DEDICATED TO

FRANK H. KAUFERT
Professor and Director of the School of Forestry

... for his part in having made many men into foresters.

He has aided forestry student organizations in ways unknown to most students, always managing to come through for the students when they needed help.

He has shared his many experiences with hundreds of students over the years, giving them in the process the benefit of his many years of activity in forestry. He has always maintained an open door and a listening ear for students.

He is a demanding teacher, a keen critic and a dispenser of good advice, but most of all he is a man the students might consider a friend.
Gopher Peavey
Alumni News
1969

annual publication of the FORESTRY STUDENTS
University of Minnesota
St. Paul
School of Forestry Report

All of you no doubt have had the kind of year that seemed unusually busy and involved but yielded little on which to report. As this report is begun, that appears to be the kind of year just completed by the School, the kind that has been filled with activity but does not appear on first glance to have had the significant happenings and progress reported to you in recent issues of the Gopher Peavey—Alumni News.

Both the quantity and quality of undergraduate students continue to increase. The fall quarter saw 441 students enrolled in the School, the largest number in the history of the School. The quality of these students is indicated by the fact that about 85 per cent were in the upper part of their high school graduating classes and 97 per cent had completed three or more years of high school mathematics. Also, the trend of our population towards concentration in cities and suburbia is reflected in the kind of year just completed by the School. The enrollment of transfer students continues to increase, and transfer students annually make up a larger number of transfer students no doubt will continue. This could result in doubling the number of juniors and seniors, as well as graduating classes, with relatively little total enrollment increase. Since more than 90 per cent of our students have urban backgrounds and three-fourths come from the Twin Cities and surrounding suburbia, the activity in the School appears to be the kind of year just completed by the School, the kind that has been filled with activity but does not appear on first glance to have had the significant happenings and progress reported to you in recent issues of the Gopher Peavey—Alumni News.

The enrollment of transfer students continues to increase, and transfer students annually make up a higher per cent of our student body. As our junior and state college systems develop, this trend towards a larger number of transfer students no doubt will continue. This could result in doubling the number of juniors and seniors, as well as graduating classes, with relatively little total enrollment increase. Since more than 90 per cent of School of Forestry courses are at the junior-senior level, we could in 5-10 years double our teaching load without a major change in total student numbers. This trend towards more transfer students could make a shambles of our long-range enrollment predictions.

Forestry students in common with all university students are more critical, more challenging, and more demanding of top quality instruction, advising and counseling. Fortunately the School has the type of advising and counseling system under Ken Winsness that is responsive to students. This plus abundant involvement in Forestry Club, Forest Products Club, Gopher Peavey—Alumni News, Christmas Tree sales project, Foresters’ Day, the Special Event preceding Foresters’ Day, Xi Sigma Pi, Itasca Session, fall and spring quarter Cloquet Sessions, and many other activities may be responsible for the relative calm atmosphere in the School as compared to the turbulence in student bodies generally. Maintaining this situation will require even more dedicated and improved instruction, far better teaching facilities on the St. Paul Campus and Cloquet Forest, and developing more effective channels of communication than now exist.

Graduate student enrollment is down, from 65 in 1967-68 to 55 in 1968-69, due largely to the draft situation. There is every indication that this is but the hull before the storm and that graduate enrollment will rise rapidly, far more rapidly than undergraduate enrollment. About 2/3 of the graduate students are in Ph.D. programs and the remainder in Masters’ programs. Since a good deal of our research is done by graduate students under the direction of staff members, our research program during the past year has been somewhat handicapped.

Doug Gerrard, who received his B.S. and M.S. degrees from the University of Toronto and Ph.D. from Michigan State University, joined us last fall as Assistant Professor in the forest measurements area. Tim Knopp, who earned a B.S. in the School in 1957 and an M.S. from the University of Arizona, was appointed an instructor in forest recreation. Tim spent parts of two years following graduation on bicycle trips around most of Central and South America and Africa. This may sound like recreation to some, but sounds pretty strenuous to me. Tim’s fabulous collection of slides has received much acclaim. Vilis Kurmis who has an undergraduate degree in forestry in Latvia and his M.S. and Ph.D. from Minnesota, has been a Research Associate on our staff during the past year, assisting Henry Hansen on his vegetation management research in State parks. We are happy to have these new staff additions and invite all alumni to stop to meet and get acquainted with them.

With staff gains normally come staff losses. In the first two weeks of March six School staff members received enticing offers of positions from other forest schools, from FAO, a forest industry, and from a non-forestry institution. Four of the six offers have been turned down, one is still very much alive and may result in loss of a most important staff member, and one offer was accepted. Carl Reidel, who will receive his Ph.D. from the University of Minnesota this summer and has been an instructor on our staff for the past four years, accepted an outstanding offer from Williams College in Massachusetts. Carl will head that College’s new natural resources program. The
challenges and opportunities in this new position are many and Carl is the kind of individual who can fully meet them. We congratulate Carl and wish him well in this most interesting position. We need more foresters in positions of this type. However, his leaving will seriously interfere with our development of a stronger conservation of natural resources course and of the proposed Master of Forest Resources Administration (MFRA) program in the School.

The somewhat abbreviated and later field session at Itasca, during the last week of August and 8 weeks of September before start of the fall quarter, for incoming juniors and transfer students appears to be working out well and is accomplishing the objective of exposing all students to a field forestry experience prior to entering their last two years of professional forestry education. Also, this arrangement permits interested students to obtain an added summer of field experience in forestry, which was not possible under the old arrangement. Last fall we held our first session for juniors and seniors at Cloquet. It worked out well. We plan to have two Cloquet sessions, fall and spring, in the future, with 50-60 enrolled in each session. Added winterized cabins and improved classroom and laboratory facilities at the Cloquet forest are essential to accomplish this two-quarter offering, made necessary by rapidly expanding enrollment increases. We urgently need the $500,000 classroom-laboratory building requested of this Legislature by the University but not included by the Legislative Building Commission in its recommendations. We have proposed phasing this building, constructing first the classroom portion for about one-half the total estimated cost.

The University’s request of the Legislature for completion of Phase III of the Forest Products Building on the St. Paul Campus appears to have little chance of approval during this Legislative session. This will complicate our teaching and research facilities plans because a large addition to Green Hall was scheduled for asking in 1971. Consideration is being given to combining Phase III of Forest Products and the Green Hall addition into a single request in 1971.

Alumni will be interested to learn that our three Professors Emeriti—Allison, Schantz-Hansen and R. M. Brown—are well and active. “Pop” Allison was additionally honored by the City of St. Paul and University for his 55 years of contributions towards the establishment and management of the John H. Allison Forest—formerly called the Lake Vadnais Plantations. Schantz continues to serve on the Board of Directors of the Northwest Paper Foundation and continues active in an advisory capacity to the Cloquet School Board. Schantz suffered a broken hip in a fall last winter but is recovering and anxious to start his annual trip to Florida. “Brownie” is busy with local library and community activities and travel to the southwest and other points. Mrs. Louis Rees is a most welcome guest at such Forestry School activities as the annual Staff and Graduate fall picnic, Lumbermen’s Short Course banquet and Foresters’ Day events. Walt Nelson, former superintendent at Itasca and, with Scott Pauley, an addict to Sir Walter Raleigh pipe tobacco, is enjoying good health and retirement at Alexandria, Minnesota. Walt and alumnus Stan Ringold (Minn. ’14) keep us honest with their meaningful but good natured criticism.

The Minnesota Forestry Alumni Association Board is an active and productive group. Its activities in connection with the two annual MFAA evening meetings, School plans and problems, and the recent questionnaire sent all alumni are deeply appreciated and are productive. Without the activities of the Association and Board the School’s program would be greatly weakened. We need the type of guidance, counsel and support the MFAA provides.

Foresters’ Day this year was featured by an outstanding talk by Dr. Norman Borlaug (Minn. ’37), now with the Rockefeller Foundation and in charge of its world wheat breeding program, on his work to help solve our food problems in underdeveloped countries. Norm credits his undergraduate forestry training for the background and incentive that have brought him recognition as a leading contributor towards the alleviation of hunger throughout the world. We hope that future Foresters’ Days will see other School of Forestry alumni return to address and stimulate students, staff and guests with presentations on their work and experiences.

The Gopher Peavey—Alumni News is the last student-produced publication in the University outside of the Minnesota Daily. The Gopher Peavey—Alumni News staff needs your support and encouragement in this annual effort. It is far better to have annually interesting and outstanding productions of this type than foment and “sit-ins.”

All staff members and our Administration join me in these greetings and best wishes. We invite you to visit the School whenever you return to the land of rugged winters.

Earl, Sheppard

Weeg, McCoy, Reid
ADMINISTRATION

KENNETH E. WINSNESS. Professor and Assistant to the Director, University of Minnesota, B.S., '49, M.F., '53. Teaches: Senior Seminar, Senior Topics.

PRODUCTS

LEWIS T. HENDRICKS. Assistant Professor and Extension Specialist, S.U.N.Y., Syracuse, College of Forestry, B.S., '61, M.S., '62, Michigan State University, Ph.D., '67. Research in: State Technical Service Program—technical assistance to the forest products industry in Minnesota.

JOHN R. NEETZEL. Research Associate, University of Minnesota, B.S., '29, University of California, M.S., '30. Research in: Use of treated wood on the farm.

RESOURCES DEVELOPMENT

CHARLES R. HATCH. Instructor, University of Montana, B.S., '64, Oregon State University, M.F., '66. Teaches: Forest Mensuration.

JAY M. HUGHES. Associate Professor, University of Colorado, B.A., '52, Colorado State University, M.F., '58, Michigan State University, Ph.D., '64. Teaches: Timber Management, Outdoor Recreation Economics, Planning and Control in Forestry. Research in: Regional forest recreation supply and demand; timber management economics; micro-regional input-output analysis of forestry activities.

ROBERT P. LATHAM. Research Fellow, Utah State University, B.S., '61, Yale University, M.F., '62. Teaches: Aerial Photo Interpretation. Research in: Insect infestation detection with aerial photography, Fire damage appraisal with aerial photography.

MERLE P. MEYER. Professor, University of Minnesota, B.S., '49, University of California, M.F., '50, University of Minnesota, Ph.D., '56. Teaches: Aerial Photo Interpretation, Inventory Photographic Interpretation, Range Management, Remote Sensing of Natural Resources. Research
in: Application of air photo interpretation to tree disease detection; range and forest vegetation classification.

MARVIN E. SMITH. Associate Professor, University of Minnesota, B.S., '41. Extension Forester.

BIOLOGY

EGOLF VOLDEMARS BAKUZIS. Associate Professor, University of Latvia, Forest Engineer, '35, University of Minnesota, Ph.D., '59. Teaches: Forest Synecology. Research in: Ecological basis of forest productivity, Methods of systems analysis in forest ecology.

HENRY L. HANSEN. Professor, University of Minnesota, B.S., '33, Ph.D., '46. Teaches: Principles of Silvics, Advanced Silviculture, Regional Silviculture.

VILLIS KURMIS. Research Associate, Baltic University, Germany, B.S., '49, University of Minnesota, M.S., '63. Research in: Advance tree reproduction in relationship to stand and site characteristics.

HAROLD SCHULTEN. Assistant Professor, Purdue University, B.S.F., '49, M.S.F., '50, University of Minnesota, Ph.D., '61. Teaches: Farm Forestry, Silviculture. Research in: Farm woodland and shelterbelt studies. Colorado blue spruce seed source study.

CLOQUET

RAYMOND A. JENSEN. Associate Scientist, University of Minnesota, B.S., '57. Research in: Forest harvesting studies, Growth and yield studies, Jack pine seed source studies, Plantation studies.

ASSOCIATED AREAS

JEAN ALBRECHT, Librarian and Instructor, Wisconsin State University, B.A., '38, University of Minnesota, M.S., '67.

SECRETARIAL STAFF

IVA MANLEY (Mrs. James), Executive Secretary, Office manager and accountant.

KAY McCLOY (Mrs. Gene), Senior Secretary, Secretary to Dr. Kaufert and supervisor of general office staff.

KATHIE LINDGREN, Senior Clerk-Typist, Secretary to K. E. Winsness Handles all student files.

ELAINE EARL (Mrs. Rex), Senior Clerk-Typist, General office—handles 3rd floor correspondence.

JOANN NELSON (Mrs. Fred), Senior Clerk-Typist, General office—handles Forest Products work.

CAROL REIL (Mrs. LaWayne), Account Clerk, Assists with accounting and general office work.

CAROL WEEG. Clerk-Typist, General office work.

EMILY SUNDEEN (Mrs. Elwood), Clerk-Typist, General office work.

MARY LEE JOST, Clerk-Typist, Switchboard operator. Part Time—general.

MARY ANN KUNZE, Senior Clerk-Typist, Secretary to Extension personnel in Green Hall.

ALICE JOHNSON, Clerk-Typist, Secretary to Mr. Krefting. Bur. of Sport, Fisheries, and Wildlife.

FOREST RESOURCES DEVELOPMENT
... for students interested in forest land management

RANDALL W. ALLEN, St. Paul, Minnesota.

MICHAEL L. ANDERSON, Canby, Minnesota.

ROBERT A. ANFANG, St. Paul, Minnesota.
Multiple Use. Forestry Club, 65, 67-68.

THOMAS BARUTH, St. Louis Park, Minnesota.

JIM BLOEMENDAL, St. Paul, Minnesota.

KENDALL CUTLER, Princeton, Minnesota.

DALE R. DeGROOT, West Allis, Wisconsin.

JAMES I. DIESTL, Minocqua, Wisconsin
Multiple Use. Summer Jobs: 1961—Fire Fighter and Tank Truck Operator, USFS, Ojai, California. Transferred from Wisconsin State University, 1968.

NEIL GEVING, Duluth, Minnesota.
THOMAS H. HALE, Chestnut Hill, Massachusetts.

JOHN M. HEGG, St. Paul, Minnesota.

GARY HEINRICH, Richfield, Minnesota.

TERRY HELBIG, St. Paul, Minnesota.

CARL R. JOHNSON, Excelsior, Minnesota.
Multiple Use. Forestry Club, 69; SAF, 68. Summer Jobs: 1968—Forestry Aid, North Central Forest Experiment Station, St. Paul, Minnesota.

ALLAN KASTNER, McGrath, Minnesota.

DUANE DALE KICK, Pine City, Minnesota.

JOHN KING, St. Paul, Minnesota

RICHARD KUSICKO, Lantana, Florida

DAN MONTGOMERY, Duluth, Minnesota.
ROBERT WALTER MORROW, Minneapolis, Minnesota.

JAMES MYERS, St. Paul, Minnesota.
Multiple Use. Forestry Club, 67-68.

CHARLES A. NELSON, Westbrook, Minnesota.

HILDING STEVEN NELSON, Minneapolis, Minnesota.

MICHAEL P. NYGAARD, Eden Prairie, Minnesota.

CHRIS PETERSON, Cloquet, Minnesota.
Multiple Use. Forestry Club, 66-69; I-M Sports, 65-69; Foresters' Day Ticket Chairman, 68; Gopher Peavey Salesman, 68; Xi Sigma Pi, 68-69, Secretary-Fiscal Agent, 68; Christmas Tree Project Co-chairman, 68; Cloquet Session President, 68; Midwestern Foresters' Conclave, 67-68. Summer Jobs: 1968—Foresters Aid, Blandin Paper Company, Grand Rapids, Minnesota.

JOHN R. POHLMAN II, Pittsville, Wisconsin

MERRICK D. REBURN, Harmony, Minnesota.

GREG RYAN, St. Paul, Minnesota.

HARRY RYDELL, Mound, Minnesota.
DAN SEEKINS, Hoyt Lakes, Minnesota.  
Multiple Use. Forestry Club, 65-69; Delta Theta Sigma. Summer Jobs:  
1966—Foresters’ Assistant Erie Mining, Hoyt Lakes, Minnesota; 1968—  
CFI Crew Chief, Mosinee Paper, Solon Springs, Wisconsin.

KEN SLOAN, Minneapolis, Minnesota.  
Multiple Use.

JAMES H. SMITH, Morris, Minnesota.  
Multiple Use. Forestry Club, 66-69; Varsity Tennis (UMM), 64-66;  

RODNEY D. SULLIVAN, Park Rapids, Minnesota.  

TOM WATSON, Minneapolis, Minnesota.  
Multiple Use. Forestry Club, 66-68; Foresters’ Day Skit Chairman, 68;  
I-M Sports, 66-68. Summer Jobs: 1968—Forestry Aid, Minnesota Division of Forestry, Deer River, Minnesota and Cloquet, Minnesota.

RICHARD H. WITT, Minnesota City, Minnesota.  
Multiple Use. Forestry Club, 67-68; I-M Sports, 67-68. Summer Jobs:  
1968—Forestry Aid, USFS, Walport, Oregon, Siuslaw National Forest.  
Transferred from Winona State College, 1967.

HERBERT EDWIN CARGILL, Wayzata, Minnesota.  
Watershed Management. Forestry Club, 65-67; Xi Sigma Pi, 68; Curriculum Committee, 68-69.

JIM SPIEKER, Jordan, Minnesota.  
Watershed Management. Forestry Club, 68. Transferred from St.  
Cloud State College, 1967.

THOMAS WILLIAMS, Sturgeon Lake, Minnesota.  
Watershed Management. Summer Jobs: 1968—Forestry Aid, USFS, Ely,  
Minnesota.

DUANE R. HUJANEN, Virginia, Minnesota.  
MICHAEL KNUDSON, Janesville, Wisconsin.

TERRY ATTLESEY, Austin, Minnesota
Wildlife

MYRON BLANK, Minneapolis, Minnesota.

DENNIS BROGGER, Cass Lake, Minnesota.

PAUL ANDREW GNERER, Bloomington, Minnesota.
Wildlife. Forestry Club, 65, 68; Bailey IV Softball team, Summer Jobs: 1968—Grouse Project, University of Minnesota, Cloquet, Minnesota.

JAMES ALLEN GRAGE, Fridley, Minnesota.

LARRY HOGREFE, Austin, Minnesota.

JAMES ALLAN KATZUNG, Conger, Minnesota.

H. EUGENE MILLER, Minneapolis, Minnesota.

DAVID EDWARD REITER, Owatonna, Minnesota.
PETER J. ROUSSOPoulos, West St. Paul, Minnesota.

ROGER EDWARD SMOKA, Minneapolis, Minnesota.
Wildlife. Summer Jobs: 1967- Forest Guard Minnesota Lakes and Forestry, Forest Lake, Minnesota; 1968- Student Forester Inventory Work, Minnesota Lands and Forestry, McGrath, Minnesota.

JOHN ALLAN SPEHAR, Mountain Iron, Minnesota.

PHILIP SPLETT, Albert Lea, Minnesota.

JOHN R. SWANSON, Golden Valley, Minnesota.
Wildlife. Forestry Club, 65-69; Gopher Peavey Staff, 69; Xi Sigma Pi, 68-69; Foresters' Day Queen Chairman, 69; Caleb Dorr Award, 67; I-M Sports.

CLIFF ASDAHL, Highland Lake, New York
Forest Recreation

MICHAEL W. CAREY, Madison, Wisconsin.

STEVEN ROBERT CORNEILLIER, Minneapolis, Minnesota.
Forest Recreation, Forestry Club, 67-69; Cloquet Student Association Secretary, 69; Canoe Trip Chairman, 69; I-M Sports, 67-69; Peavey Staff, 67-68; Midwestern Foresters' Conclave, 67. Summer Jobs: 1968- Timber Cruiser, USFS, Routt National Forest, Steamboat Springs, Colorado.

GARY DAGSGARD, Washburn, Wisconsin.

DAVID L. JACOBS, Golden Valley, Minnesota.
Forest Recreation. Cloquet Student Association Secretary, 68. Summer Jobs: 1968- Forestry Aid, USFS, Michigan; 1967- Forestry Assistant, Blandin Paper Company, Grand Rapids, Minnesota.
PETER MATTSON, Milaca, Minnesota.  

EUGENE MILLER, Hayward, Wisconsin.  

LANCE I. SORENSEN, Welch, Minnesota.  
Forest Recreation. Forestry Club, 67-69; Foresters’ Day Open Coffee Hour Chairman, 68; SAF, 67-69. Summer Jobs: 1968—Forestry Aid, Minnesota Division of Lands and Forestry, Hibbing, Minnesota and Cloquet, Minnesota.

GENE BRUMMEL, Oregon, Wisconsin.  

TOM MIES, White Bear, Minnesota.  
Timber Production. Summer Jobs: 1968—Timber Survey, Minnesota Conservation Department, Cloquet, Minnesota.

PAUL E. PENDOWSKI, Milwaukee, Wisconsin.  
Timber Production. Xi Sigma Pi, 68. Transferred from the University of Wisconsin, 1967.

FOREST SCIENCE

ACTIVITIES
The first week of the Fall Quarter Cloquet Session showed us how well planned the Cloquet Forest really is. Every forty line is perfectly located so it runs through the wettest, deepest part of a big swamp. This feature didn’t prove entirely bad, however, because it allowed us to complete an additional one credit course—Swimming 1.

"... the lads were last seen tearing off in a S-SW direction through the swamp and underbrush."
Gopher Peavey, 1938

After learning how to type map swamps, we learned how to sample them and compute their merchantable volume to an alpha level of .05. Most crews found that their inventory reports used a quantity of paper greater than the total volume of standing timber on their quarter section.

What leisure time we could find was more than filled with varied activities. Gene Brummel meditated his way to the chess championship, and Ken Cutler won the pool tournament. Greg Ryan had no close competition for the sleeping championship. Hard fought “Stratego” games raged into the wee hours of the morning. Ezra is still trying to figure out how the spy always turned up by his field marshal. Tom “The Foot” Watson terrorized the soccer field by dribbling the ball between his toes.

Ambitious Foresters—doubtless doing homework for a correspondence course in furniture arranging—but why at night fellas?

The opening morning of grouse season found five brave foresters stalking into the woods to deplete the grouse population. That evening found the same five foresters trudging back out of the woods and wondering if their shells had been loaded with any shot. Ken Cutler even claims to have seen a pheasant out there!

Another highlight of the quarter was the frequent trips into the local ice cream parlors. Corn-y-ae was usually the star performer on these trips. At the ice cream bash he demonstrated contemporary dance form with one of the beautiful local gals, but at the Cove he was unable to get a dance with the go-go girl, despite his persistent attempts. Curt’s most regular customer, however, was Al Kastner. In fact Al could sometimes be found in the middle of the day cruising timber at Curt’s.

We learned many unusual facts during the quarter. For example, we learned the maximum capacity of a ’63 Ford is 1.13 cords of firewood. Our thinning project taught us that trees don’t always fall when cut off at the stump. In fact, Gary Heinrich and Jumper will go so far as to say that they usually don’t. Cabin 3 also learned that their stove didn’t function properly and always filled up with ashes or allowed snow to accumulate in the chimney.

As the quarter progressed, the wake-up bell in the morning seemed to get earlier and earlier. Finally one weekend it set the all-time record by ringing at 1:00 A.M.

The quarter at Cloquet was one of the highlights of our forestry education and the field work and the management trips were a welcome change from the classroom lectures of the St. Paul Campus. We all learned a lot from the classes and had a lot of fun doing it. It was a pleasure studying up there with a great bunch of guys, and I’m sure no one will forget the School of Forestry’s first fall quarter Cloquet session for a long time to come.
"... We knew horse skidding was on its way out but little did we suspect it was being taken over by STUDents"

GOPHER PEAVEY. 1959
The Spring quarter crop of Foresters met Cloquet in the usual manner with quotes such as “who the —— left this town defenseless,” and “the last one down to Curts’ buys.” As usual the fellows learned surprisingly fast to live with both of these “handicaps.”

In conjunction with the traditional extracurricular activities enjoyed such as Curts’, vandalism, and softball the group broadened their interests. Cabin 10 started the ball rolling by establishing their cabin as headquarters, a huge sign being erected on the roof. This brought distrust and jealousy from the rest of the camp and soon they began to go to bed at 10PM instead of 9PM. “Doc” Johns followed by trying to establish his syndicate in Paul Smith’s classroom. Evidently Paul got his “cut” because soon the sound of pool balls, Captain Kangaroo, and the rattle of empty bottles could be heard frequently being interrupted by Paul’s Silviculture lectures. The SwanHeIsSon Brewery and Company soon got into the act and would like to take this time to thank the station for allowing them to develop their product in the utmost secrecy. Good, wasn’t it Paul? The Cloquet quartet felt the brew’s first effects at 3AM and introduced each cabin to their musical arrangement of Logger Lover.

Outside on the athletic field Cabin 10 reigned as soccer champs. This was probably due to the great turnout we experienced for each game—Cabin 10 ending up playing Cabin 10. Those few amateurs who did wander into a game didn’t last long. A picture is worth a thousand words—take a close look at Bob Anfang’s nose and one of Dr. John’s forehead.

Even traditional class work was unusual this year. John Hegg and Merrick Reburn explored the possibilities of using the University wagon in their logging operation. John says it would never double as a skidder however. Other classes, even though not as unique, were equally valuable.

The fun times and great educational experiences felt by this group of Foresters at the Research Station would cover the entire Peavey. To sum it all up those camp champs are as follows:

Most sloppiest .................. Cabin 1
The smelliest .................. Cabin 2
Most inactive .................. Cabin 3
The laziest .................. Cabin 4
Most unusual .................. Cabin 5
Most unoccupied .................. Cabin 6 and 8
The dirtiest .................. Cabin 7
Most studiest .................. Cabin 9
Most active Cabin .................. Cabin 10
Least unique .................. Cabin 11
The Itasca session got off to a roaring start as Rog Pegg and Rog Richards rolled into the Station on their Scramblers. Before we went home, their hill climbing and “Grand Prix” antics on the trails and roads left a couple Foresters somewhat shaken. It wasn’t that they were too loud, but we could hear them from Headwaters Pageant Grounds all the way back in the Cabins!

For those arriving Monday, there was a fast-moving “touch” football game where the members of cabins 22 and 24 exchanged about four square feet of skin for scabs and bruises. There weren’t even any recruiters around!

With stragglers coming in all the next day, Dr. Hallgren, the director of the Itasca Forestry Session, got things in gear with an orientation meeting for all those present. His introduction included briefing us about our kitchen duties, the pop machine and coffee pot, the nurse and our instructors for the session. We then signed ourselves into groups A, B, C, and D for scheduling into classes.

After a good lunch we went to our respective groups for our first classes trying not to bend the scabs from the day before. The first exercise in Forestry 50, Field Forest Measurements, was a preview of things, bigger and better, to come. We computed our paces in the woods and field. We then learned how to use the various instruments for measuring tree diameters. These were the calipers, unwieldy and loose, the cruiser’s stick, the eyeball and finally the diameter tape which we used for the remainder of the session.

Then there was Botany. There must be many that have attended Itasca that, like myself, discovered they really did have a memory hidden somewhere! Those 180-some plants in two weeks were really something, to say the least. We did learn a lot on those long, meandering walks in spite of ourselves. John Adams, alias “Stump,” and Mike Rath learned what we all hope was a valuable lesson in taking final tests; not to get just one wrong! The flash cards and plant samples will be long treasured in our minds.

Last, but hardly least, considering time involved, was our three weeks of Ecology. It included a field trip to the Cass Lake District of the Chippewa National Forest, soil pit after endless soil pit, stand evaluations by crown class and meticulous plant indicator analyses! That’s a fair start. All that have been left out are the long night sessions spent over tables of data collected, and field notes, writing reports! Dr. Sucoff led the soil pit caravans out to the many sites that we visited and dug full of holes. Dr. Paul Rudolf jogged us out to the sample stands we used for stand evaluation. Group B reports the case of what must be the fastest growth ever recorded for what-ever-it-was that was found numbered 64 in the sample stand across from the Headwaters Museum. In fact, this specimen grew so fast that the dbh was only 3 1/2 inches and the diameter at 15 feet was at least 6 to 7 inches! The species was unknown as the crown development resembled something out of the Cretaceous era.

The fact that no one succumbed to pneumonia from cruising the stands of red pine in a cold, soak-

“... Dr. Hanson took our section out and introduced us to a portion of the vast forest of hazel brush.”

GOPHER PEAVEY, 1950
ing rain (so we could go home a day early), becoming drenched, then sitting up so late writing reports still amazes most of us.

The compass and pacing survey exercise for measurements was probably the most memorable for some. The first group to do the exercise was to start pacing at the end of a dirt road about ¾ of a mile back in the woods. A couple of men had gotten about ten chains into the woods when they ran into two black bears at not too great a distance. The bears and the students parted company and were last seen going in directions 180 degrees opposite at high speed. The hazel brush was so thick that many of us fell down innumerable times and never even hit the ground!

As with past groups, the 1968 session wasn’t all work. Seaberg’s and Ole’s saw to that. The traditional ice cream did flow and enhanced the atmosphere and depth of sleep of many of the students. There were nights when some lucky groups didn’t have an ecology report due the next day and found time for volleyball and fishing.

Al Burt and Pat McDermott, after one particularly good round with the ice cream, set out to the dump to find a bear to wrestle. Whether they got beat, didn’t find any, or chickened out, nobody knows. They were pretty tight-lipped about it.

Dave Mobraten and Don Hanson managed to create more than their share of ruckus and noise by using sling-shots to shoot cherry bombs out over the lake. Don Fuchs would probably still like to know who tied up the dinner bell. He was undoing the bell up on the mess hall roof when some of the winged residents decided they had had enough intrusions and started after Don, stinging him on his way down. It must have been some sort of phantom and the suspects from cabin 24 were in the habit of barring the door on cabin 22. It seems to have happened after a couple small frogs accidentally got loose in cabin 24.

The cooks and the kitchen help did very good jobs as indicated by quality of food that we ate. It was so good, in fact, that Sandy Richert and Judy Gray, the nurse, had to go into the dining hall either early or late to avoid being trampled by the stampede as the “come-and-get-it” bell rang.

As the Botany final had been taken at the end of the second week, the measurements and ecology finals were the only ones to be taken on the last morning. Shortly after the tests were completed we left the Forestry and Biological Station to return to the cities or home to prepare for fall quarter.

The one thing lacking at Itasca in 1968 was an opportunity for all students to get together at one time to relax and have a good time. This could have been accomplished by a conclave of sorts or inter-cabin competition in outdoor events. It could have been highly instrumental in providing an opportunity for all of us to become better acquainted with each other and provide a measure of “esprit de corps.”

All considered however, the entire 113 students present would agree that the session was enlightening, fun, hardwork, and well worth while. It will long be remembered as the beginning of our over-all training in forestry at the University of Minnesota.
Forestry Club

by Tom Baruth

It’s been another highly successful year for the Forestry Club due to the great participation of all the members. The year started off well with a large number turning out for the Fall Bonfire. The weather was even accommodating for a change and we were able to hold the bonfire outside for the second straight year! “Beechnut” was so enthralled with the whole situation that he forgot to bring any cups along with the coffee. Maybe he just thought that foresters should learn to rough it.

The first meeting was attended by well over 100 students, and this set the trend for continued high attendance at meetings throughout the year. Christmas Tree Project co-chairman Chris Peterson and Pete Roussopoulos got things rolling for the big project, and Conclave chairman Terry Helbig began signing up all available talent for the Conclave.

In October, the eleven man conclave team came back from Southern Illinois University with a respectable fourth place. This was achieved even without the assistance of some of the star competitors who were out of action up at Cloquet.

Chris and Pete wrapped up a highly successful Christmas tree project in December with a net profit of $2,000. Many thanks to Chris and Pete and all the other Club members who put in long hours of work to make this project such an outstanding success.

I would like to thank Vice President Terry Helbig for getting everything going and handling the club so well Fall Quarter when I was at Cloquet. Thanks should also go to Al Burt and Doug Anderson who ably filled in for our missing Sergeants-at-Arms and Dan Seekins who was acting Historian. It was great to come back at the beginning of Winter Quarter and find everything going so smoothly. I may not have been aware of what was going on, but at least it was going smoothly.

Forester’s Day was the best ever, and chairman Terry Helbig and the dozens of other guys who worked on the countless preparations for this big event deserve a lot of credit. The Banquet was especially outstanding, and we were privileged to hear Dr. Norman Borlaug, world famous plant breeder and pathologist. Three $100 scholarships were presented to deserving forestry students at this time by the Forestry Club. I hope that the Banquet, which was held last year for the first time, will continue to be a part of Foresters Day in the future.

Bull-of-the-Woods editor Rog Richards has done an outstanding job in putting out that fine publication informing us of all the local news. In special appreciation for his work, I think that the Club should award Rog a dictionary.

I would like to thank Dr. Mace for being an excellent advisor this year. Don Hanson has done an excellent job keeping tabs on all our money. Now all we have to do is to try and get it back at the end of the year! Bruce Rottink’s minutes have been so complete that they even include all of the jokes from the last meeting. Greg Ryan and Jim Russell have been so eager to fulfill their duties that they got traffic tickets rushing around after the coffee and donuts. Corn-y-ae has kept our history up to date and Phil DuFrere has done an excellent job providing interesting programs. I would especially like to thank all of the Forestry Club members for showing such an interest in the club and making this year so enjoyable and successful. I hope that the club can continue to be one of the most active organizations in the University in the future.
"... The most noteworthy and successful meeting of the current year was held unofficially in the upper story of a beer joint in the Saintly city, and found seventy guzzlers raising the roof with lusty song and revelry to the tune of clinking beer mugs" 

GOPHER PEAKEY, 1948

Ed. Note: Won't those guys ever learn to keep the photographer sober enough to focus the camera until after the pictures are taken?

The Spring 1968 Forestry Club Canoe Trip

by Gene Miller

Under the careful supervision of Canoe Trip Chairman Greg Ryan and his assistant Gene Miller, the Spring 1968 Forestry Club Canoe Trip promised to be one of the finest trips in the history of the club. There were to be twenty-seven rented canoes and nine private canoes on the trip. Unfortunately, May 26 was a cold and rainy day, but fourteen canoes and one houseboat (Jim Bloemendal) braved the elements and made the trip.

The trip began at Taylor's Falls on the St. Croix River. The bad weather made the trip seem bleak, but the foresters, true to tradition, soon became "acclimatized" and no longer minded the weather.

Foresters Duane Kick (Kicker) and Gary Heinrich stopped to examine an island, when their canoe mysteriously was set afloat. Gary and Kicker, being resourceful, waded after their wayward canoe. When the water deepened, our boys "deepened" too. Unfortunately, the boys neglected to remove their wallets, etc., etc.

About noon, the troops slogged to a halt for a lunch of soggy sandwiches. Kicker gave a demonstration of how to float a hat off one's head and Jim Bloemendal demonstrated burning charcoal floating in water.

Later that day the troops arrived at the Marine Canoe Service at Marine on St. Croix. Everyone was thoroughly "soaked??" and exhausted. In spite of bad weather, the trip was great fun, and we are all looking forward to the 1969 Canoe Trip.
Forest Products Club

by Bruce Schmidt

This year for Forest Products Club, really started right after finals in June 1968. It was then that three club members, Steve Weeks, Phil Johnston and Gene Moore along with club advisor Bob Thompson participated in a club trip to the west coast. They visited many of the forest industries' manufacturing facilities and attended the annual Forest Industries Marketing Conference at the University of Oregon. Their trip was partially financed by money earned by the club making and selling FORPRO Wood Identification Kits.

We started this year by selling the wood kit business to an alumus of the School of Forestry. The money from this will be used to finance further trips and other worthwhile activities. Such activities focus on giving club members more contact within industry in which they will work.

This year's club officers include Larry Demaree, secretary-treasurer; Phil Johnston, Vice-President and Bruce Schmidt, President.

All club members and Forest Products students suffered a great loss this past year when one of our members, Bill Schiltz was killed in a hunting accident. Bill was a senior in Forest Products Marketing and an active club member. He was a close friend to many of us in forest products and his loss was felt by all of us. I'm sure that all of us who knew him will never forget our close comrade, Bill Schiltz.

Xi Sigma Pi

by Pete Roussopoulos and Chris Peterson

Xi Sigma Pi, the National Honorary Forestry Fraternity, was originally founded in 1908 at the University of Washington. In 1920 at the University of Minnesota School of Forestry, the fraternity's fourth chapter was established and appropriately given the name Delta, the fourth letter of the Greek alphabet.

Realizing that students of forestry, as future professional foresters, share part of the responsibility to seek quality in the standards of their profession, the founders of Xi Sigma Pi adopted objectives “to secure and maintain a high standard of scholarship in forestry education, to work for the upbuilding of the profession of forestry, and to promote fraternal relations among earnest workers engaged in forestry activities.” In order to realize these objectives, prospective members are selected on the basis of academic performance, interest, and participation in practical work pertaining to forestry, qualities of leadership, and promise of attaining high professional achievement.

On March 1, the Delta Chapter of Xi Sigma Pi held its annual initiation in the North Star Ballroom. Thirty-three junior and senior forestry students and one graduate student qualifying for admittance were initiated into the Fraternity. A banquet held in the faculty dining room followed the initiation procedures. Our thanks to Dr. John Tappeiner, silviculturist and member of the Cloquet Research Staff for speaking to us on Brazilian forestry. Congratulations again to those newly initiated members on their outstanding work in Forestry.
On Wednesday, September 25, another great year for the Forestry Club was kicked off by a record crowd of more than 160 persons attending the fall bonfire.

A different site was used to the approval of some, and disapproval of others. Those that liked the site liked the sheltered grassy amphitheater. Those that didn’t like the site were those who sat on rotten apples.

Acting vice-president-turned-president Terry Helbig welcomed the group to the bonfire as a massive dinner of hot dogs, beans and pop was being enjoyed. The coffee arrived late but no one seemed to mind because cream, sugar and cups never arrived. So that the coffee would not be wasted, we saved it to put out the fire.

Frank Kaufert, Director of the School of Forestry, introduced the faculty, gave a short welcoming speech and told an “authentic” Indian story.

After the introduction, Conclave team captain Terry Helbig, assisted by several teammates, demonstrated some of the Conclave events. Ron “Bong” Salladay demonstrated speed wood chopping, but due to a pre-bonfire meeting at Manning’s was not able to complete a full stroke.

The climax of the evening was a series of folk songs led by Joe Merkins and Kathy Josephson. The first song sung was Logger Lover. Nobody knew the music but we sang (?) it anyway. After this bad start the group moved into the standard folk songs until Ken Winsness closed the 1968 Fall Bonfire with a sentimental rendition of “Good Night, Ladies.”

As the crowd left, some moved to Manning’s to have a post-bonfire meeting for the exchanging of summer-job stories.
The University of Illinois hosted the conclave this year. Minnesota was again stopped in its quest for its first conclave championship but this was no fault of the men who attended. In spite of our fourth place finish in field events, I firmly believe Minnesota's thirteen men put on the best overall show in the conclave.

Six men had previous conclave experience and formed the nucleus of the team: Chris Peterson, Doug Anderson, Al Burt, Rog Richards, Ron Salladay, and Terry Helbig. The remainder of the team made up for what they lacked in experience by their willingness to compete and win. These members included Brian Marinello, Mark Boche, Ron Welch, Mike Knudson, Gene Determan, Fran Wagner, and Tim Resch.

Only four members of the team won points, but with a few good breaks many other members would have placed in various events. Rog Richards placed second in match splitting. Ron Salladay placed second in chopping and teamed with Chris Peterson for a fourth place in two man bucking. Chris also showed...
individual effort with his second in tobacco spit to go along with the first gained in that event by “Beechnut” Helbig.

Illinois attempted to replace the traditional ice cream social with technical events since the social hour was “against state and university regulations.” Minnesota placed second in these events. This high placement was earned with a second in photo interpretation by Ron Salladay and a second in the college bowl by the team of Chris Peterson, Mike Knudson, Terry Helbig, and Ron Salladay.

Minnesota has no reason to be ashamed just because they did not win a chain saw. The competition was tough but our team placed fairly well in all the field events. Our second place in technical events is to be envied and our sportsmanship was probably the best of all the teams entered. Next year Minnesota will have another team to be proud of and with a few good breaks it will be coming home with first place and a chain saw to go along with the traditional first place in the ice cream social.
I-M Sports

by Don Hanson

The Forester's I-M sports program was almost a complete success this past year. Once again we finished near the top of the total participation point list. Participation by club members was down from last year, but the enthusiasm was up, accounting for our finish in third place. With more participation next year, the club could finish in first place!

Some of the highlights from the past season include: Trick-knee Burt on the volleyball court... Foresters II Mississippi Swim team finishing... Rookie Dave Snyder scoring two goals for Foresters II hockey... Mark Boche's hat trick... Pre- and post-game celebrations at 22nd and Como... Brandt's spectacular finish in cross country, being equalled only by his indescribable quarterbacking.

SEASON'S RESULTS

Football ........................................ 3rd Class D
Basketball ...................................... 3rd Class C
Volleyball ...................................... Class A
Hockey
   Foresters I .................................... 12th place, All U

Free Throw ................................... 8th St. Paul
Christmas Tree Project

Chris Peterson

Although with only two optimists, Pete Roussopoulos, the other co-chairman and myself within the crew, the club, and probably the school itself, the project this year was enjoyably successful. Naturally a success means money, and money we made—slightly over two grand worth of profits.

Our lot, located at the corner of Larpenteur and Cleveland, opened on Dec. 1, and although our selection was somewhat limited we were sold out in 2 weeks. Four species made up our stock of trees this year and included Scotch pine, Norway pine, Spruce and Canadian Golden pine. The Scotch pine was the biggest seller and of course the most expensive having been imported from Michigan. Both our sheared Spruce and sheared Norway pine were obtained from Zimmerman, Minn. and looked real good this year. We also had some wild Norway. Oh yes, the fourth species included one Canadian Golden Pine (alias Jack Pine). It seems that a Freshman Forester mistook it for a scotch pine while cutting Norway at Cloquet.

This year the selection at the Cloquet Forest Research Center amounted to nil. To substitute we bought Norway stumpage off a private “40” located north of Curt’s. By the looks of the trees cut, I got the feeling Curt’s was hit pretty hard before-hand.

Along with the trees we were also very successful in selling wreaths and cones. The biggest sellers were the digger pine cones.

We obtained boughs from numerous sources. In addition to those cut at Cloquet, a truck load was cut at the Hazleton Alcoholic Correction Center near Centerville. Also, special thanks go to Dr. David French who donated several truck loads from his plantation.

Thanks again to all those who participated and good luck on the project in the future.
F-DAY—1969

F-Day, 1969, was the product of much hard work on the part of all the committee chairmen. With preparations started early in fall quarter, much of the work was completed by the time the closed coffee hour rolled around. The event chairmen met and personally interviewed over twenty queen candidates at this time. From this large start, five finalists were chosen and subjected to another coffee hour where MC Ezra T. (Lance Sorenson) Cooter asked them questions every Daughter of Paul should know.

On Friday night, January 17, a smorgasbord dinner was held. One of the highlights of the evening was a talk on “Fiber and Food for the World’s Billions” by Dr. Norman E. Borlaug, an alumnus of 1937 who has attained worldwide recognition for his work in feeding starving people. Forestry Club President Tom Baruth presented Dr. Borlaug with an “Honorary Uncle of Paul” award. He also presented the Field Forester of the Year award to Eldred Johnson and Forestry Club Scholarships to Bob Morrow, Don Hanson, and Rog Richards.

Early Saturday morning the Loggers’ Breakfast got under way in the Corpus Christi Church basement. After everyone had eaten their fill of pancakes and sausage, they adjourned to the North Star Ballroom where skits were presented. The faculty and grad students teamed up to give their impression of a “typical Forestry 1 lecture.” The student skit was headed up by Tom Watson who staged “Ezra and Jumper’s Chuckle In.”

The crowd moved to the throne in front of Green Hall where Penny Marcoe was crowned Daughter of Paul. She in turn presented an “Honorary Daughter of Paul” to Kathie, Ken’s secretary, the Uncle of Paul award to Dr. Mace and the Son of Paul award to Terry Helbig.

Dr. Mace had collaborated with his friends at the Climatology Bureau and arranged for perfect weather during the field events. The wildlifers had trouble fielding a team for the tug-of-war so Cloquet spring went against Cloquet fall and the Juniors went against the faculty. (The Juniors won their match but there is still controversy as to who won the other one.) The other traditional field events followed this exhibition. (Thanks to Dr. Thompson for squaring the chopping and sawing cants.) Ron Salladay won the most events and took home the canoe trip prize for being the best competitor.

After the field events were over, the over 21 crowd headed out to the Manor for a bite to eat before the dance. Those under 21 tried for reservations at MacDonald’s but were turned down because they were not dressed in proper attire to dine in a place of that quality.

The day concluded with the Stump Jumpers’ Ball. Chris Kalogerson provided the music and Chris Peterson provided the witty sayings. Prizes were presented to field event winners during the first intermission while violators of F-Day rules were tried and convicted in Kangaroo Court during the second one.

All in all it turned out to be another successful Foresters’ Day. Foresters got together, had a good time, and once again showed everyone how proud they are to be in their chosen profession.
BREAKFAST (or don't choke)

Tell 'em to stop eating the silver . . .

Tableful of happy, hungry eaters . . . and Merrick

So Becky gave you a day off cooking, eh Jerry?

No, these never stick. We put Teflon in the batter . . .

SUMMER JOBS

The Interns
by Terry Helbig

Last summer Jim Russell, Myron Blank and myself were fortunate enough to be on the Weyerhaeuser Forestry Intern program the first year it was offered at the University of Minnesota. We worked at the Snoqualmie Falls tree farm. This program was designed to give the aspiring forester a chance to have experience in three major fields of forestry.

The first of these fields was production. Valuable experience was gained in this field through work as a choker-setter. This proved to be both the most educational and most back-breaking job of the summer. After gaining experience and many new scars setting chokers, we were switched to a different field—management. During our internship in this field we worked on a genetics survey. The purpose of this survey was to choose plus trees for future use in a seed orchard. The final portion of the summer was spent in the field of engineering. Experience in this field was gained by work on surveying crews. Most of this work was laying out roads, but we also did work in laying out cutting lines.

Weyerhaeuser also found things for us to do in some of our spare time. Every second Wednesday night seminar was held to acquaint us with company goals and policies. These were all valuable since they covered topics of current interest in Forestry. Some of the seminar topics were Weyerhaeuser timberlands organization, production, planning and control, research, the high yield forest, and land use management. Weyerhaeuser also played host several times and treated us to dinner. The most interesting of these dinners was one about the middle of the summer when interns from all of Washington and many company officials gathered in Tacoma.

Even with all the time spent at Weyerhaeuser, we still had plenty of free time to see the country. Some of the places we visited were Seattle and the Science center, Mount Rainier, Leavenworth (a re-created Bavarian town), Vancouver and Victoria, Chuck Schroeder’s (a rigging slinger, Jim worked with), and the Olympic Peninsula. Moose Varro and Steve Nelson were working for the USFS at the Snoqualmie Nat-}

A Summer on the Chippewa
by Robert A. Maki

On June 19, 1968 I began work on the Cut Foot Sioux District on what turned out to be the most enjoyable summer job I have ever held. My job as a forester’s aide dealt with recreation and timber. They did have a wildlife program in operation, but I was not involved. The only “wildlife” I got was the extracurricular, nonforestry type.

Recreation was the largest area of management concern in the district during the summer and the one I was involved in most. Selling annual and daily camping permits consumed most of my days and weeks. As a bit of variety, I would get put on the campground policing crew (garbage collection), campground construction (cutting brush), or conducting the Visitor Information Program on Fridays.

“...many of our jobs were in recreation—hauling garbage, helping tourists, hauling garbage, cutting firewood and hauling garbage”

GOPHER PEAVEY. 1959

I had many opportunities to meet a lot of interesting people camping in the district. One in particular that
I can remember was the man from Texas who was concerned with the little critters wandering around the campground that he called "the little black and white sport jobs with the fluid drive." I told him he should worry more about the mosquitoes because they were bigger and better up here and it only takes three of them to lift you off the ground.

The other area I worked in was timber. The tasks performed were scaling, compartment examination, logging operations. The one piece of equipment that I found to be the most fascinating and at times frustrating was the paint spray gun. With one of these weapons when it works, a forester can paint, accidentally or not, himself, his partner, squirrels, birds, and an occasional tree or two.

In August during the annual Deer River Rice Festival I had the honor and privilege to represent the Chippewa National Forest by being that famous furry symbol against forest fires—"Smokey the Bear." Boy, was it hot in that suit. It was like a portable sauna. The only reward I got out of the whole deal, besides the honor of being Smokey, was to have my picture taken with my arm (Smokey's) around a cute red-headed majorette from the Grand Rapids High School Band. After that Smokey was so fired up he put out three forest fires before they even started.

With the approach of the Itasca Summer Session I was forced to leave this rewarding job and return to school.

Grubbing For S&PF
by Dave Jacobs

During the winter quarter of 1968, Mr. Hallgren contacted me about a summer job with the State and Private Forestry Division of the Forest Service, usually referred to as S&PF. After being interviewed I wondered about my qualifications for the job as well as my interest in the job. The interviewer described the work as an insect survey in Northern Minnesota and Wisconsin. Having never had any instruction in "bugology," I really wasn't too keen on bugs. I could also envision better places than Wisconsin in which to work. With this frame of mind I began what proved to be a very enjoyable summer.

The job was quite different from its initial description. My partner, a graduate student in forest entomology from Michigan State, and I spent the entire summer taking white grub counts on red pine plantations. Most of the censusing was part of a five year evaluation of the effectiveness of Aldrin for white grub control. We worked mainly on the Hiawatha National Forest in the Upper Peninsula of Michigan.

Since my boss was basing his Ph.D. thesis on this work and my partner hoped to write a paper on it also, they were very concerned about the precision of my work. Realizing their apprehensions, I enjoyed giving them minor heart attacks. For instance, after working over a month, I calmly asked my boss, "What are we supposed to be looking for?" Occasionally I would rebel against "bugology's" nomenclature and classify a specimen as a "yellow-shaped, crescent thing" or a "two-clawed, six legged, flop-n-dop." Appalled with my terminology, the boss assigned me the task of plant identification and left the bugs to my partner.

Another concern of S&PF was cars. S&PF didn't use forest service vehicles, rather, they used cars from the Interagency Motor Pool. Needless to say, since the Motor Pool felt that its cars should only be driven on paved roads, relations were sometime strained between the two. Understanding the importance of handling my new Ford stationwagon with T.L.C., I remarked to the boss one day, "Say, do you know that the passing gear in this car doesn't work when you go over 95?" My partner noticed the expression on the boss's face and quickly added, "But that's only on gravel roads."

The summer was very rewarding both materially and aesthetically. I was given a GS-4, paid expenses, and a new car with a credit card. Being cool and dry, the Upper Peninsula of Michigan is a very pleasant place to work. The north shore of the peninsula has many sandy beaches with multi-hued sandstone bluffs forming the backdrop. Since there are many streams in this region, waterfalls are not uncommon. The relative lack of brush and insect pests enables one to truly enjoy an outdoor experience. And that's how I spent the summer—enjoying an outdoor experience.

Flathead IRFS Crew
by Richard W. Trembath

During the summers of 1967 and 1968 I was employed by the U.S. Forest Service on an Interregional Fire Suppression Crew. Based on the Glacier View Ranger District of the Flathead National Forest we were located some 20 miles from the nearest town of Columbia Falls, Montana, but we were only about 100 yards from the western boundary of Glacier National Park.

An IRFS crew is a highly organized group of 25 college-aged men that are physically fit and highly trained in the suppression of forest fires. During the first two weeks we were subjected to films, demonstra-
tions, lectures and discussions pertaining to the many aspects of fires and their control. Along with this there was a continuous program of conditioning which included many hours of calisthenics, running, obstacle course work, as well as an occasional jaunt up a mountain. These two weeks are comparable to a boot camp routine but it pays off when we're on fires. After this training we were put on project work until a fire call.

Being on an IR crew we got on fires in many different sections of the western United States. In 1968 we traveled to Arizona, Utah, Oregon, Idaho and Montana. We had hopes of getting to Alaska, but the "lower 48" always seemed to have enough fires to keep us busy.

When the Forest Service spends this much time and money in transporting and training a crew of this size, you know they'll try and get some work out of us. Therefore, we were sent to the biggest fires and then were given the head end on the more critical sections of these. It's not uncommon to work a 16-hour shift, but as a rule 12 to 14 hours were standard. Once our crew boss brought our time slips to a fire timekeeper with 25 working hours reported in a 24 hour period! This was explained by crossing a time zone on our flight to Arizona.

The summer wasn't all work though. For us there were the Glacier Park parties, sights, and even coed softball games on off-duty days. The chance to be able to move around the West and get acquainted with many different types of forests in various locations was a wonderful experience. Al Burt, who got stuck on the St. Joe IR crew during the 1968 season, can testify to such highlights as the five-day motel R&R in Prescott, Arizona and the good natured crew competition. Few summer jobs offer such scenes as aerial retardant bombing of hot spots on mountain sides at tree-top level, or watching professional sawyers in action against a 6-foot-dbh sitka spruce snag, or watching a cat skinner push a fire line through a dense forest.

It is for these experiences as well as a chance to do physical work for good pay that I'll probably be on the 1969 Flathead IRFS crew.
ETC.

Howard Q. Zeqgar

Foresters study too?

Carl—Our Advisor

CONGRATULATIONS

for many years of dedicated and outstanding service in building a School of Forestry which is second to none.
A Report from the President

-MINNESOTA FORESTRY ALUMNI ASSOCIATION-

Seated (l. to r.): Bill Hosfield, John Hall, Dick Manly, Ken Winsness, Bob Jorgenson, Al Lundgren. Standing (l. to r.): Bill Ziemer, Dr. Kaufert, Dean Berg, Earl Adam, Clarence Buckman, Al Schacht.

PRESIDENT’S MESSAGE

Dear Alumnus:

The organization statement of the Minnesota Forestry Alumni Association recites the purposes of the Association to be, “to promote the best interest of the School of Forestry and the University of Minnesota, to coordinate the activities of the alumni of the School of Forestry, and to promote a closer relationship between the School, its students, faculty, and the alumni.” We hope that your Executive Board or 1968-69 has contributed toward fulfillment of these purposes. Our efforts in that direction included actions and activities as reported in this letter to you.

A meeting with Sherwood Berg, Dean of the Institute of Agriculture, Forestry and Home Economics on March 24, 1969, was very informative and enlightening. Progress is being made toward reorganization on the St. Paul campus. Dean Berg looks toward enrollment growth to 10,000 to 12,000 students on this campus within a few years. We hope to see the School of Forestry experience growth which will result in greater status and greater visibility, and ultimately become the College of Forestry.

The second of the above purposes has best been served by the continuing exemplary services of our perennial Secretary-Treasurer, Ken Winsness. It was indeed a shock to all alumni to learn that his “perennial services” as Secretary of the Executive Board would terminate on June 30, 1969. His resignation was impelled by the magnitude of other duties. Ken’s contributions to the Alumni Association are legend and need no recounting by me. We hope and anticipate that Ken will continue to be the primary liaison between School and alumni. It has not been determined at this time who will be his replacement as Secretary-Treasurer of the Executive Board. These are big shoes to fill, as I am sure everyone recognizes the very important role Ken has played in making the Minnesota Forestry Alumni Association the successful and active organization that it is today.

By way of improving communication with all alumni, a questionnaire was mailed in April. Results will be tabulated and furnished to all alumni in the address record. It is hoped and expected that a great deal of worthwhile and meaningful information can be gleaned from this project.

The third of the above-stated purposes was well served by Executive Board meetings and the spring and fall alumni banquets. Members of the Executive Board this year exhibited a great deal of interest in school curriculum, changes adopted or proposed, and prospects for the future. We had a number of long and interesting discussions with Dr. Kaufert and Ken Winsness concerning the preparation of Forestry graduates for career opportunities. The fall banquet was typical of many such previous events, with excellent turnout, good fellowship, and an interesting program consisting of a report to the alumni by Dr. Kaufert, a movie on snow slides (Avalanche), and a barbershop quartet known as the Mississippi Ramblers. Thanks to our genial host, Ken Winsness, a good time was had by all.

I value my experience as your President during the past year. I feel that I have received more than I have given. I greatly appreciate the contributions of all Executive Board members and extend a special thank you to outgoing Board members Clarence Buckman, Bill Hosfield, and Bill Aufafther. I turn the gavel over to President-elect John Hall with best wishes for a good year for the Executive Board and the MFAA.

Robert S. Jorgenson, President
Minnesota Forestry Alumni Association
"POP" ALLISON - On Sept. 4th, 1968, Prof. Emeritus John H. Allison had the coniferous forest surrounding Lake Vadnais dedicated in his honor. University President Malcolm Moos and St. Paul Mayor Thomas Byrne were among many city and state officials on hand at the ceremonies. "Pop" still takes an active part in the management of the forest which is located approx. 7 miles North of Green Hall. E. G. Cheyney then the director of the School of Forestry, was contacted in 1914 regarding the possibility of establishing a forest around Lake Vadnais. Professor Allison was assigned the responsibility of the reforestation project. "Pop" has carried his trees, both native and exotic through many insect and disease threats with a very low mortality level. "Pop" truly earned the honor to have The John H. Allison Forest dedicated to him. Congratulations "Pop"!

SAM DICKENSON received an award from the Minnesota Chapter of the Soil Conservation Society of America. The award was presented by the chairman of the Minnesota Chapter for "distinguished service to conservation by advancing the art and science of good land use." Sam joined the Erie Mining Co. Forestry Dept. in 1952 after working for 2 years with the Iron Range Resources and Rehabilitation Commission. He received the award for successfully developing techniques for establishing plant growth on the "tailings" of the taconite process. There is no natural plant growth due to the highly erodable properties of the tailings. By preventing this wind and water erosion, Sam has richly deserved this SCSA recognition. Congratulations Sam!

SAM DICKENSON - On May 27th was the recipient of the highly regarded Standard Oil Foundation Award. This award, and the $1,000 which accompanies it, is given to instructors who have "made outstanding contributions to undergraduate education." Merle's award was one of six presented to instructors at the University of Minnesota. Another School of Forestry instructor, Ken Winsness, was the recipient of this award in 1966. The students and faculty wish to join the Alumni in congratulating Merle on this long overdue recognition for his many years of dedication. Congratulations Merle!

ROBERT HERBST has left his post as Deputy Commissioner for the Conservation Department for the State of Minnesota to become Executive Secretary of the Izaak Walton League of America, Glenview, Illinois. Bob was recently named the recipient of the Outstanding Conservationist Award by the General Sport Show, Inc. He received this award at the Northwest Boat, Sports and Travel Show at Minneapolis, Minnesota on April 3, 1969. He was further recognized this spring by the College of Agriculture, Forestry and Home Economics Alumni Association by being awarded the Alumni Service Award for his contributions to the field of Forestry, the University, and the State of Minnesota. Congratulations Bob!
AWARDS AND SCHOLARSHIPS

To top off an active year the MFAA once again took great pleasure in the presentation of the E. G. Cheyney Memorial Scholarships. The Scholarship Committee, composed of A. R. Hallgren, R. D. Thompson, and K. E. Winsness, selected these students for their achievements in the field of communication. Professor Cheyney believed that a foresters' strongest asset was to acquire a mastery of the communication skills. Bob Jorgenson made the presentation of the awards to:

John Swanson
Charles Smith
Eugene Miller
Herb Cargill

RECIPIENTS OF THE HENRY SCHMITZ LEADERSHIP AWARDS WERE:  
“OUR LEADER”—THANKS FOR A JOB WELL DONE!

L. to R.: Bruce Rottink, Phil Johnston, Tom Baruth.
THE TWIN CITIES CHAPTER MFAA HAS FUN
ALUMNI NEWS

1903

MARTIN L. ERICKSON sends us word from San Diego, California where he is retired. Thanks so very much for those "very special" contributions, we very much appreciate them and the MFAA and E. G. Cheyney Funds are in real good shape!

1906

SAMUEL B. DETWILER is retired at Arlington, Virginia. He says - "During the past six years my hobby has been to walk over all portions of Arlington and observe the character and quality of the autumn leaf colors. When I find suitable leaves, I treat them for preserving their fine hues. A by-product of this hobby has been to learn much about the steady increase in air pollution effects on local vegetation. I am convinced that the science of Ecology is today the most important science for the future welfare of all forms of life in America and throughout the world. It is now 66 years since I enrolled in the Minnesota Forest School. If I were a high school graduate and again choosing a profession, it would be forestry but with specialization on ecology and its evolution under the natural conditions normally found in the woods. Foresters should maintain their priority in further development of it." Keep those very interesting letters coming, Sam - we really enjoy them.

1910

ROBERT L. DEERING is retired from the U.S. Forest Service.

CHARLES L. LEWIS, the renowned cranberry grower of Shell Lake, Wisconsin, writes - "Retired from many activities. Have great satisfaction in past promotions of Shell Lake Airport, Shell Lake State Bank, Shell Lake Memorial Hospital, Shell Lake Swimming Beach and Camp grounds. Not exactly a kid anymore. Bob Deering of San Francisco and myself are the only surviving members of the Class of 1910."

1911

ARTHUR F. OPPEL reports to us from St. Paul, Minnesota where he is retired.

J. PAUL YOUNG sends us word from Seattle, Washington where he is retired.

1912

S. GRANT HARRIS, JR. is retired in Minneapolis, Minnesota. He writes - "Winter in South Arizona. Elev. 5000 ft. - cool, clean, quiet, no pollution."

HEMAN N. PETTIBONE is retired in Milwaukee, Wisconsin. He states - "At 81 still in the best of health and active (let's say relatively)."

1913

THOMAS A. GRIFFIN is retired at Minneapolis, Minnesota. He writes - "Still retired, eleven years, and find the days full. Mrs. Griffin and myself well (no offspring) Greetings to the old timers that may remember me."

HOWARD E. HALL is retired in Walterville, Oregon. He says - "Enjoy living among the cedars and Douglas fir on a hill overlooking the McKenzie River Valley! Deer graze our lawn, Mountain Beaver trim our shrubs, and skunks sit and watch TV through a glass door."

CHARLES D. SIMPSON is retired at Baker Oregon. He says - "Raised three kids but didn't make foresters of any of them. Donald M. graduated from U. of Minnesota Aeronautics now with Boeing, Seattle. Kenneth, a graduate of Oregon S.U., is with General Electric, Syracuse, N.Y. electronics. Janet, a career girl in the Air Force, now a major at Sacramento, California. My latest accomplishment is co-authoring a forest book "Blazing Forest Trails" - folder enclosed. I agree with J. C. Penny, who at 90 says, 'The next 10 years will be my best.'"

1914

STANLEY L. RINGOLD is retired in Laguna Hills, California. He writes - "Knowing my sons lack of literary ability, I shall for your information, give their names and occupations. Stanley B. Ringold, Class of 1950. Forester in charge of the Grand Rapids area, for Diamond International. Married, one daughter and two sons. Garry B. Ringold, Class of 1950, Assistant Forester Potlatch Forests, Lewiston, Idaho. Married, two sons and one daughter. Myself, I find that I have been spending the last 55 to 60 years, trying to prove that smoking is bound to lead to lung trouble, in my case emphysema. Now the question is how long does this nefarious practice take to kill me?? Also please understand that this project was not entered upon purposely, only in the last 20 years have I been interested in its results. Will try and keep you posted on the outcome, providing there is secretarial service in Hell. Meantime keep up the good work others have done with the Peavey." Thanks, Stan, and by the time you receive the Peavey, we'll be chatting with you and "Mom."

1915

T. SCHANZ-HANSEN is retired at Cloquet, Minnesota. He states - "Would like to know how many of Class '15 are still around."

1918

EARL S. PENDERGAST is retired in Winter Haven, Florida. He writes - "We have a 4-apartment building. Live in one and rent other three apartments. I do not have too much to do but I seem to keep busy bowling, golf, walking and belong to Lions Club. Mrs. Pendergast paints. We manage very well and enjoy life."

1920

SHIRLEY G. BRAYTON is retired in Dunedin, Florida. He states - "Living in rather quiet retirement at Dunedin, Florida. Would appreciate having any Minnesota Forester drop in when they are in area. Clyde (Mike Frudden - '20 and Earl Pendergast - '18 stopped in last winter.)"

CLYDE M. FRUDDEN reports to us from Greene, Iowa where he owns the Frudden Lumber Company.

LEO A. ISAAC is retired in Portland, Oregon. He writes - "On February 1st of this year I retired as Executive Secretary of the Puget Sound and Columbia River Sections of the Society of American Foresters. This was my fourth and (I hope) last retirement from a Forestry job U.S. Forest Service in 1920 to 1956, United Nations in Turkey in 1959, School of Forestry Cornell, Oregon in 1960, and S.A.F. in 1964 as noted above. I have slowed up a little but am still going strong enough to be planning a trip around the World with my wife in the spring. Pay us a visit if you get any where near Portland, Oregon."

PAUL R. PALMER writes to us from Duncan, Oklahoma. He states - "I have done 'supply' work in New South Wales, Australia, Texas, Minnesota, and Oklahoma."

PARKER O. ANDERSON is retired in St. Paul, Minnesota. He writes—“Still enjoying retirement. My youngest son, Parker (Brick) Anderson graduated from West Point in 1967. He is now a Lieutenant Battery Commander at an Air Defense and Missile Base in Germany near “Czech” border. Did salmon, grayling and Arctic cher fishing in N. W. Territory on Big Bear Lake near Arctic. Spent eight weeks in Norway, Denmark, Germany and Barovia. Visited son in Germany. Had opportunity to fish North Sea, northern Norway for salmon. Circle of old class mates and friends getting smaller and smaller. My long time friend George Hauser, forestry graduate, later eminent Doctor, passed away a month ago in Seattle, Washington from heart attack. With him I was a member of the great 1916 football team, which was disrupted by World War I, 1917. Progeny – 7 grandchildren, all hale and hearty. I am keeping busy on community and consulting work.”

LEYDEN N. ERICKSEN sends us word from Berkeley, California where he is retired from the U.S. Forest Service.

FRANCIS V. OSTROWSKI is retired at St. Paul, Minnesota. He says—“Retired and living in Florida for six months of the year.”

HUBERT L. PERSON sends us word from Danville, California.

ALBERT E. WACKERMAN reports to us from Bluffton, South Carolina where he is retired.

McCREEERY, OTIS C. is Retired in Pittsburgh, Pennsylvania. He writes—“I have just completed a five year term as Chairman of Pennsylvania State Board of Education Jan. 1. Retired from Alcoa several years ago. I always enjoy the Peavey as well as other news of our great University. Let’s try to remember that the great majority of Minnesota students are better than ever.” And we agree with that statement wholeheartedly, Otis, and thanks.

RALPH M. NELSON reports to us from Asheville, North Carolina where he is retired.

ORCUTT W. FROST is a Consultant at Grand Marais, Minnesota. He writes—“I have just completed a five year term as Chairman of Pennsylvania State Board of Education Jan. 1. Retired from Alcoa several years ago. I always enjoy the Peavey as well as other news of our great University. Let’s try to remember that the great majority of Minnesota students are better than ever.” And we agree with that statement wholeheartedly, Otis, and thanks.

WALDEMAR ANDERSON reports to us from St. Paul, Minnesota. He writes—“A. Dale Chapman reports to us from Palo Alto, California where he is at the Chapman Chemical Company. We look forward to the May 23rd dinner with the recipients of the Chapman Foundation Scholarships, and my very personal thanks!”

EUGENE T. ERICKSON reports to us from Clinton Corners, New York where he is retired. He says—“No change here. Still retired. Trying to establish blue myrtle Vinca Minor under the trees instead of a lawn. Good success so far. Aesthetic Forestry.”

ERNEST L. KOLBE is a Consulting Forester at Wilsonville, Oregon. He writes—“I retired from my position as Director, Forestry Services in September 1968. Now working part time as forest consultant and also part time operator of my farm near Wilsonville growing holly and filbert nuts. Plan to visit forests in Europe in Spring 1969 and after that more travel.”

CARL G. KRUEGER is at Coeur d’Alene, Idaho. He states—“No change since last Peavey. Retired from U.S.F.S. at end of 1965. Part time instructor in Vocational Forestry at North Idaho Junior College here in Coeur d’Alene.”

THOMAS H. LOTTI sends us word from Washington D.C. where he is the Assistant Director with the Current Research Information System for the U.S. Forest Service.

RALPH W. ORR reports to us from Kaysville, Utah where he is retired.

HARRY E. PATTERSON is retired in Cloquet, Minnesota. He writes—“Retired as Safety Director of Conwed Corporation, Cloquet on 12-31-68 (age 65). Mrs. “Patt” and I leave for East Africa in February on photographing Safari. Want to see what the other “apes” look like.”

HARRY H. STRIMLING reports to us from St. Paul, Minnesota where he is Manager of Wm. Marvy Co., Inc.

A. F. VERRALL reports to us from Nacogdoches, Texas.

MERRILL E. DETERS is at the University of Idaho School of Forestry in Moscow, Idaho. He reports—“Elk and venison in the freezer—bowled a 279 this week. All must be right with the world or is it? One more year to retirement.”

ERNEST J. GEORGE is retired in Mandan, North Dakota. He sends us this information—“No change from that of previous year except that I retired after 46 1/2 years of government service.”

GEORGE M. HALVORSON reports to us from Minneapolis, Minnesota where he is now retired from the Western Electric Co., Inc.

DAYTON P. KIRKHAM is retired at Sun City, Arizona. He says—“Returned from Dacca, East Pakistan on April 30 and retired. Had a little over 40 years in Forestry work, with about 21 years of these overseas—in South Korea, Japan, Libya, Jordan and the last five years in East Pakistan. My home is now in Sun City Arizona.”

GUSTAF A. LIMSTROM reports to us from San Diego, California where he is retired.

WALDEMAR ANDERSON reports to us from St. Paul, Minnesota. He is a Research Associate for the University of Minnesota School of Forestry.

GEORGE D. RATHBUN sends us word from San Diego, California where he is retired.

HAROLD F. RATHBUN reports to us from St. Paul, Minnesota where he is a Research Associate for the University of Minnesota School of Forestry.

ERNEST L. KOLBE is a Consulting Forester at Wilsonville, Oregon. He writes—“I retired from my position as Director, Forestry Services in September 1968. Now working part time as forest consultant and also part time operator of my farm near Wilsonville growing holly and filbert nuts. Plan to visit forests in Europe in Spring 1969 and after that more travel.”

CARL G. KRUEGER is at Coeur d’Alene, Idaho. He states—“No change since last Peavey. Retired from U.S.F.S. at end of 1965. Part time instructor in Vocational Forestry at North Idaho Junior College here in Coeur d’Alene.”

THOMAS H. LOTTI sends us word from Washington D.C. where he is the Assistant Director with the Current Research Information System for the U.S. Forest Service.

RALPH W. ORR reports to us from Kaysville, Utah where he is retired.

HARRY E. PATTERSON is retired in Cloquet, Minnesota. He writes—“Retired as Safety Director of Conwed Corporation, Cloquet on 12-31-68 (age 65). Mrs. “Patt” and I leave for East Africa in February on photographing Safari. Want to see what the other “apes” look like.”

HARRY H. STRIMLING reports to us from St. Paul, Minnesota where he is Manager of Wm. Marvy Co., Inc.

A. F. VERRALL reports to us from Nacogdoches, Texas.

MERRILL E. DETERS is at the University of Idaho School of Forestry in Moscow, Idaho. He reports—“Elk and venison in the freezer—bowled a 279 this week. All must be right with the world or is it? One more year to retirement.”

ERNEST J. GEORGE is retired in Mandan, North Dakota. He sends us this information—“No change from that of previous year except that I retired after 46 1/2 years of government service.”

GEORGE M. HALVORSON reports to us from Minneapolis, Minnesota where he is now retired from the Western Electric Co., Inc.

DAYTON P. KIRKHAM is retired at Sun City, Arizona. He says—“Returned from Dacca, East Pakistan on April 30 and retired. Had a little over 40 years in Forestry work, with about 21 years of these overseas—in South Korea, Japan, Libya, Jordan and the last five years in East Pakistan. My home is now in Sun City Arizona.”

GUSTAF A. LIMSTROM reports to us from San Diego, California where he is retired.

HAROLD F. RATHBUN sends us word from St. Paul, Minnesota where he is a Research Associate for the University of Minnesota School of Forestry.

PAUL D. RUDOLF is an “Expert” for the U.S. Forest Service and also a Lecturer for the School of Forestry in St. Paul, Minnesota. He writes—“Continue on part time basis for U.S. Forest Service, working on revision of Woody-Plant Seed Manual and part time as Lecturer for School of Forestry (Itasca Park and Cloquet. Continued serving as neighborhood commissioner for Boy Scouts. Lectures at University of Toronto in spring. Major event of the year was the arrival of our first grandson in August.”

J. NEIL VAN ALSTINE reports to us from Center Conway, New Hampshire where he is retired.

WALDEMAR ANDERSON reports to us from St. Paul, Minnesota.
Design, materials and production

Good design, selected materials, skilled craftsmanship and a modern factory devoted solely to the manufacturing of fine windows combine to make Andersen windows far more weather-tight than required by industry standards.

Wood a natural insulator

Wood is a natural insulator, nearly 1800 times as efficient as aluminum in reducing heat transfer by conduction, further reducing heating and cooling costs.

Wood is one of the best known and most durable of construction materials. Modern technological advances in treating allow even greater freedom for the use of wood in today's designing for better and more enjoyable living.

The natural warmth, beauty and character of wood adds to design freedom and complements any desired decor.

ANDERSEN CORPORATION • BAYPORT, MINNESOTA
CARL E. BENSON reports to us from Russellville, Arkansas where he is the Director of the School of Forestry.

JOHN R. NEETZEL sends us word from St. Paul, Minnesota where he is with the University of Minnesota School of Forestry.

THADDEUS PARR is Principal Research Scientist with the Chemagro Corporation at Kansas City, Missouri. He states — “Change of title from “Mgr. Field Research” to “Principal Research Scientist.”

LAWRENCE B. RITTER is a Consulting Forester in St. Paul, Minnesota. He writes — “My principal activity as Contract Employee, Dept. of Administration, State of Minnesota, is appraising and Buying Game and Fish Lands with Natural Resource Funds. I am also a Registered Representative for Robert L. Smith Co., Investment Securities.”

RALPH DANFORD THOMAS, JR. is an Insurance Salesman for the David Agency in Minneapolis, Minnesota. He says — “Greetings to all my good friends at the School of Forestry and alumni wherever they may be! Feel like I ought to return to school to be up-dated on Forestry matters. This time I’ll go to the University of Hawaii as my thinning blood rebels against Minnesota winters that I used to love so much. Especially snowshoeing on five feet of snow in 20° below weather in E.C.W. work in 1934!”

DAVID M. WILLIAMS reports to us from Redding, California where he is a Logging Supervisor for the U.S. Plywood Co.

1930

CARL E. BENSON reports to us from Russellville, Arkansas where he is a Forester at the Ozark-St. Francis National Forest (USFS).

WILLIAM H. BRENER reports to us from Wisconsin Rapids, Wisconsin where he is Restorestation Supervisor for the Wisconsin Department of Natural Resources.

RALPH W. LORENZ is a Professor of Forestry at the University of Illinois in Urbana, Illinois. He writes — “Hi! I enjoyed the Minn. breakfast in Philadelphia at the National SAF meeting in October. I am still teaching Dendrology and Silviculture at the University of Illinois and Director of our Forestry Summer Camp at Blackduck, Minnesota. Best wishes.” And the same to you, Ralph, stop by at old Green Hall!

T. EWALD MAKI reports to us from Raleigh, North Carolina where he is Schenck Professor and Head of the Dept. of Forestry at the North Carolina State University.

HAROLD L. MITCHELL sends us word from Madison, Wisconsin where he is Chief, Division of Wood Quality Research at the Forest Products Laboratory (USFS).

GEORGE T. OLSON reports to us from College Station, Texas where he is Staff Forester with the Texas A & M University Forestry Service.

HUGO J. PAWEL reports to us from Arbovale, West Virginia where he is Vice President of the Mower Lumber Company.

ARYID TESAKER reports to us from Beulah, Michigan where he is with the Soil Conservation Service.

RICHARD WITTENKAMP is Director-Owner of Red Pine Camp in Minocqua, Wisconsin. He states — “Same as last year!”

1931

ELDOR N. BJORGUM reports to us from Oak Harbor, Washington where he is Director of Civilian Personnel at the Naval Air Station.

JOHN K. CHILDs reports to us from St. Paul, Minnesota where he is a Section Supervisor at the Division of Lands and Forestry, Minn. Conservation Dept.

MAURICE W. DAY sends us word from Sault Ste. Marie where he is with the Dunbar Experiment Station.

FRANK DOLENCE is a Mining Engineer for the Division of Waters, Soils and Minerals in Hibbing, Minnesota. He says — “Married a Bemidji Nurse in 1931, had two sons now both married and on their own. Jerry—Geologist in Aurora, Minnesota and Jon—Orthodontist in Hibbing.”

SAMUEL A. FRISBY sends us word from Natchez, Mississippi where he is a Logging Engineer with the International Paper Company.

BERNARD H. HUCKENPAHLER reports to us from Washington, D.C. where he is with the Chief Branch of International Training and Technical Support for the Forest Service USDA.

ROBLEY W. HUNT sends us word from Maple Plain, Minnesota where he is a Forester and Wildlife Manager for the Hennepin County Park Reserve District.

HENRY F. KEEHN reports to us from Lewisville, Minnesota where he is retired.

CARL L. LIBBERG sends us word from Minneapolis, Minnesota where he is a Mechanical Contractor.

PAUL J. ST. AMANT reports to us from Milwaukee, Wisconsin where he is retired from the U.S.F.S.

ARTHUR E. SCHNEIDER is Vice President and General Manager of Cordex Ranches, Inc., in Goodyear, Arizona. He writes — “Youngest son now married, graduated from college and on his first full-time job. It was a pleasure to see and talk with old friends and classmate Paul St. Amant and his wife in December, 1968. They were visiting their son and his family in Phoenix. Old compatriot of Korean forestry days Dayton P. Kirkham, most recently from East Pakistan, has retired and is now established in Sun City, Arizona, which is not far from here. We have appropriate sessions on occasion.”

JEROME H. STOUTD sends us word from Aberdeen, South Dakota where he is a Wildlife Research Biologist.

1932

HARRY E. ADAMS is President of Harry E. Adams and Assoc., Inc. in St. Paul, Minnesota. He states — “I am a registered Civil Engineer by examination and we engage in municipal engineering — sewers, water, sewage plants, etc.”

JOHN T. CANN reports to us from Hibbing, Minnesota where he is a Mining Engineer for the Hanna Mining Co.

ALEXANDER B. KARKULA reports to us from Minneapolis, Minnesota.

LARRY W. KREFTING is a Wildlife Research Biologist and Research Associate at University of Minnesota School of Forestry. He says — “I am happy to report that 1968 was a very pleasant year for me. The highlight was a 6 week trip to Scandinavia on a project concerned with an exchange of information on the ecology of the moose between North America and Scandinavia. Along with the ground exchanges of information, I showed colored slides on my research experience in Canada, Alaska, and Oslo Royale National Park. About half of my time was spent in Norway, 30 days in Sweden, 4 days in Finland with a 1 day visit to Copenhagen, Denmark. I worked with the top researchers in Scandinavia and had a good look at habitats used by moose, red deer, roe deer, and reindeer. One of the most significant findings was that the change in forest cutting practices which started about 25 years ago was responsible for the population explosion in the moose herds of Norway, Sweden, and Finland where recent annual kills range from 40-45 thousand. Apparently the change from selective cuttings to shelter wood, seed tree, and strip cuttings produces much more food and is still good forestry practice. My son, Wayne, now a CLA student on the main campus served as official photographer — colored slides and movies. The trip was supported by grants from the American-Scandinavian Foundation of New York and the Kelby Foundation of St. Paul. A highlight of the trip was a visit to the Fredrikstad area of Norway where my father came from and attended school.”

ALAN F. LAIDLAW is Assistant State Conservationist with the Soil Conservation Service at St. Paul, Minnesota. He writes — “Certainly enjoyed the NFPA annual fall get-together the other day. Saw lots of old friends there. Keep up the good work on the Peavey.” Thanks, Alan — we’ll try!

NEIL J. MCKENNA is Regional Forester with Kimberly Clark Corp. at Two Harbors, Minnesota. He reports — “No news, I guess, is good news. At any rate, nothing to contribute of interest except best wishes.” And the same to you, Neil it was nice talking with you at the “Loggers Day” last fall.

HERMAN F. OLSON is retired in Custer, Wisconsin. He says — “I am now managing a 240 acre forest and wildlife farm about 10 miles N.E. of Stevens Point, Wisconsin.”
COORDINATED PROGRAMS
with the BUSAN® and BUSPERS® team
of compatible and complementary products provide the
LOWEST COST WAY
to meet pulp and paper mill needs for:
Fresh water treatment
Chip preservation
Pulping aid
Repulping & deinking aid
Pulp washing
Pulp preservation
Additives preservation
Slime control
Pitch control
Scale control
Foam control
Dispersion aid
Retention aid
Drainage aid
Formation aid
Wire life extension
Wet felt conditioning
Coating preservation
Mold-resistant paper
Effluent treatment
STANLEY B. OLSON is Recreation Resource Specialist with the Bureau of Outdoor Recreation (USDI) at Seattle, Washington. He says — "Going on my 37th year in Government Service. Covering SW states on Federal Coordination and Federal land acquisition for recreation purposes. Have crossed paths with a number of U of M grads in my travels with agencies particularly USFS, BLM, BSFW and NPS."

WALTER M. ZILLIGT reports to us from Asheville, North Carolina where he is Director of the Southeastern Forest Experiment Station (USFS).

1933

WILLIAM ACKERKNECHT sends us word from Washington, D.C. where he is Assistant Chief, Division of Wildlife Refuges for the Bureau of Sport Fisheries and Wildlife.

STANLEY J. BUCKMAN is President of Buckman Laboratories, Inc. in Memphis, Tennessee. He writes — "Our activities continue about the same as we have mentioned in previous correspondence. We are serving the pulp and paper industry on about 20 applications starting with treatment of the forest tree seeds, moving along to fresh water treatment, and about 20 other applications in the paper mill, including various phases of effluent treatment. We also have an interesting new ultraviolet light absorber which is being introduced in the plastics industry. It seems to have particularly useful properties in polypropylene and plasticized polyvinyl chloride resins, and we are anticipating an interesting volume of sales from it. Our work in agriculture is still in the developmental stage, but we have three interesting compounds that are being broadly tested by ourselves and the agricultural formulators with whom we are collaborating throughout the world." Thank you once again for your many contributions and assistance to the Gopher Peavey-Alumni News and the School of Forestry — it is very much appreciated.

HARRY T. CALLINAN is a Sales Engineer in Minneapolis, Minnesota. He says, "Son, Thomas is with 1st Marine Div. as 1st Lt. — served in Vietnam and received medal of Merit for action at Danang. Son, Dan, is missionary priest in West Africa for past 7 years. Visited J. Allen Jackson ('32) in Milwaukee last year. Played golf with Lylal Peterson ('31) this summer. He has retired from A.I.D. South America) and lives in Port Charlotte, Florida where we hope to retire in a couple of years."

RALPH H. CHRISTOPHERSON is a Forester at the U.S. Forest Service in Milwaukee, Wisconsin. He writes, "In the Division of Lands handling the non-recreation special uses."

DAVID R. GIBNEY sends us word from Eugene, Oregon where he is a Forest Supervisor at the Williamsette National Forest (USFS).

ARTHUR G. HORN reports to us from Burnsville, Minnesota where he is retired.

LORENZ R. LINDSTROM sends us word from Lakeland, Minnesota.

JOHN M. McMillen reports to us from Madison, Wisconsin where he is a Technologist with the U.S. Forest Products Lab.

DONALD E. PRICE reports to us from Eagle, Colorado where he is a District Ranger at the White River National Forest (USFS).

JOHN A. RUNDGREN sends us word from Missoula, Montana. He writes — "No changes here. However, Audrey and I spent 64 delightful weeks in Scandinavia and Europe proper. This was a return after many years to once familiar country and opportunity to see former classmates, among the latter was Ralph Nelson."

HOWARD B. SMITH is a Forrester for the U.S. Forest Service in Washington, D.C. He sends us this information—"Our official trip this summer to the Superior National Forest was a special pleasure. It was a return after many years to once familiar country and opportunity to see former classmates, among the latter was Ralph Nelson."

1934

FLOYD COLBURN is a retired Extension Forester at Grand Rapids, Minnesota. He writes, "Still beating around up here in the bush breathing that good country air. Have no trouble keeping busy what with guiding the destiny of 100,000 Christmas trees and operating a modest landscaping nursery. They seem to make the years shorter than they used to. Any of you other old grads notice that? Family — one gal sophmore at U. of M., the other a stewardess on American Airlines."

GEORGE A. HERION reports to us from Klickitat, Washington where he is a Forest Manager with the St. Regis Paper Company.

PHILLIP WATTERBERG sends us word from Excelsior, Minnesota where he is in Orcharding.

1935

DONALD D. BALDWIN reports to us from Philadelphia, Pennsylvania where he is with the Krisehime Study Center.

HOWARD L. BROWN sends us word from Milwaukee, Wisconsin where he is with the Lands Division for the U.S. Forest Service.

ROY M. CARTER is a Professor in the Department of Wood and Paper Science at the University of North Carolina School of Forest Resources in Raleigh, North Carolina. He reports, "Grandfather is proud of the 9 pound grandson, Rodger B. Carter, Jr. Who knows — he might be a future Forest Resource Scientist at Minnesota or North Carolina."

ROBERT H. CLARK is a Forestry Manager for the Georgia Pacific Corporation in Foydace, Arkansas. He states — "Son, Charles is enrolled in Forestry, Stephen F. Austin, Nacogdoches, Texas — Sophomore. Son, Jimmie is Lt. in Air Corps — Meteorologist — Peace Air Force Base, Portsmouth, New Hampshire."

ROBERT A. DELLBERG is a State Woodland Conservationist at the Soil Conservation Service in Berkeley, California. He sends us the following information — "Best wishes for another successful issue! Now a granddad twice over — same job as last year." Thanks for those very kind words, Robert.

JACK W. DENSMORE is a State Resource Conservationist for the U.S. Soil Conservation Service at Madison, Wisconsin. He reports — "My wife, Betty, and I took a real vacation last summer — a tour of the British Isles. Naturally, we made several stops to visit with foresters and to enjoy their forests. I was surprised to see how well Sitka Spruce and Douglas Fir are doing in Scotland."

JOHN G. DOBIE sends us word from St. Paul, Minnesota where he is a Research Biologist for the Minnesota Game and Fish Division.

BIRGER W. ELLERTSEN reports to us from Norris, Tennessee where he is Supervisor of the Forest Influences Section for the Tennessee Valley Authority Division of Forestry Development.

HENRY L. HANSEN reports to us from St. Paul, Minnesota where he is a Professor at the University of Minnesota School of Forestry.

ARTHUR L. HAWKINSON reports to us from Minneapolis, Minnesota where he is a Builder.

ONNI O. KOSKI reports to us from International Falls, Minnesota where he is an Insurance Agent and Income Tax Consultant.

WILFRED H. LAUER is owner of W. H. lauer, Inc., in Winona, Minnesota. He says — "This seems to have been the year of the "big winter," with Minnesota handing out a combination of all the winter pleasures for which it is famous with a few extra frills thrown in for good measure. Those who were beginning to think that Minnesota and Florida winter weather were so similar as to make southern winter vacations unnecessary have probably changed their minds by this spring. Families seem to survive in spite of everything, Sons-in-law return from Korea and Vietnam and daughters and grandchildren reunite with them and move on to new horizons.

(namely: Fort Carson, Colorado). What more appropriate place to enjoy both winter and summer outdoor recreation in the very shadow of Pike's Peak! The grandmother and grandfather might even find it possible to combine a trailer vacation with a visit to both families this summer. How about that?"

DONALD B. LYNCH reports to us from Pine Bluff, Arkansas where he is with Joe E. Seagram and Sons, Inc.

ROBERT W. MERZ is the Assistant Director of the North Central Forest Experiment Station (USFS) at St. Paul, Minnesota. He says — "After 22 years away from my home state, Mrs. Merz and I enjoyed the past year back in this fine climate. It has also been a pleasure to be able to attend alumni get-togethers and renew old acquaintanceships."

FRANCIS I. MOORE is Vice President of the M. J. Salisbury Co. at Grand Rapids, Minnesota. He states — "Just greeted our third grand-son. The first grandsons were twin boys. Will fly to Manitoba in pursuit of pulpwood next week with Mike Latimer. Our daughter, Mureen, will start college in September."

LINCOLN A. MUELLER is in charge of Forest Products Utilization Resources with the Rocky Mt. Forest and Range Experiment Station (USFS) at Fort Collins, Colorado. He writes — "Find the Peavey and Alum-News increasingly valuable and enjoyable in keeping tab on old friends and ass. Peavey. Repeal that more of the "Old Grads" don't respond." So do we, Lincoln, but we'll keep trying!

NORMAN G. NELSON reports to us from Milwaukee, Wisconsin where he is Branch Chief, Timber Sales, Division of Timber Management (USFS).

EDWARD PANEK sends us word from Madison, Wisconsin.

WILLIAM L. WEBB reports to us from Syracuse, New York where he is with the College of Forestry.

1936

EARL J. ADAMS reports to us from St. Paul, Minnesota where he is with the Minnesota Conservation Department, Division of Lands and Forestry. Thanks for your very willing help and cooperation on the MFSA Executive Board, Earl, it is very much appreciated!

GEORGE B. AMIDON reports to us from International Falls, Minnesota where he is General Manager - Midwestern Woodlands, for the Boise Cascade Corporation.

HERMAN F. ARLE is in Weed Investigations for the U.S. Department of Agriculture in Phoenix, Arizona. He reports — "I have now put in 21 summers in the Phoenix area and am glad when mid-September and the accompanying drop in temperature arrives. I'm still with the U.S. Dept. of Agriculture, working with herbicides on agronomic crops. Enjoy slipping off to the White Mountains for trout fishing or down to the Gulf of California for a try at the salt water fish."

EDWIN J. BENDER sends us word from Chaska, Minnesota where he is retired from the Soil Conservation Service.

JAMES M. CASE sends us word from Fort Worth, Texas where he is a Regional Forester at the Soil Conservation Service.

THOMAS R. EVANS is a Game Supervisor with Illinois Natural History Survey and Education with the Northern Region, USDA - Forest Service at Missoula, Montana. He writes — "Still fortunate to be stationed in the West. One son married, passed the CPA exam after graduating last spring and is now in Law School. Youngest son entered U of Montana this fall. Daughter is teaching at Eastern Montana College in Billings. On a trip to Colorado this summer had an opportunity to visit briefly with Morley Brandbarg whom I hadn't seen since 1937. Had a good visit with Frank Kaufert at A.F.A. meeting in Las Vegas last Xmas (1967)."

RAYMOND A. JENSEN reports to us from Cloquet, Minnesota where he is an Associate Scientist with the Cloquet Forest Research Center.

THEODORE O. MYREN is Civil Defense Director for the St. Croix Co. in Hudson, Wisconsin. He states — "Have retired from U.S. Soil Conservation Service."

SAM S. POIRIER is with the U.S. Forest Service at the Rogue River National Forest in Medford, Oregon. He says — "Not much news. Completed 30 years with the Forest Service (including 6 years Army Engineers) but have no definite retirement plans. Son, Bob, and daughter, Sandra, continue in hotel and airline work, respectively, as reported last year."

HAROLD D. ROUSSEPOULOS sends us word from St. Paul, Minnesota where he is a Production Engineer for the 3M Company. It has been our real pleasure to have your son, Peter, around these past three years — you can be very proud of him!

THOMAS A. SCHRADER sends us word from Boston, Massachusetts where he is Asst. Regional Director at the Bureau of Sports, Fisheries and Wildlife.

RICHARD G. SMITH reports to us from Columbia, Missouri where he is a Professor of Forestry at the University of Missouri.

F. MacRAE THOMSON is General Manager with the Peninsula Plywood Corp. at Port Angeles, Washington. He writes — "Just finished a busy year with our company establishing a sawmill and veneer slicing equipment to go with our plywood plant. Also was an unsuccessful year in trying to establish a veneer mill in Alaska, and an unsuccessful year in trying to keep our pubs legs at home for domestic manufacture. Hope to spend a few days in my home town, Duluth, in January."

1937

EDWIN R. ANDERSON reports to us from Maronisco, Michigan where he is with the Kimberly Clark Corporation.

Dwight B. Belesh reports to us from Ames, Iowa where he is a Professor for the Department of Forestry, Iowa State University.

VINCENT W. BOUSQUET reports to us from Cosmopolis, Washington where he is an Area Manager for the Weyerhaeuser Company.

ROY W. EGGLE reports to us from Norway, Michigan where he is with the Kimberly-Clark Corporation.

E. ARNOLD HANSON is Assistant Chief of the Division of Information and Education with the Northern Region, USDA - Forest Service at Missoula, Montana. He writes — "Still fortunate to be stationed in the West. One son married, passed the CPA exam after graduating last spring and is now in Law School. Youngest son entered U of Montana this fall. Daughter is teaching at Eastern Montana College in Billings. On a trip to Colorado this summer had an opportunity to visit briefly with Morley Brandbarg whom I hadn't seen since 1937. Had a good visit with Frank Kaufert at A.F.A. meeting in Las Vegas last Xmas (1967)."

RAYMOND A. JENSEN reports to us from Cloquet, Minnesota where he is an Associate Scientist with the Cloquet Forest Research Center.

THEODORE O. MYREN is Civil Defense Director for the St. Croix Co. in Hudson, Wisconsin. He states — "Have retired from U.S. Soil Conservation Service."

SAM S. POIRIER is with the U.S. Forest Service at the Rogue River National Forest in Medford, Oregon. He says — "Not much news. Completed 30 years with the Forest Service (including 6 years Army Engineers) but have no definite retirement plans. Son, Bob, and daughter, Sandra, continue in hotel and airline work, respectively, as reported last year."

HAROLD D. ROUSSEPOULOS sends us word from St. Paul, Minnesota where he is a Production Engineer for the 3M Company. It has been our real pleasure to have your son, Peter, around these past three years — you can be very proud of him!

THOMAS A. SCHRADER sends us word from Boston, Massachusetts where he is Asst. Regional Director at the Bureau of Sports, Fisheries and Wildlife.

He writes — "Just finished a busy year with our company establishing a sawmill and veneer slicing equipment to go with our plywood plant. Also was an unsuccessful year in trying to establish a veneer mill in Alaska, and an unsuccessful year in trying to keep our pubs legs at home for domestic manufacture. Hope to spend a few days in my home town, Duluth, in January."

1938

ALLEN R. BATESON reports to us from Norris, Tennessee where he is a Staff Forester for the Tennessee Valley Authority.

JAMES A. BUSSEY is a Soil Conservationist in Ashland, Wisconsin. He reports — "We have an A.F.S. foreign exchange student living with us this year. Her name is Anne Lise Curtet, and her home is in Switzerland."
CHAPMAN CHEMICALS  

preserve the value of forest products

PERMATOX 100 Control stain, mold and decay in hardwood or softwood lumber during air seasoning. Cost only a few cents per thousand board feet. Dip or spray.

AND PERMATOX 10-S

MILLBRITE Emulsion of waxes, resins and a penta-derived toxicant which gives dry finished lumber water repellency and weather protection from mill to job site. Either clear or pigmented for merchandising value.

AMBRITE Low-cost log spray reduces losses from degrade lumber due to damage by insects, stain or mold. Equally effective on hardwood and softwood. Permits safe stockpiling of logs.

AMBROCIDE Effective insect control chemical for use on logs and lumber. Used where stain is no problem or mixed with Permatox 10-S for complete protection against insects, sap stain and mold.

SEALTITE 60 Sharply reduces losses caused by end-checking in logs and lumber by controlling the drying rate and thereby reducing internal stresses. Available in brilliant colors for identification of quality lumber.

PENTAT-WR Water repellent preservative for control of checking, swelling, warping, mold, mildew, insect attack and rot in lumber. Clean and paintable. Widely used by millwork plants.

POL-NU Patented formulation of pentachlorophenol for ground-line treatment of standing poles. Replaces natural loss of preservative from original treatment and adds years of life.

PENTA PRESERVATIVE Protects wood from decay and insects. Will not evaporate or leach out. The clean, modern wood preservative widely used wherever wood is exposed to damage by weather or insect attack.

Write for literature

CHAPMAN CHEMICAL COMPANY
Memphis, Tennessee 38109
CARL R. DION reports to us from Seattle, Washington, where he is with Delaittre-Dixon Company.

WILLIAM J. EMERSON sends us word from Milwaukee, Wisconsin where he is Branch Chief of the Division of Fire Control for the U.S. Forest Service.

JOSEPH P. FALBO reports to us from Hibbing, Minnesota where he is a Forester for the IRRR Dep't., State of Minnesota.

JOSEPH GIERTSON reports to us from Wenatchee, Washington.

RICHARD H. GRUEHAGEN reports to us from Blacksburg, Virginia where he is with the Virginia Polytechnic Institute.

PHILIP C. HAMM reports to us from St. Louis, Missouri where he is a Manager in Research and Development with the Monsanto Co. Agricultural Division.

ROBERT L. HILLER reports to us from Rosemont, Illinois where he is a Regional Manager in the Resins Dept. of American Cyanimid Co.

DAVID B. KING sends us word from St. Paul, Minnesota where he is Director of the North Central Forest Experiment Station (USFS) with the U.S. Department of Agriculture. And thanks for your help on the College of AFHE Alumni Ass'n, it is very much appreciated!

DANIEL L. BENJAMIN is a Professor of Entomology at the University of Wisconsin in Madison, Wisconsin. He sends us this information: "Presented paper on 'Insect problems on tea in East Africa,' at XIII International Congress of Entomology in Moscow, USSR. I am even more convinced that the U.S. is the most advanced country on earth, and despite some of our current growing pains, we have the best there is - let us work toward keeping it the best!"

GEOGE III. KONZEUS is a District Ranger at the Ochoco National Forest in Prineville, Oregon. He reports: "Still holding forth on the Ochoco National Forest. Enjoyed Alumni Breakfast at SAF Meeting last year in Philadelphia. Will complete term of office in 1969 as Section Chairman, Columbia River Section, SAF. A lot of work but a privilege to do so. The Peavey gets better with each passing year. Keep up the good work, we alums appreciate it." Thanks for those very kind words, George - and we'll try!

EARL O. DAHL reports to us from White Plains, New York where he is a Captain-Pilot with the American Can Co. at the Westchester County Airport.

HARRY J. DAVIS reports to us from San Francisco, California where he is Chief Right-of-Way Branch, Division of Lands, U.S. Forest Service.

ROBERT B. DUNNE sends us word from Milwaukee, Wisconsin where he is a Postal Service Officer.

JAMES G. FOLKESOAD reports us word from Glenwood Springs, Colorado where he is a Forester Supervisor with the White River National Forest (USFS).

GEORGE E. GASTFORD is a Townsite Trustee with BLM in Anchorage, Alaska. He writes: "First daughter blessed us with the cutest granddaughter we have ever seen. We may be slightly prejudiced. Second daughter graduated from college in June and is now in the Peace Corps in Bolivia working on various community projects. The last to fly the coop will be son who will be heading for college next fall. I am still in the townsite planning program with BLM in Anchorage. You have something to shoot at to beat last year's Peavey. Keep up the good work!" We'll do our very best, George - and thanks!

RICHARD HULTENGREN sends us word from St. Paul, Minnesota where he is with the Division of Lands and Forestry in the Conservation Dept. I sure miss you on the MFAA Exec. Board, Dick.

PHIL HUNTLEY is in the Administrative Services with the Kimberly Clark Corp. at Norivay, Michigan. He says: "My daughter, Jennifer, graduated from the U. of Michigan in December '68 with a major in Linguistics. My boss retired in June '68 so I have more work to do."

CHARLES E. HUTCHINSON is an Accountant with the Sacramento County Auditor-Controllers Office at Sacramento, California. He says: "Thanks for giving me a half page last year. Nothing new with me, let someone else have the feature spot this year." We sure enjoyed that "half-page," Charles - we look forward to letters like that from our alumni!

FRED L. JACOBSON sends us word from Boston, Massachusetts where he is the Assistant Regional Director, Region 5, with the Bureau of Sport Fisheries and Wildlife.

HERBERT G. JOHNSON reports to us from St. Paul, Minnesota where he is an Extension Plant Pathologist at the University of Minnesota.

GOODMAN K. LARSON is a Personnel Officer with the U.S. Fish and Wildlife Service in Minneapolis, Minnesota. He states: "The Regional Office Bureau of Sport Fisheries and Wildlife will move to the 6th floor of New Federal Building, Fort Snelling on about April 1st."

GLAS C. OLSON sends us word from Washington, D.C. where he is Chief, Branch of Soils and Geology, Division of Watershed Management, U.S.F.S.

DONALD H. OVERHOLT reports to us from Spring Valley, Minnesota where he is a Retail Lumber Contractor.

SCOTT S. PAULEY reports to us from St. Paul, Minnesota, where he is a Professor at the University of Minnesota School of Forestry.

Wildlife.

Our teachers have learned to serve as Superintendent of Schools in this beautiful area of the Sierras. Problems are probably the same as in other regions except on a smaller and less overwhelming scale. Our students have learned how to apply pressure and negotiate, but our standouts have not yet turned to vandalism or riots. Our family is all hale and hearty. I am learning how to get along with my new grandson—he is six months old.

CARL B. SCHOLBERG reports to us from Sierraville, California where he is a District Ranger. U.S.F.S.

FRANK E. TUCKER reports to us from Redding, California where he is a Forester for the U.S. Forest Service.

DAVID B. VESALL sends us word from St. Paul, Minnesota where he is a Supervisor of Game and Fish with the Minnesota Department of Conservation.

CHARLES H. WHITE is Executive Vice President of the Grand Rapids Varnish Corporation in Lexington, North Carolina. He says—"During the past 11 years I have been associated with chemical coating specializing in furniture finishes and, therefore, closely connected with lumber and veneer. The family hasn’t changed except for age. Lorraine and son Chip are at home. Daughter Marilyn is married and also living in Lexington. We have a six year old granddaughter and a thirteen year old son which always makes life interesting."

ALDEN L. WOULTEE a Forester for the U.S. Forest Service at San Francisco, California. He writes—"Minnesota is pretty well represented here in California. For example, on the 3rd floor of the Appraiser's Building here in San Francisco we have: Bruce Roetting and Jess Suhr '59, Ted Kubitz '57, Harry Davis '59, and yours truly '69." Were proud of our "Alumni" Keep up the good work!

1940

RICHARD W. AHERN is Deputy Director of the U.S. Immigration and Naturalization Service in Cleveland, Ohio. He reports—"Adopted a 4-year old French-Canadian boy from Quebec raising our brood to 6 but they are growing up fast. Cleveland Browns look like Champions now." (Ed. note.—after the Vikings?)

ELDON A. BEHR is a Professor at Michigan State University Forestry Department in East Lansing, Michigan. He writes—"I am now a member of the Forestry Department, the Forest Products Department having been dissolved in 1958 at Michigan State University. A sabbatical leave was spent at the Forest Products Laboratory in Madison, Wisconsin where I worked with several Minnesota people.

ROBERT G. BINGER sends us word from St. Paul, Minnesota where he is Vice President, Resources and Development for the Northern Pacific Railway Co. It was nice chatting with you at the SAF meeting at Duluth, Bob—stop by Green Hall and visit with us.

CLARENCE B. BUCKMAN reports to us from St. Paul, Minnesota where he is Director of the Minnesota Division of Lands and Forestry. It has been my distinct pleasure working with you on the MFRA Executive Board over these past years, Clarence—Thank you for making my job easier!

NORMAN H. CONRAD reports to us from Milwaukee, Wisconsin where he is a Regional Sign Coordinator for the U.S. Forest Service.

ROSS DONOHOWER sends us word from Wausau, Wisconsin.

CLARENCE T. EGGEN is an Area Forester with the USDA Bureau of Indian Affairs in Minneapolis, Minnesota. He states—"An outstanding job on the 1968 Peavey." Thanks, Clarence—and that "Fish Fry" at the Loggers Day at Cloquet was tremendous!

DONALD N. GREGG reports to us from Minneapolis, Minnesota where he is a Realty Specialist for the Bureau of Sport Fisheries and Wildlife.

ROSSALIUS HANSON is a Flyway Biologist for the Bureau of Sport Fisheries and Wildlife in Minneapolis, Minnesota. He states—"I'm still 'Ye Ode Ducke Counter' (as my small fry call me) and I mean old. Made 50 years in 1968. Of which 28 years behind pounding engines on a "throttle jockie." I'm still doubling in brass on wearing two hats as Chief pilot for the Bureau's Region III. I think I'm also getting a little deaf; sometimes that's an advantage when your wife or secretary are making loud noises at you. One daughter married, making me also "Grandpa," one daughter at Duke University, the boy a senior in high school and one daughter in junior high. Best regards and keep up the good work." Thanks, Ross—and the same to you!

ROBERT G. HELGESON is with the St. Regis Paper Co. at Tacoma, Washington. He reports—"I'm still wrestling with tax problems at the local and federal level. Hope the trees keep growing faster than the taxes."

RICHARD L. KNOX is with the U.S. Forest Service in Washington, D.C. He says—"Seasons Greetings and best of New Year's to you, Ken, and all of the staff of the School of Forestry and Gopher Peavey—Alumni News."

CHARLES C. LARSON sends us word from Syracuse, New York where he is Director of the Office of International Forestry with the State University College of Forestry.

JAMES H. MICHELS reports to us from Susanville, California where he is with the U.S. Forest Service.

JOHN G. MILES sends us word from Eureka, California where he is a Consulting Forester.

RALPH K. NELSON reports to us from Cloquet, Minnesota where he is with the Conwed Corporation.

GEORGE E. OLSON is Manager Marketing Research with the Dow Chemical Company at Midland, Michigan. He writes—"I don't see many foresters in my work as a Marketing Research Manager but I find my wood technology background valuable when working on problems in the Construction Industry. Our oldest boy, Jay, is a Freshman at Albion College, Albion, Michigan. The others, Sarah, Priscilla, Ephraim, Thomas and Michael are all in the Midland Public Schools."

EDWARD A. PATTON reports to us from Pella, Iowa where he is Quality Control Manager for the Rolscreen Company.

ROBERT RHEINBERGER reports to us from Eugene, Oregon where he is in Timber Valuation for the U.S. Plywood-Champ Papers.

ANTHONY E. SQUALLACE is a Project Leader for the Southeastern Forest Experiment Station (USFS) in Olustee, Florida. He says—"All is well with us. Lake City is on your route to the SAF meeting in Miami next year, so stop in and visit!"

MAURICE J. STEENSLAND reports to us from Dothan, Alabama where he is a Registered Land Surveyor.

JOHN E. SWEENEY reports to us from St. Paul, Minnesota where he is Building Superintendent for the St. Paul Ramsey Hospital.

WILLARD E. WEST reports to us from St. Paul, Minnesota where he is a Staff Forester with the Division of Lands and Forestry for the Minnesota Dept. of Conservation.

1941

ROBERT T. BILSTEIN reports to us from Sheffield, Alaska where he is an Industrial Engineer for the Union Carbide Corporation.

AUGUST E. BLOCK is a District Ranger for the U.S. Forest Service in White Cloud, Michigan. He writes—"Not much change in family or job since last year. Daughter, Linda, is a Junior at Central Michigan University. Son, Bruce, will graduate from high school in the spring, and has been accepted for next fall's Freshman class at the University of Michigan. Daughter, Patti, is in the 6th grade. Attended the Michigan-Minnesota football game at Ann Arbor this Fall. Can't say that any of the Minnesota grads approved of the end result. I always enjoy receiving the "Peavey" and am looking forward to this year's issue. Hope the little bit "extra" on the enclosed check will help to keep the Peavey operating in the black." Thanks for the "extra" donation, we very much appreciate it, Gus!
JOSEPH M. APP sends us word from Two Harbors, Minnesota where he is an Assistant Staff Forester with the Division of Lands and Forestry. Thanks for your very good work on the MFRA Executive Board, Bill—it has been very much appreciated!

THOMAS A. KLICH is a Fish Manager with the Wisconsin Department of Natural Resources at Black River Falls, Wisconsin. He reports—"Project leader for the surface waters inventory of lakes and streams located within each of the present 15 county West Central Area of Wisconsin. Also involved in lake and stream use planning.

Older son married in June, 1968 and is in architecture. Younger son has completed a chef's course and is presently working in Minnesota, a suburb of Madison, Wis. He is getting married in Dec., 1968, shortly after Christmas."

MIKE J. LATIMER sends us word from Grand Rapids, Minnesota where he is the Chief Forester, for the Blandin Paper Company. We sure do enjoy your visits to Green Hall, Mike.

DERWOOD F. LUDTKE reports to us from San Francisco, California where he is a Navigator for United Air Lines.

HOWARD OSMUNDSON reports to us from Huntley, Montana.

TOM PARTRIDGE is Owner of the Cooper Concrete & Coal Company at Newton, Iowa. He writes—"My family and I have always enjoyed the summer months at our cabin in Northern Minnesota, but now snowmobiling makes winter fun too. In between, I'm in the ready-mix business in Iowa. So as not to leave the field of forestry entirely my brothers and I have a lumber yard in Nevada, Iowa, which is managed by brother Leonard, Forestry Class of '52."

RANDALL J. PEAVEY reports to us from Chehalis, Washington where he is a Land Use Supervisor with the Weyerhaeuser Company.

EDWARD F. REXER reports to us from Hopkins, Minnesota where he is Assistant Director of Research for the Honeywell Inc.

SEDGWICK C. ROGERS reports to us from Neenah, Wisconsin where he is a Research Chemist for the Kimberly Clark Corporation.

JOHN E. WISHART is Assistant Manager of Georgia-Pacific's Cross- sett Forestry Division in Crosssett, Arkansas. He says—"On 1 January 1968 I was promoted from Drew Area Forester to Assistant Manager of F-P's Crosssett Forestry Division. O-P Crosssett Forestry now has 1,000,000+ acres in 6 locations in three states."

NORBERT A. ZAMOR reports to us from Kearny, New Jersey where he is with the Western Electric Company.

1942

JOSEPH M. APP sends us word from Two Harbors, Minnesota where he is with the U.S. Forest Service.

IRVING MESSY reports to us from Washburn, Wisconsin.

GERALD J. O'NEIL reports to us from Rapid City, South Dakota where he is a Forester with the Black Hills Power and Light Company.

HOWARD A. STIEHM reports to us from Colorado Springs, Colorado where he is a Public Relations Officer for the Game, Fish and Parks Division.

1943

HARVEY E. DJERF is a Science Teacher at Golden Valley Middle School in Golden Valley, Minnesota. He states—"Enjoying my 7th year of teaching. Only have 4½ miles to go each day. Family now has 3 boys and 2 girls. Had a nice trip to D.C. this spring—at Natl. Science Teachers Convention. Left Washington on Tuesday. On Thursday Dr. Martin Luther King was shot. Wash., D.C. then became a battleground. Missed it by 2 days. See Dick Myshak, '53, who works nearby. See Joe App '42 each summer up at Two Harbors."

DAVID W. FRENCH sends us word from St. Paul, Minnesota where he is a Professor at the University of Minnesota Department of Plant Pathology.

1944

WILLIAM D. HANAY sends us word from Minneapolis, Minnesota where he is Owner of the William D. Hanney Insurance Agency.

GORDON C. MAXSON sends us word from San Leandro, California where he is an Insurance Agency Owner.

LOWELL J. OSWALD reports to us from St. Paul Park, Minnesota where he is General Manager Forestry Enterprises Division with the Chapman Chemical Co.

ROBERT F. NELSON sends us word from St. Paul, Minnesota where he is with the Ramsey County Probation Dept.

1946

VICTOR H. CLAUSEN sends us word from Seattle, Washington where he is Planning Director of the Simpson Timber Company.

ERNEST J. GERHART reports to us from Columbus, Ohio where he is an Executive Assistant for the Ohio Department of Natural Resources.

1947

RALPH L. ANDERSON reports to us from St. Paul, Minnesota where he is a Project Leader in Conifer Disease Research at the North Central Forest Experiment Station (USFS).

ROBERT W. BAUCK reports to us from Calgary Alberta Canada where he is with the Bell Poie Co. Ltd. We enjoy having your daughter, Beth, with us, Bob — and we enjoyed your visit this past winter quarter.

GLENN H. DEITSCHMAN is a Research Forester for Intermountain Forest and Range Experiment Station (USFS) at Moscow, Idaho. He states—"Outside interests now include the duties of secretary of the Northwest Scientific Association, one of the oldest regional scientific organizations in the country. It is an enlightening experience."

GUNNAR C. HAUG reports to us from Kongsvær, Norway, where he is Rektor (Director) of the State School of Forestry. Good to hear from you, Gunnar!

RUSSSELL V. JONGEWARD reports to us from Little Falls, Minnesota, where he is a District Conservationist, with the Soil Conservation Service.

RALPH W. LAW sends us word from W. Monroe, Louisiana where he is Director of Woodlands for Olinkraft.

RICHARD M. MARDEN is a Forest Products Technologist with the North Central Forest Experiment Station (USFS) at Duluth, Minnesota. He reports—"In our fourth winter at Duluth. We must really be natives since we are enjoying the snow and long winters. Karen graduates from the College of St. Scholastics, June '69, and plans to teach Phy. Ed. somewhere in Florida. Guess we can't classify her as a native. Mike will start at UMD next fall. He has his sight set on Oceanography. We enjoyed a 6 week camping trip this summer through the west and southwest. The best part of the trip was our visits with old friends—Walt Fillmore, '47, and Les Hendry, '47, at Denver, Colo.; Gordon Maxson, '43, San Leandro, Calif.; John Jones, '55, Flagstaff, Ariz.; Charlie Schlesinger, '47, Custer, S.D.

We enjoyed visiting with you and Anita at the recent SAF meeting at Duluth, Dick.

EDWIN W. MORGAN is Professor of Forest Science with the Colorado State University Department of Forest and Wood Sciences at Fort Collins, Colorado. He says—"Spent the summer at the Harvard University Forest in Mass. Enjoyed a brief visit to Green Hall and to Lake Itasca enroute. Enjoyed your visit to Green Hall too, Ed!

JALMER E. ROLPH reports to us from Asheville, North Carolina.
HOWARD E. OLSON is with the Sonford Products Corporation at Minneapolis, Minnesota. He writes—"Everything with me is going along very good. I am enjoying serving as Regional Board Member of the Forest Products Research Society and also as a member of the Board of Directors of the American Wood Preservers Institute, both are most interesting and rewarding."

VICTOR ROTHERING is a Real Estate Salesman for the D. C. Bell Co. in Minnetonka, Minnesota. He states—"Wife and three children. Member of the National Board of Directors, Izaak Walton League of America and also member of the Minneapolis Board of Realtors."

1948

JOHN A. ZIVNUSKA sends us word from Berkeley, California where he is Dean of the School of Forestry and Conservation at the University of California.

CLIFFORD AHLGREN is the Director of the Quetico-Superior Wilderness Research Center in Duluth, Minnesota. He writes—"Presented a paper on breeding for resistance to white pine blister rust at the First International Congress of Plant Pathology in London, England in July. Also visited the Forest Research Institute in Helsinki on the return trip. The family accompanied me on the trip and all enjoyed themselves thoroughly." We enjoy your visits to Green Hall, Cliff.

JOHN R. BERGERON sends us word from St. Paul, Minnesota where he is a Sales Representative for the American Plywood Corporation.

JOSEPH CHERN is in Packaging Research at the U.S. Forest Products Laboratory in Madison, Wisconsin. He says—"Working on shipping sack research in spare time. Have almost completed building third house. It was surely nice to visit with Ken Winsness at Green Hall and also to be able to go through the forest products building. Also was nice meeting Merle Meyer near Como Greenhouse." We enjoyed visiting with you, Joe—come back soon!

PAUL E. COLLINS sends us word from Brookings, South Dakota where he is an Associate Forester at the South Dakota State University Department of Horticulture-Forestry.

AL E. EHLY is Director of Bureau Parks and Recreation in Madison, Wisconsin. He says—"Thank you! It has been my pleasure—and we’re getting that questionnaire out yet!"

HERBERT L. FINCH sends us word from St. Louis Park, Minnesota where he is a Plant Manager with the Republic Creosoting Company. We miss you at the MFAA Banquets, Herb!

MIRON L. HEINSELMAN reports to us from St. Paul, Minnesota where he is the Principal Plant (Forest) Ecologist with the North Central Forest Experiment Station (USFS).

ROBERT S. JORGENSEN sends us word from Minneapolis, Minnesota where he is Supervisor of the Division of Realty for the Bureau of Sport Fisheries and Wildlife. This past year on the MFAA Executive Board has been really interesting. Bob—and I owe you a large "Thank you!" It has been my pleasure—and we’ll get that questionnaire out yet!

J. MARVIN KITTELSON is a Chief Forester for the International Paper Co. in Longview, Washington.

JAMES M. LINNE reports to us from Billings, Montana where he is Chief of the Division Resource Program Mgmt. With the U.S. Bureau of Land Management.

EARL M. OSBORNE sends us word from Hudson, Wisconsin where he is Manager of the Arrow Bid. Center.

RICHARD L. SPENCER sends us word from Martell, California where he is the Personnel Manager of the American Forest Products Corporation.

WILLIAM P. WHEELER is a Professor of Forest Management at the Oregon State University School of Forestry in Corvallis, Oregon. He writes—"Biggest news in the Wheeler household this year was the arrival of a new (and first) grandson in September. Although this requires some adjustment in prospective, we are enjoying him thoroughly. Activities during the summer included a guide trip to Minnesota. Regrettably the short time prevented visiting the School but hope to mend this situation before long. I am still involved in student personnel work, which in addition to teaching two courses and doubting in regeneration research keeps me occupied. Best regards."

WILLIAM H. ZIEMER reports to us from Minneapolis, Minnesota where he is an Estimator, for the American Lbr. Company. Thanks for all of your help on the College of AFHE Alumni Ass’n. (and MFAA). We very much appreciate it!

ROBERT S. JORGENSON sends us word from Minneapolis, Minnesota where he is an Assistant Fire Chief with the Rochester Fire Department.

PAUL HAACK sends us word from Portland, Oregon where he is a Research Forester (Mensurationist) for the Pacific Northwest Forest and Range Experiment Station (USFS).

JOHN F. HALL sends us word from Moose Lake, Minnesota where he is a Recreation Planner with the Department of Conservation.

ALVIN R. HALLGREN sends us word from St. Paul, Minnesota where he is an Assistant Professor at the University of Minnesota School of Forestry.

FRANK D. IRVING reports to us from St. Paul, Minnesota where he is a Professor at the University of Minnesota School of Forestry.

HOWARD B. JOHNSON sends us word from Olympia, Washington where he is an Advisory Account Representative for the IBM Corporation.

DAYTON LARSEN sends us word from Duluth, Minnesota where he is an Area Extension Forester at the University of Minnesota—Duluth.

DON MEYER is a Biology Teacher and Chairman of the Science Department at the Edina High School in Edina, Minnesota. He reports—"Have been promoted to Regional Manager of the Distribution Division of Georgia Pacific with offices in Franklin Park, Illinois. Since I’ve lived just a few miles north of Green Hall all these years this is quite a change for my wife and me."

RICHARD C. NEWMAN is Branch Manager at Minneapolis, Minnesota. He writes—"Have been promoted to Regional Manager of the Distribution Division of Georgia Pacific with offices in Franklin Park, Illinois. Since I’ve lived just a few miles north of Green Hall all these years this is quite a change for my wife and me."

RICHARD E. SCHAEFFER sends us word from Portland, Oregon where he is with the Bonneville Power Admin.

RICHARD E. SCHROEDER reports to us from Portland, Oregon where he is a Forester for the Bureau of Land Management.

EUGENE G. STEINBRENNER is a Forest Soils Unit Leader at the Weyerhaeuser Forestry Research Center in Centralia, Washington. He writes — "Am spending the academic year at Harvard Forest as a Bullard Fellow. Family is with me. We are having a ball visiting the forests of the area."

GERALD J. SULLIVAN is the Itasca County Extension Agent in Grand Rapids, Minnesota. He sends us this information — "The Class of 1949 is well represented in Itasca County. Bill Marshall is Co. Land Commissioner, Bob Amborn is S.C.S. Work Unit Conservationist, Wally Fleming is FFA Supervisor, Gene Jamrock is M.F.S. Timber Manager, and yours truly is Extension Agent. Grand Rapids probably has more foresters per capita than any other town in Minnesota, with the State, Federal county agencies and North Central School, U.S.F.S. Experiment Station, Blandin Paper Co., M.J. Sullivan and others. We are delighted with our operation!"

DAVID V. SWENSON reports to us from Midland, Texas where he is a Geophysical Engineer for Geophysical Service, Inc.

KENNETH E. WINSNESS reports to us from St. Paul, Minnesota where he is Assistant to the Director at the University of Minnesota School of Forestry.

1950

WILLIAM AULTFATHER is a Regional Forester for the U.S. Fish and Wildlife Service in Minneapolis, Minnesota. He sends us this information — "As a member of our MFFA Exec. Board I'm sure not with it! I've been in Washington, D.C. since Sept. 3 on a training assignment. Lots of Management, Systems, and Economics and boy are some of these courses tough! I've been working most recently on a project in recreation for the Forest Service with Bob Prausa (Class of 1951). Larry Neff, Dick Knox, Sid Weitzman, and Bill Ackerman are just a few of the Minnesota people I see around here. I'll also be busy as usual helping to get things together for the annual convention to be held in mid February. I guess my family is growing up without me since I've been batching. The last time I saw Dave he was as tall as his dad. Both Ann and Dave are delighted with this winter in Minnesota as I'm told there is lots of snow for skiing. Mary is still on the faculty at the College of St. Catherine and loves her work. We appreciate your help and cooperation with the MFFA Exec. Board, Bill.

ROBERT E. BERGQUIST sends us word from Spirit Lake, Iowa.

LEDELL BOWEN reports to us from St. Paul, Minnesota.

R. H. BRENDemuEL is a Project Leader, U.S. Forest Service, Research, at the Southeastern Forest Experiment Station in Marianna, Florida. He writes — "After 10 years in Florida have little desire to return to snow and ice. Spent June, 1968 on the St. Paul campus, renewed many acquaintances, and either sweated or showered during one of those abnormal Minnesota summers."

EDWARD M. CHRISTIANSON reports to us from Wabeno, Wisconsin where he is a Forester for the Bureau of Indian Affairs.

MARTIN A. COver reports to us from Cass Lake, Minnesota where he is the Timber Manager at the Wheeler Lumber Bridge Supply Company.

JACK R. EGGAN reports to us from Minneapolis, Minnesota where he is with the Potlatch Forests, Inc. Sales Department. We've missed you at the MFFA Banquets, Jack.

ANTHONY G. GRUBA is a Sales Engineer with the Chapman Chemical Company in Portland, Oregon. He states — "Nothing really new — Still pile miles on for Chapman Chem. Co. Hello to everybody at Green Hall."

JOHN W. HAMILTON is a Forestry Instructor with Lassen College at Susanville, California. He reports — "Florence, Mark, Scott, David and Danny are all well. Flo started out substitute teaching but the teacher never came back. Now she is full time teacher of English and wife. Susanville is kind of off the beaten path but if you ever come out second best at Reno (gambling that is) hitch-hike over for a good cup of coffee. Church, scouts, music lessons, and the job keep us busy. The next few years will be even worse since we are right now planning a new campus and will start building in June '69. We are continually updating our program to provide the best technicians in the country. I had to get a plug in somewhere. Hi to Ken Winsness. And "Hi" to you and yours. John. We might see you this spring!"

WAYNE HANSON sends us word from St. Paul, Minnesota where he is a Staff Forester for the Division of Lands and Forestry. We enjoy your visits to Green Hall, Wayne.

MELVIN S. HOUGEN reports to us from St. Paul, Minnesota where he is Assistant Branch Manager with U.S. Plywood.

OSCAR JOHNSON is the Captain of the Minneapolis Fire Department at Minneapolis, Minnesota. He Reports — "Operates a 120 acre Xmas tree farm in Sherburne County in spare time. (Still a Forester at heart.)"

EDWIN KALLIO reports to us from Carbondale, Illinois where he is a Project Leader for Market Development at the North Central Forest Experiment Station (USFS).

GORDON LANDPHIER reports to us from San Carlos, California where he is with the Wisconsin Dept. of Natural Resources. Thanks for coming over to Green Hall to interview our students for prospective employment, Gordon.

JERALD A. MORTENSEN reports to us from Minneapolis, Minnesota where he is a Salesman. Keep coming back to Green Hall, Jerald — I enjoy "arguing" with you.

PAUL ROEBER sends us word from Broken Bow, Oklahoma where he is Block Forester with Oklahoma Diers. He is also Chairman of the Oklahoma Wildlife Conservation Department.

HOWARD J. RUSSELL is a Forester for the Simplot Lumber Company in Chiloquin, Oregon. He sends us this word — "Finally got my son out of college and married off. All's well with the rest of us."

R. A. SKOK reports to us from St. Paul, Minnesota where he is Assistant Director at the University of Minnesota School of Forestry.

WINSTON SWANSON reports to us from San Carlos, California where he is Owner of the Winston Swanson Insurance Agency.

MERLE W. TELLEKSON is a Sanitary Engineer in Chicago, Illinois. He writes — "Nothing much to report. Same size family except every one is a year older. Am now Chief of the Technical Services Branch in the Great Lakes Regional Office of the Federal Water Pollution Control Administration, Department of Interior, Attended a meeting in St. Paul and got together with Ralph Nordstrom, Class of 1949, and did the town together. Sure was nice reminiscing."

ROBERT B. WALLIN is a Branch Manager of U.S. Plywood — Champion Papers, Inc., in St. Paul, Minnesota. He writes — "The building industry continues to accelerate and the law of supply and demand has caught up with the low lumber and plywood firms to push them to new highs. We expect new records again in 1969. The merger with Champion Papers helping our continued growth pattern and by the time this goes to press we should also be merged with Johns-Manville."

STEVE H. WISE reports to us from St. Paul, Minnesota where he is a Manager in Plastics for the Conwed Corporation (formerly Wood Conversion Co.).

1951

ANDREW BARTLETT, JR. reports to us from St. Paul, Minnesota where he is with Schiller's Super Markets.

HAROLD W. BENSON sends us word from Minneapolis, Minnesota where he is Chief, Waterfowl Acquisition for the Bureau of Sport, Fisheries and Wildlife.

DONALD P. DUNCAN is the director of the University of Missouri School of Forestry at Columbia, Missouri. He writes — "Not much change in past year. Three youngsters older and bigger. Some added families — lizards, tarantula, etc. picked up on last summer's vacation. Anticipate several miniature Schnauzer puppies in a couple of weeks. I've lost some jobs (executive board of ASCUFRO), gained some (SAF accreditation committee), and had a few other changes. We're enjoying Missouri! Would like to get back to the old haunts at Green Hall again but don't know how soon that's likely. Our best to all the staff. And the same to you, Don. We look forward to visiting with you and your family!"
FUN and FIBER

The modern forester must be aware of and provide for increasing product and recreational demands. Multiple Use Forest Management is the key.

ROBERT D. GARNER reports to us from Denver, Colorado where he is with the Western Electric Company, Inc.

STANLEY A. GRUETZMAN sends us word from New Brighton, Minnesota where he is with the Biocontrol Lab.

GEORGE H. KINNEY reports to us from Brainerd, Minnesota where he is Crow Wing County Land Commissioner.

PAUL R. KIPP is an Area Forester in Billings, Montana. He states—"I get back to the Twin Cities occasionally where I still have family and have been able to visit my greying and balding contemporaries. Ran into Ed Mogren last September and occasionally other Minnesota men—who have proved to be a very wandering group." We enjoyed your visit to Green Hall, Paul—come back soon!

FRANK J. KOPECZY reports to us from Denver, Colorado where he is Assistant Regional Forester for the U.S. Forest Service.

JAMES LINDQUIST sends us word from Riverside, California where he is a Research Forester for the U.S. Forest Service.

ALLEN L. LUNDGREN is the Project Leader of the North Central Forest Experiment Station at St. Paul, Minnesota. He states—"No change in job. Currently project leader of the Project 'Economics of forest land use in the North' with the North Central Forest Experiment Station, USDA-Forest Service, on the St. Paul Campus of the U. of Minn. Our major work right now is on the economics of timber production in northern forest types. Our oldest girl, Karen, is in Senior High (10th grade), Kristin in 6th grade, our pre-school youngster, Jimmy, is 4 years old." Your contributions to the MFAA Exec. Board are very much appreciated, Al!

DONALD PRIELIPP reports to us from Anderson, California where he is with the Kimberly-Clark Corporation.

ROLAND E. SCHOENIKE is Associate Professor with the Clemson University Dept. of Forestry at Clemson, South Carolina. He says—"I enjoyed stopping off at school when I returned north this past summer." We enjoyed your visit, Roland.

JOSEPH R. STERLE sends us word from Atlanta, Georgia where he is a Forest Engineer with the American Pulwood Association.

PAUL SUNDIN reports to us from Pine Bluff, Arkansas where he is District Supervisor for International Paper Co.

KENNETH G. TORGERSON sends us word from Norway, Michigan where he is Technical Services Supervisor at the Kimberly-Clark Corporation.

WALLACE L. TRUMAN is a Forester with the Brown's Tie and Lumber Company at McCall, Idaho. He reports—"Still with Brown's Tie & Lbr. Co. Job has changed a little. Boise-Cascade worked out a Price/Tree, By Spp. System for paying Log Cutters. Since I was more familiar with it, it was my job to check it out and present it to the Log Cutters. Had a few problems—made some minor changes, and the end result was I spent about 5 days a week running a 15 man saw gang. We have completely eliminated all scaling in the woods."

JACK C. TUCKER reports to us from Iron River, Michigan where he is a Staff Forester for the U.S. Steel Corp.

EVERT B. WICKSTROM reports to us from Bemidji, Minnesota where he is with the Bureau of Indian Affairs.

BRUCE A. BROWN reports to us from Cloquet, Minnesota where he is Professor and Superintendent of the Forest Research Center, University of Minnesota.

ROBERT N. CAMPBELL reports to us from the Department of Plant Pathology, University of California, Davis, California. We enjoyed your visit to Green Hall, Bob.

JOHN R. DAVIS is a Wetlands Program Supervisor for the U.S. Bureau of Sport Fisheries and Wildlife at Minot, North Dakota. He writes—"Still Wetlands Program Supervisor here in Minot and once more looking forward to receiving the Gopher Peavey-Alumni News."

DONALD W. ENG is a Timber Management and Wildlife Staff Officer at the Clark National Forest in Rolla, Missouri. He states—"No change in position."

WILLIAM W. HAMLIN is a Loggers Supervisor at West Palm Beach, Florida. He writes—"I and the family are residing on Andros island, Bahamas, where Owens-III, Inc. has a large pulpwood operation. The subsidiary called Bahamas Agricultural Industries, Ltd. also has started a large sugar industry on Abaco Island, which we completed logging about a year ago."

JAMES W. HAUN is the Rector of Saint Peter's Church in New Ulm, Minnesota. He sends us word from Riverside, California where he is in Senior High (10th grade), Kristin is in 6th grade, our pre-school youngster, Jimmy, is 4 years old." We enjoyed your visit to Green Hall, Paul—come back soon!

PHILIP A. HEYN reports to us from John Day, Oregon where he is a Forest Engineer on the Malheur National Forest.

JOHN K. HILLMAN is Lieutenant Colonel in the U.S. Army in Fort Bragg, North Carolina. He writes—"Last July I returned from a 19-month tour of duty in Vietnam. During the last nine months of that tour I commanded the 2nd Maintenance Battalion. Presently I am Chief of the Supply and Maintenance Division, C-4, XVIII Airborne Corps, Fort Bragg, North Carolina. On the side I am also the Executive Secretary of the Airborne Association, Inc."

KENNETH J. JOHNSON reports to us from St. Paul, Minnesota where he is Owner of the K. J. Johnson Construction Inc.

RICHARD D. MUNDINGER is a Review Appraiser for the Bureau of Sports, Fisheries and Wildlife in Portland, Oregon. He writes—"I enjoyed stopping off at school when I returned north this past summer." We enjoyed your visit, Roland.

DON SCHMIEGE is the U.S.F.S. Research Project Leader at Juneau, Alaska. He reports—he "are now comfortably settled in our "A" frame house recently completed on the slopes of Mt. Juneau. We had lots of company last summer including Harold Batzer and family. We enjoyed seeing many of our friends from the "lower 48" and hope others will come up this next summer."

DOUGLAS W. SHENKY reports to us from Arlington, Virginia where he is a Forest Supervisor for the U.S. Forest Service.

CALVIN SMITH sends us word from Medford, Oregon where he is with the Oregon Department of Sports, Fisheries and Wildlife.

DON SCHMIEGE is the U.S.F.S. Research Project Leader at Juneau, Alaska. He reports—he "are now comfortably settled in our "A" frame house recently completed on the slopes of Mt. Juneau. ROBERT J. ARKINS sends us word from Denver, Colorado where he is Chief, Division of Grants-in-Aid for the Bureau of Outdoor Recreation.

DONALD G. BUTLER reports to us from St. Paul, Minnesota where he is a Sales Manager with Canton Lumber Sales.

DAVID S. CROSS sends us word from Minneapolis, Minnesota where he is the Manager of the Appraisal Department at the Towle Company.

LANSIN R. HAMILTON sends us word from Crosby, Minnesota where he is Manager of the Northern Timber Company.

EUGENE E. MURPHY reports to us from Sonora, California where he is a Recreation and Lands Staff Officer on the Stanislaus National Forest.

DEE NELSON is a Manufacturer Representative at Minneapolis, Minnesota. He notes — "Wife Ann, Kathy 14, Steve 13, Barbara 10, and Kristin 5."

LEWIS A. NICHOLSON reports to us from Portland, Oregon where he is in Reforestation in the Regional Office, of the U.S. Forest Service.

ROBERT J. NIXON reports to us from Roseburg, Oregon where he is Supervisor Civil Engineer on the Umpqua National Forest (USFS).

JAMES C. OBERG is a Market Plan Coordinator for the Weyerhaeuser Company in Tacoma, Washington. He says — "We have been in Tacoma for five years now. Oldest of four children now in junior high school. We hope to get back to the Twin Cities this summer for a visit."

DAVID V. ROSDAHL sends us word from Winchester, Kentucky where he is on the Recreation Staff for the U.S. Forest Service, Daniel Boone National Forest.

RICHARD SCHANTZ-HANSEN reports to us from Cloquet, Minnesota where he is a Research Forester with the R. Research of the Northwest Paper Company. We enjoyed your visit to Green Hall, Dick.

HOWARD W. VENNERS reports to us from Indianapolis, Indiana where he is a Western Electric Inspector for the Republic Creosoting Co.

RICHARD R. WEYRICK sends us word from Durham, New Hampshire where he is an Assistant Professor of Forest Resources for the University of New Hampshire Department of Forest Resources. Congratulations on your Ph.D., Dick! We enjoyed your visit to Green Hall.

1954

JERRY ANGIER is a District Representative for the ESCO Corporation in Hibbing, Minnesota. He says — "Family enjoying one of northern Minnesota's nicest winters in many years. Mining equipment sales still take major part of my time, but can proudly announce that our new ESCO continuous kraft digester has finished first twelve months of stream at PCA with high grades in every department. No mill should be without one."

KENNETH E. ENGELBRETSON reports to us from Hoopa, California.

HARLAN G. FREEMAN reports to us from Seattle, Washington where he is a Scientist with the Weyerhaeuser Company.

RICHARD C. HANES is with the Preston Mill Co. at Preston, Washington. He writes — "The big news at our house is a new daughter, Jill, born December 2, 1968. Needless to say she is getting much attention from her older sister and brothers."

MICHAEL A. KERRICK is a District Ranger for the U.S. Forest Service in Blue River, Oregon. He states — "Returned to Blue River in 1968 as Ranger after an absence of nearly 10 years — interesting to see the changes. Our family now numbers seven kids, Six of the kids plus Susie and I are skiing this winter. This is a good skiers winter so far."

DAVID A. KING reports to us from Tucson, Arizona where he is an Associate Professor with the Department of Watershed Management at the University of Arizona.

DENNIS WOOD is President of the Coulee Region Enterprises Inc. at Bangor, Wisconsin. He writes — "By the time you get into print I will have my new Hardwood Dimension plant in operation. I'd be very pleased to see anyone who's in the area — a full tour is guaranteed."

WILLIAM F. WARNER is Department Chief, Engineering for the Western Electric Co. in New York, New York. He says — "Still working in the Big City, but not much new to report. This is the longest we've been in one location, so the kids are getting to feel like this is the home town."

1955

JOHN R. JONES reports to us from Flagstaff, Arizona where he is a Research Forester at the Rocky Mountain Forest Range and Experiment Station (USFS).

KENNETH N. ANDERSON reports to us from Orr, Minnesota where he is an Area Forester for the Division of Lands and Forestry (Minn. Conservation Dept.).

SIDNEY L. CARLSON, JR. Reports to us from Portland, Oregon where he is a Buyer at Potlatch Forests Inc.

REMINGTON C. KOHRT reports to us from St. Anthony, Idaho where he is a Forester at the Idaho Stud Mill, Inc.

BARRY G. PETERSON sends us word from Carefree, Arizona where he is District Ranger with the Cave Creek Ranger District (USFS).

JOSEPH RANTA is with Aribibi Papers, Inc., in Dayton, Ohio. He writes — "The Ranta's are still alive and living in Dayton, Ohio selling newsprint to everyone! Added a boy to the 2 girls about July, 1967 and a sail boat (18') in April, 1969! Have crew, boat — will sail. Hello to all and stop by or call if in Dayton."

T. S. VENKATANARAYANA is Deputy Conservator of Forests in Mysore State, India. He reports — "There is no day passed by me and my wife Nagarathna who was also there in U.S.A., with me, without thinking of 'Uncle Sam' at least once. We have been regularly getting 'Span' magazine and 'American Reporter' published in India by the United States Government through 'United States Information Service' here. 'Souvenir' — a news letter for Indians who have visited the U.S.A., the publication of which has now been stopped by the U.S.I.S. However, they are very interesting and informative which help us to refresh the pleasant memories of the happy time we have in U.S.A. in the company of many good and sincere American hosts like you all. Thanks to U.S.I.S. here. It is for this reason I am anxiously looking forward to receiving a copy of 'Gopher Peavey.' I am designated as Deputy Conservator of Forests since 1962 and have been working for the Forest Department of Mysore State Government looking after croptimber placed under my charge. I had been in several Divisions now. Well! Forestry here is something unique. A Forest Officer has to look after everything here including Range Management, prevention of smuggling of Forest produce, Regeneration, Harvesting, Fire Protection, Survey and demarcation, Supply of timber, Firewood and other Agricultural implements, etc., etc., etc. So, one who is a Forester here is as always busy. This may be the reason for not communicating with you all individually. Please pardon me. My family consists of 2 boys — Nagaraj (11'), Bob and Manjunath (10'), (Manj). They are in VI and IV Standards now in East-West School whose Principal is one Chen Bruke, a Canadian girl. Just now they are taking their final annual examinations. Please give our respects, love and regards to all the staff members of the 'Green Hall' including great great Dr. F. H. Kaufer."

KARL WESTERMAN reports to us from St. Paul, Minnesota where he is a Salesman for the Twin City Hardwood Lumber Company.

1956

FREDERICK J. BECKER reports to us from Bayport, Minnesota where he is a Sales Representative for the Andersen Corp.

DAVID F. CONOVER reports to us from Oshkosh, Wisconsin where he is a Professor in the Biology Department at Wisconsin State University.
ROBERT R. DAVIDSON reports to us from Milwaukee, Wisconsin where he is at the Lumber Listing Service Bureau.

THOMAS P. GINNATY reports to us from St. Paul, Minnesota where he is a Research Forester at the North Central Forest Experiment Stations (USFS).

ROBERT HERBST is Deputy Commissioner with the Minnesota Conservation Dept. at St. Paul, Minnesota. He writes — "Again, many thanks for those kind words, Dick. Your cooperation on the MFAA warm thanks to the Peavey staff for dedication of last year's Gopher..."

ROBERT HERBST is Deputy Commissioner with the Minnesota Conservation Dept. at St. Paul, Minnesota. He states — "Family now consists of three boys and two girls. Have recently been named to the position of Supervisor of Forest Management."

WILLIAM A. BERNDT sends us word from St. Paul, Minnesota where he is an Assistant Staff Forester for the Minnesota Division of Lands and Forestry.

MARION K. BORRELL sends us word from Lone Pine, California.

ORVILLE ENGBLY is with the Timber Management, Fire, Recreation, and Lands Staff at the Manti-Lasal National Forest in Price, Utah. He says — "Family - 3 boys and one girl. Enjoying Price even it is some distance from the forest. Living in the desert has some advantages, no snow shoveling!"

ROBERT W. ERIKSON reports to us from St. Paul, Minnesota where he is an Assistant Professor at the University of Minnesota School of Forestry.

PETER F. FFOILLIOTT is a Research Associate at the University of Arizona Department of Watershed Management in Tucson, Arizona. He writes — "Enjoyed last year's Peavey ... status unchanged — single, stupid, and sober!"

ROBERT A. HERKERSMAN is a District Manager with the Wood Treating Chemical Company at St. Louis, Missouri. He says — "We have been in St. Louis about a year and are enjoying the milder climate. I enjoy the traveling and we are all in good health. I travel Ind., Ill., Mo., Kan., and the Western half of Ky., and Tenn." ELDRED A. JOHNSON reports to us from Cass Lake, Minnesota where he is Resource Management Assistant for the Cass Lake Ranger District. Congratulations on being named "the Field Forester of the Year" by the Forestry Club of the School of Forestry, Eldred. It is an honor richly deserved!

NORMAN F. KOLLER reports to us from Sheffield, Pennsylvania where he is a District Ranger with the U.S. Forest Service.

ELDRED A. JOHNSON reports to us from Cass Lake, Minnesota where he is Resource Management Assistant for the Cass Lake Ranger District. Congratulations on being named "the Field Forester of the Year" by the Forestry Club of the School of Forestry, Eldred. It is an honor richly deserved!

NORMAN F. KOLLER reports to us from Sheffield, Pennsylvania where he is a District Ranger with the U.S. Forest Service.

CARL H. REIDEL is an instructor for the University of Minnesota School of Forestry in St. Paul, Minnesota. He says — "On July 1 we will be moving to Williamstown, Massachusetts where I will be Assistant Director of the Center for Environmental Studies and Assistant Professor of Political Science at Williams College. All the Reidel's look forward to living in the mountains of New England, though we will always miss Minnesota." We've enjoyed these past four years with the Reidels — the best of luck to you!

JOHN F. RICE reports to us from Cœur d'Alene, Idaho where he is a Forester for the Bureau of Land Management.

BRUCE H. ROETTINGER is an Entomologist for the U.S. Forest Service in San Francisco, California. He writes — "In December Louise and I moved into our new home in Sunnyvale. Since there are five bedrooms and only two of us, we've ample room for visitors. If anyone of Green Hall in the '50's would have told me I'd one day be commuting 120 miles a day 'to-and-from work by train, I'd have thought them deranged. Fortunately, I still manage to get out of the concrete edifice in San Francisco called "the office" and into the field a sufficient amount of time to remain in touch with reality. We do enjoy the Bay area though and would welcome the opportunity to act as your hosts if you decide to venture West."

RICHARD W. SCHNEIDER reports to us from Grand Rapids, Minnesota where he is a Forester with the Blandin Paper Company.

DENIS O. BAKKE is a Registered Representative for Caldwell Phillips, Inc. in St. Paul, Minnesota. He writes — "The Bakke family has enjoyed another year of good health and a lot of fun. The Peavey is more interesting each year. A great job!" Thanks for those kind words, Denis and thanks for your many contributions to the U. of Minn.!

JAMES L. BENSON is a Supervisor of Forest Management for Consolidated Papers, Inc., in Rhinelander, Wisconsin. He states — "Family now consists of three boys and two girls. Have recently been named to the position of Supervisor of Forest Management."

ROBERT C. PURCELL reports to us from Minneapolis, Minnesota where he is with the School of Forestry, North Arizona University.

DAVID B. SCHROEDER is Assistant Professor of Plant Science in Storrs, Connecticut. He states — "I am currently Asst. Prof. of Plant Pathology at the University of Connecticut. Since the Forestry Section is in my family have moved to Flagstaff, Arizona. I believe he is still working on spruce, fir and jack pine as in Minnesota days. I had a fine visit with Roland Schoenike during May reality. We do enjoy the Bay area though and would welcome the opportunity to act as your hosts if you decide to venture West."

RICHARD W. SCHNEIDER reports to us from Grand Rapids, Minnesota where he is a Forester with the Blandin Paper Company.

DENIS O. BAKKE is a Registered Representative for Caldwell Phillips, Inc. in St. Paul, Minnesota. He writes — "The Bakke family has enjoyed another year of good health and a lot of fun. The Peavey is more interesting each year. A great job!" Thanks for those kind words, Denis and thanks for your many contributions to the U. of Minn.!

WES SUHR is Regional Hydrologist at San Francisco, California. He writes — "Although my job title is 'Regional Hydrologist,' consider myself a forester first and a hydrologist second. Fight traffic, hip-pies, rioters, cops, W.O. personnel, etc. about every working day, myself a forester first and a hydrologist second. Fight traffic, hip-pies, rioters, cops, W.O. personnel, etc. about every working day, myself a forester first and a hydrologist second. Fighting traffic, hip-pies, rioters, cops, W.O. personnel, etc. about every working day. Reality is more interesting and demanding. One begins to believe that life is greatest if you weaken. Girls love school and the boys. Wife, Carol, still loves this place."
DAVID B. THORUD is an Associate Professor for the University of Arizona Department of Watershed Management in Tucson, Arizona. He writes — "We have continued to enjoy Arizona’s climate and truly great outdoors. Dave King and I managed to bag a few Mearn’s quail, but some wild turkey was fortunate enough to elude me this year, much to his and Susan’s relief."

RICHARD S. TOUSLEY sends us word from Mill Valley, California where he is Superintendent of Muir Woods National Monument.

KYONG BIN YIM is a Professor at the Seoul National University Department of Forestry in Suwon, Korea. He writes — "Daughter completed her undergraduate course in the spring of 1969. The elder son is sophomore of the College of Law, Seoul National University. The youngest son is in the first grade at the high school. The father, me, is still Professor of Forest Genetics and Silviculture at Seoul National University."

JAMES W. WETTERGREEN reports to us from Mill City, Oregon where he is Superintendent of Muir Woods National Monument. JAMES W. WETTERGREEN reports to us from Mill City, Oregon where he is Superintendent of Muir Woods National Monument.

ROBERT BODINE is a Resource Assistant for the U.S. Forest Service Department in Suwon, Korea. He writes — "Daughter completed her undergraduate course in the spring of 1969. The elder son is sophomore of the College of Law, Seoul National University. The youngest son is in the first grade at the high school. The father, me, is still Professor of Forest Genetics and Silviculture at Seoul National University."

JAMES W. WETTERGREEN reports to us from Mill City, Oregon where he is Superintendent of Muir Woods National Monument.

ROBERT DRONEN sends us word from Minneapolis, Minnesota where he is a Timber Management Assistant, Mill City Ranger District for the U.S. Forest Service.

EGOLFS V. BAKUZIS reports to us from St. Paul, Minnesota where he is an Associate Professor at the University of Minnesota School of Forestry.

ROBERT BODINE is a Resource Assistant for the U.S. Forest Service in Sonora, California. He states — "I was recently promoted to a Resource Assistant position on a neighboring district. We will be moving sometime in early summer. This fall we will be proud parents for the fourth time — guess the extra salary will be greatly needed soon!"

HAROLD M. BOLT sends us word from Cascade, Idaho where he is a Ranger on the Landmark Ranger District (USFS).

ROBERT DRONEN sends us word from Minneapolis, Minnesota where he is an Assistant Area Rural Renewal Director with the Mpls. Housing and Urban Development Authority.

LEE R. GJOVIC is a Research Forest Products Technologist for the U.S. Forest Products Laboratory in Madison, Wisconsin. He writes — "We have been here over 7 years now. I truly enjoy my work in preservation research. 'Stevie' has her hands full keeping ahead of our two boys, Karl and Erik, ages 3 and 6 years."

CORNELIUS GROOTHOUSEN is a Forester in Ukiah, California. He writes — "I am still a forester in Ukiah with the Bureau of Land Management. Just recently I have transferred into the trespass job. This is very interesting work. To date I have not been accepted into Graduation School for forest economics although I have my application in at several schools. Ukiah has had a lot of rain this winter. Some people think it's like Hawaii... Mild and foggy and wet."

WAYNE L. HEATH sends us word from Sault Ste. Marie, Michigan where he is a Meteorologist with the U.S. Weather Bureau.

RICHARD M. HUFF is with the Interior Department, Bureau of Land Management at Denver, Colorado. He writes — "Still in the process of settling down here in Denver. Been on the move this past year, from Oregon to Wash., D.C. to Denver. Family still consists of better half and three deductions, 7, 4, and 2. Would be glad to hear from anyone passing through Denver."

HUGO H. JOHN reports to us from St. Paul, Minnesota where he is a Professor at the University of Minnesota School of Forestry.

ROGER B. JOHNSON sends us word from Escanaba, Michigan where he is with the Lands Staff — Supervisors Office at Hixawatha, N.F. (USFS).

EUGENE P. LUETGERS reports to us from Rhinelander, Wisconsin where he is a Lands Staff Assistant with the Nicolet National Forest Supervisors Office (USFS).

ROBERT L. NORGREN reports to us from Madison, Wisconsin where he is the Chief Plant Pathologist with the Wisconsin Dept. of Agriculture.

BENNETT OLSON sends us word from Durango, Colorado. We enjoyed your visit to Green Hall, Bennett.

GLENN M. PARK sends us word from Chicago, Illinois where he is a Horticulturist for the Chicago Horticulture Society.

PAUL E. PRIGGE reports to us from Randle, Washington where he is a Silviculturist with the U.S. Forest Service.

AL SCHACHT is with the U.S. Forest Service - State and Private Forestry at St. Paul Minnesota. He reports — "It's a real pleasure to be closer to the School end to see the staff and classmates more often. The welcome mat is out, please do stop if you are passing through or in the Twin Cities." We thank you for cooperation on the MFRA Exec. Board, Al — it is much appreciated!

DOUG SEASTROM is a Forester for Sequoia Forest Ind. Inc. in Dimb, California. He states — "I have another addition — David Ross, 18 February 69. This makes two choker setters. Family fine. I'm overworked, underpaid. Contemplating total welfare position."

RICHARD SIEVERS reports to us from Interlochen, Michigan where he is Manager — Partner of the Wesclare Mink Ranch.

ROBERT WILLIAM SKINNER reports to us from Prairie City, Oregon where he is Supervisory Forester of the Prairie City Ranger District (USFS).

BILL SKOVRAA is with the U.S. Forest Service, Sequoia National Forest in Porterville, California. He says — "No change in family or job in the last year — continue to review timber appraisals on Sequoia National Forest. I've enjoyed the Peavy." Thanks, Bill.

MILO E. STEFAN reports to us from Bergiland, Michigan where he is a District Ranger (USFS).
CHARLES LOWERY reports to us from Bloomington, Minnesota where he is Assistant-Director of Parks and Recreation.

CARL A. MOHN sends us word from Stoneweile, Mississippi where he is an Associate Geneticist for the U.S. Forest Service. We've enjoyed your visits to Green Hall, Carl.

JERRY MURPHY sends us word from Duluth, Minnesota where he is an Area Forester for the Div. of Lands and Forestry Dept. of Conservation.

GARY NICKANDER reports to us from Pittsburgh, Pennsylvania where he is a Sales Engineer for Ralph Wilson Plastics.

JOY M. PROBASCO is a Resource Forester for the U.S. Forest Service in Springfield, California. He writes - "At Springfield trying to figure out how to enjoy California weather and still hunt and fish in Minnesota on Forest Service poverty type salaries. I saw Fritz Kopp skiing last winter at Chinne Peak, what a snowstorm. This is a very interesting district with all normal activities plus Mineral King and the proposed Little Kern - Golden Trout Wilderness to occupy dreams and idle times. Plan to stop in at Green Hall during the Christmas vacation."

DICK RADEMACHER is a Forester for the Bureau of Land Management in Eugene, Oregon. He says - "Wife - Eleanor M. (Liening), (Native Oregonian). Children - Joe, 5; Mike, 3; Mary, 1½ and Irene, 1 month."

LOUIS C. SUDHEIMER is Manager, Specialty Products for the Conwed Corporation in St. Paul, Minnesota. He says - "This year we were transferred back to St. Paul (Conwed's home office) in a staff position. The work is stimulating and interesting, but not as much chance to be outside as before. Looking forward to seeing more foresters here in the old stomping grounds. Already bumped into Glen Lillmar, Denny Bakke and Ken Johnson."

NED THERRIEN is an Assistant Ranger for the U.S. Forest Service in Willow Springs, Missouri. He writes - "The big event of the year was a kayak trip into the wilderness of western Northwest Territories, Canada. A magnificent area, one of the most beautiful rivers in North America, the South Wahanni. Stil1 enjoying the warmth and friendly people here in Missouri's Ozarks."

ROBERT WIGGINS sends us word from Jacksonville, North Carolina where he is with the Weyerhaeuser Company.

1961

TOM AUFENTHIE is a Forester for the Bureau of Land Management in Portland, Oregon. He writes - "Have been employed by the Bureau of Land Management for the last eight years. Currently have a staff position at the Bureau's Oregon State Office dealing with the forest inventory and intensive forest management in western Oregon."

JOHN C. BARBER reports to us from Washington, D.C. where he is Chief, Branch of Forest Genetics for the U.S. Forest Service.

B. ALAN BENDTSEN is with the Forest Products Laboratory in Madison, Wisconsin. He writes - "Carole and I have served as foster parents to a 17 year old Vietnamese boy for the past year. He was brought to this country by COR (Committee of Responsibility) for facial restoration through plastic surgery. He had complete loss of nose, one eye and much other facial injury suffered during an American air raid. He had no knowledge of English and with the great social and cultural background differences it has been a most trying, but sometimes rewarding experience for our entire family."

JAMES A. BROWN is District Forester at Alamota, Colorado. He says - "Everything is moving along about the same as last year. Karen, Kathy Dave, Mollie are all in good health. Dave at 5 is quite a hunter with his air-gun and Old Vinegar. Any of the old bunch passing through the San Luis Valley stop in."

LEONARD F. BURKART reports to us from Nacogdoches, Texas where he is Associate Professor at Stephen F. Austin State College School of Forestry.

GILBERT B. CHURCHILL is a Timber Management Assistant at the Isabella Ranger District in Isabella, Minnesota. He states, "My Present Position is Timber Management Assistant on the Isabella Ranger District, Superior National Forest. Again last summer I had the privilege of helping with the Field Ecology course at the Itasca Summer Session."

DAVID L. EGGLE reports to us from Two Harbors, Minnesota where he is General Manager, Logging and Sawmill Operations for the J. C. Campbell Co.

ROLAND O. GERTJEJANSEN sends us word from St. Paul, Minnesota where he is an Assistant Professor at the University of Minnesota School of Forestry.

JOHN T. HALL reports to us from St. Paul, Minnesota where he is a Forestry Development Representative for Great Northern Railroad. The MFRA thanks you very much, John.

RICHARD L. HILLIKER reports to us from Madison, Wisconsin where he is an Assistant Professor with the Center for Resource Policy at the University of Wisconsin.

KEN JOHNSON is with Flood Prevention and River Basin Programs for the U.S. Forest Service at St. Paul, Minnesota.

FRANK M. KIES reports to us from Bruce, Wisconsin where he is a Forest Manager, Dept. of Natural Resources for the Bruce River State Forest.

RONALD D. LINDBRANT is a Project Leader for Forest Products Marketing Research at the North Central Forest Experiment Station in Carbondale, Illinois. He writes - "After an enjoyable two years in northern Minnesota with the North Central Forest Experiment Station (Duluth) we are now in the process of moving to the University of Southern Illinois Laboratory where I will be project leader for forest products marketing research. Our stay in Minnesota has allowed us to renew many friendships with former classmates. We now have two children - Eric 4 yr. and Kirstin, 1 yr."

KIEI R. McCAFFREY reports to us from Rhinelander, Wisconsin where he is with the Wisconsin Department of Natural Resources Research.

RICHARD A. MADDEN sends us word from Ketchikan, Alaska where he is a Logging Engineer for the Ketchikan Pulp Company.

HARRISON L. MORTON is Assistant Professor of Forest Pathology with the University of Michigan, School of Natural Resources at Ann Arbor, Michigan. He states - "No changes during the last year. Best wishes to all my friends and best of luck to the conclave and football teams next year."

WAYNE R. NIDOLS is a Land Adjustment Staff Officer for the U.S. Forest Service in Duluth, Minnesota. He says - "Back on the Superior again trading and buying lands for "Uncle." Family situation remains the same except for old Goldie who left us in December. His space is filled by his son, Ivan, but not his place. Really nice to be back in the UMF Section of SAF and seeing some of the "old" faces again, especially old "hell on wheels" (glad you could make it in February, Ken). No other news of great importance. Congratulations on the last better-than-ever Peavey, good luck on this one!" We enjoyed our visit to Duluth very much Wayne - thanks for the northern hospitality.

RUSSELL OETTEL is a District Forester for the American Can Company in Ironwood, Michigan. He states - "Great skiing this winter."

RICHARD M. PEDERSON is a Lands Staff Assistant with the U.S. Forest Service at Elkins, West Virginia. He says - "Moved to Elkins, West Virginia on January 31, 1969. And now heading up the land appraisal work on the Monongahela National Forest."

KENELM W. RUSSELL reports to us from Olympia, Washington where he is forest pathologist with the Department of Natural Resources. He says, "Puget Sound beckons to test our new sailboat this year. Only growth in family is the grocery bill."

RICHARD F. WATT sends us word from Columbia, Missouri where he is with the Central State Forest Experiment Station (USFS).

1962

DANIEL AMELL sends us word from Duluth, Minnesota where he is Area Staff Assistant for the Minnesota Division of Lands and Forestry.

DAVID D. BENSON is a Timber Management Assistant for the U.S. Forest Service in Gladwin, Wisconsin. He says - "We're still here on the Chequamegon. No changes from last year. Had five or six old classmates stop in during the year, and hope to see some more next year. Keep up the fine work on the Peavey." Thanks, Dave - we'll try!

PAT DUFFY reports to us from Ottawa, Canada where he is with the Department of Forestry Rural Development.
RICHARD D. DYRLAND sends us word from San Francisco, California where he is a Watershed Systems Economist for the Division of Sports and Wildlife Management.

JAMES HASTINGS reports to us from Benson, Minnesota.

JAMES S. HEBERT is a Pilot for Trans World Airlines based in Los Angeles, California. He reports — “Have many fond memories of U. of M. Forestry School. Have been able to visit with a number of forestry graduates since 1962. Got married in 1966 and have one girl so far. Flying for T.W.A. is great. I miss forestry but can’t think of a better way to enjoy a hobby. Hi to Ken Winsness and everyone.”

ROGER L. JEWELL is a District Ranger with the U.S.F.S. at Hayward, Wisconsin. He writes — “We had several Minnesota boys here this summer – Rick Iverson, Dale DeGroot, and Dave Schmidt. We had a good summer with them and hope to have Rick back next summer. Two other Minnesota alumni work here with me – Darrell Frogness and David Miller approximately ’63 and ’65 respectively. Both excellent men as usual. My family is increased by one more girl. Now we have 3 girls. No boys yet and none in sight. Started new job July, ’68 and like it.”

GARY E. JOHNSON reports to us from Sanger, California where he is a Forestier with the U.S. Forest Service.

HAROLD J. JOHNSON is Production Supervisor with the Crown Brass Mfg. Co. at Ahlambra, California. He says — “I have left the forestry profession – perhaps only temporarily – to see what private industry has to offer. After six years in Alaska, I am enjoying the sunshine of Southern California.”

WILLIAM C. KELSO sends us word from Memphis, Tennessee where he is Manager, R & D Wood Division of the Chapman Chemical Co.

JEFFREY F. KOVACH is a Forester with the Bureau of Land Management at Salem, Oregon. He reports — “Wife (Virginia) and 2 sons (Andy and Galen) living in Salem, buying home. Enjoying hunting and fishing and camping. Seldom miss sub-zero weather. Working in timber management area: Primary job is timber sales contract administration, also sale layout and cruising. Area I work in is rapidly being cut in Old Growth and moving toward a 2nd growth management situation.”

ROBERT E. LEASE sends us word from Elkins, West Virginia where he is Timber Management Staff Officer of the Monongahela National Forest.

PAUL D. MANION sends us word from Syracuse, New York where he is an Assistant Professor of Forest Botany at Syracuse University College of Forestry.

ROBERT A. MEGRAW reports to us from Seattle, Washington where he is a Research Scientist for the Weyerhaeuser Company.

DONALD T. MYREN reports to us from Madison, Wisconsin where he is a Graduate Research Assistant at the U. of Wis.

LAWRENCE R. REVIER is a Farmer in Waubun, Minnesota. He reports — “Good summer and very productive crop season August and I were married on October 26 and after two weeks in the S.W., mainly Las Vegas we are enjoying a little more leisure here on the farm since the Northern Minnesota winter has set in.”

LELAND SCHAA reports to us from Cook, Minnesota where he is a Forester for the Minn. For. Service.

TED W. SCHWENKER is Production Manager with the Sussell Company at St. Paul, Minnesota. He states — “Wife – Sharkey, doing fine. Tim 8, Sally Ann 7 have a new sister, Jane Ellen, October 3, 1968.”

ROBERT H. STRAND is a Forester at the Medicine Bow National Forest (USFS) in Laramie, Wyoming. He writes – “No changes in family or job. Oldest son started school this fall – time flies by.”

GERALD W. ZAMBER reports to us from Anchorage, Alaska where he is an Economist for the Bureau of Land Management.
shot in the early season, but a couple bigger bears were shot later. It was a head shot with my trusty 12 gauge shotgun at a distance of 8 feet. It was one of those deals like you read about. The bear came down out of a tree right in front of me and I dropped him with one shot as he started to stand up and come at me. The gun jammed so there was no second shot. It dressed out at 448 Ibs. We’re going to spend the winter at Fort Knox getting some inches of snow so far this winter so it will be nice to go South for a while.”

JURIS I. EGLITE sends us word from Minneapolis, Minnesota where he is a Reality Specialist with the Bureau of Sport Fisheries and Wildlife.

ALAN R. EK reports to us from Sault Ste. Marie, Ontario where he is a Research Officer for the Canada Department of Forestry. We enjoyed your “short” visit to Green Hall, Al.

GARRY W. FRITS is an Assistant Ranger with the U.S.F.S. Bergland R.D. at Bergland, Michigan. He says – “First addition to family, Corina Lynn, arrived July 17, 1968. Visited with Al Ek at the Sault in September. I was impressed by the fine facilities of the Ontario Department of Lands and Forests. Give my best to Ken and all of the staff.” And the same to you, Gary!

MYRON C. HALL is a Communication Officer in the United States Navy. He writes – “My big news since last year’s edition of the Peavey is that I found myself a wonderful girl and we were married on June 8, 1968. Right now we are living in Sasebo, Japan, but looking forward to settling down in the States in June, 1969 when I will be out of the Navy and back into Forestry. I enjoyed seeing Dr. Kaufert and Ken Winness last August when we stopped in for a visit, and I was impressed with the University of Minnesota of course. Hope to see you all again soon.” We very much enjoyed your visit to Green Hall, Myron.

MILO J. LARSON is a Forester at the Bigfork Ranger Station (USFS) in Bigfork, Montana. He says – “I am currently working as Silvicultural Forester on the Swan Lake Ranger District in Montana, and have been here one year. Hunting was good this fall for a variety of big game species. The family is fine and our daughter Laurie is going to be two years old in May.”

GLENN A. LILMARS is the Market Manager with the Conwed Corporation at St. Paul, Minnesota. He says – “It has been another good year for us. Thoroughly enjoyed the ’68 Peavey – congratulations to you and the Peavey staff. I hope to get over to see you and Doc Kaufert sometime. Say hello to Betty from Dixie and me.” I will, Glenn, and stop by!

LLOYD L. LUNDEEN is a Hydrologist for the U.S. Forest Service in Ogden, Utah. He says – “We’re still living in Ogden, however, this year my work is both doing graduate work [Ph.D. August, 1969] and finishing her social work studies at the U. of Utah. I am spending a year at Stanford furthering my education in systems analysis and hydrology.”

MARVIN C. MEIER is Regional Hydrologist with the USFS at Ogden, Utah. He says – “My present job gets me around the Intermountain Region a lot. I enjoy the traveling and experience but it keeps me away from home. Have 2 little girls now which keeps my wife, Joleen busy.”

GARY R. NORDSTROM reports to us from Spokane, Washington where he is a Forester for the Soil Conservation Service.

THOMAS RYAN sends us word from Tampa, Florida.

DAVID S. SCHREINER is with the U.S. Forest Service at Walker, Minnesota. He writes – “Have been back in the old home-state since last February and it’s really good to see familiar faces again! Be sure to stop in when coming through Walker.”

ERVIN G. SCHUSTER is a Graduate Student at the Department of Forestry, Iowa State University at Ames, Iowa. He says – “My wife, Bonnie, and I are living in Ames, Iowa. I am a struggling student and again Bonnie is a Librarian at Iowa State University. No kids, dogs, or fishin’.”

JAMES L. SPARKE is Assistant District Forester in Eagle River, Wisconsin. He writes – “Moved to Eagle River last September. Eagle River is the official snowmobile capital of the world and home of the world championship snowmobile derby. Next year’s derby is January 24-25. I have reservations now and first come, first serve. If you want an exciting weekend – come up – we have a big house. Good luck to the Peavey.” Thank you Jim.

DAVID P. J. TUCCI sends us word from Lakewood, Wisconsin where he is a Forester for the U.S. Forest Service.

RICHARD F. WERLING is a Management Forester with the Kimberly Clark Corp. at Piedmont, Alabama. He reports – “Two children: Steven Aug. 11, 1966, and Susan, April 4, 1968.”

CHUCK WICK is a Research Forester with the North Central Forest Experiment Station at St. Paul, Minnesota. He says – “Just beginning a new job at North Central in Fire Research. Have had a great time in the East but am glad to be back. Still single.” It’s great to have you back, Chuck!

1965

HENRY P. ANDERSON is a Timber Sale Administrator for the U.S. Forest Service in Orofino, Idaho. He sends us this information – “I’m still working here at Canyon, things haven’t changed much. I got a chance to do some hunting this fall and got an elk and a deer, both with a pistol. The only other news is a new member of our family, Douglas Henry, born July 2, 1968.”

HOWARD A. AUNE sends us word from Monroeville, Pennsylvania.

B. BRUCE BARE is an instructor for the Department of Forestry at Purdue University at Lafayette, Indiana. He says – “Plan to obtain Ph.D. August, 1969. Presently teaching forest management at Purdue. Still single and poor.”

GARY C. BERGSTROM is a Forester for the U.S. Forest Service in Alsea, Oregon. He states – “It’s still raining!”

THOMAS G. BONGARD is in the Life Insurance field in Minneapolis, Minnesota. He says–“Returned from Vietnam in October of 1968. Just graduated as Captain in the U.S. Marine Corps in January of 1969. I then returned to Minneapolis where I’ll be working in the Life Insurance field.”

BRUCE L. CASEY is a Naval Aviator at the Helicopter Anti-Submarine Squadron 6 at San Francisco, California. He says, “Am now a Lt. Junior Grade and flying the Navy’s SH-3A Helicopter for Helicopter Anti-Submarine Squadron Six. We deploy in late March, 1969, aboard the U.S.S. Kearsarge (CVS-33) for a six month West Pacific Cruise. Keep those Peaveys coming – I sure enjoy hearing about fellow ’65 grads’ recent activities.”

BJORN DAHL is a Forester for the U.S. Forest Service, the Ei Dorado National Forest, Camino, California. He reports – “Married to Martha, who is an R.N. at the local hospital, and formally a graduate of Mounds-Midway School of Nursing – 1965, St. Paul. We have no children yet! I am working for U.S. Forest Service in Timber Management on the Placerville R. Dist.”

HERBERT G. GIEFER is in the U.S. Navy.

PHIL T. GRIMM is a Lt. with the U.S. Navy – Guided Missile School in Virginia Beach, Virginia. He says–“Am getting married to Anne Remick, a native of New Hampshire on 29 March. Will be leaving the Navy life to take up Forestry again next January. Keep up the good work on our Peavey.”

ROBERT J. GUSTAFSON is a Forester with the Columbia Gorge R.S., Mount Hood National Forest (USFS) at Troutdale, Oregon. He writes – “Fran and I are happy out here at the Columbia Gorge with our new baby girl, Dana Louise. We bought a house about one mile from the ranger station. There are only two drawbacks: the wind never stops blowing, and it is perpetually muddy. The mud of the Columbia Gorge is due to an unusually wet year. My job is going fine. I am one of the foresters on the ECDP Pilot program which gives an interesting new slant to the job. We both miss our old friends back on the campus. Hi to you all.”

MICHAEL G. HORNER is a Process Control Programming Supervisor with Consolidated Papers, Inc. at Wisconsin Rapids, Wisconsin. He writes – “Now have wife Carol Ann and 2 boys, Sean – 2 years and Terry – 3½ months.”

EUGENE F. KAREL reports to us from St. Paul, Minnesota where he is a Grad Student at the University of Minnesota.

GEORGE KENOUG sends us word from Newport, Washington.

DAVID S. NOVITZKI reports to us from Taiwan where he is a Captain in the Special Forces, Green Berets.
WILLIAM J. PETERS sends us word from Olustee, Florida.

ROBERT F. NYVALL is an Instructor at the University of Minnesota Department of Plant Pathology in St. Paul, Minnesota. He reports—"Our family still just numbers three with our little boy Nathan wanting to be an engineer and cut down forester's climbing poles. Ah well. I hope to finish my Ph.D. in Plant Pathology sometime this summer. Hello to all foresters in Classes of 1964, '65, and '66."

RUSSELL H. ROBERTS is a Senior Forester for Owens-Illinois, Inc. in Ironwood, Michigan. He states—"We've been in Ironwood since last spring and like it very much. The change in environment seems to have agreed with us. We are finally expecting an addition to the clan come February – just goes to show that practices and persistence pays off! I am managing 45M acres (mostly hardwood) for O-I in Upper Michigan and Northern Wisconsin and like the work extremely well. One thing for sure – I should qualify for expert rat-sponsibility for all timber management activities on the district. Hunting is good. I got an antelope, elk, and deer last fall. The only additions to the family have been a little red headed girl born Christmas Eve and a 6 year old Appaloosa mare."

CRAIG M. SMITH is a Park Planner for the Manitoba Parks Branch in Winnipeg, Manitoba, Canada. He says—"The Smith family moved from Manitoba to Minnesota in April, 1968. I'm now with the Manitoba Parks Branch, in charge of Park Planning for Manitoba's western and northern regions. We really miss the mountains and the ocean, but the canoeing and fishing in Manitoba helps to fill the void. Jim Potton (1963) joined our staff last June. Bobbie and I have one 10-year-old child, Christine. We finally bought a home and settled down. Best wishes to all our friends 'South of the Border.'"

We enjoyed your visit to Green Hall, Craig.

ROBERT J. STRICKER is a Lieutenant in the U.S. Navy stationed in Southeast Asia. He writes—"During the past year I transitioned into a new aircraft, the A-61 Intruder, reported to a new squadron, VA-146, went to the VA-146 depot for the new year by returning to Southeast Asia aboard the U.S.S. Enterprise. I'm still enjoying the life of a bachelor although there aren't many of us left. Enjoyed a visit with Ken Winness in December and hope to return next summer. My compliments to last year's Peavey staff on a most enjoyable edition and I'm looking forward to this year's copy." Good luck, Bob, it was real nice chatting with you!

CONRAD R. WETZEL is a District Land and Wildlife Staff Assistant for the U.S. Forest Service in Jenebore, Illinois. He says—"Was promoted to Assistant Ranger Fall of 1968. Since then district has been split or made into district with ranger and two staff assistants. My major responsibilities include land appraisals, negotiations, and programming plus wildlife improvement projects involving P-R funds. Tell Kenny that I will graduate in June with Master's. P.S. Family still the same size: wife, dog and myself." Congratulations and continued good luck, Conrad.

LAWSON L. WINTON is with the Institute of Paper Chemistry at Appleton, Wisconsin. He writes—"Janette, Brian (6), Devin (3) and I are all doing well. The small-town flavor of Appleton and plenty of open country are slowly calming the 60-mile-an-hour feeling one gets as a student. We like it here, in research, we have recovered rooted sprouts on subcultured callus tissue of quaking aspen, and hope to eventually grow a tree from a single cell. Wow!"

1966

DONALD J. ANTONSON is an Assistant District Ranger for the U.S. Forest Service in Jemez Springs, New Mexico. He writes—"Recently transferred to the Jemez District of the Santa Fe N.F. All four of us are enjoying the new surroundings. A big hello to everyone, just see the beautiful Southwest – our door is always open."

DAVID E. BLACKFORD is in the U.S. Army in Germany. He writes—"I am presently stationed in Germany with the Army Security Agency. I have traveled throughout Germany, Austria, Italy and Switzerland and have plans for the Scandinavian countries this summer. I am in the process of attaining a German hunting permit so that I will be able to enjoy some of the wonderful hunting here. This spring I am returning to Minnesota to get married. At that time I hope to see some of my classmates. Europe is a very enjoyable place and it would be much better if I were here under different circumstances."

SHERIDAN DRONEN reports to us from Bismarck, North Dakota where he is a Plant Center Specialist at the Soil Conservation Service.

THOMAS EMERSON is with the U.S. Forest Service in Conway, New Hampshire. He states—"Working for the Forest Service in timber management. Planning to be married in April."

PAUL T. FUCHS reports to us from Minneapolis, Minnesota where he is a Planning Analyst with Minneapolis Housing and Redevelopment Authority.

DELBERT JOHNSON reports to us from Manistique, Michigan where he is with the U.S. Forest Service.

RICHARD W. KLUKAS is a Wildlife Management Biologist with the Everglades National Park at Homestead, Florida. He writes—"Began employment at Everglades Nat'l Park in Oct. 1965. Have been engaged in research and/or management projects involving loggerhead sea turtles, green sea turtles, Am. alligator, Am. crocodile and pesticides. Have also been involved in the SST – jetport and thermal pollution problems which are or will affect Nat'l Park Service areas in S. Fla. Have spent considerable time on the Everglades Park water problem. Have 2 sons, Tom and Tim, ages 5 and 3 respectively."

DAVID L. MILLER is Resource Assistant with the Hayward Ranger District at Hayward, Wisconsin. He writes—"Still in Hayward and like my work very much. We have a Minn. District with myself, Darrell Progness as Assistant and Roger Jewell as District Ranger. I had the pleasure to have Dave Schmidt as Rec. Aid last summer. He kinda filled us all in on the School of Forestry. It's hard to believe that I've been gone 2½ yrs. already. Am the proud father of a baby girl 'Ellen Marie' born June 23. That's about all the news for now. If any of you are in or near Hayward stop in and say hello. We always like to hear from fellow Minnesotans. A special hello to all the members of that great class of '66. We enjoyed your visit to Green Hall, Dave, come back, soon!"

A. JAMES PHILLIPS sends us word from Alexandria, Virginia.

KALEVI MATTI TURKIA is a Planning Engineer in Lahti, Finland. He writes—"Please inform all forestry staff and students who are planning to tour Scandinavia, and especially Finland, to get in touch with me if they want to visit some Forest Products factories, sawmills or such institutions. I might be able to help! Special greetings to Ken Winness and Frank Kaufer."

H. ALLEN WICKMAN sends us word from Waubun, Minnesota where he is with the Minnesota Forest Service.

FRED L. WINTERMANTEL is District Forester for the Minnesota Division of Lands and Forestry in Big Falls, Minnesota. He states—"Working as District Forester for the State at Big Falls. Working with Richard Anttila, class of 1967. Am still single. Enjoy working in this black spruce area of the state."

1967

DARYL L. ANDERSON sends us word from St. Paul, Minnesota where he is a Graduate Student in the Department of Plant Pathology for the University of Minnesota.

RICHARD W. ANTTLA is a District Forester for the Division of Lands and Forestry in Big Falls, Minnesota. He says—"Marital status: single. District Forester for the Minnesota Division of Lands and Forestry stationed in the Big Falls, Minnesota."

RAYMOND ARNDT is presently with the Peace Corps.

NORMAN K. BICKFORD is in the U.S. Army.

TERRANCE M. COSTELLO is a Graduate Research Assistant at the University of Minnesota School of Forestry in St. Paul, Minnesota. He states—"So far we're still dutifully watching the windows for Uncle Sam. But until he gets me, Carolyn and I will be hangin' around Green Bank: she's becoming the first U. of M Forestress in over 30 years, and I'm trying for a master's degree in recreating . . . er, forest recreation."

DAVID H. DANIELS reports to us from Cloquet, Minnesota where he is an Industries' Engineer at Conwed Corporation.
LESLIE A. DARLING sends us word from Washington, D.C. where he is with the Defense Intelligence Agency at the Pentagon.

JEFFRY C. HAAS is an Artillery Surveyor presently stationed at Nurnberg, Germany. He writes — "I'm getting shorter every day. I spend my spare time (between guard and KP) studying German Forestry. They grow Scot Pines for paper here and peel it in woods by hand. Next year at this time I'll be a civilian again. I saw Dave Blackburn ('66) here last month."

JOHN W. HALBREHDER is with the United States Army.

RICHARD C. HAZLETT sends us word from Medford, Oregon where he is a Forester with the Bureau of Land Management.

LORENTZ R. HEGSTAD, JR. is an Artillery Surveyor with the U.S. Army out of San Francisco. He states — "I'm currently serving as a surveyor for the Artillery for the U.S. Army near Bien Hoa, South Vietnam. Was working for the State of Minn. at Cook last year before being drafted in January. Am real anxious to get back to the woods. My wife is living at home now in Bemidji and is working at the hospital there as a registered nurse. Plan to go back to work for the State of Minn., upon completion of my tour of duty in October. Looking forward to this year's Peavey."

DUANE A. HUCKELL reports to us from St. Paul, Minnesota where he is a Graduate Student at the University of Minnesota School of Forestry.

GERALD P. JOHNSON is a Personnel Specialist for the U.S. Air Force. He writes — "Hi! For this last year we (my wife Pat and I) have been stationed at Okinawa. This February or March we will be moved to San Antonio, Texas. We will, of course, go by way of Minnesota — so see you then."

GARY R. JOLIN reports to us from Oconto, Wisconsin where he is a Game Manager with the Wisconsin Department of Natural Resources.

MUHAMMAD ASHAN KHAN KHALIL sends us word from Toronto, Ontario, Canada.

JEROME KLEIN sends us word from Winnipeg, Manitoba, Canada where he is Research Scientist for the Department of Fisheries and Forestry.

NOEL D. LARSON reports to us from Ogden, Utah, where he is with the U.S. Forest Service, Division of Soil and Water Management.

TERRENCE R. LEJCHER is with the Department of Watershed Management, U.S. Forest Service in Ely, Minnesota. He writes — "Have finished school in Arizona and am back in the north country as a Hydrologist with the Forest Service. I am enjoying the work tremendously as well as the climate. In May, the Navy will be my main occupation for 30 months. Hope to run across George Lightner in the Green Berets and put to use some of Mel Thompson's hand-to-hand combat. Best wishes to the Peavey staff and the gang at Green Hall."

THOMAS LOWE sends us word from Minneapolis, Minnesota.

MICHAEL T. MARKEITH is an Appraiser for the U.S. Fish & Wildlife Service in Minneapolis, Minnesota. He says — "After a 5 month Active Duty stint for the Minnesota National Guard, I returned to Minneapolis and took an Appraiser Position with the Bureau of Sport Fisheries and Wildlife. In summer 1969 I'll be getting married to a Home Ec. graduate, Jeanne Dolan, who I imagine many of you remember from when I was in school. At present, Jerry Thiede, Grad student) and I have an apartment in St. Paul."

RICHARD B. MOORE is an Appraiser for the U.S. Fish and Wildlife Service in Huron, South Dakota. He says — "Still out on the prairie buying wetlands and spending duck stamps. Haven't found any trees yet but will keep my eyes open. Have spent a lot of my spare time buying the countryside and chasing the various game species.

Family is fine still only one daughter but that could change most any time. Keep cranking out foresters and Peavey's."

ERNEST E. NELSON is a Forester at the Illinois Valley Ranger Station (USFS) at Cave Junction, Oregon. He writes — "So glad to get your subscription card, I regret to say that I didn't get the Gopher Peavey-Alumni News last year but I'm looking forward to this year's. Ran into Steve Morton, Bob Gustafson, and Ed Miller in Portland last January at an Early Career Development Program. My wife Joyce and I received our first addition to the family with a girl, Cynthia, November 8, 1968. Can't wait to outfit her with a pair of hiking boots and a Relascop but that's a long way off. I am enjoying the work here very much. Our biggest problem is reforestation and meeting the demands for recreation facilities runs a close second. The Oregon Caves, Redwood Highway, the Kalmiopsis Wilderness, and the Rogue River drainage system are the biggest attractions. I hope you have a successful year in the Peavey sales and best wishes to the new graduates." Thanks, Ernie and the same to you.

MARTIN K. NELSON is a Battery Commander with the 14th Armored Cavalry.

LOWELL D. PETERSEN sends us word from Japan where he is with the U.S. Navy. I enjoyed your letter very much Lowell, send more when you have time!

FRED SCHOMAKER sends us word from St. Paul, Minnesota where he is Assistant Production Manager for the Sussel Company.

GERALD THIEDE reports to us from St. Paul, Minnesota where he is a Research Assistant with the University of Minnesota, School of Forestry.

ROBERT F. WAMBACH sends us word from Missoula, Montana where he is an Associate Professor of the University of Montana School of Forestry and Associate Director of the Montana Forest and Conservation Experiment Station.

LEE C. WENSEL reports to us from Berkeley, California where he is with the University of California School of Forestry.

DONALD W. WESTERMAN reports to us from St. Paul, Minnesota. (Ed. note — Don is with the U.S. Air Force at Lackhead A.F. Base, Texas).

DENNIS C. WOODWARD is with the U.S. Navy.

CARROLL J. ZIETLOW is a Forester in Saratoga, Wyoming. He sends us this information — "Since graduation I've been stationed here at Saratoga on the Brush Creek District of the Medicine Bow National Forest. My main job is timber sale administration, scaling, and all the other jobs associated with timber. During the summer our home is at the Brush Creek Work Center at the foot of the beautiful Snowy Range Mountains and during the winter here in Saratoga. I've taken up skiing and the first year have only broken one ankle. This is beautiful country out here and we enjoy the scenery, fishing, hunting, and just loafing. My wife and two children think it is about the best although our thoughts often go back to the lush green of Wisconsin and Minnesota. Hope to see some of you out here or else when I came back that way."

1966

DALE L. BENOIT is in the U.S. Army. He writes — "Attending Officer's Candidate School at Fort Benning, Georgia."

PETER YUEN SAN CHEN is a Forest Products Technologist for the U.S.D.A. Forest Service in Carbondale, Illinois. He says — "July, 1956 — B.S. from National Taiwan University; March, 1964 — M.S. from University of Minnesota June, 1968 — Ph.D. from University of Minnesota; and March, 1968 — Start to work with North Central Forest Experiment Station at Carbondale Laboratory."

ANTHONY P. CHOS reports to us from Tomahawk, Wisconsin where he is a Forester at the Wisconsin Department of Natural Resources.

LEE D. DERKSEN is in the U.S. Navy at San Diego, California. He writes, "Was working as forester for U.S. Forest Service at Grangeville, Idaho on Moose Creek Ranger District - part of the Selway-Bitterroot Wilderness Area. Am now on Military Leave for 4 years. Joined U.S. Navy and reported to San Diego, California on January 27, 1969."
GREGORY P. ELSTAD sends us word from Carlton, Minnesota. He writes—"I am entering the Navy January 27 after working for half a year as a forester for the U.S.F.S. at Cascade, Idaho."

L. GARRY HERRON reports to us from Rapid City, South Dakota where he is a Territorial Sales Representative with the Masonite Corporation.

FRANK KOENIG reports to us from Ft. Sill, Oklahoma where he is with the U.S. Army. The very best of luck, to you, Frank—write when you have time! (Ed. note—Frank is in Vietnam with the 101st Airborne).

TONY LUCIANO is a Service Forester with the Kentucky Division of Forestry at Mayfield, Kentucky. He writes—"We have been living in Mayfield since June and are enjoying it very much. The forests and the climate are quite different from Minnesota."

MICHAEL A. McFARLIN is in the U.S. Army.

DALE W. PETERSON is a District Forester at the Clear River Ranger Station in Warroad, Minnesota. He states—"Married in September of 1967 and a son was born to Emilie and myself in September of 1968, named Ty Weston. Began working for the Division of Forestry, Minnesota Department of Conservation on 24 June 1968. Was a trainee at Faribault, Park Rapids and Big Falls before being appointed District Forester at Clear River."

DUANE SMITH is with the U.S. Navy in Vietnam. He states—"I am currently a surveyor with Navy. The Unit is MCB4 which is spending most of its time in Vietnam."

CHARLES SPODEN is with the Minnesota Division of Lands and Forestry in St. Cloud, Minnesota. He states—"Currently completing training program with State of Minnesota at Caledonia. My wife is living in Bigfork and will probably be there until I finish my pending 6 months active duty in the National Guard. Really enjoy working for the State. Hello to everybody at Green Hall and all the rest of the gang I haven't seen for a while."

PAUL D. STONE is Park Manager with the Dept. of Natural Resources at Campbellsport, Wisconsin. He says—"Denise and I had a wonderful Christmas present, a new baby boy. Michael Wade Stone was born on Dec. 12, 1968."

JOSEPH J. ULLIMAN reports to us from St. Paul, Minnesota where he is an Instructor with the University of Minnesota School of Forestry.

ROBERT C. ULLRICH is a Grad Student at Harvard University in Cambridge, Massachusetts. He states—"Good luck and best wishes for success to the Class of '69! Expecting young forester, addition to family in March. Cambridge, Mass. forests definitely understocked, but am enjoying school here."

DARYLL WALLIN is with the U.S. Air Force—Medical Administration at Sheppard AFB, Texas. He writes—"I joined the Air Force in September—after an enjoyable summer working for the U.S. Forest Service in Washington's Cascade Mountains. I'm presently being trained in medical administration here in northern Texas. Hope to be stationed close to good old Minnesota by mid-February. I've just recently become engaged to a sweet St. Paul girl and we are planning on a June wedding."

MILES WIEGAND is a Conservation Manager at Winthrop, Minnesota. He reports—"I am presently working for the Minnesota Department of Conservation—Division of Lands and Forestry. Will be going into the service the 1st of February."

WILLIAM WOLERTZ is a Forester for U.S.F.S. at Silver Lake, Oregon. He writes—"I have been working for the U.S.F.S. on the Fremont National Forest since I graduated in June. Find the work and the country very interesting and challenging."

PETER M. ZECH is a Production Forester for the L. D. McFarland Co. in Eugene, Oregon. He writes—"We have a new addition to our family. Heidi Christine Zech born on January 31, 1969. On March 4, 1969 our family moved to Eugene, Oregon where I accepted a new position in the forestry industry with L. D. McFarland Company."

TO THE ALUMNI—

Thank you for all of your cooperation on the Gopher Peavey, Alumni News Notes, and your support of the School of Forestry and the University of Minnesota. It has been a pleasure working with you over these past fifteen years.

—KEN WINSNESS

A NOTE OF THANKS

Thanks are due all those individuals that made this Peavey possible. Your contributions of time, materials, talents, money, patience and understanding have been much appreciated.

—BRUCE A. ROTTINK, Editor
the start of the pedigree

Trees for pulpwood, basic ingredient in fine paper making, are but one product of The Northwest Paper Company's 200,000 acres of taxpaying forestland—all in Minnesota. Other benefits from multiple-use management are watershed protection, wildlife habitat and recreational opportunities. Every tree harvested is replaced by an average of more than one new tree through natural reseeding or by controlled planting under company supervision. Fire prevention, disease and insect control are also important parts of the company's long range forestry plan. And it provides the advantages of strict quality control from forest to finished product—an assurance to printers and lithographers that...

Northwest pedigreed papers always make good printing better
