California where he is Professor of Forestry and Director of University of California Forest Products Laboratory.

WILLIAM J. EMERSON is Chief, Branch of Fire Control for Region 9 U. S. Forest Service at Milwauk e, Wisconsin. He reports — "Am Chief, Branch of Fire Control, Region, USFS. " We sure did enjoy having your son, Tom, with us — he is a fine lad!

JOSEPH P. FALBO sends us word from Hlibing, Minnesota where he is a Forester I for the Iron Range Resources and Rehabilitation Commission at the St. Louis County Court House.

ROBERT L. HILLER reports from Rosemount, Illinois where he is Regional Manager for the American Cyanamid Plastics and Reins.

DAVID B. KING is Director of the North Central Forest Experimentation Station (USFS) at St. Paul, Minnesota. He sends us this information — "The Lake States Station has been expanded to include federal forestry research in Indiana, Illinois, Iowa and Missouri as well as in Michigan, Wisconsin and Minnesota. We regret losing the name Lake States, so well known to Minnesota Alumni. We hope our new name North Central Forest Experimentation Station will soon receive the same recognition and respect." It's good having you with us, Dave!

DANIEL J. LEACH sends us word from Washington, D. C. where he is Patent Examiner for the U. S. Patent Office.

ALVIN E. NELSON reports from Madison, Wisconsin where he is Asst. Supt., Parks & Recreation Division for the Wisconsin Conservation Dept.

ED SEDLACEK reports from Sumner, Washington where he is Chief Forester for the St. Regis Paper Company in the Tacoma area.

PERRY E. SKARRA reports from Washington, D. C. where he is a Forester for the Bureau of Indian Affairs (USDI).

LAWRENCE P. TEGH is Health Physics Supervisor for Phillips Petroleum Company at Idaho Falls, Idaho. He says — "Mrs. Terry, Eleanor, is Administrative Secretary at the City Public Library. Larry Jr. graduates from Carroll College, Helena, Montana, major in Philosophy, minor in Math. He spends summers driving the official tour bus in Mt. McKinley National Park in Alaska. He wants to live in Fairbanks. Last son, James, is a junior in pre-med at Carroll in Helena, Montana. He wants to get to the U. of Minn, College of Medicine. Summers he works at Sacred Heart Hospital as orderly in Surgery."

RAYMOND J. WOOD sends us word from Cloquet, Minnesota where he is Corporate Chief Forester for the Diamond International Corporation. We enjoy your visits down to Green Hall, Roy.

ROBERT A. ZABEL is Associate Dean of Biological Sciences and Instruc tion at the State University College of Forestry at Syracuse, New York. He says — "I am enjoying the many challenges of broad responsibilities for instruction and biology at the college very much; forest pathology continues to be a subject of great personal interest. My family is rapidly growing up and within the next few years I hope to have four children in college at the same time."

1939

GEORGE H. BOYSEN is District Ranger for the Prineville Ranger District, Ochoco National Forest (USFS) at Prineville, Oregon. He states— "Sorry for the oversight and delay. Hope I can still get a copy of one of my 'favourites.' No change in family or job. Keep pretty busy with Vice-chairman of Columbia River Section, SAF. Best of luck on the Peavey. Thanks for those kind words, George.

JOHN J. CONNORS reports from Seattle, Washington where he is Manager for Plywood and Veneer Division, Simpson Timber Company.

EARL B. DAHL sends us word from White Plains, New York where he is Captain-Pilot for the American Can Company.

GEORGE E. M. GUSTAFSON is Townsite Trustee for the Bureau of Land Management at Anchorage, Alaska. He states— "Still holding forth with BLM in Anchorage, although the job takes me from one state to the other. Anchorage continues to be one of the fastest growing cities in the U. S. The Cook Inlet area is rapidly becoming a big oil producer. If you haven't visited Alaska, the 1967 Centennial celebration of Seward's gift will be a good time to do it. Big plans are underway to make a worthwhile trip for everyone."
"I am looking forward to receiving your very good publication. "Thanks — those are kind words, George.

RICHARD D. HULTENGER reports from St. Paul, Minnesota where he is State Land Administrator for the Division of Lands and Minerals. I'm going to miss you on the MF AA Exec. Board, Dick — thanks for everything!

PHILIP L. HUNLEY is Accounting and Cost Supervisor in the Woodlands Division of the Kimberly-Clark Corp. at Norwalk, Michigan. He says — "This was a year of firsts for our family — daughter, Jennifer, entered University of Michigan Music School; No. 1 son, Craig, entered high school; and No. 2 son, Allan, entered kindergarten."

CHARLES E. HUTCHINSON sends us word from Sacramento, California where he is with the Bank of Sacramento.

FRED L. JACOBSON reports from Boston, Massachusetts where he is Assistant Regional Director of the Northeast Region of the Bureau of Sport Fisheries and Wildlife.

GOODMAN K. LARSON is Regional Personnel Officer for the Bureau of Sport Fisheries and Wildlife at Minneapolis, Minnesota. He writes — "Still at the same job as Regional Personnel officer, Bureau of Sport Fisheries and Wildlife, so I keep in touch with the Faculty and quite a few of the Alumni. Outside activities include U. of Minn., St. Paul Campus, Boy Scouts, farming, hunting and fishing. With two ski enthusiastic teen-age sons, I even risk my limbs a couple times a year on Minnesota ski hills. Our daughter, a junior at the U., plans to be married in September and soon after Marge and I plan to start out on our first European trip."
Thanks for all of your cooperation and assistance on the College of AFHE Alumni Association Board.

HILLARD M. LILLIGREN sends us word from Tiller, Oregon where he is District Ranger at the Umpqua National Forest (USFS).

THOMAS H. OHL is a Government Employee (U. S. AID) in Lahore, Pakistan. He states — "One son, Peter, working for District of Columbia, other son, James, student at Michigan Technological University. Myself, retired U. S. Army in 1964, working in Pakistan for USAID. Living in Lahore with wife."

VINCENT N. OLSON is Forest Supervisor for the North Tongass National Forest (USFS) in Juneau, Alaska. He sends us this information — "Am enjoying Alaska with its fine scenery and unexcelled hunting and fishing opportunities. Had a nice visit to the South '48 last summer with the family."
"The Welcome Mat is out to all old or new friends who visit Scenic Alaska."

SCOTT S. PAULEY reports from St. Paul, Minnesota where he is a Professor in the School of Forestry at the University of Minnesota.

KEN W. SACKETT sends us word from St. Paul, Minnesota where he is Insurance Agent for the New England Mutual Life Insurance Company.

ROBERT SCHOENSEE is Superintendent of the Plumas Unified School District in Quincy, California. He reports — "Promoted this year to the position of District Superintendent of Schools, also appointed County Superintendent of Schools for Plumas County, California. New jobs have
Man has been called the "time-binding animal." He differs from all others in his ability to see beyond the moment—and act and plan accordingly.

A farmer plants in the spring for next fall's harvest. An architect draws plans for a building to be completed in two or three years.

And a forester thinks in terms of decades, or even centuries. What he plants or nurtures will seldom be harvested within his own lifetime.

We find the experience profoundly invigorating. We know you will, too. Welcome, And good luck.
kept me from doing my usual fall hunting and fishing, but plan to have everything straightened out by next spring. Oldest daughter graduated from University of California and married this summer."
Design, materials and production

Good design, selected materials, skilled craftsmanship and a modern factory devoted solely to the manufacturing of fine windows combine to make Andersen windows far more weather-tight than required by industry standards.

Wood a natural insulator

Wood is a natural insulator, nearly 1800 times as efficient as aluminum in reducing heat transfer by conduction, further reducing heating and cooling costs.

Wood is one of the best known and most durable of construction materials. Modern technological advances in treating allow even greater freedom for the use of wood in today’s designing for better and more enjoyable living.

The natural warmth, beauty and character of wood adds to design freedom and complements any desired decor.

FOR DETAIL CATALOG 661 (SWEET’S REPRINT) AND FURTHER INFORMATION, SEE YOUR LOCAL LUMBER AND MILLWORK DEALER OR WRITE...
1942

ARTHUR L. JANURA reports from River Forest, Illinois where he is General Superintendent for the Forest Preserve District of Cook County.

HOWARD A. STEIN is Senior Information Representative for the Colorado Game, Fish and Parks Department at Colorado Springs, Colorado. He says — "The family never got beyond the point of two daughters, Pamela (16) and Janelle (14) who, along with their mother and I, are all quite well. Mrs. Stein (Margaret Harvey) teaches Home Ec. in the local high school. My job as Information Representative is tantamount to a public relations person and covers the SE portion of the State. Work is comprised mostly of public speaker, newspaper reporter and radio and TV specialist. Annually conduct classes in game management at Jr. Colleges and the Air Force Academy. 'Nuff said."

1943

WILLIAM D. HANNAY sends us word from Brooklyn Center, Minnesota where he is Owner of the Wm. D. Hanna Insurance Agency.

ROBERT F. NELSON reports from St. Paul, Minnesota.

1946

D. A. BOLLINGER reports from Opheim, Montana where he works in forestry in the summer and is Superintendent of Schools at Opheim the rest of the year.

ERNEST J. GEBHART is Assistant Chief of the Division of Forestry and Reclamation at Columbus, Ohio. He writes — "Son, Kenneth, is a junior at Ohio State University. Daughter, Delores, is a sophomore at Miami University. Daughter, Joan, is a senior at Grandview High School. Present work assignment covers activities in: forest management, fire control, reforestation, farm forestry, stripmine reclamation and personnel management."

1947

RALPH L. ANDERSON sends us word from St. Paul, Minnesota where he is Principal Plant Pathologist for the Lake States Forest Experiment Station (USFS).

GLENN N. DEITSCHMAH is a Research Forester for the Intermountain Forest and Range Experiment Station (USFS) at Moscow, Idaho. He writes — "My wife and I plan to make a late-summer vacation tour in 1966 to former Midwest habitats. We hope to see many of our old friends that have managed to keep a durable address. 'We'll be looking for you, Glenn."

RUSSELL J. JOHNGAARD is with the Soil Conservation Service in Little Falls, Minnesota. He sends us this information — "Daughter, Martha, is a senior at Bob Jones University, Greenville, South Carolina. Son, Steve, is a freshman at U. of M. Duluth."

WILLARD F. LEAF sends us word from Benidji, Minnesota where he is Realty Officer for the Bureau of Indian Affairs.

RICHARD M. MARREN is a Forest Products Technologist for the North Central Forest Experiment Station (USFS) at Duluth, Minnesota. He reports — "Transferred to Duluth, Minnesota in June, 1965. Still in Wood Utilization Research with the North Central Forest Experiment Station, Forest Service. Karen is enjoying her freshman year of college at St. Scholastica in Duluth. In addition to her college activities, she keeps busy on weekend teaching swimming for the YMCA. Mike is active with ninth grade Boy Scouts. We are enjoying the invigorating northern climate. " And we enjoy your visits to the St. Paul Campus.

HOWARD E. OLSON is with Sanford Products and is located in Minneapolis, Minnesota. He writes — "No news is good news. I enjoy the Reavey very much and feel the staff and Ken Wisnieski are doing outstanding work. The alumni dinners are so fine; it's too bad grades in other parts of the U.S. can't have the same fine functions.

Thanks for all of your valuable assistance to the School, the Alumni Association and to keep Minnesota Green, Inc., Howard.

LEONARD ROWSON is Forest Supervisor for IRRR at Hibbing, Minnesota. He sends us this information — "Wife, boy, girl, and dog." We enjoy your visits to the St. Paul Campus, Leonard.

ROBERT W. WOOD is with the J.M Co. at St. Paul, Minnesota. He reports — "Daughter, Judy, married last summer to a U. of M. Engineer who is working with Litton Industries in the Twin City area. Son, Bob II, at U. of M. starting in School of Forestry."

JOHN A. ZIVUSKA is the Dean of the School of Forestry at the University of California in Berkeley, California. He writes — "Enjoyed a trip around the world on sabbatical leave in first half of 1965. Now busy with new duties as Dean, School of Forestry, University at California. Congratulations, John!"

1948

CLIFFORD E. AHLGREN reports from Duluth, Minnesota where he is Director of the Quetico-Superior Wilderness Research Center. Your presentation at the Professional Program on Foresters' Day was the best, Cliff! Thanks very much.

JOHN R. BERGERON sends us word from St. Paul, Minnesota where he is Sales Representative for the United States Plywood Corporation.

PAUL E. COLLINS reports from Brookings, South Dakota where he is an Associate Forester for South Dakota State University.

DONALD E. JOHNSON sends us word from Cottage Grove, Oregon where he is Wood Technician for the Weyerhaeuser Company.

ROBERT S. JORGENSEN reports from Minneapolis, Minnesota where he is Regional Supervisor for the Division of Realty, Bureau of Sport Fisheries and Wildlife. We appreciate the employment contacts, Bob — thanks!

JOHN M. KITTELSON sends us word from Longview, Washington where he is Chief Forester for the International Paper Company.

JAMES M. LINNE reports from Billings, Montana where he is Chief of the Division Resources Program Management for the Bureau of Land Management. Thanks for flying in for Brownie's Retirement Party last May — it was very much appreciated!

EDWARD J. PLANTE sends us word from St. Paul, Minnesota where he is Outside Salesman for the United States Plywood Corporation. I sure miss you on the MFAA Exec. Board, Ed.

RODNEY B. SCHUMACHER reports from St. Paul, Minnesota where he is Sales Representative for the Masonite Corporation.

I sure enjoyed chatting with you at the recent MFAA Banquet, Rod.

ROBERT N. WEBB is District Forester for the Georgia-Pacific Corporation at Crassett, Arkansas. He sends us this information — "Made two trips to Minnesota in 1965 due to the death of my father on May 17. I came back in July to settle his affairs. Shirley and I and the nine children plan a trip to Coeur d' Alene, Idaho this summer. Family is busy with school, church, Boy Scouts, Girl Scouts and 4-H. I continue to work in the Scout Program (received the Silver Beaver Award on January 28, 1965)."

WILLIAM H. ZIEMER reports from Minneapolis, Minnesota where he is Estimator for the American Lumber Company. And one of our best co-operators on the MFAA Exec. Board — thanks, Bill!

1949

LOUIS H. BOURDEAU sends us word from Redding, California where he is with the U. S. Plywood Corporation.

OLAF C. GRETTE reports from Snoqualmie Falls, Washington, where he is Logging Manager for the Cascade Branch of the Weyerhaeuser Company. Thanks for your help in the employment area, Olaf — it was very much appreciated!

DONALD W. GRIAM reports from Rochester, Minnesota where he is Assistant Chief for the Rochester Fire Department.

PAUL M. HAACK sends us word from Portland, Oregon where he is Mensurationist for the Pacific NW Forest and Range Experiment Station (USFS).

JOHN F. HALL reports from Cloquet, Minnesota where he is Assistant Regional Forester for the Division of Forestry, State of Minnesota.

MEREDITH B. INGHAM reports from Philadelphia, Pennsylvania where he is Regional Naturalist for the National Park Service (USDI).
A new name has been added...

...to further serve the paper industry throughout the world

"Busperse," a new name, has been added to the familiar "Busan." Busperse covers a new line of highly effective products for the dispersion of nonmicrobiological deposits, de-foaming, pulping and repulping, and continuous conditioning for paper machine wet felts. You will see it joining the familiar Busan name on drums in pulp and paper mills throughout the world.

BUCKMAN LABORATORIES, INC.
MEMPHIS, TENN., 38108, U.S.A.
CABLE ADDRESS BULAB
FRANK D. IRVING is Associate Professor at the School of Forestry, University of Minnesota at St. Paul, Minnesota. He states— "Enjoyed talking to a lot of Minnesota alumni at the Detroit SAF meeting. Still in business at the same location."

HARLAN C. LAMPE is Associate Professor of Food and Resource Economics at the University of Rhode Island at Kingston, Rhode Island. He says— "We all had a delightful seven months in Minnesota last year and I had a particularly pleasant time visiting with friends at the University. Take care and have a good year, Ken." Thanks—and the same to you and yours, Charlotte.

DAYTON LARSEN sends us word from Virginia, Minnesota where he is a St. Louis County Extension Forester.

MERLE P. MEYER reports from St. Paul, Minnesota where he is a Professor at the School of Forestry, University of Minnesota.

WILLIAM R. MILES sends us word from St. Paul, Minnesota where he is an Extension Forester for the University of Minnesota. And thanks for all of your help and cooperation on the MFAA Exec. Board, Bill.

BERNARD PARADIS is Manager for the Lampert Lumber Company at Aberdeen, South Dakota. He writes— "I'm the Vice-President of the South Dakota Retail Lumberman's Association this year."

DARRELL F. RUSS sends us word from Norfolk, Connecticut where he is Forester-in-Charge of the Great Mountain Forest.

RICHARD E. SCHROEDER reports from Coeur d' Alene, Idaho where he is Forester for the Bureau of Land Management (USDI).

ARTHUR E. SCHULTZ is Woods Safety Coordinator for the Potlatch Forests, Inc. at Lewiston, Idaho. He writes— "Shifted from Forestry Department to Woods Safety during 1958. Still see lots of logging and forestry activity, family now consists of seven with the addition of daughter during 1965, plus dog, cat, turtle and porcocket. A few Minnesotans show up in Inland Empire at times."

E. C. STEINBRENNER reports from Centennial, Washington where he is Forest Soils Scientist with the Forestry Research Center of the Western Lumber Company.

GERALD J. SULLIVAN sends us word from Grand Rapids, Minnesota where he is Wild Life Conservationist for the North Central School and Experiment Station.

DAVID V. SWENSON reports from Midland, Texas where he is Geological Engineer for the Geophysical Service Inc.

1950

ROBERT F. BERGQUIST sends us word from Spirit Lake, Iowa where he is with the President Building Industries, Inc.

RALPH W. CARLSON reports from Superior, Wisconsin where he is Manager, Cornell Unit, for the St. Regis Paper Company.

EDWARD M. CHRISTIANSON is Forest Administrator at Wabeno, Wisconsin. He reports— "It is sure nice to be back! Have been here slightly over a year and I like it better every day. Am Forest Administrative officer for 5 Indian Reservations. Have my own office in Wabeno, stop in some time when in or around this area."

C. EMERY FEERO is District Forester for the Celotex Corporation at Champion, Michigan.

ROBERT D. GARNER is with the Western Electric Company, Inc. at Denver, Colorado.

ANTHONY G. GRUBA is Sales Engineer for the Chapman Chemical Company at Portland, Oregon. He writes— "Nothing new—still traveling for Chapman Chemical—family still same size and well."

JOHN W. HAMILTON is Forestry Instructor at Loslan College at Susanville, California. He reports— "Still am enjoying sunny Northern California. The College is growing along with all the rest of the colleges so education seems to be a permanent part of my future. Last summer (1965) I attended a NSF Institute in Radiation Biology at University of Washington—very enjoyable and is a field which I would like to enter. "The family is still the same except of course one year older. Florence greets all our friends. I thought maybe we would produce one forester but our oldest (Mark) is a budding astronomer, our second (Scott) plans on digging basements, and the twins (David and Danny) are going to build trucks. Hi to all!"

WAYNE HANSON sends us word from St. Paul, Minnesota where he is Staff Forester for the Division of Forestry.

MEL HOUGEN sends us word from St. Paul, Minnesota where he is Assistant Branch Manager for the U. S. Plywood Company.

THEODORE M. KEBRIS sends us word from St. Louis Park, Minnesota where he is with the Republic Cressonite Co.

GORDON L. LANDPHIER reports from Spooner, Wisconsin where he is District Forest Ranger for the Wisconsin Conservation Department.

VERNON V. LINDHOLM sends us word from Milwaukee, Wisconsin where he is Forester—lands staff for the U.S.F.S. Department of Agriculture.

RUSSELL W. LUKKARILA reports from Virginia, Minnesota where he is Engineer I for the South Dakota Highway Dept.

LENNART E. LUNDBERG is Forester for the Division of Administrative Mgr., U. S. Forest Service at Washington, D. C. He reports— "Transferred to Washington, D. C. in August."

JERALD A. MORTENSEN sends us word from Minneapolis, Minnesota where he is Sales Representative. We sure do enjoy your visits to Green Hall, Jerry.

PAUL C. ROEBER reports from Broken Bow, Oklahoma where he is Chief Forester of the Oklahama Division, Dierks Forests, Inc.

GENE ROMANSKI is Production Control Manager for Aero Division-Honeywell Inc. at Minneapolis, Minnesota. He reports— "(1) Planted wild rice and sago pond plant in a small lake near my Dad's farm (Merle Meyer knows the lake) — watch the mallards come in this fall! (2) Work — assigned to the MOL (Manned Orbiting Lab) at Honeywell in December. Honeywell is developing the attitude control system (as they did for Mercury and Gemini and Apollo). (3) Family — boy added 0n April 29th, 1966! How about that timing?"

HOWARD J. RUSSEL is Forester for the Simplest-Dovell Lumber Company at Chiloquin, Oregon. He writes— "Find myself getting pulled out of the woods to run the saw mill, etc. Sure don't like that but that's where the money is."

WINSTON SWANSON sends us word from Son Mateo, California where he is with the Winsted Swanson Insurance Agency.

CLARENCE J. TREUMER sends us word from Thief River Falls where he is Area Conservationist for the Soil Conservation Service.

ROBERT B. WALLIN sends us word from Minneapolis, Minnesota where he is with the U. S. Plywood Corporation.

1951

HAROLD W. BENSON reports from Minneapolis, Minnesota where he is Chief, Wetlands Acquisition for the Bureau of Sport Fisheries and Wildlife.

DONALD P. DUNCAN is Director of the School of Forestry, University of Missouri, Columbia, Missouri. He states— "We are enjoying the School, University, and people here in Missouri. Yesterday the whole family went skating for two to three hours on one of the nearby ponds. Am gradually getting over the hump here and feel at home. While the amount of paper crossing the desk seems to be tremendous, that too is good to the forestry business. Enjoyed a meeting of the Ozark section of the SAF last Thursday and Friday. Saw several administrators there. Sorry to have missed so many when on campus the day before Christmas." And we are sorry that we missed you, Doni

STAN A. GRUETZMANN reports to us from St. Paul, Minnesota, where he is Owner of Biocontrol Company. The "coffee-pot" is on, Stan . . . come on over.

EDWIN J. HASLERUD sends us word from Neenah, Wisconsin where he is Development Engineer for the Kimberly-Clark Corporation.

HARRY W. HASLERUD sends us word from Neenah, Wisconsin where he is Forest Management Supervisor for the Iron Range Resources and Rehabilitation.

ROBERT J. KOBS sends us word from Hibbing, Minnesota where he is Forest Management Supervisor for the Iron Range Resources and Rehabilitation.

ROBERT J. KRUCHOSKI is Field Supervisor for the Western Electric Co., Inc. at New Providence, New Jersey. He reports— "As of Sept. 1965 my current position with the Western Electric Co., Inc. Supplies Inspection Organization, is field supervisor in the New Jersey District. Family status remains the same with a total of 3. Other Minnesota Forestry Alumni in the immediate area and colleagues in the Bell System are Ken Wickstrom, Bill Mike, Bill Warner and Larry Smith."

JAMES LINDQUIST sends us word from Berkeley, California, where he is Research Assistant for the School of Forestry, University of California.
ALLEN L. LUNDBROG reports from St. Paul, Minnesota where he is Project Leader for the Production Economics Research at the Lake States Forest Experiment Station, University of Minnesota.

HAROLD K. OLSEN is Logging Superintendent at the Astoria Plywood Corporation at Astoria, Oregon. He writes — "We missed visiting the campus last March—if you would just call off your snow storms when we westerners come to visit. The family is still the same only growing up—2 girls, and 1 boy. We could almost have a western division out here. I see Dick Burke, Harold Coates, Don Roder, Cal Smith, Marvin Killtheson, and Louis Nicholson all in this area. I still am Logging Sup't."

DONALD W. PETERSON reports from Asheville, North Carolina where he is in Timber Management for the National Forests of North Carolina (USFS).

KERN S. RIDLINGTON is IRRC Forester for the County Court House at Atikin, Minnesota. He reports — "As Secretary of the Atikin County Park Commission, I have been rather involved with the Long Lake Conservation Center the last two years.

DONALD C. RODER sends us word from Albany, Oregon where he is Logging Manager for the Oregon Division of the Simpson Timber Company.

ROLAND E. SCHONEIKE is Associate Professor for the Department of Forestry, Clemson University, Clemson, South Carolina. He reports— "Clemson's on a new schedule. We begin on August 23 and end first semester on December 17. Second semester begins Jan. 17 and ends May 13. The new arrangement does give us a nice winter holiday, but it's hot that first month."

RICHARD W. SHIELY is Casualty Claim Supervisor at Denver, Colorado. He states — "Still enjoying a good job in this most pleasant state due to a fine education in a great school. My respects and wishes for continued good fortune to Dr. Kautert and the Forestry School."

Thanks for those very kind words, Dick.

WALLACE L. TRUMAN is Forester for the Brown's Tie & Lumber Company at McCall, Idaho. He reports — "Well, I guess I had better do my bit to help Willie out. Really enjoy your Alumni Section. Good to know what the rest of the fellows are doing. Job wise, I am still with Brown's Tie and Lumber Co. Been here long enough so that the natives think of us as natives. Our 2 girls are. Ski season opened this weekend; time to hang up rifle and get out the skis."

Thanks for those kind words, Wallace.

EVERT B. WICKSTROM is Reservation Forester (USDI) at Grand Portage, Minnesota. He reports — "As Secretary of the Aitkin County Park Commission, I have been rather involved with the Long Lake Conservation Center the last two years."

1952

GERALD W. ANDERSON sends us word from St. Paul, Minnesota where he is Plant Pathologist for the Lake States Forest Experiment Station (USFS).

Thanks for all of your assistance in finding part-time employment for our Forestry students — it is very much appreciated!

HAROLD Q. BATZER is Insect Ecologist for the Lake States Forest Experiment Station (USFS) at the University of Minnesota, St. Paul, Minnesota. He reports — "Finally finished the Ph.D. thesis and graduated in June. Have a new neighbor, two doors down — Allen L. Lundgren, Class of '51."

WILLIAM B. BAUMAN reports from Minneapolis, Minnesota where he is Brokerage Manager for the Continental Assurance Company.

BRUCE A. BROWN sends us word from Cloquet, Minnesota where he is Superintendent of the Cloquet Forest Research Center.

We enjoy your visits to the St. Paul Campus, Bruce.

RICHARD E. BURKE is Recreation Staff Officer of the Mt. Hood National Forest (USFS) at Portland, Oregon. He writes — "Following the death of my first wife 3½ years ago I remarried in July of 1963. My wife's name is Lois. Her sister, Kim and Craig, together with my daughter, Carolyn, make a fine family."

JOHN R. DAVIS is Wetlands Program Supervisor for the U.S. Bureau of Sport Fisheries and Wildlife at Minot, North Dakota.

He states — "Just getting nicely settled in our new home and — you guessed it — we're moving. I took over as Supervisor at our Minot Area Acquisition office Nov. 1. I believe that this outfit will make a confirmed renter out of me yet. I look forward to each new Peavey but the period between them seems to grow shorter each year. Keep up the good work and regards to all my old acquaintances in Green Hall."

The same to you, John ... and stop by and visit!

ALEN J. ERICKSON sends us word from St. Paul, Minnesota where he is a Partner at the Bach Millwork.

WILLIAM W. HAMLIN is Senior Forester for Owens Illinois, Inc. at Lake Butler, Florida. He writes — "Work is mostly varied here with Owens Ill. Had an opportunity to supervise a Busch combine operation and found it a fascinating machine. So far, I haven't been 'snake-bit' in Florida, but have had a few close ones. Family is well and with no new additions this year."

PHILIP A. HEYN reports from Portland, Oregon where he is Forester Engineer for the Mt. Hood National Forest (USFS).

JOHN K. HILLMAN is Major for the U. S. Army at Ft. Bragg, North Carolina. He states — "Although we enjoyed our tour in France, the family is glad to be back in the states. I am now the Material Officer of the 80th Ordnance Group at Fort Bragg, North Carolina."

KENNETH J. JOHNSON is with the K. J. Johnson Const. Company at St. Paul, Minnesota.

He reports — "Hello to everyone. Wife, daughter, and myself are fine. General Contracting business has been excellent. Be seeing you at next alumni meeting."

We missed you, Ken!

MICHAEL D. LYSNE sends us word from Oakridge, Oregon where he is District Ranger for the U. S. Forest Service.

RICHARD D. MUNDINGER reports from Portland, Oregon where he is Appraiser for the Bureau of Sport Fisheries and Wildlife. We miss your visits to Green Hall, Dick.

JOHN F. PERRY sends us word from St. Paul, Minnesota where he is in Industrial Sales for the U. S. Plywood Corp.

BERNARD J. SCHAEFER is Chief Appraiser for the BSFW, Div. of Realty, Dept. of Interior at Washington, D. C.

He writes — "In October 1965 transferred to Washington D.C. from our Regional Office in Minneapolis and am now Chief Appraiser for the Bureau of Sport Fisheries & Wildlife. I'll get a chance to travel the country now and hopefully I'll be able to renew some acquaintances, particularly in the Portland, Oregon area.

Met Bob Arkin the other day. Bob is the former Head Forester for the State of South Dakota and is presently here in D.C. with B.D.R.

Our family has grown to four children with addition of a son, James, seven months ago — that made two of each."

Congratulations, Bernie ... we miss your visits to Green Hall.

DON SCHMIEGE is with the U.S.F.S. Research — Northern Forest Experiment Station at Juneau, Alaska.

He reports — "We plan to move to Madison, Wisconsin on July 1, 1966. I will be on the University staff for one year. Don Benjamin '39 and family are in Africa and I will be filling in for him until he returns. Our plans after that are not definite now. We hope to see many of our Midwestern friends while in Madison."

We'll be looking for you, Don.

FRANCIS D. SCHROM sends us word from Portland, Oregon where he is Valuation Forester for the Internal Revenue Service.

CARL H. STOTLENBERG is Head, Forestry Department, Iowa State University, Ames, Iowa.

He writes — "Enjoyed participating in a 4 week tour of German forestry in May as a guest of the Federal Republic of Germany."

LEIGHTON R. WALSTROM reports to us from Minneapolis, Minnesota where he is a salesman for the Georgia Pacific Corporation.

DANALD D. WESTERBERG is Forest Supervisor, Chippewa, N. F., for the U. S. Forest Service at Cass Lake, Minnesota.

He states — "Happy to be back in the land of good 'duck hunting.' Family and this quo."

We enjoyed visiting with you this past winter, Darold.
1953

DAVID S. CROSS is President of David S. Cross and Associates, Inc. He reports — "Well, I took the big step in 1953 and quit the 'relative' security of the Savings and Loan nest and opened my own business. Cross and Associates is a firm of real estate appraisers. We appraise all types of real estate (including timber) anywhere. Special rates to Minnesota grade." LANSIN R. HAMILTON sends us word from Cloquet, Minnesota where he is Chief Forester for the Diamond International Corporation. He writes — "Dear Ken: A hello to you and best wishes for a happy new year. As you probably know I have been promoted to Chief Forester, Minnesota Woodlands, Diamond International Corporation. Still at Cloquet. Will be responsible primarily for overall forest management, land purchase program and assisting each of the three area foresters. Will now cover almost all of northern Minnesota instead of almost a third. Sincerely, Lans."

VAL J. LAWLER writes to us from Annandale, Minnesota where he was appointed Acting Postmaster on December 31, 1955.

WILLIAM R. MAGNUSON sends us word from Troy, Montana where he is a District Ranger with the U. S. Forest Service.

LEWIS A. NICHOLSON is with the U. S. Forest Service in Mt. Hood National Forest. He writes — "Still working on the Mt. Hood National Forest as a silviculture assistant in the supervisor's office."

ROBERT J. NIXON writes to us from Ballingham, Washington where he is a Civil Engineer at Mt. Baker National Forest.

CHARLES E. OLSON, JR. is a Lecturer and Research Associate in the Department of Forestry at the University of Michigan. He writes — "Spent four weeks in Thailand in June-July of 1964 including a visit to the Forestry Camp facility of Kasetsart University (main campus in Bangkok). The entire trip was a wonderfully interesting experience."

LEONARD S. PARTRIDGE is Assistant Sales Service Representative with Weyerhaeuser Company in Louisville, Kentucky. He reports — "After 3 years in the electronics business in Cedar Rapids, Iowa I'm now back with the lumber industry. I've just returned from three months in the Northwest at the Weyerhaeuser tree farms and mills. So anyone wanting to see home movies of this great timber country stop by Louisville and save the fare to the West Coast. The family remains at 3 girls and 1 boy—none of which can spell Weyerhaeuser yet."

ROBERT A. PERSEK is District Ranger with the Monte Cristo District at Granite Falls, Washington. He says — Still on the Mt. Baker National Forest in Washington. Transferred to the Monte Cristo District in July of '65. Located 12 miles east of Granite Falls almost at the base of Mt. Pilchuck."

HOWARD W. VENNERS sends us word from Indianapolis, Indiana where he is an Inspector with Western Electric Company. He reports — "We have enlarged the family to three with the addition of a new boy, Scott Alan, last April. I spent two weeks in New York City attending a school that reviewed our South Pasture surveying techniques. We also learned how to shoot the sun with a transit to obtain a true north azimuth of a base line. This knowledge will be needed for future assignments."

RICHARD WEYRICK reports from Durham, New Hampshire where he is Assistant Professor of Forest Resources at the University of New Hampshire.

RALPH G. JOHNSON reports to us from Kremmling, Colorado where he is District Ranger for the Arapaho National Forest (USFS).

DAVID A. KING sends us word from St. Paul, Minnesota where he is with the Lake States Forest Experiment Station, University of Minnesota. Ed. Note — Dave is now on the faculty of the School of Forestry, University of Arizona, Tucson, Arizona.

EUGENE TAVONATTI is Insurance Office Supervisor for the Farmers Ins. Group at Merced, California. He writes — "New addition to family in 1965. Now have 3 boys and 2 girls. Took another hunting trip to Idaho. Still trying to get that elusive elk. At least this year, I got to shoot at one."

WILLIAM T. WARNER is Engineer for the American Telephone & Telegraph Co. at New York, New York. He writes — "Having visited Green Hill this summer while back on vacation, I'm the first to say how things changed! Not only the physical plant, but the faculty — very darn few of them I know. Anyway, I enjoyed the visit very much." And we enjoyed visiting with you, Bill.

1956

KENNETH N. ANDERSON is Area Supervisor for the Minnesota Division of of Forestry at Ctr, Minnesota. He states — "Married, 2 boys ages 5-4. Happily enjoying the beautiful country of NE Minnesota."

SIDNEY L. CARLSON sends us word from Portland, Oregon where he is Lumber Buyer for the Patlach Forests, Inc.

GORDON N. GLAIN is Assistant District Ranger for the U. S. Forest Service at Mammoth Lakes, California. He writes — "Nothing new — except that I got married April 10, 1965 to Miss Patsy Parkes, a schoolteacher from Manhattan Beach, California. Bet some of you fellows thought that I wouldn't make it and I like it."

LYLE R. McCUTCHEON sends us word from Excelsior, Minnesota where he is Sales Representative for Dow Chemical Co. We enjoy your visits to Green Hall, Lyle.

FARNUM W. NICHOLS, JR. reports from Minneapolis, Minnesota where he is with the Nat'l Life Insurance Company of Vermont.

PHILIP M. OPSAL sends us word from Fort Collins, Colorado where he is Consulting Wood Technologist for the Jason Associates, Inc. (President).

BARRY G. PETERSON reports from Carefree, Arizona where he is a District Ranger.

JOSEPH S. RANTA is Sales Engineer for the Bower Bros. Co. at Spring- field, Ohio. He reports — "Hi to one and all. Changed jobs last Feb. 1965 and am now selling paper making equipment to the trade. Very interesting. Home and family still the same. Had a pleasant visit with Dr. Kaufert at the last FPRS convention in New York."

JOHN S. RODEWALD is Staff Forester for the Dept. of Conservation, Division of Forestry, St. Paul, Minnesota. He writes — "I was promoted to the Staff Forester position in charge of Forest Development on State Forest Lands in Feb. of 1965. We are still living in Cambridge (Oct. '65) but plan to move to St. Paul in the next few months."

JIM SALZMAN is Realtor at Upland, California. He writes — "Have been in this fantastic real estate business for almost three years! The family has expanded to three very active boys. We have adopted northern California but hope to visit Minnesota soon."

1957

FREDERICK J. BECKER sends us word from Knoxville, Tenn. where he is Sales Representative for the Andersen Corp.

KENT T. CHURCHILL is District Ranger for the USFS at Morre!l, Minnesota. He writes — "We moved to Morrcll, Minnesota last March (1965) and are now enjoying our new home in the middle of the Morrell Lake Country. No family changes during the last year. — Congratulations to you for the excellent 1965 Peavey. — Keep up the good work!" Thanks, Kent, and it was nice visiting with you at the SAF meeting at Grand Rapids.

ROBERT R. DAVIDSON sends us word from Waukesha, Wisconsin where he is with the Lumber Listing Service Bureau.

EVERETTE ELLISON sends us word from Ignacio, Colorado where he is a Forest Manager with the Bureau of Indian Affairs.
The ultimate goal of our forestry research, nursery and management program is the harvesting of raw material for the production of paper.

**BLANDIN PAPER COMPANY**
GRAND RAPIDS, MINNESOTA

The Home of "Blancote" the original blade coated printing paper

Greetings from

**HOWARD E. OLSON—'47**

**SONFORD PRODUCTS CORPORATION**

Wood Preservatives

RAND TOWER—6th and Marquette • MINNEAPOLIS, MINNESOTA
DENIS O. BAKKE is New Products Development Coordinator of the Wood Conversion Company at St. Paul, Minnesota. He states — “Family and work continuing to be good. Denise 7 and Sue 5 are now both in school so there’s more activity at home for Phyllis and me. My job with Wood Conversion has changed somewhat; it’s still challenging and I’m not doing as much traveling. Hello to all.” Thanks for all your cooperation on “Alumni” affairs, Denis — it’s very much appreciated.

CURTIS K. BERND is Park Manager for the Fort Ridgely State Memorial Park at Fairfax, Minnesota. He reports — “We have moved from Minneapolis to Fairfax, Minnesota to assume a position as Park Manager. This recreational resource is a very interesting occupation and very rewarding. On March 1st of 1965 an addition came to our home. Heidi Marie was certainly a long waited for and much welcomed little girl. Stopped in to see Chuck Lowry, ’60, our neighbor, at Mankato this fall.”

WILLIAM A. BERNDT sends us word from Bemidji, Minnesota where he is Assistant Area Forester for the Minnesota Division of Forestry.

JAMES E. EASTMAN sends us word from St. Paul, Minnesota where he is Salesman for U. S. Plywood Corporation.

DOUGLAS ENGLESEN is District Ranger at Winona, Missouri. He writes — “The Englesen family started the year off with a real bang, when on January 15, our twin boys, Clark and Craig, moved in to join their two brothers and three sisters. We continue to enjoy living here in the Ozarks and are very proud of the Winona Ranger District located within the Mark Twain National Forest.”

ROBERT W. ERICKSON sends us word from St. Paul, Minn. where he is an Instructor on the School of Forestry Staff, University of Minn.

PETER F. FFLOLLIOTT is Research Forester for the Rocky Mt. Forest & Range Exp. Sta. (USFS) at Flagstaff, Arizona.

He writes — “Nothing has changed in past year; I enjoyed the last Peavey and am looking forward to this year’s.” Thanks for those very kind words, Pete — hope to be seeing you soon.

ROBERT HERBST is Exec. Sec. of Keep Minnesota Green at St. Paul, Minnesota. He writes — “Finally got our girl, Named her Amy Jo — she will be spoiled. This year the rain kept Minnesota Green and I had trouble saying no to requests.” (Ed. Note) Bob is now Deputy Commissioner for the Department of Conservation, State of Minnesota. Congratulations, Bob — and thanks for all of your help and cooperation on the MFAA Executive Board.

ROBERT E. JOHNSON reports from Sandpoint, Idaho where he is Logging Manager for the Hildrum Lumber Co., Inc.

RICHARD J. MAINLY is Area Staff Assistant for the Minnesota State Forest Service at Brainerd, Minnesota. He writes — “Very little earth-shaking news from this part of the state. Still the same job, same wife, and same two kids. I did however, run into Bob Towler (Class ’58 I believe) while deer hunting in Wyoming — Sundance to be exact. He left the U. S. Forest Service and is now in the consulting business there. May I wish you all a Happy New Year and very successful edition of this year’s Peavey?” (Ed. Note — Dick is now Exec. Secretary of Keep Minnesota Green, Inc.) Thanks for those very kind words, Dick.

JACK WEISSLING reports from Clam Lake, Wisconsin where he is Center Director for the Clam Lake Job Corps Center.

ROBERT W. WILLIAMS is District Forest Ranger for the Boise National Forest (USFS) at Emmett, Idaho. He sends us this information — “Just received word that we are leaving the Ranks of the Rangers. Transferring this spring to Atlanta, Georgia. Will be working as Auditor with Office of Inspector General, U. S. Department of Agriculture. No new address yet but try to look us up if you come South.”

THEODORE V. KUBITZA sends us word from Sanora, California where he is Lands Assistant for the Stanislaus National Forest (USFS).

ALFRED L. NELSON reports from St. Paul, Minnesota where he is Industrial Development Agent for the Great Northern Railways.

TED NISKANEN is District Forester for the Minn. Forest Service at Waconia, Minnesota. He states — “Still surviving in Minnesota and still a P.F.M.S. Forester.” Thanks for the pure maple, Ted — we really enjoyed it!

BRUCE H. ROETTGERING is Forest Entomologist for the U.S.F.S. at San Francisco, California. He writes — “Have adjusted to big city life somewhat after transferring to San Francisco from Juneau a year ago. The weather and beauty of California more than compensate for the times when I’m caught in the middle of a traffic snarl on the freeway. Still single — sampling the female population in this area certainly isn’t conducive to marriage. No salmon this year, Ken, could you use some fog?” No, thanks, Bruce — but lots of good luck in your sampling!

RICHARD W. SCHNEIDER reports from Braidern, Minnesota where he is Unit Forester for the Northwest Paper Company.

NORMAN S. STONE, JR. is Block Forester for the Consolidated Papers Inc. at Rhinelander, Wisconsin. He states — “Second son born Sept. 23, 1965. New job, same company. Oneida Block Forester with headquarters at Monico, Wisconsin. Big change from research. Good to see the gang last spring. The Peavey is great. Come see us.” Thanks for those kind words, Norm.

ROBERT D. THOMPSON reports from St. Paul, Minnesota where he is Assistant Professor at the School of Forestry, University of Minnesota.

DAVID B. THORUD sends us word from St. Paul, Minnesota where he is Assistant Professor at the School of Forestry, University of Minnesota.

ROBERT J. TOWLER reports from Sundance, Wyoming where he is Consulting Forester.

1959

EGOLFS V. BAKUZIS reports from St. Paul, Minnesota where he is Associate Professor for the School of Forestry, University of Minnesota.

HAROLD M. BOLT sends us word from Cascade, Idaho where he is District Ranger — U. S. Forest Service.

ROBERT D. DRONEN reports from Minneapolis, Minnesota where he is with the Minneapolis Housing Authority.

EDWIN D. GODEL is Forester for the Wisconsin Conservation Department at Alma, Wisconsin. He writes — “Same job, same wife, same hobbies. All work and no play.”

CORNELIUS P. GROOTHAUS is Forester for Bureau of Land Management at Ukiah, California.

ROBERT HAASE is Forester for the Lowell Ranger Station at Lowell, Oregon. He sends us this word — “No news.”

KARI H. HAASER is District Ranger for the U.S.F.S. at Montana, Utah. He writes — “Son, Billy, was born in April. Had the pleasure of running into Frank Kaufert in Wyoming this summer. He informed me that the School is still actively progressing as witnessed by the fine Peavey last year. Ken Winsness was ill — hope you’re feeling better now, Ken. There’s a chance I’ll be in Minnesota by Spring — hope to see you all then.” Thanks for those kind words, Karl, and we look forward to visiting with you.

RICHARD M. HUFF is Forester with the Department of Interior, Prineville, Oregon. He writes — “Second addition to family now. A girl, Dec. 29, 1964. Sorry I couldn’t make it to the School when in Twin Cities last summer. Drove through the Campus though, and noted quite a few changes. Visited with Curt Bernd ’59, Anyone headed this way welcome to stop in — Great country.”

HUGO H. JOHN is Forestry Officer (Assistant Professor, School of Forestry, U. of M.) for the FAO at Puerta Cabezas, Nicaragua. He writes — “The family is enjoying the wonderful year around Car-

is Assistant District Forester for the Wisconsin Department of Natural Resources. He reports — “The 4 Reidels have returned to Minnesota, St. Paul, Minnesota. He writes — “Promoted from Research to Assistant to Instructor on July 1, 1965.”

CARL H. REIDEL is Instructor at the School of Forestry at the University of Minnesota, St. Paul, Minnesota. He writes — “Moved from Minnesota in July of 1965 I ‘retired’ from the Forest Service to accept an appointment as Instructor at the School of Forestry, where I am working toward a Ph.D. in Forest Administration and Policy. We will look forward to seeing you visiting alumni.”

DOUG SEASTROM is Forester at the Sequoia National Forest, Headwaters Forest Region, in Oregon. He reports — “Enjoyed last year’s Peavoy and Alumni News. Bill Skovran and I still seem to be the only alumni in this area. He is now working as Timber Sale Contract Administrator for the U.S. Forest Service.”

BILL SKOVRAH is Timber Management Assistant (USFS) at Hot Springs, South Dakota. He reports — “Enjoyed visiting with you, Bill.”

JACK STUBBS is Project Leader for the SFEES, USFS, USDA at Blacksburg, Virginia. He writes — “The Station has recently transferred me from Charleston, S. C. to Blacksburg, Va., as Project Leader for the Silviculture and Management of Shortleaf and Virginia pine seed upland hardwoods. We will work closely with the Forestry Department of Virginia Polytechnic Institute, newly accredited by S.A.F. and headed by Dr. John Hosmer. Saw Dr. Herb Kulman (U of Missouri) there a few weeks ago; he teaches Forest Entomology.”

1960

KENNETH W. ANDERSON is Assistant Ranger U.S.F.S. at Two Harbors, Minnesota. He writes — “Moved back to the ‘home state’ in April to the Two Harbors district on the Superior. Have the Assistant Ranger position here. Saw quite a few people in the last year that I hadn’t seen since we graduated.”

MILES K. BENSON is Research Aide for the Institute of Paper Chemistry at Appleton, Wisconsin. He writes — “Nothing new to report. Still working with aspen. The family is still at 4 people. We did acquire a Basenji hound since last year. Enjoyed the alumni gathering at Detroit last fall.”

JOHN D. ENGELS is Forest Management Assistant for the University of Minnesota. He writes — “Working as Timber Sale Contract Administrator on the Eugene District of BLM here in western Oregon. Family is fine; daughter will be one year in March. She’s about at the ‘Perfect Nuisance’ age right now, but we don’t mind. Best regards to the staff back at the University of Minnesota.”

SIDNEY FRISSELL, JR. is Instructor at the School of Forestry, University of Minnesota, St. Paul, Minnesota. He states — “Promoted from Research Assistant to Instructor on July 1, 1965.”

MYRON GRAFSTROM reports from Bloomington, Minnesota where he is a School Teacher (Biology).

GERALD L. JENSEN is Assistant in Forestry, Horticulture & Forestry Dept. at Brookings, South Dakota. He reports — “Am working in Plains Forestry Research at S.D.S.U. Addition to family. Philip Jon, arrived Sept. 27.”

WILLIAM KAUTH reports to us from S olan Springs, Wisconsin where he is Forester for the Mosinee Industrial Forest, Mosinee Paper Mills Co.

WILLARD D. KIEFER sends us word from Webster, Wisconsin where he is Assistant District Forester for the Wisconsin Conservation Department.

NELS R. LEE is Timber Management Staff Asst. for the Gunflint Ranger District (USFS) at Grand Marais, Minnesota. He states — “Another son, David Matthew, arrived June 24, 1965. So now have two.”

CHARLES LOWERY is Supt. Parks & Recreation at Manistee, Michigan. He writes — “Greetings to all from my wife, Lois, daughter, Michelle, son, Shawn, and me. Our park system is beginning to see some progress after the floods of last spring — hope to start rebuilding program next year including new zoo. We are making some progress here with the Boulevard Elms. Anyone down this way, stop in.”

We enjoy your visits to Green Hall, Chuck.

GEORGE F. MENNEL reports from Meadville, Missouri where he is Assistant Ranger for the U.S. Forest Service.

GARY L. NICKANDER is Sales Engineer for the Masonite Corporation at Buffalo, New York. He writes — “Myself, wife, Joan, son, Dan, and daughters, Carla and Kelly, are in good health. We are still living in Buffalo, New York. I am looking forward to receiving the 1966 Gopher Peavoy.”

DUANE PACKER reports from Cass Lake, Minnesota where he is for the U.S.F.S.

JOY M. PROBASCO is Timber Management Assistant for the USFS at Kenville, California. He writes — “I was transferred to Kernville last March. It is sort of different logging on the Kern Plateau — people really show an interest in our work. Some of their interest is negative, but some people are being convinced that the Forest Service can do a good job of logging. It sure was nice visiting with all the people in Green and Kern last Christmas. I hope I will have time to stop and visit with all of you this Christmas. Still single and rich. (I work for the Government.) Have lots of room for travelers, Joshua tree observers or Kern Plateau enthusiasts. Live at the head of Lake Isabella, but it just doesn’t compare with those Minnesota lakes.” We enjoyed visiting with you, Joy.

LoVERNE O. PUNG is Quality Control Manager for the Masonite Corporation at Towanda, Pennsylvania. He writes — “Transferred from California to Towanda in July, 1965. Presently involved in the start-up of Masonite’s new hardboard plant. Family size remains the same — 1 girl and 3 boys and 1 wife.”

LOUIS C. SUDHEIMER is with the Wood Conversion Co. at St. Paul, Minnesota. He writes — “Working as a Salesmen for the Wood Conversion Co. in their Commercial Division. We sell acoustical ceilings; sadly more and more mineral fiber ceilings are being required due to fire codes and wood fiber is phasing out. MFAA Banquet December 2nd was a fine time, saw many familiar faces.”

And we enjoy your visits to Green Hall, Louis.

NED THERRIEN is Forest Naturalist — Superior National Forest (USFS) at Ely, Minnesota. He writes — “Working in the Voyageur Visitor Center in the summer and on the Kowishiwi Ranger District during the snow season. Stop and say hello if you are in the area.”

1961

JAMES A. BROWN is Director of the Oglala Sioux Ranger Corps at Pine Ridge, South Dakota.

He writes — “Not much to tell, we have sold our cattle and have listed the ranch. I am no longer Farm Forester in Eastern, I have a position with the Sioux Tribe at Pine Ridge to direct and train the Oglala Sioux Rangers. Training goes on for 6 months and then they are assigned to districts on the reservation. Really enjoy the job and I find the problems challenging. Anyone coming out this way stop in. Family still consists of wife Karen and 3 characters — Kathy, Dave, and Molly.”

DAVID EGGEN is District Ranger for the Isabella Ranger District (USFS) at Isabella, Minnesota. He states — “ Glad to be back in Minnesota again — there’s no place like home. Myself and family still in good health — Down 8, Bryn 6, Stor 3, and Erik 1. Wife Barb is teaching school at Murphy City — 4th, 5th and 6th grades.”

PAUL V. ELLEFSON is Research Forest Economist for the U. S. Forest Service at Princeton, West Virginia. He writes — “Enjoying my work as an Economist here in Princeton. At present we are involved in numerous industrial opportunities and consulting projects are quite interesting. Have been working closely with Dr. Wallin in these areas. Spent a good deal of time this summer sunning myself on the North Carolina beaches.”

RICHARD R. FLANNELEY reports from Milwaukee, Wisconsin where he

is with the Job Corps Safety and Training Division of the U. S. Forest Service.

ROLAND O. GERTJEJANSEN sends us word from St. Paul, Minnesota where he is an Instructor at the School of Forestry, University of Minnesota.

GARY E. GAULICK is a Research Assistant at the University of Michigan at Ann Arbor, Michigan. He sends us this information—"Hi to all at Green Hall. I am about half way through my master's here at Michigan. Fortunately I am working part-time as a Research Assistant for the Institute of Science and Technology in the remote sensing program. The work is in the Aerial Reconnaissance field and includes photography and ultraviolet and infrared scanners—fascinating.

School work is oriented toward Econ and Math. I see several other U. of Minn. graduates quite frequently—Phil Weber, Gary Lindell, Charles Cooper and Dr. Chase." We enjoyed visiting with you, Gary.

DAVID L. GOSSMAN reports from Ladysmith, Wisconsin where he is a Wood Utilization Specialist for the Wisconsin Conservation Department.

WARREN A. ILLI is Forester for the U. S. Forest Service at Walker, Minnesota. He writes—"I left my job with the Northern Pacific Railway last fall and now work for Uncle Sam on the Chippewa National Forest. Got married in January and am now enjoying the life of a married man. Sure beats doing my own cooking and washing—among other things."

RONALD D. LINDMARK is Research Economist for the Northeast Forest Experiment Station at Columbus, Ohio. He sends us this word—"Major events during the past year include: The arrival of a son, Eric Karl, in June, 1965. A two week vacation to Canada and Minnesota in August and September. Completion of another year of graduate work in Economics at O.S.U.—A change in employment (Administrative purposes only) from the now extinct Central States Forest Experiment Station to the Northeastern Forest Experiment Station.

As loyal Minnesota fans we witnessed the disappointing Minnesota vs. Ohio State football game last fall. Best wishes to the Peavey Staff." And the same to you and yours Ron.

HEARV A. LINQUIST reports from Baker, Oregon where he is Forester for the Bureau of Land Management.

RICHARD A. MADDEN, JR. reports from Ketchikan, Alaska where he is a Forester for the Ketchikan Pulp Company. We enjoyed your visit, Dick.

WAYNE R. NICOLLS is District Ranger for the U. S. Forest Service at Hayward, Wisconsin. He reports—"Family remains the same. We transferred to fill the Ranger position in Hayward in April; almost too good to be true. Our Daughter, Heather, is growing and Goldie is still hanging on in good shape in spite of the many family changes since he and I set up housekeeping! We have enjoyed seeing several Minnesota Foresters over the past year and had the pleasure of having a Minnesota Forestry Staff, Peter Zuber, on the Unit during the last summer. We expect to have at least one again this year. Glad to see Carl Reidel back in St. Paul doing his 'stuff.' Enjoy each year's Peavey more than the last, keep up the good work, Ken, how about turning your wheels toward God's country sometime in 66?" Sounds good, Wayne.

RUSSELL OETTEL reports from Amasa, Michigan where he is a District Forester for the American Can Co.

RICHARD M. PEDERSON sends us word from Isabella, Minnesota where he is Assistant Ranger for the Superior National Forest (USFS).

KENNETH W. RUSSELL is Forest Pathologist for the Department of Natural Resources, L.T. "Mike" Webster State Forest Nursery at Olympia, Washington. He says—"Always had a secret yen for the Pacific Northwest. When I saw the ad for Washington's first Forest Pathologist we decided this was it. We regretfully sold our beautiful Iron Mountain view and relocated in Olympia last September. I have been busy traveling the state, northern California, Oregon and British Columbia, also hiking, designing a new lab, looking for a sailboat, taking care of family, hunting for a building site, diagnosing tree diseases, skiing, and generally enjoying it all! We miss winter but Mt. Rainier is only an hour away where snowfall is even higher than Upper Michigan—only 700 inches per year! Keep up the good work Peavey Staff." Thanks for those kind words, Ken.

1962

THOMAS V. DYORK is Appraiser for the Minot Area Acquisition Office at Minot, North Dakota. He sends us this information—"Still roaming the prairies of North Dakota saving wetlands for waterfowl through the Bureau's purchase and easement program. Judy, my wife, is teaching 2nd grade here in Minot. No children as yet. We're working on it.

Say hello to Kenny Wasteus for me. Incidentally, Our Supervisor here (John R. Davis) graduated in Forest Management from the University of Minnesota back when the redwoods were seedlings."

DENNIS E. GARDNER sends us word from Markville, Minnesota where he is District Forester for Eaglehead Ranger Station, Minn. Forest Service.

DEAN E. HAACT at J. G. in the U. S. Navy, stationed at Treasure Island, San Francisco, California. He states—"After working for BLM in Eugene, Oregon, I joined the Navy in the Fall of '63. I plan to return to BLM after discharge from the Navy in '67. Also, I got married in June of '65."

JOSEPH L. HURLEY is Woods Superintendent at Gainsville, Florida. He writes—"Ater 2½ years with the Florida Forest Service, 1 year in Fire Control and 1½ years as an area Forester on the Withlacoochee State Forest I took a position with the Cabot Corporation, Gainsville, Florida, as Woods Superintendent. Cabot utilizes resinous pine stumps in the production of pine tar and charcoal. We have a new addition to the family, a boy, Kirk Patrick. The weather is enjoyable here in central Florida with beaches within an hour and a half drive."

GARY E. JOHNSON is Forestor for the U. S. Forest Service at Songer, California. He reports—"Recently returned to Kings River District of Sierra National Forest after two years in U. S. Army."

W. C. KELSO, JR. is Wood Technologist for the Chapman Chemical Company at Memphis, Tennessee. He sends us this information—"Give my best wishes to Ken Wasteus. Thanks and the same to you, Bill."

LARRY L. KIRKWOLED is a Research Forester for the Forestry Sciences Lab (USFS) at Missoula, Montana. He says—"My wife Arlene, our son Tom, and I moved to Missoula last September. The Marketing Project of the Intermountain Station has been assigned to this location. The job is proving to be very interesting and my family and I are enjoying Missoula and the surrounding territory."

JAMES W. KLEIN sends us word from Appleton, Wisconsin where he is in the U. S. Army. (Ed. note—Jim will be doing graduate work, at the U. of Minn. this fall.)

DON KOENIGS sends us word from Ketchikan, Alaska where he is a Resident Engineer for Ketchikan Pulp and Paper Co. of Alaska.

DOUGLAS W. LARSON is on the Recreation and Lands Project Staff for the Roosevelt National Forest at Fort Collins, Colorado. He sends us this word—"Married in 1963. Released from active duty with the Army in 1964."

ROBERT E. LEASE reports from Milwaukee, Wisconsin where he is Forester for the U. S. Forest Service.

IVAN D. MILLER reports from California where he is Park Ranger for the Yosemite National Park.

JAMES A. MOHLER is District Ranger at Washburn, Wisconsin. He writes—"We've been in Washburn for a year now. Came here as Assistant Ranger and moved up to Ranger this spring. Attended a training session in April and saw Larry Hanson. Also see Daryl Flogness quite often as we work with the Clam Lake Job Corps Camp. Family is fine—three girls and a boy."

DONALD T. MYREN is a Graduate Student in the Department of Plant Pathology, University of Wisconsin, Madison, Wisconsin. He says—"Added another member to the family in January, a daughter. My studies here at Madison are going well and I do see a few Minnesota graduates. I had a nice talk with Adrian Hogen this fall and I'm hoping to see Hugh Hoyes, who I understand is also in this area. Any time you 'Peavey readers' get in to Madison, stop by the Plant Pathology Department and say hello."

THEODORE W. SCHWENKNER reports from St. Paul, Minnesota where he is Expediter for the Sussel Company.

B. L. SKRIVREDITH reports from Glide, Oregon where he is with the U. S. Forest Service. It was nice visiting with you, Bernie.

ROBERT H. STRAND is Nursery Superintendent for the General Andrews State Nursery at Willow River, Minnesota. He states—"Presently Superintendent of General Andrews State Nursery, Minnesota Department of Conservation, Division of Forestry. No outstanding news."
Gentlemen:

Again this year the activities of the Forestry Club have been a story of continued success. This success does not just happen; it takes cooperation and planning.

So with this in mind, we wish to sincerely thank all who participated and cooperated in the following activities:

INTRAMURAL SPORTS
BIRD WATCHERS SOCIETY
UPPER MIDWEST CONCLAVE
CHRISTMAS TREE PROJECT
FORESTERS DAY
CANOE TRIP
MIXERS
FALL BONFIRE

The Executive Board
Forestry Club

Gentlemen:

The Forest Products Club wishes to thank the Forestry School faculty for the help and encouragement which we have received throughout the past year.

Most important however, is the new spirit of participation and cooperation shown by the club members in this year 1966 academic year. We sincerely thank all those who helped make us a success.

THE FPC EXECUTIVE BOARD:

PRESIDENT          RANDALL JOHNSON
VICE PRESIDENT      STEVE WEEKS
SECRETARY           DWIGHT MAXA
TREASURER           MIKE CARTER

1964
Wallace H. Swanston, Jr., sends us word from Battle Mountain, Nevada where he is Forester for the Bureau of Land Management.

Richard E. Volk is in the U. S. Air Force. He writes — "Am present­ly serving in northeast Thailand (Ubong Airbase). Due to rotate back to the States by July 3, 1966 after 1-year tour."

Robert V. Witherow is 1/Lt US Army, AIS at Bremerhaven, Germany. He reports — "I am still with the Army, and expect to get out around Sep­tember 1967. I recently married a girl from Bremen, Germany, Ursula, and we are expecting an addition to the family this spring. I hope to get back into Forestry as soon as possible, but in the meantime am en­joying Europe. Have gotten some hunting here in northern Germany and both of us have spent a few weeks skiing in Austria. Greetings to the old gang at the 'U'."

Francis J. Yurczyk is Forester for the U. S. Forest Service at Mc­Cloud, California. He writes — "Still single. The waterfowl hunting is great on Lower Klamath Wildlife Refuge. Right now the snow is pretty deep to a tall Indian. Saw the Mesa Verde on my way back from Min­nesota last week. A well worth stop."

Gerald W. Zamber is District Forester for BLM at Durango, Colorado. He states — "Not much new news. The family and I had a fine time in D. C. last year. I got a 5 point bull elk and two deer this year. Ben and Bernice Olson are still here and are doing well. Wendell Beardsley paid us a visit this spring from Denver where Wes is with the U. S. F. S. Experiment Station. While in Oregon I saw Dick Ankerstrom, Gindy Gray and Dick Harms — all fine and working hard. Best regards to all." Thanks — and the same to you and Dixie, Jerry.

Ken Bilegren reports from Minneapolis, Minnesota where he is Sales Engineer for the Masonite Corporation.

Terry B. Carlstrom is Forester for White Earth Res. at Naytahwaush, Minnesota. He says — "Working with Department of Interior in the ca­pacity of Reservation Forester for the Bureau of Indian Affairs; stationed at Naytahwaush. The draft board located me regardless of my seemingly unlocateable location! Consequently, I am now 17745140 in the Army's six month program; as many previously unaccountable mar­ried men have been equally honored!"

William F. Fieber sends us word from Hoodsport, Washington where he is Pre-Sale Forester for the U. S. Forest Service.

Richard A. Finn is Appraiser for the U. S. Fish and Wildlife Service at Fergus Falls, Minnesota. He writes — "Am still located at Fergus Falls but am now living in a recently purchased trailer house. The wetlands program is really moving now and its great to be a part of such a pro­gram. Duck hunting was great this fall and anyone who wants a good duck hunt should let me know for next year. Stop in and see us there (we are four U. of M. Forestry grads here) at Fergus Falls." We enjoy your visits to Green Hall, Dick.

Larry L. Foster is at Winslow, Arizona. He sends us this information — "I have a baby daughter born December 6, 1963. Tranferred from Conjunction, New Mexico to the Winslow District of the Coconino National Forest on December 20, 1963."

Warren L. Holzheid is Appraiser for the U. S. Fish and Wildlife Service at Minneapolis, Minnesota. He states — "Still enjoying work with the Fish and Wildlife Service. Casey and I moved into a new home we built last spring. Nothing else new with the exception of "Duke," a Brittany Spaniel added this fall. We've got lots of room now, stop in and see us!"

Darrel L. Kenops is Forester at White Bird, Idaho. He reports — "Things are busier than ever on the 'Salmon River.' In October we were blessed with a baby boy which we named Scott. Work is primarily Tim­ber Sale Administration and State II Surveys. It was a pleasure to visit with everyone at Green Hall at Christmas. Best of luck to the Forestry Club and looking forward to the usually excellent Peavey." Thanks, Darrel — and that was an enjoyable visit!

James E. Pottom is Park Ranger at Haleakala National Park, Kahu­lui, Maui, Hawaii. He says — "Alaka, Myrna, and I spent three months back on the mainland this year. I was attending the Park Ranger Acad­emy at Grand Canyon National Park. We are proud parents of a son, Michael Kimo and have been working the three hour circuit for a month. "Kimo" is Hawaiian for Jim. Our winter snow this year lasted almost three weeks. This seems to have been some sort of a record for Haleakala as the snow usually lasts only several days. (Anyone in International Falls should change their plans: Professor Brown was on the islands recently but I do not have the opportunity to talk with him.) We enjoyed your visit, Jim."

Carl W. Rasmussen is Appraiser-Negotiator for the U. S. Fish and Wildlife Service at Fergus Falls, Minnesota. He sends us this word — "Now have three daughters: ages 2, 4 and 6. Still acquiring methods in western Minnesota."

Roger A. Sandquist is Sales Representative in St. Paul, Minnesota. He states — "I am still employed by the Long Bell Division of Interna­tion Paper Company as a Territorial Sales Representative. It was happy to be moved Thanksgiving time back to the land of the North Star, St. Paul, Minnesota. Previous to this we had been deep in the corn country of Davenport, Iowa. We had been transferred there from Des Plaines, Illinois, a suburb of Chicago. The Easter bunny really left a bundle with us this past year — a baby girl named Brigitte Louise. Mary Lou and I and Brigitte are all doing fine back in Minnesota." It's nice to have you back, Roger.

Bud Swendler is Timber Management Assistant for Coosunnes Ranger District at Placerville, California. He writes — "Enjoyed your visit to Minnesota in November and the visit with the staff at School. Sorry I didn't get back to finish our talk, Ken, but you were pretty busy. Visited with Bill Rasmussen ('63) and family in Fergus Falls on our way. Met Ted Kubitzka in San Francisco while attending a Rights-of-Way Training Session in February. Notice two applicants for summer employment in our District by Mims. Students — I'll do my best to influence the employ­ment officer! I'm District THM now, so looks like we'll stay on the Eldo­rado National Forest for a while yet." We sure did enjoy visiting with you, Bud.

William D. Torgersen is Forester for the Bureau of Land Manage­ment at Prineville, Oregon. He sends us this word — "I acquired a wife last September and find it sure beats bachelor. We got back to Minnesota and saw a few of the old cronies — Panke, Sandquist, Falcoth, Eggle, Holzheid, and Longquist. Ran into Harvey Linquist (61) at Ponderosa Management School in Lakeview last summer. Married a skiing wife so will have to get up to Mt. Bachelor again real quick. We've got 100 inches of snow already (Dec. 30). Sure enjoyed last year's Peavey."

Jacques W. Wesson is Office in the U. S. Navy at San Fran­cisco, California. He writes — "I am presently in the Navy, I'm to be discharged in February, 1967. Am fighting the war in Viet Nam now. Plan on marriage when discharged, and then hope to work for BLM in Alaska or the Pacific Northwest. Should be home in June on leave — will stop in and see you then." We enjoyed your visit, Jacques.

Conrad Roy Wetzel is Supervisor, Enrollee Activities for the Crab Orchard Job Corps Center at Carterville, Illinois. He says — "Am still single. Still looking for a position more closely related to Forestry or General Conservation. Present job is a daily challenge and rewarding in many aspects, but has just as many bad points. Give my regards to everyone."

Albert P. Whitesell is Appraiser for the U. S. Department of In­terior, Bureau of Sport Fisheries and Wildlife at Fairbanks, Alaska. He reports — "I am presently in France. I was released from active duty in U. S. Navy last June. Started work for Northern Pacific Railroad as Forester for S. W. Washington in July. Our annual cut is 40 mm, so keeps two of us on the run. For the family — Eve is doing fine and son Paul arrived on the scene April, 1963. Expecting another baby forester in July. Best wishes to all at Green Hall." Thanks, and the same to you, Chuck.

1964

Theodore R. Beise is Medical Corpsman for the U. S. Army. He sends us this information — "Still in the 116th Army. Plus it's still raining in France."
DONALD G. CHEELEY reports from Minneapolis, Minnesota.

LARRY LEIGH CHRISTIAN is Assistant District Forester at Appleton, Wisconsin. He says—"I am presently working for the State of Wisconsin in the field of Farm Forestry and enjoying it very much. I've had one addition to the family since I left school, a wife named Karen." And we sure do enjoy your visits to Green Hall, Larry.

ALAN R. EK is a Graduate Student at Oregon State University, Corvallis, Oregon. He reports—"Sure like the scenery out here—the only drawback is the price of a nonresident elk tag." We enjoyed your visit at Christmas time, Alon.

DAVID R. FISCHER reports from Townsend, Montana where he is Forester for the U. S. Forest Service at the Helena National Forest.

MYRON C. HALL is Ensign in the U. S. Navy. He says—Attended Navy OCS and was commissioned May 14 at Newport, Rhode Island. Spent next two months at Officers Communication School at Newport. Reported aboard the U. S. S. Springfield as a Communication Watch Officer. The Springfield is homeported in Villefrance, France and is the Flagship for the commander of the Sixth Fleet. I find the duty very good as we visit the best ports in the Mediterranean."

ROBERT H. HANCE, JR. sends us word from Cook, Minnesota where he is District Forester for the Minn. Forest Service.

GLENN L. JACOBSEN reports from Ketchum, Idaho where he is a Forester for the U. S. Forest Service.

HENRY R. JOHNSON sends us word from Minneapolis, Minnesota where he is Inspection Representative for Western Electric.

MICHAEL D. LANquist is Assistant District Forester for the Mondovi Division of the Boise-Cascade Corporation at Big Falls, Minnesota. He states—"Still living in Big Falls with same job only under a new Company due to a merger. One addition to the family, a golden lab that loves to hunt ducks. I had good luck hunting geese on Lake of the Woods this year, and deer hunting yet to come. Saw the Torgerson newweds from Oregon and the Sandquist family with their new addition. See a lot of Jim Sparer and family who started to work for the Company last spring, and also Al Knable and wife who just moved into town, now working for the State."

GLENN A. LILLMARS is Sales Engineer for the Wood Conversion Company at St. Paul, Minnesota. He writes—"Good to see 'Willie' back again. All is going very well. I'm enjoying my work and the family (Dixie and Glenda) is healthy and happy to be finally settled down after four years of school. I enjoyed reading the '65 Peavey. It's gratifying to see tradition being carried on through yearly activities of the Forestry Club and the Peavey. Keep the spirit alive, Ken." Thanks for those kind words, Glenn—and we will!

GARY R. NORDSTROM is a Forester for the Michigan Forest Survey at Mt. Pleasant, Michigan. He sends us this word—"Presently working with Lake States Forest Experiment Station on the Michigan Forest Survey." (Ed. note—Gary is now with the SCS in the State of Washington.)

RALPH H. OLSON is Land Appraiser for the Minnesota Department of Taxation at Grand Rapids, Minnesota. He states—"I am currently a photo-interpreter and land appraiser for the Minnesota Department of Taxation on a contract basis doing revaluation work in a number of northern Minnesota counties. The private land under the advalorem system in Cass County was classified in 1965 along with several school districts in St. Louis County."

JERRY L. OLMAN is a Pty. D. Officer in the U. S. Army at Ft. Sill, Oklahoma. He writes—"I have been in the Army since June '65 and have been in OCS since October 31, 1965. There is but five weeks to go before I get my commission (April 15, 1966). It has been a long tough school. Oklahoma is definitely no place for a forester. I do not know where I will be sent after graduation, since we will not receive our orders until two weeks before they let us out."

DAVID S. SCHREINER is Forester for the U. S. Forest Service at Eagle River, Wisconsin. He reports—"After several months with the Minnesota Forest Service, I joined the U. S. Forest Service here at Eagle River. I enjoy the variety of work here, especially managing the yellow birch—sugar maple—basswood stands. Greetings to all."

DAVID P. Tucci is Timber Treating Inspector for Northern Pacific Railway at Seattle, Washington. He writes—"Happy at last to get a position in the field of Forestry. We have a one year old daughter, Theresa Lucia, who is so energetic, she is a full time job for my wife and me."

RICHARD A. WALKER sends us word from Ashland, Oregon where he is Pre-Sale Forester at the Ashland Ranger Station (USFS).

CARL D. WEGNER sends us word from Grand Rapids, Minnesota where he is Forestry Instructor for the North Central School and Agricultural Experiment Station.

RICHARD WERLING reports from Piedmont, Alabama where he is a Forester for the Kimberly Clark Corporation.

Gerald J. Bach is Research Forester for the Intermountain Forest and Range Experiment Station at Ogden, Utah. He reports—"Parents of an 8½ oz. boy (Jeffrey James) on January 5, 1965. Will be spending June-October in eastern Montana supervising forest inventory field crews. Wife and boy will be along on this trip as we have a 23' travel trailer."

Gary Bergstrom is Forester for the Hobe Ranger Station (USFS) at Hobe, Oregon. He states—"Thus far I have one wife, no children and am dodging the draft. The fishing is fine but it sure rains a lot here."

BRUCE E. CASEY is Forester for the U. S. Forest Service at Laona, Wisconsin. He reports—"Due to Viet Nam crisis and the fact that I was about to be drafted, I enlisted in the Navy. Please send the 1966 Gopher Peavey to the Brandt address listed on the front of this card— that way I'll be sure to get it. I will be in Laona only till January 1."

"We'll do that, Bruce—and good luck!"

Rollin R. Geppert reports from Lake City, Minnesota where he is a Forester Trainee for the Minnesota Forest Service. We enjoy your visits to Green Hall, Rolly.

Herb Giefer is an Ensign in the U. S. Navy at Pensacola, Florida. He says—"Greetings from the deep South (sure do miss those Minnesota winters). Tied the knot with Pat Fisher on December 30, 1965 in Minneapolis. We do fly occasionally down here—when it isn't raining too hard." We enjoyed your visit last fall, Herb.

George P. Miller is with the Minnesota State Forestry Department at St. Paul, Minnesota. He writes—"After spending eight months in Coeur d' Alene, Idaho with the BLM, I received a permanent offer from the Minnesota State Forestry Department, Norma and I packed up and here we are again in the old home state. One addition to the family—a Samoyed puppy."

Michael J. Mortensson is a Forester for the U. S. Forest Service, Hiawatha National Forest at Monatique, Michigan. He says—"After leaving the Peavey Room as an undergrad for the last time, I went out into the cruel world and proceeded to 'tie the knot! Jean and I moved immediately to Monatique in Michigan's Upper Peninsula where I am working for the U. S. Forest Service. Am attempting to complete the timber survey on the Hiawatha National Forest before we get snowed in. Was fortunate enough to meet several Minnesota grads this summer—John Austin, Gary Nordstrom, Dave Benson and Marty McCleary. The coffee pot is always on for any Minnesota Foresters passing through. Stop in and see us." I enjoyed your visit last fall, Mike—and last year's PV was the best.

Ross E. Nelson is a 2Lt. for the U. S. Air Force. He sends us this information—"Karen and I are waiting for our orders to active duty into the Air Force. I was commissioned a 2Lt. last August and I hope to be in the field of intelligence. If so, I'll be stationed in Denver, Colorado for seven months. I'll be working with aerial photos. Good luck on the Peavey this year and also in Forestry Club. No kids yet." We enjoyed your visit, Ross.

David Novitzki is in the Army.

Russell H. Roberts is Forester at Owens Illinois at Tomahawk, Wisconsin. He reports—"Finally settled down to a job and I really like it. The wife thinks it's great too—she doesn't have to work any more."
Scientific management of Northwest timberlands assures flourishing forests with sparkling lakes and streams for fish and ample forage for game. Harvesting the trees at just the right maturity minimizes losses from insects and disease. Every tree harvested is replaced by *more* than one new tree through natural reseeding or controlled planting to perpetuate this vital natural resource — forestlands.
